#### 450:70-3-5. Assessment and record content - ~~Medical~~Initial medical examination [AMENDED]

(a) All OTPs shall assess each individual for appropriateness for admission, ensuring the individual is placed in the least restrictive level of care.

(b) ~~Each OTP shall ensure that persons served are admitted to treatment by a program physician, who determines that such treatment is appropriate for the specific person served by applying current and established DSM diagnostic and ASAM criteria.~~

# Permanent Final Adoptions

---

(c) The OTP shall have written policy and procedure stating the program shall require each person served to undergo a complete, fully documented history and physical examination by the medical director, a program physician or physician with a valid Oklahoma license before admission to the medication assisted opioid treatment program. For the purposes of this chapter, a Physician Assistant or Nurse Practitioner, with appropriate Oklahoma license/certification and working under the direction and supervision of the OTP medical director may perform services allowed by Oklahoma certification or licensure such as those listed here, unless otherwise specified. A full medical examination, including the results of serology and other tests, must be completed within fourteen (14) days following admission.

(b) OTPs shall require each person served to undergo an initial medical examination. The initial medical examination shall be comprised of two parts:

(1) A screening examination to ensure that the person served meets criteria for admission and that there are no contraindications to treatment with MOUD; and

(2) A full history and examination, to determine the individual's broader health status, with lab testing as determined to be required by an appropriately licensed practitioner. An individual's refusal to undergo lab testing for co-occurring physical health conditions should not preclude them from access to treatment, provided such refusal does not have potential to negatively impact treatment with medications.

(c) If there are no contraindications, an individual may commence treatment with MOUD after the screening examination has been completed. Both the screening examination and full examination must be completed by an appropriately licensed practitioner. If the licensed practitioner is not an OTP practitioner, the screening examination must be completed no more than seven (7) days prior to OTP admission. Where the examination is performed outside of the OTP, the written results and narrative of the examination, as well as available lab testing results, must be transmitted, consistent with applicable privacy laws, to the OTP, and verified by an OTP practitioner.

(d) A full in-person physical examination, including the results of serology and other tests that are considered to be clinically appropriate, must be completed within fourteen (14) calendar days following an individual's admission to the OTP. The full exam can be completed by a non-OTP practitioner, if the exam is verified by a licensed OTP practitioner as being true and accurate and transmitted in accordance with applicable privacy laws.

(e) Serology testing and other testing as deemed medically appropriate by the licensed OTP practitioner based on the screening or full history and examination, drawn not more than thirty (30) days prior to admission to the OTP, may form part of the full history and examination.

(f) The screening and full examination may be completed via telehealth for those individuals being admitted for treatment at the OTP with either buprenorphine or methadone, if a practitioner or primary care provider determines that an adequate evaluation can be accomplished via telehealth. When using telehealth, the following caveats apply:

(1) In evaluating patients for treatment with schedule II medications (such as Methadone), audio-visual telehealth platforms must be used, except when not available to the patient. When not available, it is acceptable to use audio-only devices, but only when the patient is in the presence of a licensed practitioner who is registered to prescribe (including dispense) controlled medications. The OTP practitioner shall review the examination results and order treatment medications as indicated.

(2) In evaluating patients for treatment with schedule III medications (such as Buprenorphine) or medications not classified as a controlled medication (such as Naltrexone), audio-visual or audio only platforms may be used. The OTP practitioner shall review the examination results and order treatment medications as indicated.

~~(d)~~(g) Compliance with 450:70-3-5 may be determined by:

(1) A review of policies and procedures,

(2) Treatment records, and

(3) Other facility documentation.

## 450:70-3-5.1. Assessment and record content - History [AMENDED]

(a) Persons served who have had a complete history and physical including laboratory tests within the past three months may be admitted to the OTP without a new medical examination and laboratory tests, unless the program physician requests it. The admitting program shall obtain copies of these results within fifteen (15) days of admission. If records are not obtained within fifteen (15) days, the program shall conduct a complete history and physical.

~~(b)~~(a) The OTP shall have written policy and procedure stating any FDA-approved medications for use in treating a significant opioid use disorder when used by an OTP for persons with a history of physiologic dependence, shall only be used in treating persons with a history of symptoms of opioid use disorder as stated in Title 43A, ~~Section 3-601 A-~~ ~~†Section 3-601(A)~~ and as verified by the medical director or a program physician through medical examination; or persons with a history of dependence as stated in Title 43A, ~~Section 3-601 A-~~ ~~†Section 3-601(A)~~ and written documentation from an agency at which another type of substance use disorder treatment was attempted or accomplished.

- ~~(3) Any increase above forty (40) milligrams shall be based on the physician's medical judgment and documented in the chart.~~
- (2) For each new person served enrolled in an OTP, the initial dose of methadone shall be individually determined and shall include consideration of the type(s) of opioid(s) involved in the individual's opioid use disorder, other medications or substances being taken, medical history, and severity of opioid withdrawal.
- (3) The total dose for the first day should not exceed fifty (50) milligrams unless the OTP practitioner, licensed under the appropriate State law and registered under the appropriate State and Federal laws to administer or dispense MOUD, finds sufficient medical rationale, including but not limited to if the individual is transferring from another OTP on a higher dose that has been verified, and documents in the clinical record that a higher dose was clinically indicated.

## Permanent Final Adoptions

**"Annual addition"** means the sum for any Plan year of the following amounts allocated on behalf of a Qualified Participant for a Limitation Year:

- (A) All Employer contributions;
- (B) All Qualified Participant contributions determined without regard to any rollover contributions (as defined in Code Sections 402(c), 403(a)(4), 403(b)(8), and 408(d)(3)) without regard to Qualified Participant contributions to a simplified employee pension which are excludable from gross income under Code Section 408(k)(6);
- (C) All forfeitures;
- (D) Amounts allocated to an individual medical account, as defined in Code Section 415(l)(2), which is part of a pension or annuity plan maintained by the Employer; and
- (E) Amounts derived from contributions which are attributable to post-retirement benefits allocated to the separate account of a key employee, as defined in Code Section 419A(d)(3), under a welfare benefit fund, as defined in Code Section 419(e), maintained by the Employer. Subparagraph (ii) of Section 590:35-15-1 shall not apply to any contribution for medical benefits (within the meaning of Code Section 419A(f)(2)) after separation from service which is treated as an Annual addition. For purposes of this Subchapter, excess amounts reapplied to reduce Employer contributions under Section ~~590:15-3~~ 590:35-15-3 in the Limitation Year shall also be included as an Annual Addition for such Limitation Year.

**"Compensation"** means:

- (A) For purposes of applying the limitation of Code Section 415, a Qualified Participant's wages, salaries, fees for professional services, and other amounts received (without regard to whether or not an amount is paid in cash) for personal services actually rendered in the course of employment with the Employer maintaining this Plan to the extent that the amounts are includable in gross income (including, but not limited to, commissions paid salesmen, compensation for services on the basis of a percentage of profits, commissions on insurance premiums, tips, bonuses, fringe benefits, and reimbursements or other expense allowances under a nonaccountable plan (as described in Treasury Regulation Section 1.62-2(c)), and excluding the following:

---

- (ii) payments for unused accrued bona fide sick, vacation or other leave, but only if the Qualified Participant would have been able to use the leave if employment had continued; or
- (iii) payments pursuant to a nonqualified unfunded deferred compensation plan, but only if the payments would have been paid to the Qualified Participant at the same time if the Participant had continued employment with the Employer and only to the extent that the payment is includible in the Qualified Participant's gross income.

(C) Any payments not described in paragraph (B) of this definition are not considered compensation if paid after severance from employment, even if they are paid within 2 1/2 months following severance from employment. However, payments to the individual who does not currently perform services for the Employer by reason of qualified military service (within the meaning of Code Section 414(u)(1)) to the extent these payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the Employer rather than entering qualified military service.

(D) An employee who is in qualified military service (within the meaning of Code Section 414(u)(1)) shall be treated as receiving compensation from the employer during such period of qualified military service equal to:

- (i) the compensation the employee would have received during such period if the employee were not in qualified military service, determined based on the rate of pay the employee would have received from the employer but for the absence during the period of qualified military service, or

### 590:40-7-34. Death prior to January 1, 2022 [AMENDED]

(a) **Effective Date.** This Section shall be effective for Participant deaths prior to January 1, 2022.

(b) **Payment to beneficiary.** If the Participant dies prior to receiving Plan benefits, or the Participant dies while benefits are being paid to the Participant under the Plan and before such benefits have been exhausted, the benefits payable under this Plan shall be paid to the designated Beneficiary of the Participant in accordance with the distribution option selected by the Participant or the Beneficiary.

(c) **Distribution method.** Distributions must be made primarily for the benefit of the Participant (or former Participant). Therefore, distribution which begins prior to the death of a Participant must be in a form such that the total benefit amount will be paid over a period not to exceed the life expectancy of the Participant and a designated Beneficiary. Any amount not distributed to the Participant during ~~his or her~~ their lifetime shall be distributed after the death of the Participant at least as rapidly as under the method of distribution used as of the date of ~~his or her~~ their death. In addition, if the Participant dies prior to the commencement of distributions, the Participant's Account shall be distributed to the Beneficiary, commencing within one year of the ~~employee's~~ Participant's death, over the life of such Beneficiary (or over a period not extending beyond the life expectancy of such Beneficiary) but not to exceed ~~15~~ fifteen (15) years; provided however if such Beneficiary is the surviving spouse of the Participant, then

(1) such distributions shall, in all events, commence no later than December 31 of the calendar year in which the Participant would have attained the applicable age 70 ½ (or such other date as may be permitted under applicable Treasury Regulations) ~~by the federal Internal Revenue Code Section 401(a)(9)(C)(v)~~, and

(2) benefits payable to such spouse shall be completed during a period not in excess of such spouse's life expectancy. Life expectancies will not be recalculated annually.

### 590:40-7-37. Minimum distribution requirements [AMENDED]

(a) **Application.** Notwithstanding anything herein to the contrary, the following minimum distribution requirements will apply.

(b) **Compliance with Code.** The Plan will make all distributions in accordance with a good faith interpretation of the requirements of Code Section 401(a)(9) and the Treasury Regulations thereunder, as applicable to governmental plans within the meaning of Code Section 414(d), including the minimum distribution incidental benefit requirement of Code Section 401(a)(9)(G) and Section 1.401(a)(9)-2 of the ~~proposed~~ Treasury Regulations, or any successor rules or regulations.

(c) **Time of distribution.** The entire interest of a Participant must be distributed or begin to be distributed no later than the Participant's Required Beginning Date.

(d) **Limits on distribution periods.** As of the first Distribution Calendar Year, distributions, if not made in a single lump sum, may be made over one of the following periods (or a combination thereof):

- (1) the life of the Participant,
- (2) the life of the Participant and a designated Beneficiary
- (3) a period certain not extending beyond the Life Expectancy of the Participant, or
- (4) a period certain not extending beyond the joint and last survivor expectancy of the Participant and a designated Beneficiary.

(e) **Distributions other than lump sum.** If the Participant's interest is to be distributed in other than a single lump sum, the following minimum distribution rules shall apply on or after the Required Beginning Date:

- (1) If a Participant's benefit is to be distributed over
  - (i) a period not extending beyond the life expectancy of the Participant or the joint life and last survivor expectancy of the Participant and the Participant's designated Beneficiary or
  - (ii) a period not extending beyond the life expectancy of the designated Beneficiary, the amount required to be distributed for each calendar year, beginning with distributions for the first Distribution Calendar Year must at least equal the quotient obtained by dividing the Participant's benefit by the Applicable Life Expectancy.
- (2) The amount to be distributed each year, beginning with distributions for the first Distribution Calendar Year shall not be less than the quotient obtained by dividing the Participant's benefit by lesser of

# Permanent Final Adoptions

(i) the Applicable Life Expectancy or

(ii) if the Participant's Spouse is not the designated Beneficiary, the applicable divisor determined from the table set forth in ~~Q&A-4 of Section 1.401(a)(9)-2~~ 1.401(a)(9)-6 of the Treasury Regulations.

Distributions made after the death of the Participant shall be distributed using the Applicable Life Expectancy in (1) above as the relevant divisor without regard to Treasury Regulations Section ~~1.401(a)(9)-2~~ 1.401(a)(9)-6.

(3) The minimum distribution required for the Participant's first Distribution Calendar Year must be made on or before the Participant's Required Beginning Date. The minimum distribution for other calendar years, including the minimum distribution for the Distribution Calendar Year in which the Participant's Required Beginning Date occurs, must be made on or before December 31 of that Distribution Calendar Year.

(f) **Insurance company annuity.** If the Participant's benefit is distributed in the form of an annuity purchased from an insurance company, distributions thereunder shall be made in accordance with the requirements of Code Section 401(a)(9) and the Treasury Regulations thereunder. OPERS or the Board shall assume no liability after distribution if Participant's benefit is distributed in the form of an annuity purchased from an insurance company or converted into an annuity by an insurance company.

(g) **Definitions.** For purposes of this Section, the following terms shall have the meanings as set forth below:

(1) **"Applicable Life Expectancy"** means the life expectancy (or joint and last survivor expectancy) calculated using the attained age of the Participant (or designated Beneficiary) as of the Participant's (or designated Beneficiary's) birthday in the applicable calendar year reduced by one for each calendar year which has elapsed since the date life expectancy was first calculated. Life expectancies will not be recalculated annually. If annuity payments commence before the Required Beginning Date, the applicable calendar year is the year payments commence. If distribution is in the form of an immediate annuity purchased after the Participant's death with the Participant's remaining interest, the applicable calendar year is the year of purchase.

(2) **"Distribution Calendar Year"** means a calendar year for which a minimum distribution is required. For distributions beginning before the Participant's death, the first Distribution Calendar Year is the calendar year immediately preceding the calendar year which contains the Participant's Required Beginning Date. For distributions beginning after the Participant's death, the first Distribution Calendar Year is the calendar year in which distributions are required to begin pursuant to this Section.

(3) **"Participant's Benefit"** means the Participant's Account as of the last Valuation Date in the calendar year immediately preceding the Distribution Calendar Year ("Valuation Calendar Year") increased by the amount of any contributions allocated to the Account as of dates in the Valuation Calendar Year after the Valuation Date and decreased by distributions made in the Valuation Calendar Year after the Valuation Date. If any portion of the minimum distribution for the first Distribution Calendar Year is made in the second Distribution Calendar Year on or before the Required Beginning Date, the amount of the minimum distribution made in the second Distribution Calendar Year shall be treated as if it has been made in the immediately preceding Distribution Calendar Year.

(4) **"Required Beginning Date"** means the later of the first day of April of the calendar year following the calendar year in which the Participant

~~(1)(A) attains the applicable age 72 or such other date as may be permitted by the federal Internal Revenue Code Section 401(a)(9)(C)(v) or~~

  - (E) any other individual who is not more than ten (10) years younger than the Participant.

### SUBCHAPTER 7. CLASS AA OPERATORS [REVOKED]

#### 595:25-7-2. Release and holding of vehicle [REVOKED]

**(a) Release.** The Class AA wrecker operator shall at all times have a capable person available to release impounded or stored vehicle within one (1) hour. As per 47 O.S. § 955, any vehicle impounded by law enforcement shall not be released to the owner until that owner provides proof of valid insurance or an affidavit of nonuse on the roadway. In the event an insurer or a representative of the insurer who has accepted liability for the vehicle requests the release, no proof of valid insurance or affidavit of nonuse on the roadway shall be required.

**(b) Exceptions to release of impounded or stored vehicles:**

(1) Officers may have a legitimate need and reason to preserve the secured status of an impounded or stored vehicle, including but not limited to:

(A) Failure to pay taxes due the State;

(B) Forfeiture proceedings under the Controlled Dangerous Substances Act [63 O.S., § 2-506];

(C) Evidentiary proceedings;

(D) Failure to provide proof of insurance

(E) The vehicle has been used in the commission of a felony offense. [47 O.S., § 955(A)(6)]

(2) In the event an officer determines a need exists to preserve the secured status of an impounded or stored vehicle, the officer may direct the operator to place a hold thereon, which the operator shall honor, subject to the following procedures:

(3) If the hold is because taxes due the State have not been paid, the operator shall not release the vehicle until the owner, or another person as described in OAC 595:25-5-3(13), has furnished proof from the Oklahoma Tax Commission or a motor license agent to the operator that the vehicle has been duly registered and the license fee has been paid before the vehicle may be released to the owner. Inquiry regarding this law may be made to the Oklahoma Tax Commission.

(4) If the stated reason for the hold is a forfeiture proceeding under the Uniform Controlled Dangerous Substance Act, the operator may not release the vehicle unless authorization is received either from the District Attorney's Office of the county from which the vehicle was impounded or from the impounding officer:

(A) If, after the expiration of seventy-two (72) hours from the time of impoundment (excluding Saturday, Sunday and legal holidays), the operator has not received either the court case number under which a forfeiture proceeding has been accepted and filed or a release of the hold from the impounding officer, the operator shall contact the law enforcement agency storing the vehicle, between 7:00 a.m. and 12:00 noon following such seventy-two (72) hours period, advising the ranking supervisor on duty or dispatcher of the following information:

(i) That the vehicle is being held for the filing of forfeiture proceedings;

# Permanent Final Adoptions

---

- (ii) That no court case number of forfeiture proceedings has been received;
- (iii) Description of vehicle, including tag and vehicle identification number;
- (iv) Vehicle owner, if known;
- (vi) County from which the vehicle was impounded;
- (vii) Name of impounding officer;
- (viii) Name and telephone number of operator submitting the above information.

(B) The supervisor may direct the impounding officer to verify the decision of the District Attorney and to notify the operator:

- (i) Of the forfeiture proceedings style and case number; or
- (ii) That the hold is canceled because the District Attorney has declined forfeiture proceedings and therefore, the vehicle may then be released in accordance with (a) and (b) of this Section.

(C) Any vehicle seized or stored for forfeiture proceedings under the Uniform Controlled Dangerous Substance Act is considered to be in the custody of the District Attorney of the county where the property was seized [63 O.S., § 2-506 (K)] and therefore the operator may contact that office regarding any matter relating to such vehicle, in addition to the foregoing procedure.

(5) If the hold is for evidentiary proceedings or for any stated reason other than taxes or forfeiture described above, or if the officer fails to state a reason, then the hold shall expire forty-eight (48) hours from the time of impoundment (if not released earlier by the officer), and the operator shall not honor the hold beyond the forty-eight (48) hour period without express direction of the law enforcement agency storing said vehicle. The vehicle may then be released in accordance with the provisions of this Chapter.

(c) **Court orders regarding impounded or stored vehicles.** If any rule provided, herein conflicts with a court order served upon the operator relating to impoundments, release, storage or other matter relating to the wrecker service, the court order shall take precedence.

(d) **Release to another wrecker service.** When a wrecker service is to lawfully obtain a vehicle from another wrecker service which originally towed the vehicle, the original wrecker service shall:

- (1) allow the other wrecker service to enter its premises and remove the vehicle, or
- (2) if the original wrecker service does not allow the other licensed wrecker services or registered owner or agent on its premises to make the tow, the original wrecker service shall properly tow the vehicle to a mutually agreeable site in order to transfer the vehicle to the requesting wrecker service.

(d) **Call Assignment.** Oklahoma Turnpike Authority rotation log will be determined, for placement on rotation, by using any wrecker service business location within ten (10) road miles of a gate entry to the turnpike. The wrecker service must be capable of responding promptly to the scene, opening at least one lane promptly, and clearing the incident site within the shortest time possible. To accommodate these requirements, calls will be assigned to the wrecker service nearest in time or distance to the incident.

(e) **Geographical Areas of Rotation.** [47 O.S. § 72-955 (C)]

- (1) The Commissioner's designee the Wrecker Services Division shall be responsible for establishing geographical areas of rotation within the Troop to which wrecker services on the Troop's Rotation Log will be assigned when responding to calls for service from the Rotation Log. The Commissioner's designee shall notify each wrecker service of the geographical area of rotation to which it is assigned.

(2) The Commissioner's designee will establish each geographical area of rotation based upon a reasonable radius from the primary storage facility of each wrecker service operating within the geographical area. The reasonable radius will be determined by the Commissioner's designee based upon:

- (A) The estimated time it will take the wrecker service to respond to calls for service;
- (B) The number of wrecker services available on the Rotation Log;
- (C) Conformity with 47 O.S. § 72-955 (C);
- (D) Consideration of the economic impact of the wrecker services rates and fees, as prescribed by the Corporation Commission, on the owner or lien holder of the vehicle; and
- (E) Other factors within the Troop as deemed appropriate by the Commissioner's designee.

(3) The Commissioner's designee may overlap geographical areas of rotation whenever necessary to ensure adequate response to requests for wrecker services.

(4) The Commissioner's designee may modify geographical areas of rotation for the Troop at any time and for just cause, but shall notify each wrecker service affected of such modifications as soon as practicable.

(5) The Commissioner's designee may extend any geographical area of rotation by a reasonable radius beyond the boundaries of the Troop to include on the rotation log of the Troop:

- (A) Which is located outside of but in proximity to the boundary of the Troop, and
- (B) Upon receiving notification from the Department of the approval of the wrecker service for placement on the rotation log for the Troop by the Commander.

(6) Nothing in this Section shall prohibit the Troop Commander from using the services of any licensed wrecker service:

- (A) Outside of its assigned geographical area of rotation; or
- (B) Which has not been assigned to the Rotation Log of the Troop.

(f) **Forms.** A request for placement on any rotation log shall be filed by the wrecker service with the Department on a form prescribed and provided by the Department [47 O.S. § 72-952 (D)]. When requesting placement on a rotation log, the wrecker service shall provide on the request one (1) telephone number to be used for request of services during the day and one (1) telephone number to be used for request of services during the night, specifying the time period of normal use; these numbers shall also be on file with the Wrecker Services Division. Any change in the telephone numbers shall be immediately transmitted to:

- (1) The Troop Commander(s) of the Oklahoma Highway Patrol Troop on whose Rotation Log the wrecker service has been assigned, and
- (2) The Wrecker Services Division of the Department.

- (2) When an operator receives a request for services from the Oklahoma Highway Patrol and no services are rendered, the operator shall not lose position on the Rotation Log.
- (3) If an operator has received a request for services, but does not respond to the scene within a reasonable length of time, including but not limited to such factors as distance from the scene, weather, and nature of the collision or traffic tie-up, the Oklahoma Highway Patrol may request the services of the next operator on the Rotation Log. Under these circumstances, the operator who receives the first request shall lose position on the Rotation Log.
- (4) When an emergency condition exists, the Oklahoma Highway Patrol reserves the right to request the services of any appropriately equipped and licensed wrecker service best able to handle the emergency and can reach the scene in the shortest time, regardless of the operator's position on the Rotation Log. - (13) Each operator shall provide service for a minimum of seventy-five (75%) percent of the requests made by the Highway Patrol to be computed on a quarterly basis. Failure to meet this standard for any reason shall be grounds for removal from the Oklahoma Highway Patrol Rotation Log.
- (14) Any Class AA wrecker operator who uses an answering service as a means of dispatch and who fails to properly respond in a timely manner, as determined by the Commissioner's designee of the Wrecker Services Division, to a rotation call request may have the Class AA license revoked for failure to properly respond to rotation call requests. The operator shall not be licensed as a Class AA wrecker service while utilizing the same answering service as a means of dispatch.
- (15) Persons responding to calls must be able to speak and understand the English language.
- (16) A wrecker operator shall respond to law enforcement agencies' wrecker service requests with a wrecker vehicle and operator capable of efficiently uprighting an overturned vehicle, pulling or winching a vehicle back onto the roadway, lifting a vehicle off a victim, or assisting with opening a vehicle to extricate a victim.   - (B) If a requested wrecker service is first on scene, said wrecker service will assist in removing the vehicle causing the traffic hazard from roadway, then will proceed to pick up the vehicle it has been requested to tow.
- (18) Any wrecker service having a wrecker vehicle with major or critical mechanical failure or failing to meet equipment requirements, which does not have another wrecker vehicle of the same classification approved for rotation, shall become temporarily unavailable for rotation until the wrecker vehicle has been approved to return to service or a new wrecker vehicle of the same classification has been inspected, if necessary, and approved by the Department.
- (19) A wrecker service shall become temporarily unavailable for rotation if there is no approved Certificate of Insurance (WA) filing on file with the Department for the wrecker service or wrecker vehicles approved for rotation.
- (20) Any wrecker service with a wrecker vehicle displaying an expired tag, which does not have another wrecker vehicle of the same classification approved for rotation, shall become temporarily unavailable for rotation until the wrecker license plate has been renewed and is properly displayed on the wrecker vehicle.
- (21) When a request for service has been cancelled by Oklahoma Highway Patrol dispatch, the operator shall not continue to the scene of the requested service. The operator shall not lose its position on the rotation log.

## 595:25-9-3. Rotation calls for truck wreckers (Class AA-TL) [REVOKED]

- (a) Rules governing the rotation calls for Class AA-TL truck wrecker operators shall be the same as the rules governing the rotation calls for all other Class AA wrecker operators, except that in the case of truck wreckers the involved Trooper and/or the dispatcher shall have and be free to exercise his or her discretion as provided for in this section. If, in the judgment of any involved trooper and/or dispatcher, a Class AA-TL truck wrecker operator within a service area is needed because of an emergency situation, such wrecker service may be called without regard to position on the truck wrecker log except in relation to other operators also meeting the additional Class AA qualities in the service area.

Each Wrecker Rotation will consist of licensed wrecker services approved to perform nonconsensual tows at the request of the Oklahoma Highway Patrol. In the event of a traffic incident requiring a nonconsensual tow, a licensed wrecker service placed on an OHP wrecker rotation will be contacted in the order of its position on the applicable rotation. Nothing in these rules prohibits the Oklahoma Highway Patrol from utilizing any licensed wrecker service without regard to the OHP Wrecker Rotation in support of the needs of the Department.

### **595:25-9-5. Oklahoma Highway Patrol wrecker rotation - placement and removal [NEW]**

Any Class AA-TS, Class AA-TM, or Class AA-TL licensed wrecker service may request to be included on an OHP Wrecker Rotation in accordance with the following:

### **595:25-9-6. Oklahoma Highway Patrol wrecker rotation - process [NEW]**

- (a) When more than one (1) casualty is towed by the same licensed wrecker service from the scene of a traffic incident it shall be counted on the OHP wrecker rotation as a single call to the licensed wrecker service.
- (b) A licensed wrecker service that receives a request for services from the Oklahoma Highway Patrol but, through no fault of the licensed wrecker service, no services are provided, the licensed wrecker service will not be rotated from its position on the OHP wrecker rotation until it responds to a subsequent call for service.
- (c) A licensed wrecker service that, after receiving a call for service, fails to arrive at the scene of the traffic incident within a reasonable time, in the opinion of the OHP personnel on scene, or indicates it is unavailable in a reasonable time, shall be rotated from its position to the bottom of the applicable OHP wrecker rotation. The next licensed wrecker service on the OHP wrecker rotation will then be contacted. The first licensed wrecker service will be notified as soon as practicable of the situation.
- (d) When a licensed wrecker service receives an off-rotation call for service, it shall be rotated from its current position to the bottom of the applicable OHP wrecker rotation.
- (e) A licensed wrecker service that refuses a call for service shall be rotated from its current position to the bottom of the applicable OHP Wrecker Rotation.

  - (1) The first licensed wrecker service arriving at the scene will tow the vehicle causing the greatest traffic hazard, which shall be determined by the law enforcement officer on scene.

# Permanent Final Adoptions

---

(2) In the event the owner or authorized agent of one of the casualties has requested a specific licensed wrecker service, and that licensed wrecker service arrives on scene before any other licensed wrecker services, it shall be required to assist removing vehicles presenting a traffic obstruction prior to recovering and/or towing the casualty it has been requested to recover and/or tow.

(c) Notify the Department by email of the make, model, GVWR, and VIN of any approved wrecker vehicle which is disposed of permanently or temporarily unavailable. When a licensed wrecker service has only one approved wrecker vehicle and the approved wrecker vehicle becomes unavailable by reason of mechanical failure or failure to meet the applicable wrecker vehicle requirements, the licensed wrecker service shall be removed from the applicable OHP wrecker rotation, unless and until a wrecker vehicle license is issued for a replacement wrecker vehicle. The affected approved wrecker vehicle must be reinspected prior to the licensed wrecker service being placed back on the applicable OHP wrecker rotation.

(d) When a request for service has been cancelled by the Oklahoma Highway Patrol, the licensed wrecker service shall not continue to the scene of the traffic incident. The licensed wrecker service shall not lose its position on the rotation log.

## **595:25-9-8. Oklahoma Highway Patrol wrecker rotation - minimum response requirements [NEW]**

(2) For licensed wrecker services receiving more than four (4) but less than twelve (12) calls per quarter, a fifty percent (50%) response rate is required.

(b) Failure to meet the response requirements will subject the licensed wrecker service to administrative action as defined by these rules. The Department will consider repeated failures to comply with response requirements occurring within one (1) year to be grounds for progressive administrative action. The Commissioner's Designee may exempt specific OHP wrecker service rotations from the minimum response requirements for specific time periods as a result of increased demand due to inclement weather or other catastrophic conditions.

## **595:25-9-9. Oklahoma Highway Patrol wrecker rotation - geographic boundaires [NEW]**

In accordance with 47 O.S. § 955(C), the Commissioner's Designee will establish the geographic boundaries of each OHP wrecker rotation in conjunction with the affected Troop Commander and Communications Supervisor. The Commissioner's Designee is authorized to alter the geographic boundaries of any OHP wrecker rotation, permanently or temporarily, in support of the needs of the Department. consistent with the policies and procedures established by OneNet. The amended rules update the types of organizations that OneNet can serve, identifies OneNet as the comprehensive digital communications entity operated by OSRHE, updates technology terminology, updates a reference to infrastructure engineering staff and removes references to OneNet as a telecommunications network. The purpose of the updates to the types of organizations OneNet can serve is to provide greater clarity and make regulatory language consistent with OneNet's current practices.

**GIST/ANALYSIS:**

Oklahoma's Promise was created in 1992. Students must enroll in the program in the 8th, 9th, 10th or 11th grade. The program requires students to complete a college preparatory curriculum, achieve at least a 2.50 GPA in the required curriculum and a 2.50 GPA overall, attend school regularly, and refrain from drug abuse or delinquent acts. Students completing the requirements qualify for an award equal to public college tuition. As originally created in 1992, participation was limited to students from families with an income of \$24,000 or less at the time of application in the 9th or 10th grade. In 1999, the family income limit was increased to \$32,000 and the application period was expanded into the 8th grade. One year later, in 2000, the income limit was further increased to \$50,000. The income limit remained at \$50,000 until 2017 when the Legislature increased the limit to \$55,000 beginning with the 2017-2018 school year. The 2017 legislation also included a further increase of the income limit to \$60,000 beginning in 2021-2022. In 2021, the Legislature acted to further expand the application period to the 11th grade, effective beginning in 2021-2022. The 2022 Legislature again modified the income limit by establishing three income eligibility levels based on the number of dependent children in the family that became effective in the 2022-2023 school year. • \$60,000 per year for parents who have one or two dependent children; • \$70,000 per year for parents who have three or four dependent children; or • \$80,000 per year for parents who have five or more dependent children. From 2012-2013 to 2017-2018, Oklahoma's Promise college students were subject to a second income limit of \$100,000 checked once at the time the student started college. Beginning in 2018-2019, the second income limit is checked each year the student is enrolled in college. The proposed Oklahoma's Promise changes are intended to support the State Regents' goal to increase the number of college graduates in Oklahoma and to comply with changes in law. These proposed emergency and permanent rules are necessary to comply with the changes to 70 O.S. §§ 2603 and 2605 made by Senate Bills 1302 and 1328. Both bills became effective July 1, 2024.

## **SUBCHAPTER 23. OKLAHOMA HIGHER LEARNING ACCESS PROGRAM**

### **610:25-23-2. Eligibility of participants [AMENDED]**

Eligibility to participate in the program must be established by both the student and his/her parent(s), custodial parent(s), or guardian(s). Students educated by other means who are between the ages of thirteen (13) and sixteen (16) are eligible to apply to become a program participant. A student who was placed in the custody of the Department of Human Services at any time during the eighth, ninth, tenth, or eleventh grades may be eligible to enroll in the program until no later than the student's official date of high school graduation. Eligibility requirements to participate in the program include the following:

- (1) The student must be a resident of the state of Oklahoma or be enrolled in a school district located in this state that serves students who reside in both this state and an adjacent state pursuant to a contract as authorized in Section 5-117.1 of Title 70 of the Oklahoma Statutes; and
- (2) The student's parent(s), custodial parent(s), or guardian(s) must establish financial need.
  - (A) Beginning in the 2022-2023 school year, the federal adjusted gross income of the student's parent(s) shall not exceed the following amounts at the time the student applies for participation in the program:
    - (i) \$60,000 per year for parents who have one or two dependent children,
    - (ii) \$70,000 per year for parents who have three or four dependent children, or

# Permanent Final Adoptions

---

(C) A student who was placed in the custody of the Department of Human Services at any time during the eighth, ninth, tenth, or eleventh grades who enrolls in the program no later than the student's official date of high school graduation shall not be found to be in the financial need for purposes of the Oklahoma Higher Learning Access Program if the federal adjusted gross income of the student exceeds Sixty Thousand Dollars (\$60,000.00) per year at the time the student applies for participation in the program.

~~(C)~~(D) Parents of students making application to the program must use one of the following options to establish financial need eligibility:

(i) Documentation of their most recent calendar (tax) year income. Parents of eleventh-grade applicants may use the calendar (tax) year income that coincides with the spring semester of the eleventh grade if the application is submitted by the required deadline; or

(ii) Documentation of current yearly income from an officially approved application for free or reduced price school meals or other state or federal means-tested programs as determined by the State Regents. The State Regents may limit use of this option to pilot projects as determined by the State Regents. If requested by the State Regents, parents may be required to provide additional documentation of income.

(iii) The Oklahoma State Regents for Higher Education shall review the determination of financial need eligibility of the student as set forth in section (2)(A) above if the income from taxable and nontaxable sources of the student's parent(s) includes income received from nontaxable military benefits or income received from the federal Social Security Administration due to the death or disability of the student's parent(s). If the income of the student's parent(s), excluding income received from nontaxable military benefits or income received from the federal Social Security Administration due to the death or disability of the student's parent(s), does not exceed the limitations set forth in section (2)(A) above, the student shall be determined to have met the financial need eligibility [70 O.S. § 2605(D)(7)]

~~(D)~~(E) For students that are subject to court-ordered joint custody arrangements, the OSRHE shall use guidelines consistent with regulations for federal Title IV student financial aid programs to determine which parent(s) shall meet the financial need criteria.

## 610:25-23-3. Applications [AMENDED]

(a) Students and their parent(s), custodial parent(s), or guardian(s) must complete fully an application form provided by the Oklahoma State Regents for Higher Education (OSRHE). If a student's legal custody is the subject of an active legal proceeding, the student may submit an application without the information of their parent(s), custodial parent(s), or guardian(s). The application will be treated as an incomplete application per section (h) below until the student's legal custody is determined.

The agreement form shall be retained in the student's permanent record and a copy forwarded to the OSRHE. A copy of the agreement form must be received by the OSRHE for the student to be considered enrolled in the program; or

(c) Students participating in the Oklahoma Higher Learning Access Program shall provide their social security number, or their student identification number used by their local school, to the OSRHE. The OSRHE shall keep the numbers confidential and use them only for administrative purposes.

(d) Any falsified or incomplete information on the application forms may result in the student's disqualification from the program.

(e) Applications will be accepted throughout the school year.

(f) Contact persons should forward copies of agreement forms to the OSRHE monthly, but not later than June 30 of each school year.

(g) Persons applying directly to the OSRHE must complete all fields of the application, sign virtual or physical submit agreement forms, and submit the finished application to the OSRHE no later than June 30. The proposed Oklahoma Tuition Aid Grant (OTAG) changes are intended to support the State Regents' goal to increase the number of college graduates in Oklahoma and to comply with changes in law. These proposed rules are necessary to comply with the changes to 70 O.S. § 626.6 made by SB 11 and changes to 70 O.S. § 626.7 made by SB 1624. Both bills became effective July 1, 2024. These rules also address the federal FAFSA Simplification Act requirements for the 2024-25 award year. The proposed rule revisions address the following three issues: adjusting to match the new Free Application for Federal Student Aid (FAFSA) reporting language for student income verification, expanding eligibility to incarcerated students to align with Senate Bill 11, and to expand eligibility to students with intellectual disabilities enrolled in a Comprehensive Transition Program (CTP) approved by the United States Department of Education. Language Alignment with the FAFSA Simplification Act To align with the FAFSA Simplification Act requirements for the 2024-25 award year, income will be verified using the Student Aid Index (SAI) instead of Expected Family Contribution (EFC). The SAI continues to use the same financial information from the FAFSA as the EFC did but calculates a different index number. The index was created to more accurately reflect a family's financial situation and need for financial aid. Expanding Eligibility to Incarcerated Students In the 2024 legislative session Senate Bill 11 passed almost unanimously out of both the House and the Senate and was signed into law on May 23, 2024. The bill allows an incarcerated individual who is enrolled in a Prison Education Program (PEP) and is within five (5) years of being released to be eligible for OTAG. However, incarcerated individuals enrolled in virtual learning programs are ineligible. Expanding Eligibility to Individuals with Intellectual Disabilities Enrolled in CTP Programs In the 2024 legislative session Senate Bill 1624 passed almost unanimously out of both the House and the Senate and was signed into law on April 30, 2024. The bill allows a student with an intellectual disability who is enrolled in a CTP program approved by the United States Department of Education to be eligible for OTAG.

The institution may reduce or revoke the award if necessary to resolve the over-award.

(3) *Application procedures and deadlines. The Oklahoma State Regents for Higher Education may adopt rules and regulations, prescribe and provide appropriate forms for application and employ such persons, contract for such services and make such additional expenditures as may be necessary or appropriate for effectuating the provisions of this act.* [70 O.S. § ~~626.7~~626.8]

(A) Students will apply for tuition aid grant award consideration by completing the federal student financial aid application. A separate application may be provided for students eligible for state financial aid under 70 O.S. § 3242. The Oklahoma State Regents for Higher Education will receive application data from the federal Title IV student financial aid application system for those students who indicate their legal state of residence is Oklahoma. Applications with at least one eligible Oklahoma institution selected by the student will be processed for tuition aid grant award consideration.

(B) If necessary, the application receipt deadline will be reflected in the application document provided annually by the federal Title IV student financial aid application system.

(B) Funds for eligible students will be delivered to the institution for disbursement to students in accordance with the institution's student financial aid disbursement policies.

(b) The Oklahoma State Regents for Higher Education are hereby authorized to determine priorities for participation in this tuition aid program based on factors including, but not limited to, full-time or part-time enrollment status, undergraduate or graduate enrollment status, unmet financial need, continuous enrollment, nearness to completion of a degree or certificate, state employment needs, eligibility for other state or institutional student financial aid and available state funding. income limits for students applying to the program, creating levels of income eligibility based on whether the student was adopted while in permanent custody of Oklahoma Human Services (OKDHS), court-ordered custody of a licensed private child-placing agency, or federally recognized Indian tribe and based on the age of the student if adopted. Students are eligible for the scholarship if they are within six (6) years of high school graduation, are enrolled in a state-system or career technology CTP program, and the student's parent(s) federal adjusted gross income does not exceed: • \$100,000 per year for parents who did not adopt; • \$150,000 per year for parents who adopted the student between the ages of birth and twelve (12) years old while in the permanent custody of OKDHS, court-ordered custody of a licensed private nonprofit child-placing agency, or federally recognized Indian tribe. • \$200,000 per year for parents who adopted the student between the ages of thirteen (13) and seventeen (17) years old while in the permanent custody of OKDHS, court-ordered custody of a licensed private nonprofit child-placing agency, or federally recognized Indian tribe. To maintain eligibility in the program students must maintain satisfactory academic progress and they have five (5) years of eligibility beginning their first semester at a postsecondary institution.

## **SUBCHAPTER 43. OKLAHOMA ACCESS AND ACHIEVEMENT PROGRAM [NEW]**

### **610:25-43-1. Purpose [NEW]**

The Oklahoma Access and Achievement Program, created by the Oklahoma Access and Achievement Act passed in 2024 (70 O.S. § 2501 et seq.), is designed to provide an award to eligible students with intellectual disabilities who are pursuing studies in Oklahoma at a comprehensive transition and postsecondary (CTP) program.

### **610:25-43-2. Definitions [NEW]**

The following words and terms, when used in this Subchapter, shall have the following meaning, unless the context clearly indicates otherwise:

"CTP program" means a degree, certificate, or nondegree program that:

- (A) is offered by an institution of higher education or a technology center school;
- (B) is delivered to students physically attending the institution of higher education or technology center school;

- (B) who is currently or was formerly eligible for a free appropriate public education under the Individuals with Disabilities Education Act (IDEA), including a student who was determined eligible for special education or related services under IDEA but attended a private school or was educated pursuant to the other means of education exception provided for in 70 O.S. § 10-105(A).

## **610:25-43-3. Eligibility Requirements [NEW]**

(a) A student with an intellectual disability shall be eligible to participate in the Oklahoma Access and Achievement Program if the student:

- (1) Is a resident of the State of Oklahoma or enrolled in a school district located in this state that serves students who reside in both this state and an adjacent state pursuant to a contract as authorized in 70 O.S. § 5-117.1;

(a) Prior to receiving any Oklahoma Access and Achievement Program benefit award for any year during which the student with an intellectual disability is enrolled in a state educational institution, the federal adjusted gross income of the student's parent(s) or legal guardian(s) shall not exceed \$100,000 per year. The determination of financial qualification as set forth in this subsection shall be based on the income of the student, not the income of the parent(s) or legal guardian(s), if the student is determined to be independent of the student's parent(s) or legal guardian(s) for federal financial aid purposes.

(b) A student with an intellectual disability who was adopted while in the permanent custody of the Department of Human Services, in the court-ordered custody of a licensed private nonprofit child-placing agency, or federally recognized Indian tribe, as defined by the federal Indian Child Welfare Act, shall be subject to the following financial qualifications prior to receiving any program benefit award:

- (1) For a student adopted between birth and twelve (12) years of age, the federal adjusted gross income of the student's parent(s) may not exceed \$150,000 per year;

(c) Eligible students shall apply for financial aid at the state educational institution in which they enroll.

(d) Eligible students must complete the FAFSA each year the student is enrolled in postsecondary education. Eligible students not eligible to complete the FAFSA may be provided an alternate method by OSRHE. Income information submitted through the FAFSA shall be used to determine compliance with the income limits described in this section. Any falsified or incomplete information submitted by the student or parent(s) may result in the student's disqualification from the program;

# Permanent Final Adoptions

---

- (1) Meet the requirements for retention and completion as established by the state educational institution where the student is enrolled;
- (2) Meet SAP standards as required by the CTP program criteria. This requirement will apply to all Oklahoma Access and Achievement Program participants whether or not they are receiving federal student financial aid. Any Oklahoma Access and Achievement Program participant that is ineligible to receive federal financial aid due to failure to meet SAP standards will also be ineligible to receive the Oklahoma Access and Achievement Program award; and
- (3) Refrain from conduct that leads to expulsion or suspension of more than one semester from a state educational institution. A student who violates the provisions of this paragraph shall permanently lose eligibility for scholarship program benefits.

## **610:25-43-6. Payments of awards; policies and limitations [NEW]**

- (a) Subject to the availability of funds, eligible students enrolled at an institution in The Oklahoma State System of Higher Education shall have an award equivalent to their undergraduate resident nonguaranteed tuition paid to the institution on the student's behalf by an allocation from the Oklahoma Higher Learning Access Trust Fund.
- (b) Subject to the availability of funds, eligible students enrolled in a technology center school CTP program that meets the requirements to be eligible for federal student financial aid and is offered by a technology center school supervised by the State Board of Career and Technology Education shall have an award equivalent to tuition paid, to the school or institution on the student's behalf by an allocation from the Oklahoma Higher Learning Access Trust Fund.
- (c) Funds shall be transferred by OSRHE from the Oklahoma Higher Learning Access Trust Fund to the state educational institution in which the eligible student is enrolled. No funds shall be paid directly to the student.
- (d) Payment will not be allowed for courses or other postsecondary units taken more than five (5) years after the eligible student's first semester of postsecondary enrollment.
- (e) Students will be eligible for the benefits outlined in this policy for five (5) years after the eligible student's first semester of postsecondary enrollment. OSRHE may award the Oklahoma Access and Achievement Program benefits for courses or other postsecondary units taken more than five (5) years after the student's first semester of postsecondary enrollment only in hardship circumstances; provided, however, no Oklahoma Access and Achievement Program participant may receive benefits beyond a cumulative time period of five (5) years. Hardship circumstances may include, but are not limited to, sickness, injury, required military service, or service required by the student's religious or cultural traditions.
- (f) There will be no limit to the number of awards in any year other than the amount of funds available for the scholarship program and the number of eligible student applicants. If sufficient funds are not available to provide awards for all eligible applicants, OSRHE shall make awards on the basis of need. Provided, OSRHE may take into consideration other grants and scholarships received by an eligible student applicant when making awards.
- (g) Students who have previously received Oklahoma Access and Achievement Program awards and who have continued at all times to fulfill the requirements for eligibility to receive such awards shall have priority for continued financial support by this program over students applying for an initial award.

## **610:25-43-7. Applications [NEW]**

- (a) Students and their parent(s), custodial parent(s), or legal guardian(s) must complete fully an application form provided by the state educational institution in which they plan to enroll. If a student's legal custody is the subject of an active legal proceeding, the student may submit an application without the information of their parent(s), custodial parent(s), or legal guardian(s).
- (b) State educational institutions shall develop, maintain, and provide an Oklahoma Access and Achievement Program application for eligible students and submit information for new students each semester. The institution's application process must minimally determine the student's financial eligibility, including indication of adoption status, as determined pursuant to 610:25-43-4.
- (c) Any falsified or incomplete information on the application forms may result in the student's disqualification from the Oklahoma Access and Achievement Program.
- (d) Applications may be accepted throughout the year.

## **610:25-43-8. Authorized Institutional Representative and Administrative Responsibilities [NEW]**

---

# Permanent Final Adoptions

(b) OSRHE shall:

- (1) work with the state educational institution's representatives to coordinate tracking of program records for students participating in the program;

Revisions to the Secretary of State's Administrative Rules on Rulemaking (ARR) [OAC 655:10] are proposed to supersede effective emergency rules and to implement and reflect statutory revisions to the Administrative Procedures Act (APA) enacted in SB 515 (2023) and HB 1297 (2024). The proposed revisions also address administrative rules filing procedures, following the launch of rules.ok.gov. Agency documents submitted for publication in the Oklahoma Register now occur via web submission, eliminating requirements for paper or email filings.

## SUBCHAPTER 3. CODIFICATION OF RULES

# Permanent Final Adoptions

---

## PART 1. INTRODUCTORY PROVISIONS

### 655:10-3-1. Function; scope [AMENDED]

(a) This Subchapter describes the codification scheme for inclusion of rules in the Oklahoma Administrative Code ~~and its supplements~~. Inclusion of a rule in the OAC requires prior publication in the Register as a finally adopted permanent rule or an adopted preemptive rule that has been approved by the Governor, ~~or an expedited rule repeal that has been approved by the Legislature~~. Emergency rules are not added to the OAC ~~or its supplements~~. However, emergency rules are published in the Register. They are part of the history of a Section or Appendix as referenced in Section/Appendix source notes in the OAC, and must be prepared pursuant to the codification scheme.

(b) Unless otherwise specifically noted, the rules of this Subchapter apply to permanent, emergency, and preemptive rules; ~~and to expedited rule repeals~~.

### 655:10-3-3. Rulemaking after publication of first OAC [AMENDED]

After publication of the first OAC, any rulemaking actions undertaken by an agency shall be prepared as additions, revocations, or amendments to the OAC, as follows:

(1) **Amendments; revocations.** All amendments or revocations shall bear the proper OAC numbers and shall amend or revoke OAC text. The OAR shall not accept for Register or Code publication an amendment to or revocation of any rule unless the regulatory text being amended or revoked:

(A) appears in the most recent published Code ~~or Code supplement~~, or

(B) appears as finally adopted regulatory text in an issue of the Register published after the closing date for publication in the most recent published Code, ~~or Code supplement, or~~

~~(C) appears as an expedited rule repeal in an issue of the Register published after the closing date for publication in the most recent published Code or Code supplement.~~

(2) **New rules.** Prior to the adoption of a new Chapter, the agency shall contact the OAR for assignment of a new Chapter number pursuant to 655:10-3-22. If the agency proposes a new Subchapter, Part, Section, or Appendix, the agency shall assign the new OAC number or numbers pursuant to 655:10-3-23 through 655:10-3-24.1 and proceed with the rulemaking process. The OAR may not accept a new rule for Register or Code publication unless the rule is prepared pursuant to the requirements of this Subchapter and Subchapters 5 and 7 of this Chapter.

## PART 3. CODE STRUCTURE

### 655:10-3-10. Six major OAC divisions [AMENDED]

The Code is organized into the following six major divisions:

(1) **Titles.** Each Title identifies an administrative agency, except for Title 1 which includes executive orders.

(2) **Chapters.** Each Chapter identifies a major area of regulatory control within an agency's authority. Each Chapter identifies a group of Sections which are:

(A) related to the same major agency program or legally-designated regulatory power;

(B) dependent on a common set of definitions; or

(C) independent of another Chapter in meaning or effect.

(3) **Subchapters.** Each Subchapter identifies a group of Sections related to the same general subject within a Chapter. The use of Subchapters is optional.

(4) **Parts.** Each Part identifies a group of Sections related to the same subject within a Subchapter. The use of Parts is optional.

(5) **Sections.** Each Section identifies a specific agency statement within a Chapter, Subchapter, or Part. Each Section is considered to be a single "rule." [See Part 5 of this Subchapter (relating to Code numbering, headings, and taglines)]

(6) **Appendices.** Each Appendix identifies a graphic in compressed image format (JPG), as defined in 655:10-1-2, which the agency considers to be regulatory text (i.e., text requiring promulgation). Each Appendix is considered to be a single "rule."

## PART 5. CODE NUMBERING, HEADINGS, AND TAGLINES

## 655:10-3-24.1. Appendix letters and headings [AMENDED]

- (a) **Appendix letters.** Appendices within a Chapter are designated using capital letters, beginning with the letter "A." Appendices include graphics in compressed image format (JPG), (i.e., tabular materials (tables), forms, illustrations, diagrams, maps, charts, graphs, figures, and other pictorial material) that the agency considers to be regulatory text (requiring promulgation). [See also 655:10-3-37 (relating to graphics and appendices)].
- (b) **Appendix headings.** Each Appendix must have a brief heading which reflects its subject matter. If the graphic itself has a heading, both the graphic heading and the Appendix heading must be included, even if they are identical.
- (c) **Format.** Appendix letters and headings are formatted in regulatory text as follows:
- (1) The word APPENDIX is followed by a space, the Appendix designation (A, B, C, etc.), a period, two spaces, and the Appendix heading as described in (b) of this Section. This information is typed in uppercase letters, bolded, and centered.
  - (2) No punctuation follows the Appendix heading.
  - (3) The following is an example of an Appendix letter and heading: **APPENDIX S. RESTRICTED AREAS FOR APPLICATION OF HORMONE-TYPE PESTICIDES**
- (d) **Location; Appendix text.**
- (1) All Appendices within a Chapter are placed at the end of the Chapter. ~~Each Appendix begins on a new page.~~
  - (2) The text of an Appendix begins approximately two spaces below the Appendix heading. If the graphic itself has a heading, that heading is part of the Appendix text.
- (e) **Assignment.** Appendix letters and headings are assigned by the adopting agency and reviewed by the OAR prior to publication in the Register and Code.

## PART 7. REGULATORY TEXT

## 655:10-3-35. Placement of Sections and Section text [AMENDED]

- (a) **Placement of Sections.** In a rule document (emergency, permanent, or preemptive, ~~or expedited repeat~~), affected Sections (i.e., Sections that are being added or revised in some way) follow the enacting clause [see 655:10-7-14 (relating to regulatory text)]. ~~Sections should be separated by one or two blank lines.~~
- (b) **Placement of Section text.** The text of a Section, referred to as "Section text," begins on the first line below the Section number and tagline, as follows:
- (1) **No subdivisions used.** If the Section contains no subdivisions, the first line of text is tabbed ~~approximately 1 1/4 inch~~, and the second and succeeding lines of text begin at the left margin.
  - (2) **Subdivisions used.**
    - (A) **"Implied (a)" used.** If the Section begins with an "implied (a)" [see 655:10-3-26], the first line of text is tabbed ~~approximately 1 1/4 inch~~, and the second and succeeding lines of text begin at the left margin. Subdivisions of the "implied (a)" are formatted pursuant to 655:10-3-25.
    - (B) **Subsections used.** If the Section is divided into subsections, the first line of text begins with the subsection designation [i.e., (a)] at the left margin. The text of the subsection begins approximately two spaces following its tagline, if used, or approximately two spaces following its letter designation, if a tagline is not used. For formatting subsequent subsections [i.e., (b), (c), etc.)] and further subdivisions, see 655:10-3-25.

## 655:10-3-37. Graphics and appendices [AMENDED]

- (a) **"Graphics" defined; graphics as regulatory text.** Graphics are tabular materials (tables), forms, illustrations, diagrams, maps, charts, graphs, figures, and other pictorial material in compressed image format (JPG). Unless labeled as supplemental information in a rule document, graphics are considered regulatory text.
- (b) **Use limited.** A graphic should be used only when an agency deems it absolutely necessary. Rules must be in narrative form whenever possible.
- (c) **Reproducing colors; size.**
- (1) Colors may not be used in graphics, as colors cannot be reproduced in the Register or Code.
  - (2) The area of text for graphics in Appendices may not exceed 7½ inches by 10 inches. ~~If an agency cannot comply, by reduction or other means, the agency must contact the OAR. Exceptions to this paragraph will be made only at the discretion of the OAR.~~
- (d) **Location.**
- (1) **Graphics in appendices.** When an agency finds that use of a graphic is absolutely necessary and that the regulatory text cannot be stated in narrative form, the agency must:

(A) place the graphic in an Appendix, except as allowed in (2) of this subsection. Appendices are prepared pursuant to 655:10-3-24.1 and added, amended, or revoked pursuant to (e) of this Section; and (B) cite the Appendix in the text of at least one applicable Section (e.g., "as set forth in Appendix A of this Chapter").

## (2) Graphics within Sections.

~~(A) **Restrictions.** A graphic should rarely~~never~~ be included within a Section, as described in this subparagraph.~~

~~(i) A graphic may be included within a Section only if:~~

~~(I) the agency determines that use of the graphic is absolutely necessary and that the regulatory text cannot be stated in narrative form;~~

~~(II) the agency determines that placement of the graphic in an Appendix would be inappropriate;~~

~~(III) the graphic can be easily typed within the text margins of the Section; and~~

~~(IV) the graphic's contents consist only of words, numbers, or other characters that can be typed; and~~

~~(V) the graphic can be easily amended using strikeouts and underscoring.~~

~~(ii) If any one of the characteristics described in (i)(I) through (V) of this subparagraph does not apply to a graphic, the graphic must be:~~

~~(I) placed at the end of the Chapter and prepared as an Appendix, as described in (1) of this subsection; or~~

~~(II) expressed in a narrative style, within the usual subdivision numbering scheme of a Section.~~

~~(iii) When a graphic is included within a Section, the graphic must be preceded by appropriate introductory language which explains its function and contents (e.g., "The following table sets forth the requirements for ...").~~

~~(B) **Format.** A graphic typed within a Section may not be numbered in any manner; however, the graphic may have a heading.~~

(e) **Amending, revoking, adding, deleting graphics and Appendices.** When amending, revoking, adding, or deleting graphics or Appendices, the agency shall identify the changes pursuant to the following:

### (1) Amending graphics and Appendices.

~~(A) **Graphics in Sections.** When amending a graphic within a Section, the agency shall indicate the changes with strikeouts and underscoring.~~

~~(B) **Appendices.** When amending an Appendix, the agency shall amend the Appendix by revoking and reenacting~~amending~~ the Appendix as set forth in 655:10-5-3(a)(2).~~

### (2) Adding, deleting, and revoking graphics and Appendices.

~~(A) **Graphics in Sections:**~~

~~(i) **Adding graphics in Sections.** When adding a graphic within a Section, the agency shall underscore the text of the graphic.~~

~~(ii) **Deleting graphics in Sections.** When deleting a graphic within a Section, the agency shall strikeout the text of the graphic.~~

~~(B) **Appendices:**~~

~~(A)(i) **Adding graphics and Appendices.**~~

~~(i)(I) **Adding graphics to existing Appendices.** When adding~~uploading~~ a new graphic to an existing Appendix, the agency shall select the [AMENDED] status in the drafting editor~~amend the Appendix by revoking and reenacting the Appendix as set forth in 655:10-5-3(a)(2). The text of the Appendix is not underscored or stricken.~~~~

~~(ii)(II) **Adding Appendices.** When adding an a~~a~~ graphic to a new Appendix, the agency shall type the words~~select the [NEW] status in the drafting editor~~approximately two spaces after the centered Appendix heading. The text of the Appendix is not underscored. [See also 655:10-5-2(a)(2) (relating to new Appendices)]~~

~~(B)(ii) **Deleting graphics in Appendices; revoking Appendices.**~~

~~(i)(I) **Deleting graphics in existing Appendices.** When deleting a graphic in an existing Appendix, the agency shall select the [AMENDED] status in the drafting editor~~amend the Appendix by revoking and reenacting the Appendix as set forth in 655:10-5-3(a)(2). The text of the Appendix is not underscored or stricken.~~~~

~~(ii)(H)~~ **Revoking Appendices.** When revoking an Appendix, the agency ~~shall type the word~~ shall select the [REVOKED] status in the drafting editor ~~approximately two spaces after the~~ centered Appendix heading. The text of the revoked Appendix is not stricken. [See also 655:10-5-4(a)(2) (relating to revoked Appendices)]

(f) ~~Renumbering or reserving~~ **Reserving Appendices.** Appendices may be ~~renumbered as set forth in 655:10-5-8 or~~ reserved as set forth in 655:10-3-29.

## SUBCHAPTER 5. RULE DRAFTING REQUIREMENTS

### 655:10-5-2. Identifying new rules [AMENDED]

(a) **New Sections and Appendices.** When preparing new Sections or Appendices, agencies shall identify the new Sections and Appendices as follows:

(1) **New Sections.** Underscore the text of a new Section and select the [NEW] status in the drafting editor; ~~including the Section number and tagline.~~

(2) **New Appendices.** Select the [NEW] status in the drafting editor and upload each image in compressed image format (JPG). Type the word [NEW] approximately two spaces following the centered Appendix heading (e.g., APPENDIX K. ZONING DISTRICTS [NEW]). ~~Begin the contents of the Appendix approximately two single spaces below the heading. Do not underscore. Begin each new Appendix on a new page.~~

(b) **New Parts, Subchapters, Chapters.** ~~When preparing new Parts, Subchapters, and Chapters, agencies shall underscore the centered Part, Subchapter, or Chapter number and heading. Agencies shall select the [NEW] status in the drafting editor for each new Part, Subchapter, and Chapter headings.~~ Sections within the new Part, Subchapter, or Chapter are prepared pursuant to (a)(1) of this Section. Appendices within a new Chapter are prepared pursuant to (a)(2) of this Section.

### 655:10-5-3. Identifying amendatory language in rules [AMENDED]

(a) **Amended Sections and Appendices.** When preparing amendatory language in rules, agencies shall identify the amendatory language as follows:

(1) **Amended Sections.**

(A) Prepare amendatory language in Sections, ~~including Section taglines,~~ as follows:

(i) Underscore new language.

(ii) Strikeout existing language and spaces that are being deleted [see 655:10-1-2 (definition of "strikeout")].

(iii) If replacing deleted text with new text, type new language following the language which it replaces.

(iv) Do not strikeout part of a word or number. Strikeout the entire word or number being replaced, and type and underscore the complete new word(s) or number(s). For example, to change the word "requirements" to "requirement," strikeout the word "requirements" and underscore the word "requirement."

(B) If amending and renumbering a Section, prepare the text pursuant to 655:10-5-8.

~~(C) If amending Section taglines, update taglines in description field of drafting editor.~~

(2) **Amended Appendices ~~(revocation and reenactment)~~.**

(A) Amend Appendices by revoking and reenacting. ~~To revoke and reenact~~ amend an Appendix, ~~revoked~~ delete the existing Appendix image(s) and ~~simultaneously reenact~~ upload the new Appendix image(s) (on the same regulatory topic) that completely replaces the ~~revoked~~ previous Appendix image(s), as follows:

~~(A)(i)~~ Identify the ~~revoked~~ amended Appendix by typing the word ~~selecting the~~ [REVOKED] [AMENDED] status in the drafting editor ~~approximately two spaces following the centered Appendix heading (e.g., APPENDIX K. ZONING DISTRICTS [REVOKED] [AMENDED]).~~ ~~Do not include the text of the revoked Appendix.~~

~~(B)(ii)~~ Following the information in (A)(2) of this paragraph, identify the reenacted Appendix by typing the word [NEW] approximately two spaces following the centered Appendix heading (e.g., APPENDIX K. ZONING DISTRICTS [NEW]). ~~Begin~~ begin the contents of the Appendix by uploading in the Appendix image(s) in the drafting editor. ~~approximately two spaces below the heading.~~

(B) If amending and renumbering reserving an Appendix, prepare pursuant to 655:10-5-8.

# Permanent Final Adoptions

---

(b) **Amended Part, Subchapter, Chapter headings.** When amending the heading of a Part, Subchapter, or Chapter, agencies should update headings in description field of drafting editor~~use strikeouts and underscoring, as described in (a) (1)(A) and (B) of this Section to identify changes to the existing heading.~~

## 655:10-5-4. Identifying revoked rules [AMENDED]

(a) **Revoked Sections and Appendices.** When preparing revoked Sections or Appendices, agencies shall identify the revoked Sections and Appendices as follows:

(1) **Revoked Sections.**

(A) ~~TypeSelect the word~~[REVOKED] status in the drafting editor~~approximately two spaces following the Section number and tagline. Do not strikeout the number and tagline.~~

(B) Include the full text of the Section and strikeout the text.

(2) **Revoked Appendices.**

(A) ~~TypeSelect the word~~[REVOKED] status in the drafting editor~~approximately two spaces after the Appendix heading. Do not strikeout the Appendix letter and heading.~~

(B) ~~Begin the contents of the Appendix approximately two spaces below the heading. Do not strikeout the contents of the Appendix.~~

(C) ~~Begin each revoked Appendix on a new page.~~

(b) **Revoked Parts, Subchapters, Chapters.** When preparing revoked Parts, Subchapters, and Chapters (i.e., the revocation of all Sections in the Part or Subchapter or all Sections and Appendices in the Chapter), agencies shall ~~type the centered Part, Subchapter, or Chapter number and heading, followed by the word~~ select the [REVOKED] status in the drafting editor, and then followed by the revoked Sections in that Part, Subchapter, or Chapter. The revoked Sections and Appendices are prepared pursuant to (a) of this Section.

## 655:10-5-6. Superseded emergency actions; expired emergency rules [AMENDED]

(a) **Text affected.**

(1) **Superseded amendments.** When an emergency amendment is superseded by a permanent action;~~or another emergency action, or an expedited repeal~~ which affects the same Section or Appendix, the later action must be prepared as an amendment to or revocation of the last promulgated permanent text in that Section or Appendix (i.e., prior to any emergency action). The previous emergency action is superseded by the later action upon the effectiveness of the later action.

(2) **Superseded new Section/Appendix.** When an emergency enactment of a new Section or Appendix is superseded by a permanent enactment of the Section/Appendix, or another emergency enactment of the Section/Appendix, each action must be prepared as the enactment of new language. Although the agency may alter the language of the earlier emergency action, the agency does not identify changes (through the use of strikeouts and underscoring) to the earlier emergency rule text. Emergency rule text is never amended, but is superseded by later rulemaking actions. The earlier emergency rule is superseded upon the effectiveness of the later rule.

(3) **Superseded revocations.** When an emergency revocation is superseded by a permanent or emergency revocation ~~or an expedited repeal~~ of the same Section or Appendix, the later revocation must be prepared as a revocation of the last promulgated permanent text of that Section or Appendix.

(b) **Expiration date of superseding emergency actions.** When an emergency action is superseded by another emergency action or actions, the expiration date of the later action(s) must retain the same expiration date as the first emergency action [see 75:253(H)].

(c) **Preamble statement.** When the rules in a rule document will supersede existing emergency rules, the agency shall identify the superseded emergency rules under the heading **SUPERSEDED EMERGENCY ACTIONS** in the preamble [see 655:10-7-11(b)(15)] and 655:10-7-11.1(c)(3)(H)] of the rule document.

(d) **Expired emergency actions.** Agencies must notify the OAR in writing when an emergency action on a Section or Appendix expires without being superseded by a permanent or preemptive action. Agencies should notify the OAR upon the expiration of the emergency rule. The OAR will document the existence and expiration of the emergency language ~~in the next available annual supplement~~ by publishing a source note that cross references to the Register publication of the emergency action.

## 655:10-5-8. Renumbering Sections and Appendices within a Chapter [AMENDED]

(a) **"Renumbering" defined; restrictions.** ~~\_\_\_\_\_ "Renumber" means to move a Section to an UNUSED Section number within the same Chapter or to move an Appendix to an UNUSED Appendix letter within the same Chapter.~~

(1) When moving Sections and Appendices within a Chapter, the number newly-assigned to the Section or Appendix must be an unused Section number or Appendix letter. Other forms of renumbering are not allowed and are unnecessary pursuant to the following:

(A) When a Section or Appendix is revoked, renumbering of the subsequent Sections or Appendices is not allowed and is unnecessary because the number and source note of the revoked Section or Appendix remain in the Code and the number/letter is not used again except pursuant to 655:10-3-30.

(B) When a Section or Appendix is added between two existing Sections or Appendices, renumbering of the subsequent Sections or Appendices is not allowed and is unnecessary because the new Section or Appendix is numbered/lettered pursuant to the decimal point system in 655:10-3-28.

(2) If a Section or Appendix is moved to another Chapter, it must be revoked in one rulemaking action and adopted as a new Section or Appendix in another rulemaking action.

**(b) Renumbering procedure, format.** When preparing renumbered Sections or Appendices within a Chapter, agencies shall prepare the renumbering as follows:

**(1) Renumbered without amendment.** When a Section or Appendix is renumbered with no other changes to the Section or Appendix:

(A) The number and tagline of the Section being renumbered, or the letter and heading of the Appendix being relettered, are retained in correct numerical/alphabetical order within the text of the Chapter. The capitalized phrase "[RENUMBERED TO (new Section or Appendix)]" follows the tagline or heading. The text of the Section being renumbered is stricken. The contents of the Appendix being renumbered is not stricken; and

(B) The newly-numbered Section or Appendix appears in correct numerical/alphabetical order within the Chapter. The Section number and tagline are underscored; the text of the Section is underscored. The Appendix letter and heading and the Appendix contents are not underscored; however, the word [NEW] is typed after the Appendix letter and heading.

**(2) Amended and renumbered.** When a Section or Appendix is renumbered, in addition to being amended:

(A) The number and tagline of the Section being renumbered, or the letter and heading of the Appendix being relettered, are retained in correct numerical/alphabetical order within the text of the Chapter. The capitalized phrase "[AMENDED AND RENUMBERED TO (new Section or Appendix)]" follows the tagline or heading. The text of the Section being renumbered is stricken. The contents of the Appendix being renumbered is not stricken; and

(B) The newly-numbered Section or Appendix appears in its correct numerical/alphabetical order within the Chapter. The Section number and tagline, or Appendix letter and heading, are underscored. The text of the Section is underscored. The contents of the Appendix is not underscored; however, the word [NEW] is typed after the Appendix letter and heading.

## 655:10-5-10. Use of definitions [AMENDED]

**(a) Use and placement.**

**(1) Definitions Sections vs Section definitions.** If definitions are included in rules, they shall be placed as follows:

(A) **Definitions Sections.** If the definitions apply to a Chapter, Subchapter, or Part, they are placed in a Section called "Definitions" near the beginning of the Chapter, Subchapter, or Part to which they apply.

(B) **Section definitions.** If the definitions apply to a single Section, they are placed near the beginning of the Section to which they apply.

**(2) Use in text required.** A definition should not be included unless the term being defined is used at least once in the remaining regulatory text of the applicable Chapter, Subchapter, Part, or Section.

**(b) Substantive provisions prohibited.** Substantive provisions may not be included in a definition. For example, the second sentence of the following definition contains substantive regulatory provisions and should not be included in the definition: "**Alcoholic beverage**" means beer, wine, or liquor. An owner of a business establishment serving alcoholic beverages shall obtain a license.

**(c) Format of definitions Sections; introductory language.** This subsection applies only to definitions Sections, as described in (a)(1)(A) of this Section. This subsection does not apply to Section definitions, as described in (a)(1)(B) of this Section.

(1) Begin each definitions Section with the following language: "The following words and terms, when used in this (Chapter, Subchapter, Part), shall have the following meaning, unless the context clearly indicates otherwise:". If necessary, the introductory language may be supplemented with additional information such as "In addition to terms defined in xxxx, the following ...."

# Permanent Final Adoptions

---

- (2) List definitions in alphabetical order. Do not number or otherwise designate definitions.
  - (3) ~~Indent~~Tab the first line of each definition ~~approximately 1/4 inch~~; do not ~~indent~~tab succeeding lines of the definition (i.e., begin the lines at the left margin).
  - (4) Enclose the defined word or term in quotation marks, followed by the word "means"; bold the defined word/term and the quotes. Do not use parentheses.
  - (5) Capitalize the first letter of the first word of the defined word or term; type subsequent words in a defined term in lowercase letters unless the word itself is a proper noun or its use otherwise requires capitalization.
  - (6) End each definition with a period.
  - (7) Begin enumerations within a definition at the subparagraph level [i.e., (A), (B), (C), etc.].
- (d) **Format of Section definitions.** Section definitions (i.e., definitions that apply only to the Section in which they appear, as described in (a)(1)(B) of this Section) are designated using the numbering scheme established for Section subdivisions [see 655:10-3-25] and are formatted accordingly.

## 655:10-5-17. Agency Notes [AMENDED]

- (a) **Not regulatory text.** Agency Notes are not considered regulatory text.
- (b) **Applicability.** Agencies shall use an Agency Note only when it is necessary for the agency to include, apart from the regulatory text, any of the following:
- (1) A reference to any rule requiring a new or revised form [75:251(B)(2)(e)] as a result of the rulemaking action.
  - (2) A reference to any rearranging or relocation of a rule, to ensure that required strikeouts and underscoring do not mislead the reader. For example, an Agency Note may be used to alert the reader that text being deleted or revoked in a Section has been added to another existing Section, or is being deleted because it already exists in another Section.
  - (3) Any other information which the agency finds necessary, with the following restrictions:
    - (A) An agency may not include such information in an Agency Note unless specifically reviewed and approved by the OAR.
    - (B) Agency Notes are used to clarify or identify something unique or unusual about a specific rulemaking ACTION rather than the rule itself. As such, Agency Notes are rarely transferred to the Code after Register publication. If a rule needs to be clarified, such clarification should be promulgated in the rule itself. An Agency Note should not be used to footnote or annotate a rule. It should not be used for cross referencing or "see also" cites, or for citing to federal or other laws.
- (c) **Location.** ~~Agencies may type Agency Notes following~~Agencies shall follow a specific Section ~~or Appendix~~ or ~~following~~following the last Section ~~or Appendix~~ in the rule document. ~~Agencies may not type Agency Notes within a Section or Appendix.~~
- (d) **Format.** Agencies shall prepare Agency Notes ~~in the following format: for review and inclusion by the OAR.~~
- (1) ~~Beginning at the left margin and two single spaces below the last line of the Section or Appendix;~~  
~~type "Agency Note:", followed by the necessary information;~~
  - (2) ~~When an Agency Note is followed by the text of another Section, the agency shall begin the text of the next Section two single spaces below the Agency Note.~~

## SUBCHAPTER 7. PREPARATION OF DOCUMENTS

### PART 1. GENERAL PROVISIONS

#### 655:10-7-1. Types of documents; inclusion in Code; excluded documents [AMENDED]

- (a) **Rulemaking documents.** Notice and rule documents published in the Register are legal instruments through which a rulemaking entity revises its existing rules, or enacts new rules.
- (1) **Notice documents.** Notice documents announce an agency's intention to adopt rules or the agency's compliance with certain other steps in the rulemaking process. Notice documents are published in the Register but are not included in the Code. [See Part 5 of this Subchapter (relating to notice documents)]
  - (2) **Rule documents.** Rule documents announce final adoption of permanent rules [75:250.3(7)(5); 75:308.1(A)]; or adoption of emergency or preemptive rules [75:253; 75:250.6]; ~~or legislative adoption of expedited repeals of rules [75:303a].~~ [See also Part 3 of this Subchapter (relating to rule documents)]
    - (A) **Permanent, preemptive rules; ~~expedited repeals.~~** Inclusion of a rule in the Code requires prior publication in a rule document in the Register as a finally adopted permanent rule or as an adopted preemptive rule that has been approved by the Governor ~~or as an expedited repeal that has been approved by the Legislature.~~

- (B) **Emergency rules.** Emergency rules are published in the Register but are not included in the Code.
- (b) **Miscellaneous documents, including executive orders and gubernatorial declarations.** In addition to rulemaking documents, executive orders, gubernatorial declarations as described in 75 O.S., Section 308.3, and other miscellaneous documents expressly required by law [see (c) of this section] are published in the Register. Executive orders are published in both the Register and the Code.
- (c) **Excluded documents.** Notices or other documents which are not expressly required by law to be published in the Register or the Code shall not be published in the Register or the Code.

## 655:10-7-2. Typing and word processing requirements [AMENDED]

When preparing rules and documents that will be submitted to the OAR for publication in the Register, agencies shall comply with each of the following typing requirements and restrictions:

### (1) Requirements.

- (A) Use word processing software that is ~~approved~~provided by the OAR ~~in the drafting editor as compatible with the software used for processing documents into the OAR's databases. If an agency does not know if its software meets this requirement, the agency must contact the Office of Administrative Rules. [See also 655:10-9-1 (relating to electronic copies)]~~
- (B) Set paper size at 8½ by 11 inches. Use plain white medium bond paper.
- (C) Set the page settings for printing on one side of the page only.
- (D) Set left, right, and top margins at one inch. Set bottom margin at .5 inch (to allow for page numbering, as described in 655:10-7-4).
- (E) Set the font size to 11 or 12.
- (F)(B). Type in the conventional uppercase and lowercase format (not all capital letters or "small caps"); ~~unless otherwise specifically required in this Chapter (e.g., centered Title, Chapter, Subchapter, Part headings are typed in uppercase letters).~~
- (G) Set the line spacing to one.
- (H) Fasten the document together with a paper clip.

### (2) Restrictions.

- (A) Underscoring is reserved for the purpose of showing new language in rules. Do not underscore letters, numbers, words, or symbols except as expressly reserved by this subparagraph. [See also 655:10-5-2 and 655:10-5-3 (relating to identifying language in new and amended rules)] For example, when typing the title of a book or other publication which is traditionally underscored, use some method other than underscoring or italicization to identify the title, such as capitalization or quotation marks.
- (B) Strikeouts are reserved for the purpose of showing deleted or revoked language in existing rules. Do not strikeout letters, numbers, words, or symbols except as expressly reserved by this subparagraph. [See also 655:10-5-3 and 655:10-5-4 (relating to identifying language in amended and revoked rules)]
- (C) Italics may not be used in rules except to identify language quoted from statutes, constitution, or other legal instruments. Do not italicize letters, numbers, words, or symbols except as expressly reserved by this subparagraph. [See also 655:10-5-12 (relating to quoting from legal instruments)]
- (D) Do not use letterhead stationery.
- (E) Do not fold any pages of the document.
- (F) Do not staple any pages of the document.
- (G) Do not bind the document together in any manner other than by paper clip.
- (H) Do not punch holes in any pages of the document.
- (I) Do not use carbon paper.
- (J) Do not handwrite any portion of the document except:
- (i) the signature or signatures and date required on attestations;
  - (ii) the signature and date required on a transmittal sheet [see 655:10-7-6]; and
  - (iii) the signatures and any other necessary handwriting on the Governor's approval of emergency or preemptive rules, a resolution by the Legislature disapproving rules, or an executive order.
- (K)(D). Do not turn on line hyphenation. Do not force hyphenation to phonetically split words at the ends of lines.

# Permanent Final Adoptions

---

~~(L)~~(E). Do not use tables or columns within the text of a Section ~~unless absolutely necessary~~ [see 655:10-3-37 (relating to graphics in rules)]. Do not use tables or columns in preambles or notice documents. The format of tables and columns is not retained (except in scanned images in Appendices) when a document is ~~moved to the database and~~ published in the Register and Code.

~~(M)~~(E). Do not center text within Sections, preambles, or notice documents. The centering is not retained (except in Appendices) when a document is ~~moved to the database and~~ published in the Register and Code.

~~(N)~~(G). When using a fraction, formula, or equation (except in scanned images in Appendices), do not use underscoring for a division line. The underscoring will be lost when amendatory language is removed from Sections. Instead, use the division sign ( $\div$ ), the words "divided by," or a slash. For example:

- (i)  $[(y - .8) + (z - 1.2)] \div (y + z)$
- (ii)  $[(y - .8) + (z - 1.2)]$  divided by  $(y + z)$
- (iii)  $[(y - .8) + (z - 1.2)] / (y + z)$

~~(O)~~(H). Do not draw boxes around, or lines above, below, or around text (except if needed in Appendices images).

~~(P)~~(I). Do not use unusual word processing features, such as small caps, styles, hard back tabs, index codes, etc. (except if needed in Appendices images).

~~(Q)~~(J). Do not change font size (except superscript and subscript) or font style (except italics and bold) in a document. Font changes, other than those in Appendices, ~~which are scanned,~~ are not retained when ~~the document is moved to the database and~~ published in the Register and Code.

~~(R)~~(K). Do not add extra horizontal spacing (blank lines), except in Appendices Appendix images or as otherwise specifically required in this Chapter. If used (other than in Appendices), the extra spacing will not be retained when the document is moved to and published in the Register and Code.

~~(S)~~(L). Do not use dot leaders, ~~(except if needed in Appendices).~~ ~~If used (other than in scanned Appendices), the dot leaders will not be retained when moved to and published in the Register and Code.~~

~~(T)~~(M). Do not include extraneous information, such as information sometimes added to identify the electronic location of the document (e.g., file name, path, date, drafter's initials, etc.)

## 655:10-7-3. Document headings [AMENDED]

~~Begin each~~Each rule document and notice document begins with a document heading, ~~prepared~~ as follows:

## PART 3. RULE DOCUMENTS

### 655:10-7-10. Types of rules and rule documents; rule document components; transmittal sheets [AMENDED]

(a) **Types of rules and rule documents.** A rule document contains either permanent, emergency, or preemptive rules; ~~or expedited repeals of rules.~~

- (1) A permanent rule document contains finally adopted permanent rules.
- (2) An emergency rule document contains adopted emergency rules.
- (3) A preemptive rule document contains adopted preemptive rules.
- ~~(4) An expedited rule repeal document contains rules that meet the criteria and have been approved by the Legislature for repeal through the expedited process set forth in 75 O.S., Section 303a.~~

(b) **Rule document components.** A rule document consists of the following components, in the following order:

## SUBCHAPTER 13. CORRECTION OF ERRORS

### 655:10-13-2. Errors prior to Register publication [AMENDED]

In the event an agency discovers an error in a document after submission to the OAR but prior to its publication in the Register, the agency may contact the OAR for a determination as to whether the OAR is able to accept the corrections, based on the following:

(1) **Timeliness.** The timeliness of the agency's request to correct an error(s) in a document filed with the OAR but not yet published will determine the OAR's ability to accept corrections on any document filed. This determination will be based on how far the OAR has progressed in its processing of that document at the time the request is received, as well as the impact a correction would have on the OAR's ability to complete the production and distribution of the applicable Register issue by the publication date.

(2) **Qualifying errors.** If the OAR determines the corrections to be timely, as described in (1) of this Section, the OAR will use the following additional criteria to determine if the errors may be corrected:

(A) **Notice documents.** Errors discovered in notice documents may be corrected prior to publication.

(B) **Permanent rule documents.** Errors discovered in permanent rule documents may be corrected prior to publication, unless the correction would cause a conflict with the following statutory provisions:

(i) [T]he text of the rule submitted for publication shall be the same as the text of the rule that has been finally adopted [75:308.1(B)], and

(ii) The agency may change the format of . . . rules . . . to comply with the standard provisions established by the Secretary . . . so long as there is no substantive change to the rule [75 O.S., Section 251(B)(2)(i)].

(C) **Emergency rule documents.** Emergency rule documents may not be corrected after approval by the Governor; except, the agency may change the format to comply with the ARR, as described in 75 O.S., Section 251(B)(2)(i). If these errors are discovered after the agency has filed the emergency rule document with the OAR [see 655:10-9-1(c)(1) (relating to filing emergency rule documents)] but prior to publication, the agency may correct these errors.

(D) **Preemptive rule documents.** Preemptive rule documents may not be corrected after approval by the Governor; except, the agency may change the format to comply with the ARR, as described in 75 O.S., Section 251(B)(2)(i), before filing the preemptive rule document with the OAR. If these errors are discovered after the agency has submitted a preemptive rule document to the OAR [see 655:10-9-1(c)

## SUBCHAPTER 9. INDIVIDUAL PROCEEDING PRACTICES AND PROCEDURES

### 660:2-9-1. Hearings in general [AMENDED]

(a) **Authority.** Prior to the issuance of a final order in an individual proceeding, all parties shall be afforded an opportunity for hearing after reasonable notice. The notice shall be in writing and advise the parties of their right to a hearing and their obligation to file an answer, the time period within which a hearing must be requested, and the effect of a failure to file an answer and to request a hearing.

(b) **Public hearing.** All hearings shall be open to the public but may not be recorded by the public or any respondent by any electronic means.

(c) **Hearings on summary orders.** The provisions of this Subchapter shall not apply to proceedings for summary orders issued pursuant to Sections 1-411(F) and 1-604(A) of the Securities Act, Section 814(D) of the Business Opportunity Act, and Section 660 of the Land Sales Code.

### 660:2-9-2. Initiation of individual proceedings [AMENDED]

(a) **Request for hearing and answer.** The person to whom the notice of opportunity for hearing is addressed shall file with the Administrator a written answer within the time specified in the notice. The answer shall indicate whether the party requests a hearing and shall specifically admit or deny each allegation of the Department or state that the party does not have, and is unable to obtain, sufficient information to admit or deny each allegation. When a person intends in good faith to deny only a part of an allegation, the party shall specify so much of it as is true and shall deny only the remainder. A statement of a lack of information shall have the effect of a denial. Any allegation not denied shall be deemed admitted. Failure of a party to file an answer in compliance with this subsection shall result in the issuance of a final order against that party.

(b) **Setting or denial of hearing.** Upon receipt of a written request for a hearing, the Administrator shall either promptly schedule a hearing, ~~or shall issue a written order denying a hearing, or, if agreed by the parties, enter a scheduling order.~~

(c) **Time of notice.** Notice of all hearings shall be served by regular first class mail or by personal delivery within a time reasonable in light of the circumstances, in advance of the hearing, but not less than forty-five (45) days in advance thereof, to all parties. For good cause shown, any hearing may be rescheduled, provided all persons entitled to notice of such hearing are promptly advised thereof.

(d) **Content of notice.** The notice of hearing shall contain the following information:

- (1) the date, time, place, and nature of the hearing;
- (2) a statement of the legal authority and jurisdiction under which the hearing is to be held;
- (3) a short plain statement of the matters asserted; and
- (4) a reference to the particular sections of the statutes and rules involved.

(e) **Appointment of hearing officer.** The Administrator may delegate authority to a Hearing Officer to conduct an individual proceeding and prepare a proposed order for submission to the Administrator whenever deemed appropriate under the circumstances. The Administrator shall enter into a written contract with each Hearing Officer appointed; which shall govern the terms of appointment.

(f) **Authority of presiding officer.** The Administrator, or the Hearing Officer, shall have the authority to do all things necessary and appropriate to conduct the individual proceeding. The duties of the Administrator, or the Hearing Officer, include, but are not limited to, the following:

- (1) ~~Administering~~administering oaths and affirmations;
- (2) ~~Issuing~~issuing subpoenas authorized by law and quashing or modifying any such subpoena;

- (4) ~~Regulating~~regulating the course of a proceeding and the conduct of the parties and their counsel;
- (5) ~~Holding~~holding prehearing and other conferences and requiring the attendance at any such conference of any party;
- (6) ~~Recusing~~recusing himself upon a motion of a party based on reasonable grounds, or upon his own motion;
- (7) ~~Considering~~considering and ruling upon all procedural and other motions, subject to any limitations otherwise specified;
- (8) ~~Requiring~~requiring the filing of briefs, if so desired; and
- (9) ~~Requiring~~requiring the filing of proposed findings of fact and conclusions of law.

(g) **Submission of case on documentary record.** The Administrator, or the Hearing Officer, may elect not to hold a hearing if all parties agree to submit the case on the documentary record and waive their right to appear.

### 660:2-9-3. Prehearing proceedings and processes [AMENDED]

(a) **Scheduling.** As soon as is practicable after a hearing has been scheduled, the Administrator or the Hearing Officer shall enter a scheduling order that is intended to expedite the disposition of the action and ensure the fair, orderly, and efficient conduct of the proceedings. The parties shall confer in person or by telephone and attempt to prepare a single agreed scheduling order to submit to the Administrator or the Hearing Officer. The agreed, proposed scheduling order shall be submitted to the Administrator or the Hearing Officer no later than fifteen (15) days after the hearing has been scheduled. If the parties are unable to agree to a single scheduling order, the parties shall each submit, no later than twenty (20) days after the hearing has been scheduled, a proposed scheduling order to the Administrator or the Hearing Officer, who shall issue an appropriate scheduling order or, prior to issuing such order, hold a scheduling conference in person or by telephone. The scheduling order shall establish at least the following:

- (1) a schedule of discovery;
- (2) any limitations to be placed on discovery;
- (3) a preliminary list identifying all witnesses, documents and exhibits intended to be utilized at the hearing;
- (4) identification of any expert witness intended to be called;
- (5) the date for exchanging the documents and exhibits intended to be utilized at the hearing and the final list identifying all witnesses intended to be called at the hearing; and
- (6) such other matters as may aid in the disposition of the matter.

(b) **Discovery.**

- (1) Discovery may be obtained by one or more of the following methods:

(A) A party may serve a written request on any other party requiring the party to produce, within fifteen (15) days, for inspection and copying, any documents or tangible items that are in the possession, custody, or control of the party and relevant to the subject matter of the individual proceeding and are not privileged. The number of requests to produce or permit inspection shall not exceed thirty (30) in number except by agreement of the party being required to produce or by order of the Administrator or Hearing Officer. All documents will be produced at the offices of the Department or at such other place as the parties may agree in writing.

(B) A party may serve on any other party a written request to admit, for purposes of the pending action only, the truth of any matters relating to facts, the application of law to fact, or opinions about either; and the genuineness of any documents described in the request. Copies of documents shall be served with the request to admit unless they have been or are otherwise furnished or made available for inspection and copying. The number of requests to admit for each party shall not exceed thirty (30) in number except by agreement of the party being required to respond or by order of the Administrator or the Hearing Officer. Each matter upon which an admission is requested shall be separately stated. The matter is admitted unless, within fifteen (15) days after service of the request, or within such shorter or longer time as the Administrator or the Hearing Officer may allow, the party to whom the request is directed serves upon the party requesting the admission a written answer or objection addressed to the matter and signed by the party. If a matter is not admitted, the answer must specifically deny it or state in detail why the answering party cannot truthfully admit or deny it. A denial shall fairly meet the substance of the requested admission, and when good faith requires that a party qualify the answer or

# Permanent Final Adoptions

---

deny only a part of the matter of which an admission is requested, the party shall specify so much of it as is true and qualify or deny the remainder. An answering party may not give lack of information or knowledge as a reason for failure to admit or deny unless the party states that the party has made reasonable inquiry and that the information known or readily obtainable by the party is insufficient to enable the party to admit or deny. The grounds for an objection must be stated. A party may not object solely on the ground that the request presents a genuine issue for trial.

(C) A party may take the testimony of a witness by deposition at the expense of that party. A party desiring a transcript must make appropriate arrangements with the reporter or transcriber to order and pay for it. A party desiring to take the deposition of another party, or an employee thereof, shall serve written notice to the witness, or his counsel. The notice shall state the time and place for taking the deposition and shall be served at least three (3) days before the person is required to appear. A party desiring to take the deposition of a non-party witness shall serve the witness with a subpoena in accordance with 660:2-9-4. A copy of the notice or subpoena shall be served on all other parties to the proceeding by means specified in paragraph (h) below. Unless otherwise agreed by the parties or ordered by the Administrator or Hearing Officer, a deposition under this provision shall not last more than six (6) hours, exclusive of breaks, and shall be taken only between the hours of 8:00 a.m. and 5:00 p.m. on a day other than a Saturday or Sunday and on a day other than a legal holiday.

(2) A party who has responded to a request for production or request to admit must supplement or correct its response:

(A) in a timely manner if the party learns that in some material respect the disclosure or response is incomplete or incorrect, and if the additional or corrective information has not otherwise been made known to the other parties during the discovery process or in writing; or

(B) as ordered by the Administrator, or the Hearing Officer.

(3) In addition to limitations on discovery set forth in a scheduling order or any law, regulation, or rule, discovery does not include:

(A) ~~Non-public~~non-public information or documents from the personnel file of any Department employee;

(B) ~~Non-public~~non-public information or documents relating to any investigation conducted by the Department against unrelated parties;

(C) ~~Non-public~~non-public information or documents ~~relation~~relating to any action brought by the Department against unrelated parties;

## (c) Motions in general.

(1) Unless otherwise permitted by these rules or by the Administrator or the Hearing Officer motions and responses thereto shall be served on all parties and shall:

(A) be made in writing and shall not exceed twenty (20) pages;

(B) state concisely the questions(s) to be determined;

(C) state with particularity the grounds therefore and the relief or order sought; and

(D) be accompanied by a concise brief or a list of authorities upon which movant relies.

(2) A response to a written motion shall be filed within fifteen (15) days after receipt of the motion but no later than one day prior to the date and time of the hearing. A response to a written motion shall not exceed twenty (20) pages. A reply to a response to a written motion may be filed within five (5) days after receipt of the response but no later than the date and time of the hearing. A reply to a response to a written motion shall not exceed five (5) pages.

(d) **Motions for summary decision.** A party may move for summary decision as to any substantive issue in the case. **(f) Failure to participate, appear, comply, or cooperate.** A party's failure to participate in good faith in the preparation of a scheduling order or prehearing conference order; failure to comply with a scheduling order or prehearing conference order; failure to comply with or cooperate in discovery; or failure to appear at, substantially prepare for, or participate in good faith in, any hearing or conference, may result in any of the following sanctions:

If additional witnesses are discovered, all other parties shall be notified immediately and furnished the nature of the testimony along with the names and addresses of the witnesses. These additional exhibits or the testimony of the additional witnesses shall not be admitted at the hearing without the agreement of all parties or without a showing to the Administrator or the Hearing Officer that manifest injustice would be created if the exhibit or witness testimony were not permitted.

**(h) Service and filing of papers.** Service of papers upon a party shall be made by personal delivery, regular first-class mail, facsimile transmission or electronic mail. All papers required to be served by a party shall be filed with the Administrator in accordance with the scheduling order. When a Hearing Officer is appointed, a person making a filing with the Administrator shall promptly provide to the Hearing Officer a copy of such filing. Papers filed with the Administrator shall be accompanied by a certificate stating the name of the person or persons served, the date of service, the method of service and the mailing address, facsimile telephone number or electronic mail address to which service was made, if not made in person.

A party who is not represented by counsel shall sign the filing and state the party's name, residential address, email address, and telephone number on every filing. If a filing is not signed, the Administrator or the Hearing Officer shall strike the filing, unless it is signed promptly after the omission is called to the attention of the party making the filing. The signature of counsel or a party shall constitute a certification that:

- (1) the person signing the filing has read the filing; and
- (2) to the best of his knowledge, information, and belief, formed after reasonable inquiry, the filing is well grounded in fact and is warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law; and the filing is not made for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of adjudication; and
- ~~(3) if a filing is not signed, the Administrator or the Hearing Officer shall strike the filing, unless it is signed promptly after the omission is called to the attention of the party making the filing.~~

**(j) Computation of time.** A paper is filed when it is received by the Administrator. The Administrator and/or Commission may honor requests from interested persons for interpretive opinions and as to the applicability of any rule or order, if it be shown that an actual case, controversy or issue is in contemplation and that unreasonable hardship, loss or delay would result if the matter were not determined in advance. The Administrator in his discretion may honor requests from interested persons for formal interpretive opinions relating to a specific factual circumstance and no-action positions, including consideration of waivers, where appropriate and in the public interest, on the basis of facts stated and submitted in writing, with respect to the provisions of the Securities Act or any rule or statement of policy adopted thereunder, provided such requests satisfy and conform to the following requirements:

(1) Such requests shall be in writing and shall include or be accompanied by all information and material required by any statute, rule, or statement of policy under which an exception or exemption may be claimed, including but not limited to, copies of prospectuses or offering circulars if applicable or appropriate;

(2) The request letter shall include the name of the entity for whom the request is being made and the specific subsection of the particular statute or the particular rule or statement of policy to which the letter pertains shall be indicated in the upper right-hand corner of the letter.

---

(3) The letter should contain a brief narrative of the fact situation and should set out all of the facts necessary to reach a conclusion in the matter; however, such narratives should be concise and to the point.

(4) The names of the company or companies, organization or organizations, and all other persons involved should be stated and should relate and be limited to a particular factual circumstance. Letters relating to unnamed companies, organizations, or persons or to hypothetical situations will not warrant a formal response.

(5) Every such request shall include or be accompanied by a signed opinion of legal counsel which briefly and concisely states counsel's understanding, counsel's opinion in the matter, which may be expressed tentatively or conditioned upon concurrence by the Administrator, and the basis for such opinion.

(6) Each request for a no-action position and/or interpretive opinion letter shall be accompanied by payment of a fee in the amount specified in Section 1-612 of the Securities Act.

## **(a) Definitions.**

(1) **"Discretionary order of exemption"** means an order entered at the discretion of the Administrator wherein the Administrator agrees to waive a requirement of the Securities Act, Business Opportunity Act, or Land Sales Act, or a rule or order thereunder, or to grant a discretionary exemption under the Securities Act, Business Opportunity Act, or Land Sales Act where the waiver or exemption is appropriate and in the public interest.

(2) **"Interpretative opinion"** means a letter that states a conclusion regarding the applicability of a relevant provision of law to a situation presented. An interpretive opinion represents a judgment based solely on the fact situation as described by the applicant and an analysis of existing law and judicial, legislative, and administrative history.

(3) **"No-action letter"** means a letter by which a person is advised that a transaction carried out under a set of assumed facts will not result in a recommendation by Department staff that an enforcement action be taken. An interpretive opinion may include an assurance of "no-action;" however, a no-action letter does not necessarily include any interpretation of law.

**(b) Criteria for eligibility.** The Administrator may honor requests from interested persons for interpretive opinions, no-action letters, and discretionary orders of exemption, if it be shown that an actual case, controversy, or issue is in contemplation and that unreasonable hardship, loss, or delay would result if the matter were not determined in advance. An application for an interpretive opinion, no-action letter, or discretionary order shall not:

(1) involve a hypothetical situation, a past transaction, or an issue that is currently subject to or in preparation for litigation;

(2) involve a matter that the applicant knows or should know is currently under investigation or subject to a regulatory action; or

(3) relate to an interpretation of anti-fraud provisions.

**(c) Application process.** Each request for an interpretive opinion, no-action letter, or discretionary order of exemption shall include the following:

(1) a letter that complies with the requirements set forth in (d) of this Section;

(2) any other documentation, supplemental forms, and information as the Administrator may deem necessary including, but not limited to, a signed opinion of legal counsel that briefly and succinctly states counsel's understanding of the matter at issue; counsel's opinion in the matter, which may be expressed tentatively or conditioned upon concurrence by the Administrator; and counsel's basis for such opinion; and

(3) the fee required by Section 1-612(A)(12) or (13) of the Securities Act.

**(d) Content of request letter.** The request letter required by (c)(1) of this Section shall:

(1) succinctly present the issue to be considered and provide a thorough recitation of all material facts. The request may present multiple legal issues if they are related to one transaction or set of facts, but the request should be narrowly tailored to resolve specific issues and not attempt to discuss every possible situation.

(2) contain the applicant's reasoning and legal analysis, including references to applicable law and previous interpretative opinions, no-action letters, or discretionary orders of exemption that support the interpretation or relief requested. The applicant should also include a discussion of law and previous interpretative opinions, no-action letters, or discretionary orders of exemption that are in opposition to the applicant's interpretation or relief requested and set forth the applicant's reasoning and legal analysis distinguishing them from the facts and issues presented in the request. Law, interpretative opinions, and no-action letters from other jurisdictions are not binding on the Administrator.

(3) identify the persons or entities that are the subject of the request or will rely upon the response.

(4) identify in the heading the citation to the particular statute or the particular rule or statement of policy to which the letter pertains.

# Permanent Final Adoptions

(5) include a representation that any proposed transaction has not yet been consummated, that the matter is not currently subject to or in preparation for litigation, and that the applicant is not aware of any regulatory investigation involving the matter.

(6) disclose whether any of the persons who are the subject of the request or will rely upon the response, or any of the persons' predecessors, affiliates, directors, officers, general partners, beneficial owners of 10 percent or more of any class of its equity securities, any promoter presently connected with the persons in any capacity, any underwriter to be involved in a transaction described in the request, or any partner, director or officer of the underwriter:

(B) within the last five years, has been convicted of any criminal offense in connection with the offer, purchase, or sale of any security, or involving fraud or deceit;

(D) is currently subject to any order, judgment, or decree of any court of competent jurisdiction, entered within the last five years, temporarily, preliminarily, or permanently restraining or enjoining such party from engaging in or continuing to engage in any conduct or practice involving fraud or deceit in connection with the purchase or sale of any security.

(7) disclose whether the applicant has communicated with any other state securities administrator or the SEC concerning the transaction or subject matter of the request and, if so, include any requests that have been filed with any such jurisdictions and any response received from such jurisdictions.

#### 660:11-5-42. Dishonest and unethical practices of broker-dealers and agents [AMENDED]

# Permanent Final Adoptions

---

(a) **Purpose.** This Section is intended to set forth the standards of ethical practices for broker-dealers and agents. Any noncompliance with the standards of ethical practices specified in this section will constitute unethical practices in the securities business as the same is set forth in Section ~~1-411-D-13~~ 1-411(D)(13) of the Securities Act; however, the following is not intended to be a comprehensive listing of all specific events or conditions that may constitute such unethical practices. The standards shall be interpreted in such manner as will aid in effectuating the policy and provisions of the Securities Act, and so as to require that all practices of broker-dealers, and their agents, in connection with their activities in this state shall be just, reasonable and not unfairly discriminatory.

(b) **Standards.**

(1) A broker-dealer and its agents, in the conduct of its business, shall observe high standards of commercial honor and just and equitable principles of trade. A broker-dealer and its agents shall not violate any federal securities statute or rule or any rule of a national securities exchange or national securities association of which it is a member with respect to any customer, transaction or business effected in this state.

(2) Recommendations

(A) A broker-dealer and its agents shall have reasonable grounds for believing that a recommended transaction or investment strategy involving a security or securities is suitable for such customer based upon the customer's investment profile. A customer's investment profile includes, but is not limited to, the customer's age, other investments, financial situation and needs, tax status, investment objectives, investment experience, investment time horizon, liquidity needs, risk tolerance, and any other information disclosed by the customer or known to the broker-dealer or agent.

(B) A broker-dealer and its agents fulfill the customer-specific suitability obligation for an institutional account, as defined in 660:11-1-3, if (i) the broker-dealer or agent has a reasonable basis to believe that the institutional customer is capable of evaluating investment risks independently, both in general and with regard to particular transactions and investment strategies involving a security or securities and (ii) the institutional customer affirmatively indicates that it is exercising independent judgment in evaluating the broker-dealer or agent's recommendations. Where an institutional customer has delegated decision-making authority to an agent, such as an investment adviser or a bank trust department, these factors shall be applied to the agent.

(3) Charges, if any, for services performed, including miscellaneous services such as collection of monies due for principal, dividends, or interest, exchange or transfer of securities, appraisals, safekeeping or custody of securities, and other services, shall be reasonable and not unfairly discriminatory between customers.

(4) In "over-the-counter" transactions, whether in "listed" or "unlisted" securities, if any broker-dealer or agent of a broker-dealer buys for their own account from their customer, or sells for their own account to their customer, they shall buy or sell at a price which is fair, taking into consideration all relevant circumstances, including market conditions with respect to such security at the time of the transaction, the expense involved, and the fact that they are entitled to a profit; and if they act as agent for their customer in any such transaction, they shall not charge their customer more than a fair commission or service charge, taking into consideration all relevant circumstances including market conditions with respect to such security at the time of the transaction, the expense of executing the order and the value of any service they may have rendered by reason of their experience in and knowledge of such security and the market therefor.

(5) No broker-dealer or agent of a broker-dealer shall publish or circulate, or cause to be published or circulated, any notice, circular, advertisement, newspaper article, investment service, or communication of any kind which purports to report any transaction as a purchase or sale of any security unless such broker-dealer believes that such transaction was a bona fide purchase or sale of such security; or which purports to quote the bid price or asked price for any security, unless such broker-dealer believes that such quotation represents a bona fide bid for, or offer of, such security. If nominal quotations are used or given, they shall be clearly stated or indicated to be only nominal quotations.

(6) No broker-dealer or agent of a broker-dealer shall make an offer to buy from or sell to any person any security at a stated price unless such broker-dealer or agent is prepared to purchase or sell, as the case may be, at such price and under such conditions as are stated at the time of such offer to buy or sell.

(7) A broker-dealer, when a member of a selling syndicate or a selling group, shall purchase securities taken in trade at a fair market price at the time of purchase, or shall act as agent in the sale of such securities.

(8) A broker-dealer who in the capacity of paying agent, transfer agent, trustee, or any other similar capacity, has received information as to the ownership of securities, shall under no circumstances make use of such information for the purpose of soliciting purchases, sales or exchanges except at the request and on behalf of the issuer.

(9) No broker-dealer or agent of a broker-dealer shall, directly or indirectly, give, permit to be given, or offer to give, anything of value to any person for the purpose of influencing or rewarding the action of such person in connection with the publication or circulation in any newspaper, investment service, or similar publication, of any matter which has, or is intended to have, an effect upon the market price of any security, provided that this rule shall not be construed to apply to matter which is clearly distinguishable as paid advertising.

(10) A broker-dealer at or before the completion of each transaction with a customer shall give or send to each customer written notification disclosing:

- (A) whether such broker-dealer is acting as a broker for such customer and some other person; and
- (B) in any case in which such broker-dealer is acting as a broker for such customer or for both such customer and some other person, either the name of the person from whom the security was purchased or to whom it was sold for such customer and the date and the time when such transaction took place or the fact that such information will be furnished upon the request of such customer, and the source and amount of any commission or other remuneration received or to be received by such broker-dealer in connection with the transaction.

(11) A broker-dealer or agent of a broker-dealer controlled by, controlling, or under common control with, the issuer of any security, shall, before entering into any contract with or for a customer for the purchase or sale of such security, disclose to such customer the existence of such control, and if such disclosure is not made in writing, it shall be supplemented by the giving or sending of written disclosure at or before the completion of the transaction.

(12) A broker-dealer or agent of a broker-dealer who is acting as a broker for a customer or for both such customer and some other person, or a broker-dealer who is acting as a dealer and who receives or has promise of receiving a fee from a customer for advising such customer with respect to securities, shall, at or before the completion of any transaction for or with such customer in any security in the primary or secondary distribution of which such broker-dealer is participating or is otherwise financially interested, give such customer written notification of the existence of such participation or interest.

(13) The following standards shall apply to discretionary accounts:

(A) No broker-dealer or agent of a broker-dealer shall effect with or for any customer's account in respect to which such broker-dealer or agent or employee is vested with any discretionary power any transactions of purchase or sale which are excessive in size or frequency in view of the financial resources of such customer and character of such account.

(B) No broker-dealer or agent of a broker-dealer shall exercise any discretionary power in a customer's account unless such customer has given prior written authorization to a stated individual or individuals and the account has been accepted by the broker-dealer, as evidenced in writing by the broker-dealer or the partner, officer, or manager duly designated by the broker-dealer, in accordance with (22) of this subsection.

(C) The broker-dealer or the person duly designated shall approve promptly, in writing, each discretionary order entered and shall review all discretionary accounts at frequent intervals in order to detect and prevent transactions which are excessive in size or frequency in view of the financial resources of the customer and the character of the account.

(D) This section shall not apply to:

- (i) discretion as to the price at which or the time when an order given by a customer for the purchase or sale of a definite amount of a specified security shall be executed, except that the authority to exercise time and price discretion will be considered to be in effect only until the end of the business day on which the customer granted such discretions, absent a specific, written contrary indication signed and dated by the customer. This limitation shall not apply to time and price discretions exercised in an institutional account, as defined in 660:11-1-3, pursuant to valid Good-Till-Cancelled instructions issued on a "not-held" basis. Any exercise of time and price discretion must be reflected on the order ticket;
- (ii) bulk exchange at net asset value of money market mutual funds ("funds") utilizing negative response letters provided:

(I) ~~The~~the bulk exchange is limited to situations involving mergers and acquisitions of funds, changes of clearing members, and exchanges of funds used in sweep accounts;

(II) ~~The~~the negative response letter contains a tabular comparison of the nature and amount of the fees charged by each fund;

(IV) ~~The~~the negative response feature will not be activated until at least 30 days after the date on which the letter was mailed.

(14) A broker-dealer or agent of a broker-dealer who is participating or who is otherwise financially interested in the primary or secondary distribution of any security which is not admitted to trading on a national securities exchange, shall make no representation that such security is being offered to a customer "at the market" or at a price related to the market price unless such broker-dealer or agent knows or has reasonable grounds to believe that a market for such security exists other than that made, created, or controlled by such broker-dealer or agent, or by any person for whom he is acting or with whom he is associated in such distribution, or any person controlled by, controlling or under common control with such broker-dealer or agent.

(15) No broker-dealer or agent of a broker-dealer shall effect any transaction in, or induce the purchase or sale of, any security by means of any manipulative, deceptive or other fraudulent device, practice, plan, program, design, or contrivance.

(16) The following standards shall apply to the use of customer funds:

(A) No broker-dealer or person associated with a broker-dealer shall make improper use of a customer's securities or funds.

(B) No broker-dealer or agent of a broker-dealer shall lend, either to themselves or to others, securities carried for the account of any customer, unless such broker-dealer or agent shall first have obtained from the customer a separate written authorization permitting the lending of securities thus carried by such broker-dealer or agent; and, regardless of any agreement between the broker-dealer or agent and a customer authorizing the former to lend or pledge such securities, no broker-dealer or agent shall lend or pledge more of such securities than is fair and reasonable in view of the indebtedness of the customer, except such lending as may be specifically authorized under (C) of this paragraph.

(C) No broker-dealer or agent of a broker-dealer shall lend securities carried for the account of any customer which have been fully paid for or which are in excess of the amount which may be loaned in view of the indebtedness of the customer, unless such broker-dealer or agent shall first have obtained from such customer a separate written authorization designating the particular securities to be loaned.

(D) No broker-dealer or agent of a broker-dealer shall hold securities carried for the account of any customer which have been fully paid for or which are in excess of the amount which may be pledged in view of the indebtedness of the customer, unless such securities are segregated and identified by a method which clearly indicates the interest of such customer in those securities.

(E) No broker-dealer or agent of a broker-dealer shall guarantee a customer against loss in any securities account of such customer carried by the broker-dealer or in any securities transaction effected by the broker-dealer or agent with or for such customer.

(F) No broker-dealer or agent of a broker-dealer shall share directly or indirectly in the profits or losses in any account of a customer carried by the broker-dealer or agent or any other broker-dealer or agent, unless such broker-dealer or agent obtains written authorization from the broker-dealer carrying the account; and, a broker-dealer or agent shall share in the profits or losses in any account of such customer only in direct proportion to the financial contributions made to such account by the broker-dealer or agent. Exempt from the direct proportionate share limitation are accounts of the immediate family of such broker-dealer or agent. For purposes of this section, the term "immediate family" shall include parents, mother-in-law or father-in-law, husband or wife, children or any relative to whose support the broker-dealer or agent otherwise contributes directly or indirectly.

(17) The following standards shall apply to customer credit:

(A) No broker-dealer or agent of a broker-dealer shall take or carry any account or make a transaction for any customer under any arrangement which contemplates or provides for the purchase of any security for the account of the customer or for the sale of any security to the customer where payment for the security is to be made to the broker-dealer by the customer over a period of time in installments or by a series of partial payments, unless:

(i) in the event such broker-dealer acts as an agent or broker in such transaction, it shall immediately, in the regular course of its business, make an actual purchase of the security for the account of the customer, and shall immediately, in the regular course of its business, take possession or control of such security and shall maintain possession or control thereof so long as it remains under obligation to delivery of the security to the customer;

(B) Each broker-dealer shall keep and preserve in each office of supervisory jurisdiction, as defined in 660:11-5-2, either a separate file of all written complaints of customers and action taken by the broker-dealer, if any, or a separate record of such complaints and clear reference to the files containing the correspondence connected with such complaints as maintained in such office.

(22) The following standards shall apply to supervisory procedures:

(A) Each broker-dealer shall establish, maintain and enforce written procedures which will enable it to supervise properly the activities of each registered agent and associated person to assure compliance with applicable securities laws, rules, regulations and statements of policy promulgated by the Administrator and/or the Commission under the Securities Act.

(B) Final responsibility for proper supervision shall rest with the broker-dealer, the principal(s) of the broker-dealer registered in accordance with 660:11-5-11, and the principal(s) of the broker-dealer in each OSJ, including the main office, and the registered representatives in each non-OSJ branch office designated by the broker-dealer to carry out the supervisory responsibilities assigned to that office by the broker-dealer pursuant to the rules and regulations of FINRA. A copy of the written supervisory procedures shall be kept in each office of supervisory jurisdiction and each non-OSJ branch office.

(29) No broker-dealer or agent shall fail to furnish to a customer purchasing securities in an offering, no later than the due date of confirmation of the transaction, either a final prospectus or a preliminary prospectus and an additional document, which together include all information set forth in the final prospectus.

(30) No broker-dealer or agent shall use any advertising or sales presentation in such a fashion as to be deceptive or misleading. An example of such practice would be a distribution of any nonfactual data, material, or presentation based on conjecture, unfounded or unrealistic claims or assertions in any brochure, flyer, or display by words, pictures, graphs, or otherwise designed to supplement, detract from, supersede, or defeat the purpose or effect of any prospectus or disclosure.

(7) **"Related person"** means any person, directly or indirectly, controlling or controlled by the investment adviser, and any person that is under common control with the investment adviser.

(b) **Safekeeping required.** It is unlawful and deemed to be a fraudulent, deceptive, or manipulative act, practice, or course of business for an investment adviser, registered or required to be registered, to have custody of client funds or securities unless:

(1) **Notice to Administrator.** The investment adviser notifies the Administrator promptly in writing that the investment adviser has or may have custody. Such notification is required to be given on Form ADV.

(2) **Qualified custodian.** A qualified custodian maintains those funds and securities:

- (A) in a separate account for each client under that client's name; or
- (B) in accounts that contain only the investment adviser's clients' funds and securities, under the investment adviser's name as agent or trustee for the clients, or, in the case of a pooled investment vehicle that the investment adviser manages, in the name of the pooled investment vehicle.

(3) **Notice to clients.** If an investment adviser opens an account with a qualified custodian on its client's behalf, under the client's name, under the name of the investment adviser as agent, or under the name of a pooled investment vehicle, the investment adviser must notify the client in writing of the qualified custodian's name, address, and the manner in which the funds or securities are maintained, promptly when the account is opened and following any changes to this information. If the investment adviser sends account statements to a client to which the investment adviser is required to provide this notice, the investment adviser must include in the notification provided to that client and in any subsequent account statement the investment adviser sends that client a statement urging the client to compare the account statements from the custodian with those from the investment adviser.

(4) **Account statements.** The investment adviser has a reasonable basis, after due inquiry, for believing that the qualified custodian sends an account statement, at least quarterly, to each client for which it maintains funds or securities, identifying the amount of funds and of each security in the account at the end of the period and setting forth all transactions in the account during that period.

(5) **Special rule for limited partnerships and limited liability companies.** If the investment adviser or a related person is a general partner of a limited partnership (or managing member of a limited liability company, or holds a comparable position for another type of pooled investment vehicle),

(A) the account statements required under (4) of this subsection must be sent to each limited partner (or member or other beneficial owner), and

(B) the investment adviser must:

(i) enter into a written agreement with an independent party who is obliged to act in the best interest of the limited partners, members, or other beneficial owners to review all fees, expenses, and capital withdrawals from the pooled accounts;

(ii) send all invoices or receipts to the independent party, detailing the amount of the fee, expenses, or capital withdrawal and the method of calculation such that the independent party can:

(I) determine that the payment is in accordance with the pooled investment vehicle standards (generally the partnership agreement or membership agreement) and

(II) forward, to the qualified custodian, approval for payment of the invoice with a copy to the investment adviser.

(6) **Independent verification.** The client funds and securities of which the investment adviser has custody are verified by actual examination at least once during each calendar year, by an independent certified public accountant, pursuant to a written agreement between the investment adviser and the independent certified public accountant, at a time that is chosen by the independent certified public accountant without prior notice or announcement to the investment adviser and that is irregular from year to year. The written agreement must provide for the first examination to occur within six months of becoming subject to this paragraph, except that, if the investment adviser maintains client funds or securities pursuant to this Section as a qualified custodian, the agreement must provide for the first examination to occur no later than six months after obtaining the internal control report. The written agreement must require the independent certified public accountant to:

(A) file a certificate on Form ADV-E with the Administrator within 120 days of the time chosen by the independent certified public accountant in this paragraph, stating that it has examined the funds and securities and describing the nature and extent of the examination;

(B) notify the Administrator within one business day of the finding of any material discrepancies during the course of the examination, by means of a facsimile transmission or electronic mail, followed by first class mail, directed to the attention of the Administrator; and

(C) file within four (4) business days of the resignation or dismissal from, or other termination of, the engagement, or removing itself or being removed from consideration for being reappointed, Form ADV-E accompanied by a statement that includes:

(i) the date of such resignation, dismissal, removal, or other termination, and the name, address, and contact information of the independent certified public accountant; and

(ii) an explanation of any problems relating to examination scope or procedure that contributed to such resignation, dismissal, removal, or other termination.

(7) **Investment advisers acting as qualified custodians.** If the investment adviser maintains, or if the investment adviser has custody because a related person maintains, client funds or securities pursuant to this Section as a qualified custodian in connection with advisory services the investment adviser provides to clients, the investment adviser must obtain, or receive from its related person, within six months of becoming subject to this paragraph and thereafter no less frequently than once each calendar year a written internal control report prepared by an independent certified public accountant:

(A) The internal control report must include an opinion of an independent certified public accountant as to whether controls have been placed in operation as of a specific date, and are suitably designed and are operating effectively to meet control objectives relating to custodial services, including the safeguarding of funds and securities held by either the investment adviser or a related person on behalf of the investment adviser's clients, during the year; and

(B) The independent certified public accountant must verify that the funds and securities are reconciled to a custodian other than the investment adviser or the investment adviser's related person.

(8) **Independent representatives.** A client may designate an independent representative to receive, on his behalf, notices and account statements as required under (3) and (4) of this subsection.

(c) **Exceptions.**

(1) **Shares of mutual funds.** With respect to shares of an open-end company as defined in Section 5(a)(1) of the 1940 Act [~~15 U.S.C. 80a-5(a)(1)~~][15 U.S.C. §80a05(a)(1)] ("mutual fund"), the investment adviser may use the mutual fund's transfer agent in lieu of a qualified custodian for purposes of complying with (b) of this Section.

(2) **Certain privately offered securities.**

(A) The investment adviser is not required to comply with (b)(2) of this Section with respect to securities that are:

- (i) acquired from the issuer in a transaction or chain of transactions not involving any public offering;
- (ii) uncertificated, and ownership thereof is recorded only on books of the issuer or its transfer agent in the name of the client; and
- (iii) transferable only with prior consent of the issuer or holders of the outstanding securities of the issuer.

(B) Notwithstanding (A) of this paragraph, the provisions of this paragraph are available with respect to securities held for the account of a limited partnership (or limited liability company, or other type of pooled investment vehicle) only if the limited partnership is audited and the audited financial statements are distributed as described in (4) of this subsection, and the investment adviser notifies the Administrator in writing that the investment adviser intends to provide audited financial statements as described in (4) of this subsection. Such notification is required to be given on Form ADV.

(3) **Fee deduction.** Notwithstanding (b)(6) of this Section, an investment adviser is not required to obtain an independent verification of client funds and securities maintained by a qualified custodian if all of the following are met:

(A) The investment adviser has custody of the funds and securities solely as a consequence of its authority to make withdrawals from client accounts to pay its advisory fee;

(B) The investment adviser has written authorization from the client to deduct advisory fees from the account held with the qualified custodian;

(C) Each time a fee is directly deducted from a client account, the investment adviser concurrently:

- (i) sends the independent party designated pursuant to (b)(5)(B)(i) of this Section an invoice or statement of the amount of the fee to be deducted from the client's account; and
- (ii) sends the client an invoice or statement itemizing the fee. Itemization includes the formula used to calculate the fee, the amount of assets under management the fee is based on, and the time period covered by the fee.

(D) The investment adviser notifies the Administrator in writing that the investment adviser intends to use the safeguards provided in this paragraph. Such notification is required to be given on Form ADV.

(4) **Limited partnerships subject to annual audit.** An investment adviser is not required to comply with (b)(3) and (b)(4) of this Section and shall be deemed to have complied with (b)(6) of this Section with respect to the account of a limited partnership (or limited liability company, or another type of pooled investment vehicle) if each of the following conditions are met:

(A) The adviser sends to all limited partners (or members or other beneficial owners) at least quarterly, a statement showing:

- (i) the total amount of all additions to and withdrawals from the fund as a whole as well as the opening and closing value of the fund at the end of the quarter based on the custodian's records;
- (ii) a listing of all long and short positions on the closing date of the statement in accordance with FASB Rule ASC 946-210-50; and
- (iii) the total amount of additions to and withdrawals from the fund by the investor as well as the total value of the investor's interest in the fund at the end of the quarter.

(B) At least annually the fund is subject to an audit and distributes its audited financial statements prepared in accordance with generally accepted accounting principles to all limited partners (or members or other beneficial owners) within 120 days of the end of its fiscal year;

(C) The audit is performed by an independent certified public accountant;

(D) Upon liquidation, the adviser distributes the fund's final audited financial statements prepared in accordance with generally accepted accounting principles to all limited partners (or members or other beneficial owners) and the Administrator promptly after the completion of such audit;

(E) The written agreement with the independent certified public accountant must require the independent certified public accountant to, upon resignation or dismissal from, or other termination of, the engagement, or upon removing itself or being removed from consideration for being reappointed, notify the Administrator within four business days accompanied by a statement that includes:

- (i) The date of such resignation, dismissal, removal, or other termination, and the name, address, and contact information of the independent certified public accountant; and
- (ii) An explanation of any problems relating to audit scope or procedure that contributed to such resignation, dismissal, removal, or other termination.

(F) The investment adviser must also notify the Administrator in writing that the investment adviser intends to employ the use of the statement delivery and audit safeguards described in this paragraph. Such notification is required to be given on Form ADV.

(5) **Registered investment companies.** The investment adviser is not required to comply with this Section with respect to the account of an investment company registered under the 1940 Act [~~15 U.S.C. 80a-1 to 80a-64~~][15 U.S.C. §80a-1 to 80a-64].

(6) **Delivery to Related Persons.** Sending an account statement under (b)(5) of this Section or distributing audited financial statements under (4) of this subsection shall not satisfy the requirements of this Section if such account statements or financial statements are sent solely to limited partners (or members or other beneficial owners) that themselves are limited partnerships (or limited liability companies, or another type of pooled investment vehicle) and are related persons of the investment adviser.

- (1) changes in officers, directors and other management personnel identified in the Registration Statement, including those persons who would have been identified in the Registration Statement had the change occurred prior to making the initial filing;
- (2) a change of 10% or more in the equity ownership of the issuer by persons identified in the Registration Statement as principal security holders or by persons who would have been so described had the change occurred prior to making the initial filing;

Nothing in this rule obviates the need for registrants to comply with the provisions of Section 1-501 of the Securities Act.

### 660:11-9-34. Application of NASAA Statements of Policy and guidelines [AMENDED]

(a) **Application of NASAA Statements of Policy and guidelines.** The Administrator in the Administrator's discretion may apply any Statements of Policy or guidelines adopted by NASAA, or its successors, to a registration of securities pursuant to the Securities Act.

## 660:11-9-36. Promoters' and organizers' equity contributions [AMENDED]

(a) **Requirement.** Where an issuer is a promotional or development stage company as defined in 660:11-11-1, the ratio of equity investment by promoters or insiders must be determined as reasonable and equitable in light of the facts and circumstances presented in each particular case. Cases where the fair value of such equity investment is less than 10% of the total offering are discouraged, and in such instances, the proponents of the registration shall have the burden of establishing that the offering is being made without unfair or unreasonable amounts of promoters' profits or participation, as provided in Section ~~1-306.A.7.b~~ 1-306(A)(7)(b) of the Securities Act.

(b) **Presumption.** In those instances where only 5% or more has been contributed by promoters or organizers, but where they have entered into bona fide and binding subscription contracts exercisable within one year with the new enterprises for capital stock representing the difference between the amount contributed and 10%, then the burden of proof will be deemed to have been satisfied.

(c) **Determination of equity investment.** The fair value of equity investment shall be deemed to mean the total of all sums conveyed to the issuer in the form of paid-in or contributed cash or other assets with an established or determinable value. In those cases where the issuer has experienced losses from operations, the fair value of equity investment shall be the net worth of the issuer as of the date of the proposed offering determined in accordance with generally accepted accounting principles.

(d) **Burden of proof.** The burden of justifying as equitable the quantity of promotional securities to be issued for assets so conveyed, and of establishing reasonable or market value of said assets, shall rest with the applicant.

Offers and sales of an offering will be deemed integrated with offers and sales of another offering when a review of the integration factors provided by (b) of this section indicates that the offers and sales are part of a larger offering. Integration may occur between two (2) claimed exempt offerings as well as between a claimed exempt offering and a registered offering.

(b) **Factors.** The following five (5) factors are deemed relevant to a determination as to whether or not two (2) different offerings are in fact integrated and thus part of a larger offering:

- (1) the different offerings are part of single plan of financing;
- (2) the offerings involve the issuance of the same class of security;
- (3) the offerings are made at or about the same time;
- (4) the same type of consideration is to be received;
- (5) the offerings are made for the same general purpose.

(c) **Case by case determination.** Determination as to whether or not integration has occurred between two offerings shall be made on a case by case basis. The presence of all the integration factors shall not be required to establish the integration of two (2) offerings.

### 660:11-11-5. Application of NASAA Statements of Policy and guidelines [AMENDED]

(a) **Application of NASAA Statements of Policy and guidelines.** The Administrator in the Administrator's discretion may apply any Statements of Policy or guidelines adopted by NASAA, or its successors, as applicable, to the proposed offer or sale of a security for which notice of exemption of securities must be filed under the Securities Act.

(b) **Cross-reference sheet.** Issuers, or interested persons on the issuer's behalf, shall prepare a cross-reference sheet setting out each section of the Statement of Policy or guideline applied by the Administrator pursuant to this Section, and reflecting the document and page numbers where compliance with each section of the Statement of Policy or guideline is disclosed. Any variance or failure to comply with particular sections of an applicable Statement of Policy or guideline shall be noted by the issuer and the reasons for the variance shall be fully stated.

(c) **Failure to comply.** Failure to comply with any provision of an applicable Statement of Policy or guideline promulgated by NASAA may serve as the grounds for denial of the registration exemption.

(d) **Waiver provisions.** The Administrator in the Administrator's discretion may waive any of the requirements of the Statements of Policy or guidelines upon written request of the registrant, if the Administrator finds that the requirement is not necessary to protect the public interest under the circumstances. described in the ~~registration statement~~ notice of exemption.

## **660:11-11-6. Abandoned filings [NEW]**

A request for exemption under Sections 1-201, 1-202, or 1-203 of the Securities Act shall be deemed abandoned if such request is not effective in the state of Oklahoma within one year from the date of receipt by the Department of the initial filing of the request for exemption, unless the Administrator for good cause grants an extension in writing. Once deemed abandoned, the original request shall not be reinstated. New requests shall include the refiling of all documents and the payment of all fees as required by the Securities Act and/or Rules.

## **PART 3. EXEMPT SECURITIES**

### **660:11-11-21. Not for profit debt securities notice filing [AMENDED]**

(a) **Securities exempt.** With respect to the offer or sale of a note, bond, debenture, or other evidence of indebtedness, such issuers relying upon the exemption from registration provided in Section ~~1-201.7~~ 1-201(7) of the Securities Act shall file a notice with the Administrator at least ten (10) full business days prior to the first offering of sale pursuant to such claim. Such exemption shall become effective ten (10) full business days after the filing of a complete notice if the Administrator has not disallowed the exemption.

(b) **Notice information.** The notice required in (a) shall specify, in writing, the material terms of the proposed offer or sale to include, although not limited to, the following:

- (1) the identity of the issuer;
- (2) the amount and type of securities to be sold pursuant to the exemption;
- (3) a description of the use of proceeds of the securities; and
- (4) the person or persons by whom offers and sales will be made.

(c) **Notice requirements.** The following items must be included as a part of the notice in (a):

- (3) the fee required by Section 1-612 of the Securities Act.

(d) **Sales and advertising literature.** All proposed sales and advertising literature to be used in connection with the proposed offer or sale of the securities shall be filed with the Administrator only upon request.

(e) **Waiver.** The Administrator may waive any term or condition set forth in this Section.

## **PART 5. EXEMPT TRANSACTIONS**

### **660:11-11-40. Manual exemption [AMENDED]**

(a) **Recognized securities manuals.** The publications recognized by the Administrator for purposes of the exemption from registration set forth in Section ~~1-202.2-d~~ 1-202(2)(d) of the Securities Act are as follows:

- (1) Best's Insurance Reports, Life-Health
- (2) Mergent's Industrial Manual
- (3) Mergent's International Manual
- (4) OTC Markets Group Inc. with respect to securities included in the OTCQX and OTCQB markets.

(b) **Additional requirements.** To be eligible for the exemption from registration provided by Section ~~1-202.2-d~~ 1-202(2)(d) of the Securities Act, the following additional conditions must be met:

(1) All information specified as required to be contained in the recognized securities manuals pursuant to Section ~~1-202.2-d~~ 1-202(2)(d) of the Securities Act must be given to the purchaser with the confirmation by providing the purchaser with a copy of either:

- (A) the information contained in the manual listing; or
- (B) the information maintained by the broker-dealer effecting the transaction that is required to be kept by such broker-dealer pursuant to the requirements of SEC-Rule 15c2-11 ~~promulgated under the provisions of the 1934 Act~~ [17 C.F.R. §240.15c2-11].

(2) The information required under (1) of this subsection must be reasonably current in all material respects. The time for determining whether the information is current is at the date of the particular sale not the date the manual listing is published. For purposes of this paragraph, the term "reasonably current" has the meaning set forth in SEC-Rule 15c2-11 ~~under the 1934 Act~~ [17 C.F.R. §240.15c2-11].

- (3) The financial statements of the issuer required pursuant to Section ~~1-202.2-1-202(2)(d)~~ of the Securities Act must be audited by an independent public accountant in accordance with generally accepted auditing standards, presenting fairly, in all material respects, the financial condition of the issuer; provided, if the issuer is an entity formed and operating under the laws of a foreign jurisdiction, the financial statements are to be audited in accordance with the auditing standards applicable in its jurisdiction of formation and operation.
- (4) The issuer of the security, including any predecessors, has either:
- (A) been in continuous business or operations for at least two (2) years, unless the issuer is an insurance company in which event it has been in business for at least five (5) years; or
  - (B) had a class of equity securities registered under Section 1-301 of the Securities Act within the past five (5) years.
  - (C) As used in this paragraph, "business or operations" means actual activities related to its current business or operations and does not include an issuer merely holding funds or assets for future use.
- (5) Sales must be made by a broker-dealer, either as principal or agent, who is registered under the provisions of Section 1-401 of the Securities Act.
- (6) The securities must be offered or sold at a price reasonably related to the current market price of such securities.
- (7) The securities must be issued and outstanding. The exemption is not available for issuer transactions. For purposes of this paragraph, "issuer" includes all officers, directors and controlling (5% or more) shareholders of the issuer.
- (8) The security does not constitute the whole or any part of an unsold allotment to, or subscription or participation by, the broker-dealer as an underwriter of the security.

**(c) Restriction for promotional or development stage companies.** This exemption may not be used to evade the registration requirements of Section 1-301 of the Securities Act. Accordingly, transactions in reliance on this exemption for the securities of an issuer which is a promotional or development stage company as defined in 660:11-11-1, involving securities that have not been registered for offer or sale in the state of Oklahoma and which securities would not have met the requirements for registration set forth in Sections 1-303 or 1-304 of the Securities Act and the rules promulgated thereunder, had the securities been filed for registration pursuant to such sections of the Securities Act, may be deemed to have violated this requirement unless proven otherwise.

**(d) Exemption.** The requirements of (b)(1) of this Section do not apply to the sale of the securities of an issuer who has net tangible assets in excess of \$10,000,000.00 (U.S.) as determined by its most recent audited financial statements. For foreign issuers, the net tangible asset value may be determined by applying the exchange rate in effect as of the date of the financial statement relied upon unless there has been a material change in such exchange rate after the date of the financial statement that would reduce by greater than 20% the value in U.S. dollars. In that event, the exchange rate applied should be the rate effective as of the last day of the preceding month. Nothing in this ~~Section~~ releases the broker-dealer effecting the transaction from its obligation to maintain the information required by ~~SEC~~ Rule 15c2-11 under the 1934 Act [17 C.F.R. §240.15c2-11] and to deliver any such information to any person involved in a transaction effected in the security, upon request by such person.

### **660:11-11-42. Existing securitiessecurity holders exemption [AMENDED]**

**(a) Terms of the exemption.** Under the authority of Section ~~1-202.151-202(15)~~ of the Securities Act, transactions meeting the following conditions are exempt from Sections 1-301 and 1-504 of the Securities Act:

- (1) **Sales to existing security holders.** The issuer meets all of the requirements set forth in Section ~~1-202.151-202(15)~~ of the Securities Act.

    - (i) the identity of the issuer;
    - (ii) the amount and type of securities to be sold pursuant to the exemption;
    - (iii) a description of the type of proceeds of the securities; and
    - (iv) the person or persons by whom offers and sales will be made.

# Permanent Final Adoptions

---

(b) **Sales and advertising literature.** All proposed sales and advertising literature to be used in connection with the proposed offer or sale of the securities shall be filed with the Administrator only upon the Administrator's request.

(c) **Gifts excluded.** For purposes of the exemption from registration set forth in Section ~~1-202.151-202(15)~~ of the Securities Act, the term "existing security holder" shall not include a person who is a security holder of an issuer only by the receipt of securities as a gift by said issuer; consequently, the exemption from registration set forth in Section ~~1-202.151-202(15)~~ of the Securities Act would not be available in connection with transactions to such security holders. For purposes of this Section, a distribution of securities shall be deemed to be a gift if the security holder does not give consideration in exchange for the securities.

(d) **Waiver.** The Administrator may waive any term or condition set forth in this Section.

## 660:11-11-43. Coordinated limited offering exemption [AMENDED]

### (a) Preliminary notes.

(1) Nothing in this exemption is intended to or should be construed as in any way relieving issuers or persons acting on behalf of issuers from providing disclosure to prospective investors adequate to satisfy the antifraud provisions of the Securities Act.

(2) In view of the objective of this Section and the purposes and policies underlying the Securities Act, the exemption is not available to any issuer with respect to any transaction which, although in technical compliance with this Section, is part of a plan or scheme to evade registration or the conditions or limitations explicitly stated in this Section.

(3) Nothing in this Section is intended to relieve registered broker-dealers or agents from the due diligence, suitability, or know your customer standards or any other requirements of law otherwise applicable to such registered persons.

(b) **Terms of the exemption.** By authority delegated to the Administrator in Section 1-203 of the Securities Act, the following transactions are determined to be classes of transactions for which registration is not necessary or appropriate for the protection of investors and are exempt from Sections 1-301 and 1-504 of the Securities Act: any offer or sale of securities exempted from Section 5 of the 1933 Act (15 U.S.C. § 77e) pursuant to Section 4(a)(5) [15 U.S.C. § 77d(a)(5)] thereof; or any offer or sale of securities offered or sold in compliance with the 1933 Act, under SEC Rule 504 of Regulation D, Rule 504 under the 1933 Act [17 C.F.R. § 230.504][17 C.F.R. § 230.504], including any offer or sale made exempt by application of SEC Rule 508(a) of Regulation D under the 1933 Act, Rule 508(a) [17 C.F.R. § 230.508(a)][17 C.F.R. § 230.508(a)]; provided the following further conditions and limitations are satisfied:

- (1) offering expenses do not exceed those allowed for securities registered pursuant to the provisions of this title;
- (2) no general advertising or general solicitation is used; and
- (3) the issuer files with the Administrator no later than fifteen (15) days after the first sale of securities subject to the Securities Act one(1) signed copy of the notice of sales on Form D as most recently filed with the SEC. Such filing shall also include the following:

(A) an undertaking by the issuer to furnish to the Administrator, upon written request, the information furnished by the issuer to offerees;

(B) unless otherwise available, a consent to service of process on Form U-2 and (if applicable) Form U-2A; and

(C) the notice of exemption fee required by Section ~~1-612.A.121-612(A)(12)~~ of the Securities Act.

(c) **Substantial compliance.** A failure to comply with a term, condition or requirement of (b)(3) of this Section will not result in the loss of the exemption from the requirements of Section 1-301 of the Securities Act for any offer or sale to a particular individual or entity if the person relying on the exemption shows:

- (1) the failure to comply did not pertain to a term, condition or requirement directly intended to protect that particular individual or entity;
- (2) the failure to comply was insignificant with respect to the offering as a whole; and
- (3) a good faith and reasonable attempt was made to comply with all applicable terms, conditions and requirements of (b)(3) of this Section.

(d) **Action by Administrator.** Where an exemption is established only through reliance upon (c) of this Section, the failure to comply shall nonetheless be actionable by the Administrator under the Securities Act.

(e) **Reliance on other exemptions.** Transactions that are exempt under this Section may not be combined with offers and sales exempt under any other rule or any section of the Securities Act; however, nothing in this limitation shall act as an election. Should for any reason the offer and sale fail to comply with all of the conditions of this exemption, the issuer may claim the availability of any other applicable exemption.

(f) **Waiver of terms.** The Administrator may, by rule or order, increase the number of purchasers or waive any other conditions of this exemption.

(g) **Title.** The exemption authorized by this section shall be known and may be cited as the "Oklahoma Coordinated Limited Offering Exemption".

## 660:11-11-52. Oklahoma accredited investor exemption [AMENDED]

(2) **Investment intent.** The issuer reasonably believes that all purchasers are purchasing for investment and not with the view to or for sale in connection with a distribution of the security. Any resale of a security sold in reliance on this exemption within 12 months of sale shall be presumed to be with a view to distribution and not for investment, except a resale pursuant to a registration statement effective under Sections 1-303 or 1-304 of the Securities Act or to an accredited investor pursuant to an exemption from securities registration under the Securities Act.

(3) **When exemption is unavailable.**

- (A) No telephone or electronic solicitation shall be permitted unless prior to placing the telephone or electronic solicitation, the issuer reasonably believes that the prospective purchaser to be solicited is an accredited investor.

(a) Partial release of a tax warrant or lien may be issued for adequate consideration under the following circumstances:

- (1) Where there is a short sale and the lien of an outstanding tax warrant is unenforceable or uncollectible due to the existence of a prior lien(s) held on the parcel of realty, and the amount of the outstanding prior lien(s) exceeds the amount such property would bring at a sale of the property for fair market value;
- (2) Where the lien of an outstanding tax warrant is unenforceable or uncollectible due to the existence of a prior outstanding mortgage lien(s) held by the requesting party on the parcel of realty, and the amount of the outstanding mortgage lien(s) exceeds the amount such property would bring at a foreclosure sale;
- (3) Where a mortgage lien(s) has been foreclosed in an action in a District Court but where there has been a failure to name the State of Oklahoma ex rel, Oklahoma Tax Commission as a party defendant in the foreclosure action and there exists no likelihood of collection or enforceability of a tax warrant against a particular parcel of realty;

- (8) Where the denial of the partial release would result in an undue expense or hardship on the requesting party; ~~or~~

## **SUBCHAPTER 5. PRACTICE AND PROCEDURE**

### **PART 3. DESCRIPTION OF ADMINISTRATIVE REVIEW AND HEARINGS**

#### **710:1-5-10.1. Protests / Demands for hearing [AMENDED]**

(a) A protest is described as a formal, written challenge to a proposed tax assessment or to the denial of a claim for refund of taxes paid. A taxpayer may challenge a proposed tax assessment through the filing of a letter of protest pursuant to 68 O.S. § 221(C). A letter of protest may also contain a request for hearing. A taxpayer may challenge the denial of a claim for refund through the filing of a demand for hearing pursuant to 68 O.S. § 227(D). The statutory requirements for perfecting a protest or claim for refund are governed, generally, by the provisions of the Uniform Tax Procedure Code (68 O.S. §§ 201 et seq.), except in the area of Income Tax (Article 23 of Title 68 of the Oklahoma States) which have additional, and in some instances, superseding, statutory requirements.

(b) All letters of protest and demands for hearing must be timely filed. The letter of protest or demand for hearing must be filed on, or before, the statutory deadline provided for filing to ensure that the taxpayer preserves its legal rights, including but not limited to a full hearing of the matter and a route for appeal if the matter is not resolved in favor of the taxpayer. A proposed assessment which is not protested within the time prescribed by statute is final and absolute. A denied claim for refund for which a demand for hearing is not filed within the time prescribed by statute is forever barred.

(c) Letters of protest of a proposed assessment must be filed within sixty (60) days of the issue date indicated on the proposed assessment pursuant to the provisions of 68 O.S. § 221(C). Letters of protest ~~must~~ should be filed with the taxing division, either online through OkTAP via the Protest link at tax.ok.gov, by mail addressed to ~~Oklahoma Tax Commission, Oklahoma City, OK 73194~~ the address indicated in the letter, or in person at the Taxpayer Resource Center located at 300 N. Broadway, Oklahoma City, OK 73102.

(d) Demands for hearing relating to denial of a claim for refund must be filed within sixty (60) days of the issue date indicated on the notice of denial. Demands for hearing ~~must~~ should be filed with the taxing division, either online through OkTAP via the Demand for Hearing link at tax.ok.gov, by mail addressed to ~~Oklahoma Tax Commission, Oklahoma City, OK 73194~~ the address indicated in the letter, or in person at the Taxpayer Resource Center located at 300 N. Broadway, Oklahoma City, OK 73102.

- (e) Taxpayers may have discussions with the taxing division and submit additional documentation in an effort to resolve the matter, but such discussions and/or review of documentation does not remove the requirement or extend the deadline to file a written protest or demand for hearing within sixty (60) days of the date the assessment letter or denial of a claim for refund was issued.
- (f) A taxpayer who fails to file a timely protest to a proposed assessment may, within one (1) year of the date the assessment becomes final, request the Tax Commission adjust or abate the assessment pursuant to 68 O.S. § 221(E) and the provisions of Part 7 of this Subchapter.
- (g) Detailed procedural rules governing protests and demands for hearing may be found in 710:1-5-21 through 710:1-5-49, which set out rules of Practice and Procedure before the Office of the Administrative Law Judges.

The Administrative Law Judge shall give effect to the rules of privilege recognized by law. Objections to evidentiary offers may be made and shall be noted in the record. # Permanent Final Adoptions

## 710:45-9-81.1. Determination of average production volume and monthly average price of oil and gas [AMENDED]

(a) Average production volume shall be determined based upon the lease classification, wherein only the primary product shall be used to determine the average production volume. For example, an oil lease that produced 2,789 barrels over 342 active production days during the calendar year would have an average volume of 8.16 barrels per day. For example:

(1) An oil lease that produced 2,789 barrels over 342 active production days during the calendar year would have an average volume of 8.15 barrels per day.

(2) A gas lease that produced 13,481 MCF with a btu rate of 1.076 over 281 active production days during the calendar year would have an average volume of 51.62 MMBtu per day.

(b) Monthly average price of oil shall be determined by taking the gross value of oil produced during the calendar year divided by the gross volume of oil produced from the lease, based on a per-barrel measurement of forty-two (42) U.S. gallons of two hundred thirty-one (231) cubic inches per gallon, computed at a temperature of sixty (60) degrees Fahrenheit.

(c) Monthly average price of gas shall be determined by taking the gross value of natural gas produced during the calendar year divided by the gross volume of natural gas produced based on a measurement of one million (1,000,000) British thermal units (MMBtu).

## 710:45-9-83. Certification [AMENDED]

(a) **General provisions.** This Section establishes criteria for determining whether an operator of an economically at-risk oil lease has met the required conditions to apply for an exemption from gross production tax levied on such and establishes a procedure for the issuance of the refund.

(b) **Application to Oklahoma Tax Commission; determination; approval.** Any operator who desires to make application to have a lease certified as being economically at-risk shall submit electronically through the Oklahoma Taxpayer Access Point (OKTAP) the following information at the time of submission:

(5) Copies of the daily production reports for the calendar year applied; and

(6) A Percent of Proceeds (POP) statement is required to support ratios when MMBtu to MCF is not 1:1.

(c) **Qualifying lease.** A qualifying lease shall include a gas lease and an oil lease but shall not include a brine lease.

**GIST/ANALYSIS:**

Several proposed amendments to the existing rules have been made to implement recent legislation. The proposed amendment to Section 710:50-1-7 increases the charge for copying income tax returns. This increase is intended to cover the expenses associated with locating, printing, and mailing these documents. The proposed amendments to Sections 710:50-3-47, 710:50-19-4 and 710:50-21-4 correct internal cross references and implement the provisions of HB 3559 which relates to the pass-through entity tax election. Beginning in tax year 2024, a qualifying entity may make the election on their Oklahoma income tax return. [68:2355.1P-4] The proposed amendment to Section 710:50-15-52 clarifies current law that out-of-state income includes income from real or tangible personal property or business income outside of Oklahoma. [68:2358(A)(4)] The proposed amendment to Section 710:50-15-62 updates the corporate income tax rate, which was reduced to 4% beginning with tax year 2022. [68:2355(E)] The proposed amendment to Section 710:50-15-81 implements the provisions of HB 3051, relating to the income tax credit for investments in qualified clean burning motor vehicle fuel property, which provides for a reallocation of tax credits if one or two of the categories hit the \$10 million cap and clarifies the treatment of leased equipment, and clarifies the maximum amount of the credit is based on the weight of the vehicle. [68 O.S. § 2357.22] The proposed amendment to Section 710:50-15-109 implements the provisions of HB 4072, relating to the income tax credit for qualified employers and employees of the aerospace sector, amending the definitions of "aerospace sector" and "qualified employee", and providing that a qualified employee may claim the credit for five nonconsecutive tax years. [68:2357.301,2357.304] The proposed amendment to Section 710:50-15-118, relating to the income tax credit for nonrecurring adoption expenses, clarifies the amount of the credit is 10% of nonrecurring adoption expenses, not to exceed \$2,000 (\$4,000 for a married filing joint return) per calendar year. [68:2357.601] The proposed promulgation of new Section 710:50-15-34, new Part 9 in Subchapter 15, amendment to Section 710:50-11-5, and revocation of Section 710:50-15-119, relating to the Oklahoma Parental Choice Tax Credit, implement the provisions of HB 3388 which amended definitions and qualifications, exempted the payments from offset, realigned the private school credit caps to a fiscal year, and timelines for implementation. [68:205.2(F), 70:28-101] Other sections may be amended to clarify policy, improve readability, correct scrivener's errors, remove obsolete language, update or correct citations, update contact information, and ensure accurate internal cross-references, which do not change the interpretation or intent of the rules.

(2) **For investments made on or after January 1, 1999.** If the exclusion for investment in agricultural processing facilities results in the reduction in total Oklahoma ~~Income Tax income tax~~ in excess of ~~one million dollars (\$1,000,000.00)~~ \$1,000,000 in any previous calendar year, the percentage of investment subject to exclusion will be adjusted. The adjusted percentage allowable will be determined by dividing ~~\$1,000,000.00~~ \$1,000,000 by ~~six~~ four percent (4%), then further dividing the result by the total previous year's investment subject to exclusion.

- (C) For fiscal year ending June 30, 2026, and subsequent fiscal years ending June 30, the total amount of credits shall not exceed \$250,000,000.

(2) The total amount of credits allowed may be reduced pursuant to the provisions 70 O.S. § 28-101(I).

**(e) Claiming the private school tax credit.**

(1) **Application.** If an Oklahoma taxpayer incurs or will incur a qualified expense on behalf of an eligible student during the school year, the taxpayer may be eligible to claim the private school tax credit. To apply for the credit, the taxpayer shall complete and submit an online application for each eligible student and include the following documentation and information with the application:

- (A) The name, address, and social security number or individual taxpayer identification number (ITIN) of the taxpayer.
- (B) The name, address, date of birth, and social security number or ITIN of the eligible student.
- (C) If the taxpayer is not the parent or legal guardian of the eligible student, the taxpayer shall provide a signed parental consent form to allow the taxpayer to apply for the credit on behalf of the eligible student.
- (D) Income verification of the parents or legal guardian of the eligible student, according to one of the following:
  - (i) Verification of federal AGI for the second preceding tax year of the parents or legal guardians of the eligible student, which may include providing copies of the applicable Oklahoma income tax return(s) or federal income tax return(s). If, at the time of submission of the tax credit application, the taxpayer has not filed the second preceding years' tax return, but had a filing requirement, and therefore AGI cannot be verified, the tax credit application will be denied and must be resubmitted once the second preceding tax year return is filed and

received by the Oklahoma Tax Commission. The resubmission date and time of a complete application will determine the applicant's place in line.

(ii) If the parents or legal guardians had no tax filing requirement for the second preceding tax year, the taxpayer shall attest within the application they did not have a tax filing requirement.

(iii) If a taxpayer is a recipient of income-based government benefits including the Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF), or SoonerCare/SoonerSelect, the taxpayer shall not be required to provide additional income verification. The taxpayer must attach documentation that shows he or she is a current recipient of the above-listed government benefits at the time of the tax credit application. Failure to attach the required documentation, without any other income verification documentation, may result in denial of the application. The resubmission date and time of a complete application will determine the applicant's place in line.

(E) An enrollment verification form completed by the private school in which the eligible student is enrolled or is expected to enroll with the following information:

(i) The name, address and date of birth of eligible student;

(ii) The designated semester(s) and school year during which the qualified expenses will be paid;

(iii) The name and address of the private school;

(iv) The name and telephone number of a contact person(s) with the private school; and

(v) The amount of qualified tuition and fees to be charged the taxpayer for the eligible student during the school year, less any scholarship or tuition and fees discounted or otherwise reduced by the school.

(2) **Review and submission.** The applicant is responsible for reviewing the information contained within the enrollment verification form and verifying its accuracy. Once the enrollment verification form is submitted with an application, the information included within the enrollment verification form cannot be changed. In order to adjust any information after an application has been submitted, a taxpayer must withdraw their application, request a new enrollment verification form from the private school, and submit a new application. The date and time of the new application will be used to determine applicant's place in line for the credit.

(3) **Application period opening date.** Beginning with the 2025-2026 school year and subsequent school years, the application period will open on February 15, at 9:00 a.m. (CST), prior to the beginning of the applicable school year. To ensure payment of the credit by August 30, processable applications must be submitted no later July 15. If February 15 falls on a Saturday, Sunday or official State of Oklahoma holiday, the application process will open on the next day that is not a Saturday, Sunday or official State of Oklahoma holiday.

(4) **Priority consideration.** For any eligible student whose parents or legal guardians have a combined federal AGI that does not exceed \$150,000, processable applications must be submitted to the Tax Commission on or before the sixtieth (60<sup>th</sup>) calendar day following the opening of the application period to receive priority consideration as authorized by 70 O.S. § 28-101(E). Priority will be given to eligible students of taxpayers who received the credit in the prior year and whose parents or legal guardians have a combined federal AGI that does not exceed \$150,000. After all timely-filed applications entitled to priority consideration have been reviewed and processed, the Tax Commission will review and process remaining applications for the credit in the order received, provided the Annual Cap has not been reached.

(5) **Notification of approval or denial.** Notification of tax credit approval will be sent to the applicant by email once a determination has been made that the application is complete and qualifies for the credit. For those applications that are denied, a letter will be mailed to the applicant, stating the reason for denial.

(6) **Application for review hearing.** If a taxpayer's application for the credit is denied, the taxpayer may request a hearing by filing OTC Form L-26, Application for Commission Hearing pursuant to the provisions of 68 O.S. § 207(c).

(A) The following supporting information and documentation must be included with the request:

The taxpayer may collect the check from the school or may choose to use all or part of the tax credit to pay their student's tuition and fees.

(B) In the event funds have to be recaptured, the taxpayer is responsible for repayment.

(8) **Spring 2025 credit payment.** A taxpayer who applied for and received a private school tax credit in tax year 2024 is not required to reapply for a credit payable for the period of January 1, 2025, through June 30, 2025. The amount of the credit payable for the spring 2025 semester will be the amount of the 2024 fall semester installment payment.

(11) **AGI determination.** The total federal AGI of an eligible student's parents or legal guardians shall be determined as follows:

(A) If the eligible student's parents or legal guardians have an income tax filing status of "married, filing jointly", the federal AGI reported on the parents' or legal guardians' second preceding year tax return will be used.

(B) If the eligible student's parents or legal guardians have an income tax filing status of "married, filing separately", the parents' or legal guardians' federal AGI reported on each tax return for the second preceding tax year will be added together to determine the federal AGI.

## **GIST/ANALYSIS:**

Several proposed amendments to the existing rules have been made to implement recent legislation. Section 710:65-1-7 is amended to add two new exemptions pursuant to SB 1445, as passed in the 2nd session of the 59th Legislature (2024). Pursuant to SB 1438 (2024), 710:65-1-11 is amended to add an exemption for a heavy equipment rental fee. Section 710:65-3-1 is amended to outline procedures for the suspension or revocation of sales tax accounts reporting zero business activity for twelve consecutive months. The proposed new section 710:65-13-159 outlines the application process and requirements for a new sales tax exemption for commercial mining of digital assets in a colocation facility pursuant to HB 1600 (2024). Section 710:65-13-275 is amended to align with a statutory change pursuant to SB 1252 (2024). The proposed amendments to Sections 710:65-11-1, 710:65-19-40, 710:65-19-109, 710:65-19-110, 710:65-19-212, and new Part 57. Food and Food Ingredients under Subchapter 13. Sales and Use Tax Exemptions implement the provisions of House Bill 1955 and Senate Bill 1283 (2024), which enacted a reduced state sales tax rate of zero percent (0%) on food and food ingredients beginning August 29, 2024. The rules provide definitions, outline procedures for determining the

taxability of products, and provide clarification on the application of existing rules with respect to the reduced state sales tax rate. Other sections may be amended to clarify policy, improve readability, correct scrivener's errors, remove obsolete language, update or correct citations, update contact information, and ensure accurate internal cross-references, which do not change the interpretation or intent of the rules.

## SUBCHAPTER 1. GENERAL PROVISIONS

### 710:65-1-2. Definitions [AMENDED]

\_\_\_\_\_The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

**"Business"** means any activity with the potential to generate a profit even if the business actually operates at a loss. This category also includes non-profit, religious and other organizations and persons who are otherwise exempt when they are conducting activities for a profit in competition with other businesses.

**"Bundled Transaction"** means the retail sale of two or more products, except real property and services to real property, where the products are otherwise distinct and identifiable, and the products are sold for one nonitemized price. A **"bundled transaction"** does not include the sale of any products in which the sales price varies, or is negotiable, based on the selection by the purchaser of the products included in the transaction. As used in this paragraph:

(A) **"distinct and identifiable products"** does not include:

- (i) packaging such as containers, boxes, sacks, bags, and bottles, or other materials such as wrapping, labels, tags, and instruction guides, that accompany the retail sale of the products and are incidental or immaterial to the retail sale thereof, including but not limited to, grocery sacks, shoeboxes, dry cleaning garment bags and express delivery envelopes and boxes;
- (ii) a product provided free of charge with the required purchase of another product. A product is provided free of charge if the sales price of the product purchased does not vary depending on the inclusion of the product provided free of charge, or
- (iii) items included in the definition of gross receipts or sales price, pursuant to this Section.

(B) **"one nonitemized price"** does not include a price that is separately identified by product on binding sales or other supporting sales-related documentation made available to the customer in paper or electronic form including, but not limited to an invoice, bill of sale, receipt, contract, service agreement, lease agreement, periodic notice of rates and services, rate card, or price list.

(C) A transaction that otherwise meets the definition of a **bundled transaction** shall not be considered a **bundled transaction** if it is:

- (i) the retail sale of tangible personal property and a service where the tangible personal property is essential to the use of the service, and is provided exclusively in connection with the service, and the true object of the transaction is the service;
- (ii) the retail sale of services where one service is provided that is essential to the use or receipt of a second service and the first service is provided exclusively in connection with the second service and the true object of the transaction is the second service;
- (iii) a transaction that includes taxable products and nontaxable products and the purchase price or sales price of the taxable products is de minimis. For purposes of this Section, "de minimis" means the seller's purchase price or sales price of taxable products is ten percent (10%) or less of the total purchase price or sales price of the bundled products. Sellers shall use either the purchase price or the sales price of the products to determine if the taxable products are de minimis. Sellers may not use a combination of the purchase price and sales price of the products to determine if the taxable products are de minimis. Sellers shall use the full term of a service contract to determine if the taxable products are de minimis; or
- (iv) the retail sale of exempt tangible personal property and taxable tangible personal property where:

(I) the transaction includes food and food ingredients, drugs, durable medical equipment, mobility enhancing equipment, over-the-counter drugs, prosthetic devices or medical supplies, and

(II) the seller's purchase price or sales price of the taxable tangible personal property is fifty percent (50%) or less of the total purchase price or sales price of the bundled tangible personal property. Sellers may not use a combination of the purchase price and sales price of the tangible personal property when making the fifty percent (50%) determination for a transaction.

**"Consumer"** or **"user"** means a person to whom a taxable sale of tangible personal property is made or for whom a taxable service is performed.

**"Consideration"** means and includes, but is not limited to:

(C) No deduction from gross receipts is permitted for services performed or work done on behalf of the vendor prior to transfer of such tangible personal property. [See: 68 O.S. § ~~1352~~(12)1352]

**"Delivery charges"** means charges by the seller of personal property or services for preparation and delivery to a location designated by the purchaser of personal property or services including, but not limited to, transportation, shipping, postage, handling, crating, and packing. **"Delivery charges"** does not include charges for the delivery of **"direct mail"** if the charges are separately-stated on an invoice or similar billing document given to the purchaser.

**"Gross receipts", "gross proceeds", or "sales price"** means the total amount of consideration including cash, credit, property, and services, for which personal property or services are sold, leased, or rented; valued in money, whether received in money or otherwise, without any deduction for the following:

(C) Any taxes legally imposed directly on the consumer that are separately stated on the invoice, bill of sale, or similar document given to the purchaser. [68 O.S. § ~~1352~~(12)1352]

**"Gross receipts", "gross proceeds", or "sales price"** shall include consideration received by the seller from third parties if:

(A) The seller actually receives consideration from a party other than the purchaser and the consideration is directly related to a price reduction or discount on the sale;

(B) The seller has an obligation to pass the price reduction or discount through to the purchaser;

(C) The amount of the consideration attributable to the sale is fixed and determinable by the seller at the time of the sale of the item to the purchaser; and

(D) One of the following criteria is met:

(i) The purchaser presents a coupon, certificate or other documentation to the seller to claim a price reduction or discount where the coupon, certificate or documentation is authorized, distributed or granted by a third party with the understanding that the third party will reimburse any seller to whom the coupon, certificate or documentation is presented;

(ii) The purchaser identifies himself or herself to the seller as a member of a group or organization entitled to a price reduction or discount; provided, a "preferred customer" card that is available to any patron does not constitute membership in such a group; or

(iii) The price reduction or discount is identified as a third-party price reduction or discount on the invoice received by the purchaser or on a coupon, certificate or other documentation presented by the purchaser.

**"Lease" or "rental"** means any transfer of possession or control of tangible personal property for a fixed or indeterminate term for consideration. A lease or rental may include future options to purchase or extend.

(A) **"Lease" or "rental"** does not include:

- (i) A transfer of possession or control of property under a security agreement or deferred payment plan that requires the transfer of title upon completion of the required payments;

- (iii) Providing tangible personal property along with an operator for a fixed or indeterminate period of time. A condition of this exclusion is that the operator is necessary for the equipment to perform as designed. For the purpose of this unit, an operator must do more than maintain, inspect, or set-up the tangible personal property.

(B) **"Lease" or "rental"** does include agreements covering motor vehicles and trailers where the amount of consideration may be increased or decreased by reference to the amount realized upon sale or disposition of the property as defined by 26 U.S.C. § 7701(h)(1).

(C) This definition shall be used for sales and use tax purposes if a transaction is characterized as a lease or rental under generally accepted accounting principles, the Internal Revenue Code, the Oklahoma Uniform Commercial Code (12A O.S. § 1-101 et seq.), or other provisions of federal, state, or local law.

**"Retail sale"** means any sale, lease, or rental for any purpose other than for resale, sublease, or subrent.

**"Sale"** means *the transfer of either title or possession of tangible personal property for a valuable consideration regardless of the manner, method, instrumentality, or device by which the transfer is accomplished in this state.* [68 O.S. § 1352] All consideration received for the sale is included in gross receipts subject to tax.

(A) **"Sale"** does include but is not limited to:

- (v) Any use of motor fuel or diesel fuel by a supplier, as defined in Section 500.3 of this title, upon which sales tax has not previously been paid, for purposes other than to propel motor vehicles over the public highways of this state. Motor fuel or diesel fuel purchased outside the state and used for purposes other than to propel motor vehicles over the public highways of this state shall not constitute a sale within the meaning of this paragraph.

(B) **"Sale"** does not include sale and leaseback.

**"Sales tax"** means all applicable state, city and county sales tax.

**"Sales value"** means:

(A) In the case of a manufacturer, the sum of the manufacturer's cost of raw materials and the proportionate share of both the cost of machinery and equipment used and the cost of items consumed in the direct process of the manufacturing of the product, all of which were purchased exempt from sales tax for use in the process of manufacturing; or

(B) In the case of a person holding a mixed beverage tax permit or other permit issued in accordance with 37A O.S. § 5-107, the total retail sales price for sales of alcoholic beverages only, calculated pursuant to *OAC 710:20-5-4*; or

(C) In the case of sales of prepared food, the sales value of a free, reduced price, or complimentary meal is presumed to be the greater of the consideration received for the meal, if any, or the cost paid by the vendor of the food for the food items included in the free, reduced price, or complimentary meal; or

# Permanent Final Adoptions

---

(D) In the case where an inventory of goods, originally purchased exempt for resale, is being held for rental or leasing purposes, the regular rental charges which would be charged to the vendor's best customer, if the goods are to be returned to inventory. Where the goods are not to be returned to inventory held for rental or leasing purposes, the lesser of the original purchase price of the goods, or the current market price will be presumed to be the sales value; or

(E) Otherwise, "**sales value**" means the larger of either the vendor's cost at the time the exempt purchase of goods was made, or the price at which it would be sold to the vendor's best customer in the ordinary course of business.

"**Tangible personal property**" means *personal property that can be seen, weighed, measured, felt, or touched or that is in any other manner perceptible to the senses*. For purposes of the Oklahoma Sales Tax Code, "**tangible personal property**" includes electricity, water, gas, steam and prewritten computer software. [68 O.S. § ~~1352(24)~~1352] The term does not include real property, such as land and buildings, tangible personal property that loses its identity when it becomes an integral and inseparable part of the realty, or tangible personal property which is removable only with substantial damage to the premises. Property severed from real estate becomes tangible personal property. "**Tangible personal property**" does not include intangible personal property constituting mere rights of action and having no intrinsic value, such as contracts, deeds, mortgages, stocks, bonds, certificates of deposit, or uncanceled United States postage or revenue stamps sold for postage or revenue purposes. [See: 68 O.S. § 1352; 68 O.S. § 1354; See Also: 60 O.S. §§ 7, 8]

"**Tax**" means all state, applicable city and applicable county tax.

"**Use tax**" means all applicable state and city use tax.

"**User**" or "**consumer**" means a person to whom a taxable sale of tangible personal property is made or for whom a taxable service is performed.

## 710:65-1-7. Consumer/user defined; specific applications [AMENDED]

"**Consumer**" or "**user**" means a person to whom a taxable sale of tangible personal property is made or for whom a taxable service is performed.

(1) **Hospitals, sanitariums, nursing homes and emergency medical care.** Hospitals and sanitariums are primarily engaged in the business of selling services, and for the purposes of the Sales Tax Code are considered to be the consumers or users of all tangible personal property and services used in the operation of the institution. Thus, the gross proceeds derived from sales of tangible personal property and certain services to such institutions are subject to tax. This paragraph applies to all hospitals, sanitariums and nursing homes, including those owned or operated by churches, fraternities, cooperatives, or any other organization, except those operated by the Federal Government, the State, or a political subdivision thereof.

(2) **Withdrawals from stock.** If any business purchases tangible personal property for resale, manufacturing or further processing and that business withdraws tangible personal property, either from its inventory or after such inventory has been manufactured or processed for its own use or consumption, that business has made a taxable sale and the value of the property withdrawn is taxable at its "**sales value**", as defined in *OAC 710:65-1-2*. The business withdrawing tangible personal property from inventory should include the "**sales value**" of such property in gross receipts or gross proceeds on its sales tax report for the month the property was withdrawn.

(3) **Contractors.** Contractors are consumers or users, and must pay sales tax on all taxable services and tangible personal property, including materials, supplies, and equipment, purchased to develop and improve real property. Examples of contractors subject to this paragraph are: painting contractors, road contractors, grading and excavating contractors, electrical contractors, plumbing contractors, and other persons engaged in a contractual arrangement to make improvements on real property. A person working for a salary or wage is not considered a contractor. The Sales Tax Code limits the ability of contractors to make purchases exempt from sales tax based on the exempt status of another entity to the following situations: [See: 710:65-7-6 and 710:65-7-13]

(A) A contractor who has a public contract, or a subcontractor to that public contract, with an Oklahoma municipality, county, public school district, city-county library system, an institution of the Oklahoma System of Higher Education, a rural water district, the Grand River Dam Authority, the Northeast Oklahoma Public Facilities Authority, the Oklahoma Municipal Power Authority, the City of Tulsa-Rogers County Port Authority, the Broken Bow Economic Development Authority, the Muskogee City-County Port Authority, the Oklahoma Ordnance Works Authority, the Durant Industrial Authority, the Ardmore Development Authority, the Oklahoma Department of Veterans Affairs, the Central Oklahoma Master Conservancy District, Arbuckle Master Conservancy District, Fort Cobb Master Conservancy District, Foss Reservoir Master Conservancy District, Mountain Park Master Conservancy District, Waurika Lake Master Conservancy District or the Office of Management and Enterprise Services only

when carrying out a public construction contract on behalf of the Oklahoma Department of Veterans Affairs, the Oklahoma State University Medical Authority and Trust, the Oklahoma State University Veterinary Medicine Authority and Trust, and effective July 1, 2022, the University Hospitals Trust may make purchases of tangible personal property or services, which are necessary for carrying out the public contract, exempt from sales tax.

(B) A contractor who has entered into a contract with a private institution of higher education or with a private elementary or secondary institution, may make purchases of tangible personal property or services, including materials, supplies and equipment used in the construction of buildings owned and used by the institution for educational purposes exempt from sales tax.

(C) A contractor who has contracted with an agricultural permit holder to construct a facility which will be used directly in the production of any livestock, including facilities used in the production and storage of feed for livestock owned by the agricultural permit holder, may make purchases of materials, supplies and equipment necessary to fulfill the contract, exempt from sales tax.

(D) A contractor may make purchases of materials, supplies and equipment necessary to fulfill a contract, exempt from sales tax, for use on campus construction projects for the benefit of institutions of the Oklahoma State System of Higher Education or private institutions of higher education accredited by the Oklahoma State Regents for Higher Education. The projects must be financed by or through the use of nonprofit entities which are exempt from taxation pursuant to Section 501(c)(3) of the Internal Revenue Code.

(E) A contractor may make purchases of machinery, equipment, fuels, and chemicals or other materials, exempt from sales tax, which will be incorporated into and directly used or consumed in the process of treatment of hazardous waste, pursuant to *OAC 710:65-13-80*. Contractors claiming exemption for purchases to be used to remediate hazardous wastes should obtain a letter certifying the exemption status from the Tax Commission by following the procedures set out in 710:65-13-80, and provide a copy of the letter to vendors, pursuant to subsection (f) of that rule.

(F) A contractor, or a subcontractor to such contractor, with whom a church has duly entered into a construction contract may make purchases of tangible personal property or services exempt from sales tax which are necessary for carrying out such construction contract.

(G) A contractor, or a subcontractor to such contractor, may make purchases of tangible personal property which is to be *consumed or incorporated in the construction or expansion of a facility for a corporation organized under Section 437 et seq. of Title 18 of the Oklahoma Statutes as a rural electric cooperative* exempt from sales tax.

(H) A contractor, or a subcontractor to such contractor, may make purchases of tangible personal property or services pursuant to a contractual relationship with a child care center, qualified for exemption pursuant 68 O.S. § 1356(69), for construction and improvement of buildings and other structures owned by the child care center and operated for educational purposes exempt from sales tax.

(I) A contractor, or a subcontractor to such contractor, may make purchases of tangible personal property or services exempt from sales tax pursuant to a contractual relationship with a manufacturer for the construction and improvement of manufacturing goods, wares, merchandise, property, machinery and equipment for use in a manufacturing operation classified under NAICS No. 324110 (Petroleum Refineries).

(4) **Repairmen.** Repairmen are persons engaged in the business of repairing tangible personal property. Parts incidental to the repair service which are consumed/used in making repairs are taxable to the repairman as a consumer/user. [See: 68 O.S. § 1352]

(2) A location used in conducting a hobby is not considered an **"established place of business"** even though occasional taxable sales are made from the location; i.e., a garage set up as a wood working shop. The occasional sales are taxable and are to be reported by the seller on a sales tax report as casual sales.

(b) **"Maintaining a place of business" defined.** **"Maintaining a place of business in this state"** means and shall be presumed to include:

(1) Utilizing or maintaining in this state, directly or through subsidiary the operations outlined in (A) through (E) of this paragraph whether owned or operated by the vendor or any other person, other than a common carrier acting in its capacity as such.

(A) an office (to include a home office),

(B) a distribution house,

(C) a sales house (such as a shop or store),

(D) a warehouse (could be in a home's garage), or

(E) any other physical place of business (a hot dog stand on wheels, a barbecue wagon parked on the roadside, or an ice cream truck traveling a route); or

(2) Having agents operating in this state such as salesmen, brokers, or wholesale buyers;

(A) Whether the place of business, or agent is within this state temporarily (traveling salesman, buyers for out-of-state firms) or permanently (shop or store in a mall); or

(B) Whether the person is authorized to do business within this state. Example: A broker, who is self-employed, operates his business from an office he has established in a spare bedroom of his home in this state. He does not have an "established place of business" but he does "maintain a place of business in this state." [See: 68 O.S. §§ ~~1352(10), (13)~~ 1352; 1401(10)]

(3) The presence of any person, other than a common carrier acting in its capacity as such, that has substantial nexus in this state and that:

(A) sells a similar line of products as the vendor and does so under the same or a similar business name,  
(B) uses trademarks, service marks or trade names in this state that are the same or substantially similar to those used by the vendor,

(C) delivers, installs, assembles or performs maintenance services for the vendor,

(D) facilitates the vendor's delivery of property to customers in the state by allowing the vendor's customers to pick up property sold by the vendor at an office, distribution facility, warehouse, storage place or similar place of business maintained by the person in this state, or

(E) conducts any other activities in this state that are significantly associated with the vendor's ability to establish and maintain a market in this state for the vendor's sale.

(4) The presumptions in paragraphs (1) and (2) of subsection (b) may be rebutted by demonstrating that the person's activities in this state are not significantly associated with the vendor's ability to establish and maintain a market in this state for the vendor's sales.

## 710:65-1-9. Gross receipts, gross proceeds, and sales price [AMENDED]

(a) **General provisions.** The gross proceeds, gross receipts, or sales price reported by the taxpayer must include the total receipts from all sources, including cash from sales, charge sales, credits, services, and property other than cash accepted as consideration. Sales tax reports are to be filed on an accrual accounting basis. Sales tax should be reported and remitted for the month that the sale is made regardless of whether payment is received, charged, deferred, or otherwise to be made in the future, and regardless of the time or manner of payment.

(b) **Scope of "gross receipts", "gross proceeds", or "sales price".** *"Gross receipts", "gross proceeds", or "sales price" means the total amount of consideration, including cash, credit, property and services, for which personal property or services are sold, leased or rented, valued in money, whether received in money or otherwise, without any deduction for the following:*

(1) *The seller's cost of the property sold;*

(2) *The cost of materials used, labor, or service cost;*

(3) *Interest, losses, all costs of transportation to the seller, all taxes imposed on the seller, and any other expense of the seller;*

(4) *Charges by the seller for any services necessary to complete the sale, other than delivery and installation charges;*

(5) *Delivery charges and installation charges, unless separately-stated on the invoice, billing, or similar document given to the purchaser; and,*

(6) *Credit for any trade-in.* [68 O.S. § 1352]

(c) **Excluded items and transactions.** *"gross receipts", "gross proceeds", or "sales price" shall not include:*

---

## Permanent Final Adoptions

- (1) *Discounts, including cash, term, or coupons that are not reimbursed by a third party that are allowed by a seller and taken by a purchaser on a sale;*
- (2) *Interest, financing, and carrying charges from credit extended on the sale of personal property or services, if the amount is separately-stated on the invoice, bill of sale, or similar document given to the purchaser; and,*
- (3) *Any taxes legally imposed directly on the consumer that are separately-stated on the invoice, bill of sale, or similar document given to the purchaser.* [68 O.S. § ~~1352(12)~~1352]

(d) **"Gross receipts", "gross proceeds", or "sales price"** shall include consideration received by the seller from third parties if:

- (1) *The seller actually receives consideration from a party other than the purchaser and the consideration is directly related to a price reduction or discount on the sale;*
- (2) *The seller has an obligation to pass the price reduction or discount through to the purchaser;*
- (3) *The amount of the consideration attributable to the sale is fixed and determinable by the seller at the time of the sale of the item to the purchaser; and*
- (4) *One of the following criteria is met:*
  - (A) *The purchaser presents a coupon, certificate or other documentation to the seller to claim a price reduction or discount where the coupon, certificate or documentation is authorized, distributed or granted by a third party with the understanding that the third party will reimburse any seller to whom the coupon, certificate or documentation is presented;*
  - (B) *The purchaser identifies himself or herself to the seller as a member of a group or organization entitled to a price reduction or discount; provided, a "preferred customer" card that is available to any patron does not constitute membership in such a group; or*
  - (C) *The price reduction or discount is identified as a third-party price reduction or discount on the invoice received by the purchaser or on a coupon, certificate or other documentation presented by the purchaser.* [68 O.S. § 1352]

(e) **Examples and illustrations.** Examples and illustrations of common situations and transactions are set out in this subsection, with information as to how gross receipts, gross proceeds, or sales price should be determined in each instance:

- (1) **Trade-ins.** The value of trade-ins accepted by a taxpayer in lieu of money or other consideration may not be deducted from the gross proceeds.
- (2) **Sales value.** The gross proceeds must also include the sales value, as defined in *OAC 710:65-1-2*, of any goods, wares, merchandise or property withdrawn or used from the established place of business or from the stock in trade.
- (3) **Charge accounts.** Sales tax applies to credit sales at the time the sale is made, regardless of the time or manner in which payment is to be made. Sales tax is due upon transfer of title or possession regardless of method or time of payment.
- (4) **Conditional sales.** The tax applies to conditional sales of tangible personal property and taxable services. The gross proceeds reported by the taxpayer must include all conditional sales made during the month for which the report is filed.
- (5) **Coupons.** The procedure regarding the use of coupons used to purchase tangible personal property will be as follows:
  - (A) If the coupon is redeemable by a manufacturer or another third party, the original price of the item, before the allowance offered by the coupon, is subject to tax.
  - (B) If the coupon offering a reduced price is issued by the retailer, it is a method of promotion and the reduced price is subject to tax.
  - (C) The purchase of the right to receive specific manufacturer's coupons, which coupons can then be redeemed at a retailer when purchasing the item(s) described in the coupon, is not subject to sales tax.

### **710:65-1-11. Rentals and leases of tangible personal property [AMENDED]**

- (a) **Rental or lease of tangible personal property taxable.** The gross receipts or gross proceeds derived from the rental or lease of tangible personal property are subject to sales tax.
- (b) **"Rental" or "lease" defined.** "Lease" or "rental", as used in this Section, shall have the same meaning as set out in 710:65-1-2.
- (c) **Computation of the tax.** The tax shall be computed on the gross amount without any allowance for service, laundering, cleaning, maintenance, insurance, property taxes, etc., whether paid by the lessor or lessee. However, if the rental or lease charge is based on the retail value of the property at the time of entering the lease agreement and the life expectancy of the property, and the rental charge is separately stated from the service in the bill or invoice delivered to the

# Permanent Final Adoptions

---

lessee, tax shall be due only on the rental amount.

(d) **Taxability of vendor payments for insurance and property taxes.** The tax must be computed on the gross amounts of any charges billed to the purchaser to reimburse the vendor for insurance premiums or for property taxes paid.

However, recovery fees on the rental charge from any item of heavy equipment property rental as provided in 68 O.S. § 2807.11 are exempt from sales tax pursuant to 68 O.S. § 1357.

(e) **Taxability of charges for damage waivers.** An optional charge for a damage waiver or a similar instrument that acts as a waiver of the lessor's right to collect from the lessee for any damage to the property is not considered part of the gross lease or rental charge, if separately stated.

(f) **Payment of tax by a contractor or lessor on equipment subsequently leased or rented.** Payment of a sales or use tax by a contractor or other lessor on equipment purchased for his/her own use and so used does not exempt subsequent rentals or leasing of the equipment from the sales tax.

(g) **Furnishing equipment with an operator.** The furnishing for a charge of equipment with an operator shall be considered a service and not subject to sales tax. Persons purchasing equipment for the purpose of furnishing said equipment with an operator must pay sales or use tax at the time the equipment is purchased.

(h) **Purchases by a vendor for renting or leasing.** Purchases by a vendor of tangible personal property for purposes of renting or leasing same are exempt from sales tax. If such equipment purchased exempt from taxation is rented with an operator or the vendor uses such equipment to perform a service, but the equipment remains in the rental inventory, the vendor should pay sales tax on the "sales value", pursuant to *OAC* 710:65-1-2.

(i) **Purchases of repair parts.** Purchases of repair parts made by a vendor who is engaged in renting or leasing tangible personal property, where the parts are to be incorporated into the tangible personal property subsequently rented or leased, are considered purchases for resale and may be purchased exempt from sales tax. Items such as oil, filters, and the like, which are purchased by the lessor, and are incorporated into the property transferred to the lessee, whether as part of the rental or lease agreement, or as separately billed items, are also included in the exemption described in this subsection.

(j) **Time of incidence of tax on leases.**

(1) A lease of tangible personal property is a series of transactions in time units defined by the agreement of the parties. Gross receipts generated therefrom are taxable at the rate in effect at the time the payment must be or is made. The initial obligation to pay becomes fixed upon the transfer of possession of the tangible personal property unless the agreement specifically sets forth another time. Subsequent obligations to pay become fixed either by the terms of the agreement, trade practices of the lessor, or practice in a course of dealing.

(2) A lease of tangible personal property normally imposes upon the lessee multiple obligations. Each of these obligations may be treated separately by the agreement. The incidence of taxation upon each payment under the agreement will be determined by the obligation for which payment is made and the time at which such obligation to pay in fact arose.

(3) Some obligations to pay arise by the execution of an agreement while other obligations arise by reason of the voluntary activities of the parties during the term of the agreement. For example, the lease of an automobile for a fixed period of months may give rise to an unconditional obligation to pay a minimum monthly amount and an additional obligation to pay for all miles driven in excess of a specified amount. [See: 68 O.S. §§1352, 1354]

## SUBCHAPTER 3. REPORTS AND RETURNS; PAYMENTS AND PENALTIES; RECORDS

### PART 1. GENERAL PROVISIONS

#### 710:65-3-1. Reports, payments, and penalties [AMENDED]

(a) **Monthly reporting.** Every vendor, except as noted in (b), (c) and (d) of this Section, shall file with the Commission on or before the 20th day of each month, a report on forms to be obtained from the Commission, covering sales for the previous calendar month.

(b) **Semiannual reporting.** Any vendor who is classified as a Group Three vendor or whose total tax liability for any one (1) month does not exceed Fifty Dollars (\$50.00) must notify the Commission of its intent to file a semiannual return and remittance in lieu of a monthly return and remittance, provided the vendor qualifies.

(1) **Qualification.** To qualify, the vendor must substantiate that the vendor is in business making sales incidental to that business, or is seasonal or transient, or makes sales through peddlers, solicitors or other salesmen without an established place of business. Otherwise, to qualify, filing records will have to substantiate the fact that the vendor's sales tax liability, for

the past six (6) consecutive months immediately preceding the date of the application, has not exceeded Fifty Dollars (\$50.00) in any one month. Requests to file semiannually should be directed to the Registration Section of the Business Tax Services Division, Oklahoma Tax Commission, P.O. Box 269057, Oklahoma City, Oklahoma 73194 or by FAX at (405) 521-3826.

(2) **Commencement of semiannual reporting.** It should be clearly understood that semiannual filing should not be commenced until the Commission notifies taxpayer, in writing, that Commission records have been amended to reflect semiannual filing status. Failure to follow this procedure may result in taxpayer receiving assessments, adjustments, etc. for the months of February through June and August through December.

(3) **Semiannual reporting due dates.** When the application for semiannual filing has been approved, returns shall be filed on or before the 20th day of January and July of each year for the preceding six (6) months' period.

(4) **Revocation of authorization.**

(A) Conditions that could cause revocation of the authorization to report semiannually are:

- (i) In the event that the vendor filing the return on a semiannual basis becomes delinquent in either the filing of the return or the payment of the taxes due thereon, or
- (ii) In the event that the liability of a vendor, who has been authorized to file returns and to make payments on a semiannual basis, exceeds Fifty Dollars (\$50.00) in sales tax for any one month, or
- (iii) In the event that the Commission determines that any semiannual filing or return or any payment of tax due thereon would unduly jeopardize the proper administration of the Oklahoma Sales Tax Law.

(B) If the Commission decides it is necessary to revoke the authorization to file semiannually in relation to any of the conditions in (A) of this paragraph, the taxpayer will be required to file returns and to pay the tax due on a monthly basis.

(c) **Semimonthly electronic reporting.** Persons owing an average of Two Thousand Five Hundred Dollars (\$2,500.00) or more, per month, in total sales taxes for the previous fiscal year shall remit the tax due and shall participate in the Tax Commission's electronic funds transfer and electronic data interchange program, according to the following schedule:

(1) For sales from the first (1st) day through the fifteenth (15th) day of each month, the tax shall be due and payable on the twentieth (20th) day of the month, and remitted to the Tax Commission by electronic funds transfer. A taxpayer will be considered to have complied with the requirements of this paragraph if, on or before the twentieth (20th) day of each month, the taxpayer paid at least ninety (90) percent of the liability for that fifteen-day period, or at least fifty (50) percent of the liability incurred during the immediate preceding calendar year for the same month; and

(2) *For sales from the sixteenth (16th) day through the end of each month, the tax shall be due and payable on the twentieth (20th) day of the following month, and remitted to the Tax Commission by electronic funds transfer; [See: 68 O.S. § 1365(D)(2)]*

(d) **Electronic reporting.** Beginning June 1, 2007, all new sales tax registrants required to report and remit sales tax shall file their monthly sales tax report in accordance with the Tax Commission's electronic funds transfer and electronic data interchange program unless the vendor receives an exception to the electronic filing requirement pursuant to OAC 710:65-3-4(c).

(e) **Electronic reporting; due dates; delinquency dates.** Persons required to remit the tax due pursuant to subsection (c) and (d) shall file a monthly sales tax report in accordance with the Tax Commission's electronic data interchange program on the twentieth (20th) day of the month following that in which the sales occurred. Taxes not paid on or before the due dates specified in subsection (c)

# Permanent Final Adoptions

shall be delinquent from such dates.

(f) **Payment.** Remittances covering the sales tax liability reported shall accompany the sales tax return. Sales taxes will be considered delinquent and interest as provided by law will be charged, if payment is not received or postmarked by the date the return is due.

(g) **Interest.** Interest at the rate provided by law will be imposed on all liability not paid at the time when required to be paid. Said interest will be imposed and collected on the delinquent tax at the statutory rate from the date the tax is delinquent until paid.

(h) **Audit; refund/credit for overpayment; assessment inclusive of interest due.** When, in the course of an audit, it is found that the tax being audited was overpaid for any period included in the audit, and the taxpayer has not filed a verified claim for refund of the overpayment, the overpayment may be allowed as a credit against the total liability established during the audit. The overpayment shall be applied to the liability as of the date of the overpayment. Whenever an assessment is made for any delinquent tax, the amount of interest due thereon at the time the assessment is made shall be included in the assessment.

(i) **Liability for tax, penalty, interest; interest computation.** Any taxpayer responsible for the payment of any tax levied by any state tax law shall be liable for payment of interest at the rate set by statute on any amount of tax not paid before it becomes delinquent. Interest shall be computed for each day of delinquency from the date the tax becomes delinquent until it is paid.

(j) **Penalty for failure to file and remit.** Penalties - A vendor who fails to file a return and remit the full amount of the tax within fifteen (15) days after the tax is due shall be subject to a penalty of ten (10) percent of the amount of tax due.

(k) **Penalty for failure or refusal to file after demand.** In the case of failure or refusal to file within ten (10) days after written demand has been served upon the taxpayer by the Commission, a penalty of twenty-five (25) percent may be assessed and collected.

(l) **Penalty for fraud.** If any portion of the deficiency is due to fraud with intent to evade tax, a penalty of fifty (50) percent shall be added, collected, and paid.

(m) **Waiver of penalty; interest.** At the discretion of the Commission, the interest or penalty, or both, may be waived provided the taxpayer can demonstrate that the failure to pay the tax when due is satisfactorily explained, or that the failure resulted from a mistake by the taxpayer of either law or fact, or that the taxpayer is unable to pay the interest or penalty due to insolvency. Requests for waiver or remission must be made in writing and must include all pertinent facts to support the request. [See: 68 O.S. §§ 217, 1365, 1405]

(n) **Zero business activity reports for twelve consecutive months.** In the event that the reports filed pursuant to (a) indicate that there is no business activity for twelve consecutive months, the Oklahoma Tax Commission may initiate a hearing to revoke or suspend the sales tax permit pursuant to the procedure set forth in OAC 710:1-5-100. As used in this section, "no business activity" means zero ("0") dollars in "total sales" reported on OTC Form STS-200002-C.

(1) The burden to prove the necessity of keeping the permit until expiration is upon the permit holder.

(2) Nothing prevents the Oklahoma Tax Commission from initiating a subsequent hearing to revoke or suspend the sales tax permit of a permit holder who has already gone through the revocation process, regardless of the outcome, if subsequently filed reports indicate a second twelve-month period of no business activity.

If there is no product label, the seller can make a reasonable determination as to the number of servings in the food item. If the transaction is for less than four servings, or the seller does not maintain adequate records of these sales, these food sales are taxed at the state sales tax rate of 4.5%.

(B) For a seller with a PFS% of 75% or less, food is sold with eating utensils provided by the seller if the seller's business practice is to physically give or hand eating utensils to purchasers, except that plates, bowls, glasses and cups necessary for the purchaser to receive the food need only be made available to purchasers.

(C) Food is not sold with eating utensils provided by the seller if the food items have a utensil placed in a package with the food items by a person other than the seller, and that other person is a food manufacturer (NAICS sector 311). For any packager with any other NAICS classification code, the seller is considered to have provided the eating utensil.

### **710:65-13-573. Prepared Food Sales Percentage (PFS%) [NEW]**

(a) General provisions. All sellers with prepared food sales greater than 75% of their total food sales and utensils are made available by way of a self-serve station or otherwise, are required to collect state sales tax on all food sales, unless the item meets the serving-size exception in subsection (c). Examples of sellers that usually exceed the 75% rule include, but are not limited to:

- (1) Cafes
- (2) Restaurants
- (3) Fast food restaurants
- (4) Food court restaurants
- (5) Diners
- (6) Delicatessens
- (7) Food trucks
- (8) Concession stands
- (9) Cafeterias
- (10) Coffee shops
- (11) Sports/entertainment arena sellers
- (12) Hot dog stands
- (13) Juice bars
- (14) Popcorn/Kettle corn sellers
- (15) Sandwich shops
- (16) Ice cream shops
- (17) Sushi bars
- (18) Taverns, bars, and grills
- (19) Donut shops

(b) Calculation of PFS%. All sellers that primarily sell prepared food and food sold with eating utensils provided by the seller shall annually calculate their PFS%.

(1) If a seller has a PFS% of greater than 75%, food and food ingredients, bottled water, candy, and soft drinks are taxed at the state sales tax rate of 4.5%.

(2) If a seller has a PFS% of 75% or less, food and food ingredients, bottled water, candy, and soft drinks are subject to the state sales tax rate of 0%. All sales of prepared food are taxed at the state sales tax rate of 4.5%.

(3) The 75% test is determined in the following manner:

(A) The numerator is the total sales of prepared food as defined in Section 710:65-13-570.

(B) The denominator is the total sales of food, food ingredients, prepared food, bottled water, candy, and soft drinks.

(C) Exclude sales of alcoholic beverages, tobacco, motor vehicle fuels, and all other non-food sales from both the numerator and the denominator.

(4) On or before January 31 of each calendar year, sellers must calculate a PFS% using data from the prior year to calculate the PFS% for the current year. Sellers with multiple locations will only calculate one PFS%. New businesses shall make a good faith estimate of a PFS% for the first year. The good-faith estimate shall be reviewed after three months and adjusted, if appropriate.

(5) The Tax Commission may request documentation from sellers to substantiate the PFS% calculation.

(c) Exception to the 75% rule. Even if more than 75% of the sales of food by the seller are sales of prepared food, sales of food or food ingredients are subject to the state sales tax rate of 0% if:

- (1) The food item contains four or more servings packaged as one item for a single price;
- (2) The food item has not been made or heated by the seller; and

# Permanent Final Adoptions

---

(3) Eating utensils are made available to the buyer. However, if the seller's customary practice is to physically hand or otherwise deliver a utensil to the customer as part of the sales transaction, the food item is taxed at the state sales tax rate of 4.5%.

(d) **Serving size determination.** To determine the number of servings in the food item, use the information on the product label. If there is no product label, the seller can make a reasonable determination as to the number of servings in the food item. If the transaction is for less than four servings, or the seller does not maintain adequate records of these sales, these food sales are taxed at the state sales tax rate of 4.5%.

## **710:65-13-574. Exclusions from prepared food [NEW]**

There are some items of prepared food that are exceptions to the rule and are not taxed as prepared food.

(1) Food that contains raw eggs, fish, meat, or poultry products that require cooking after the sale to prevent food-borne illnesses and food the customer generally cooks or heats after the sale. Food that would be fully taxable prepared food because two or more ingredients were mixed or combined by the seller, or because the food was at some time heated by the seller, is not taxable when additional cooking is required (as opposed to just reheating) by the customer prior to eating.

(2) Food that is only cut, repackaged, or pasteurized by the seller. For example, meat from a deli counter that is sliced and wrapped for a customer, or fruit sliced by the seller and packaged into containers or onto platters for sale.

(3) Food sold in an unheated state by weight or volume as a single item and eating utensils are not provided by the seller.

(4) Food sold by food manufacturers.

(5) Food that ordinarily requires additional cooking to finish the product to its desired final condition. Food that would be fully taxable prepared food because two or more ingredients were mixed or combined by the seller, or because the food was at some time heated by the seller, are subject to the state sales tax rate of 0% when additional cooking is required (as opposed to just reheating) by the customer prior to eating. For example, at a specialty store, a customer purchases a take-and-bake pizza. If eating utensils are not provided by the specialty store, the take-and-bake pizza is not taxed as prepared food.

## **710:65-13-575. Claims for refund of state sales tax paid on food and food ingredient purchases [NEW]**

Claims for refund of the state portion of sales tax on food and food ingredients shall be submitted using Form 13-9-G. The following information and documentation must be included in order for the claim to be considered.

(1) The name, address, telephone number of the person claiming a refund;

(2) The name, address, telephone number of the vendor;

(3) A written, detailed explanation of why the credit/refund is due;

(4) A copy of the invoice or receipt that clearly identifies the items as qualifying for the state sales tax rate of 0% and shows the incorrect rate was charged on those specific items to qualify for a refund; and

(5) Proof of payment, such as copies of cancelled checks, bank statements or credit card receipts. If payment was made in cash, that shall be corroborated by the receipt. If the description on the invoice or receipt does not contain enough information to make a determination, the claim for refund shall be denied.

## **SUBCHAPTER 19. SPECIFIC APPLICATIONS AND EXAMPLES**

### **PART 5. "C"**

## **710:65-19-40. Caterers [AMENDED]**

(a) The term "**caterer**" means a person engaged in the business of preparing or serving meals, food, and drinks, without regard to whether the service is at the caterer's place of business, the customer's location, or some other location, usually for a specified price for a specific menu or offering, but not off a menu to the public. The term does not include wait persons hired directly by a caterer's customer, whether hired by the hour, by the day, or for the event.

(b) Sales tax must be collected, reported and remitted on all charges made by caterers for serving meals, food, and drinks, inclusive of charges for food, the use of dishes, silverware, glasses, chairs, tables, etc., used in connection with serving meals, and for the labor of serving the meals. Sales tax must be collected, reported and remitted on charges made by caterers for the rental of dishes, silverware, glasses, etc., even though no food is provided or served by the caterers in connection with such rental.

(c) The gross receipts or gross proceeds derived from the sale of catered foods or beverages are taxed at the state sales and use tax rate of 4.5% and any applicable municipal and county sales taxes.

## 710:65-19-52. Computers and related systems; "hardware" and "software" defined [AMENDED]

(a) **Definitions.** The following words and terms, when used in this Section, shall have the following meaning, unless the context clearly indicates otherwise:

- (1) **"Computer"** means *an electronic device that accepts information in digital or similar form and manipulates it for a result based on a sequence of instructions.* [68 O.S. § ~~1352(4)~~1352]
- (2) **"Computer hardware"** means the machine and all of its components and accessories that make up the physical computer assembly.
- (3) **"Computer software"** means *a set of coded instructions designed to cause a "computer" or automatic data processing equipment to perform a task.* [68 O.S. § ~~1352(5)~~1352]
- (4) **"Computer software maintenance contract"** means a contract that obligates a vendor of computer software to provide a customer with future updates or upgrades to computer software, support services with respect to computer software or both.
- (5) **"Electronic"** means *relating to technology having electrical, digital, magnetic, wireless, optical, electromagnetic, or similar capabilities.* [68 O.S. § ~~1352(9)~~1352]
- (6) **"Load and leave"** means delivery to the purchaser by use of a tangible storage media where the tangible storage media is not physically transferred to the purchaser.
- (7) **"Prewritten computer software"** means *"computer software", including prewritten upgrades, which is not designed and developed by the author or other creator to the specifications of a specific purchaser. The combining of two or more prewritten computer software programs or prewritten portions thereof does not cause the combination to be other than prewritten computer software. Prewritten software includes software designed and developed by the author or other creator to the specifications of a specific purchaser when it is sold to a person other than the purchaser.* [68 O.S. § ~~1352(20)~~1352]
- (8) **"Mandatory computer software maintenance contract"** means a computer software maintenance contract that the customer is obligated by contract to purchase as a condition to the retail sale of computer software.
- (9) **"Optional computer maintenance contract"** means a computer software maintenance contract that a customer is not obligated to purchase as a condition to the retail sale of computer software.

(b) **Sale or rental of a computer.** The sale of a computer and its related components is subject to sales or use tax. The rental of a computer and its related components, including terminal equipment (hardware) is subject to sales tax.

(c) **Sale of prewritten computer software.** The sale of prewritten computer software delivered in a tangible media format is taxable. Prewritten computer software delivered by means of "load and leave" is also taxable.

(d) **Maintenance contract sold with prewritten computer software.** The taxability of a maintenance contract sold with prewritten computer software delivered in a tangible media format depends on whether the maintenance contract is mandatory or optional.

- (1) If the contract is mandatory, the entire sale price, including the charge for the contract, is subject to tax.
- (2) The charge for an optional contract shall be subject to taxation:
  - (A) If it provides **only** upgrades or updates which include prewritten computer software delivered in a tangible media format; or,
  - (B) If it provides both upgrades or updates and support services, and the fee for the support services is not stated separately.
- (3) If the contract is optional and provides only maintenance agreement support services, the contract is not taxable.

(e) **Written training materials.** Written training materials are taxable, although the training services themselves are not.

(f) **Modifications to prewritten computer software.** Modifications to "prewritten computer software" do not result in the production of custom computer software. *Where a person modifies or enhances computer software of which the person is not the author or creator, the person shall be deemed to be the author or creator only of such person's modifications or enhancements. Prewritten software or a prewritten portion thereof that is modified or enhanced to any degree, where such modification or enhancement is designed and developed to the specifications of a specific purchaser, remains prewritten software; provided, however, that where there is a reasonable, separately-stated charge or an invoice or other statement of the price is given to the purchaser for such modification or enhancement, such modification or enhancement shall not constitute prewritten computer software.* [68 O.S. § ~~1352(20)~~1352]

(g) **Custom computer software.** For purposes of this Section, the term "custom computer software" means a program prepared to the special order of a customer. The sale of a custom computer program is a service transaction, and therefore, is not subject to tax. In addition, charges for maintenance are not taxable.

# Permanent Final Adoptions

---

(h) **Software purchased with computer.** The charge for prewritten computer software purchased with a computer is subject to tax. If a computer is bought with custom software and the charge for the software is not separately stated, the entire purchase price is subject to tax. In addition, the entire charge is subject to tax if modifications are required and the charge for the modifications is not separately stated and records do not adequately document the extent of the modifications.

## PART 7. "D"

### **710:65-19-72. Deposits, core charges and trade-ins [AMENDED]**

(a) A core deposit is the amount required by the seller to insure that the buyer of a rebuilt item will exchange or trade-in his old rebuildable item. No deduction from the gross proceeds of a sale is permitted for any credit allowed by the seller for the value of a core charge, deposit or a trade-in in exchange or part payment and the tax applies to the full selling price.

(b) The retail sale of used tangible personal property which has been acquired by the seller by purchase is taxable upon the full selling price. When an article acquired by the taxpayer by trade-in is subsequently resold, this sale also is taxable on the full selling price. If an article purchased or acquired in trade is salvaged or 'cannibalized' for parts, the sale or use of such parts is considered to be taxable. If the parts are used by the vendor to satisfy an extended warranty agreement, if there is no charge to the customer for the parts, the vendor shall report the cost of the parts on a withdrawal basis and pay sales tax on such cost.

(c) Examples of taxable transactions are as follows:

(1) John Doe needs to replace his battery. He drives to Lefty's Auto Supply and purchases a new battery. Lefty's Auto Supply charges thirty dollars (\$30.00) for the battery and allows him five dollars (\$5.00) exchange. Sales Tax is due on the full thirty dollars (\$30.00).

(2) A piano is sold at retail for one thousand dollars (\$1,000.00). The purchaser pays six hundred dollars (\$600.00) in cash and is allowed a four hundred dollar (\$400.00) trade-in. The selling price, upon which the sales tax must be collected and the amount to be reported as gross proceeds is one thousand dollars (\$1,000.00). If the trade-in is later sold for five hundred dollars (\$500.00), the sales tax must also be collected on the five hundred dollars (\$500.00). [See: 68 O.S. § ~~1352~~(12)1352]

## PART 11. "F"

### **710:65-19-109. Food; vendors of meals and prepared food [AMENDED]**

(a) Vendors engaged in the business of selling meals and prepared food to purchasers must collect, report and remit sales tax on their receipts from such sales. It is immaterial that no profit is realized from the operation of any such business if the vendor is engaged in business. It is also immaterial that the class of purchasers may be a limited one, such as the employees of a particular employer who operates a cafeteria or other dining facilities for the benefit of his employees.

(b) Meals provided to employees at no cost or at a reduced cost are subject to sales tax. The "gross receipts" or "gross proceeds" in the case of a meal sold to an employee at a reduced price is the amount received for that meal from the employee in the form of cash, check or credit card chit. Each person required to make a sales tax report shall include in the gross proceeds the sales value of all tangible personal property which has been purchased for resale and has been withdrawn from stock in trade for use or consumption. Meals provided to employees free of charge are withdrawals from inventory used or consumed by the employer and sales tax is due on the sales value. "Sales value" in the case of meals is the cost of materials withdrawn from inventory to provide such meals.

(c) Complimentary meals provided free of charge to customers are subject to sales tax. Each person required to make a sales tax report shall include in the gross proceeds the sales value of all tangible personal property which has been purchased for resale and has been withdrawn from stock in trade for use or consumption and shall pay tax on such sales value. Meals provided to customers free of charge are withdrawals from inventory used or consumed by the employer and sales tax is due on the sales value.

(d) Meals served free of any actual charge or cost to an employee or customer constitute a withdrawal from inventory of items purchased free of sales tax and such withdrawals are subject to sales tax. For purposes of calculating sales tax liability, the sales value of free or complimentary meals is presumed to be the greater of any consideration received, or the cost or price paid by the vendor/taxpayer for the food items included in the free or complimentary meal served, pursuant to OAC 710:65-1-2.

(e) When an establishment provides a second meal in place of the first meal which was discarded because it did not meet the customer's specification, only one sale has been made and sales tax is levied only on the replacement meal. If, rather than discarding the first meal, the establishment serves the meal to another customer or employee, two sales have been made and sales tax is levied on both meals.

(f) Meals provided to customers at a reduced cost (i.e., discount or advertised special) are taxable. The "gross receipts" or "gross proceeds" in the case of a meal sold to a customer at a reduced price is the amount received for that meal from the customer in the form of cash, check or credit card chit less any amount designated by the customer as voluntary tip(s).

(g) In cases where two items are provided by a restaurant, club or similar establishment (i.e., buy one, get one free or two for one sale), the "gross receipts" or "gross proceeds" derived from the sale of two items for the price of one is the total amount of cash, check or credit card chit received less any amount designated by the customer as voluntary tip(s).

### **710:65-19-110. Food; eating and drinking establishments [AMENDED]**

(a) The sale of meals, or prepared food, or non-alcoholic or alcoholic beverages is subject to sales tax, and any person or establishment making such sales will be considered a vendor and will be required to hold a valid sales tax permit. Such person or establishment will then be required to charge, collect, and remit the appropriate sales tax to the Commission based on the total gross receipts, or for the sale of alcoholic beverages, based on the total retail value, as set out in 37A O.S. §5-105.

(b) Fund raising meals or non-alcoholic beverages sold in excess of the regular selling price are subject to sales tax on the gross receipts. Fund raising sales of alcoholic beverages are subject to sales tax on the total retail value, as prescribed by 37A O.S. § 5-105.

(c) The vendor of meals or beverages cannot buy exempt any tangible personal property consumed in the operation of his business, including fixtures, linens or silverware. Paper napkins, paper cups, disposable utensils, disposable hot containers and other one-way carry-out materials may be purchased exempt as purchases for resale.

(d) Meals or non-alcoholic beverages provided to employees or customers at no cost, if no valuable consideration is received or indicated in vendor's records, are not subject to sales tax on gross receipts, but sales tax is due from the vendor, as a consumer user, on the "sales value" of the meal or the beverage as that term is defined in *OAC* 710:65-1-2.

(e) Sales tax is due on the total retail value of all alcoholic beverages, including alcoholic beverages provided to employees or customers at no cost or at a reduced cost, pursuant to 37A O.S. § 5-105.

## **PART 25. "M"**

### **710:65-19-212. Milk and dairy processors [AMENDED]**

(a) The sale of all tangible personal property consumed or used directly in production of dairy products prior to shipment from the place of production is not taxable.

(b) Sales of tangible personal property consumed or used in the receiving, storage, transportation, or delivery of milk are taxable. Transportation of milk from the place where it is produced, as well as the receiving and storage of the milk at the processing plant, is taxable. Processing includes all necessary operations performed on the milk prior to shipment from the plant. Sales of tools and equipment used directly in the processing of milk or milk products, and lubricants and other materials consumed or used in the maintenance of that equipment, are not taxable. Sales of tangible personal property consumed or used in the construction, alteration, repair, or improvement of buildings and grounds are taxable.

(c) Sales of equipment used or consumed in the delivery of milk and milk products are taxable, including trucks, cases, crates, etc., and property used for the maintenance and operation of that equipment.

(d) Sales of milk bottles and milk cans to dairies for use in processing milk for sale at retail by others, together with washing machines for the same and cleaning compounds used in connection therewith by such processors, are not subject to tax. Sale of milk bottle crates or cases for transportation, receiving, storage, or delivery are subject to tax. Sales of milk cans to farmers for use in cooling milk prior to shipment to dairies are not taxable.

(e) ~~Dairy~~ Prior to August 29, 2024, dairy products sold by vendors to consumers for home preparation of meals are subject to sales tax. On or after August 29, 2024, dairy products sold by vendors to consumers for home preparation of meals are subject to the state sales and use tax rate of 0%. (See: 710:65-13-571).

## **710:70-2-9.1. Vehicle and Vending Machine Cigarette Licenses [AMENDED]**

(a) Vehicles and vending machines from which cigarettes are sold constitute a "place of business" and are required to be permitted. If the vehicle or vending machine is owned or operated by a place of business for which the regular Two Hundred Fifty Dollar (\$250.00) fee has been paid, or if the owner or operator has obtained a retail or wholesale cigarette license, the fee for the vehicle or vending machine is to be \$10.00 and the expiration date of the vehicle or vending machine license permit is to be the expiration date of the permit issued to the other place of business.

(b) A separate cigarette license permit must be obtained for each vehicle or vending machine. If a vending machine sells both cigarette and tobacco products, only one license is necessary as long as both license types are listed. A copy of the license must be displayed on the inside of the glass, visible from the outside. The physical location address of the vending machine must be provided on the application, and if the vending machine location changes before the license expires, the new address must be provided to the Tax Commission using Form BT-115-C.

## **SUBCHAPTER 5. EXCISE ON TOBACCO PRODUCTS**

### **710:70-5-14. Wholesale, retail, and distributing agent licenses required [AMENDED]**

(a) Effective January 1, 2010, every dealer or wholesaler of tobacco products must annually obtain a license from the Tax Commission.

(b) The license fee shall not be paid if the applicant has paid the fee for a cigarette wholesaler license to the Tax Commission.

(c) A retailer of tobacco products must obtain a retail tobacco license prior to purchasing or selling tobacco products after January 1, 2010.

(d) Effective January 1, 2010, retailers of tobacco products shall purchase tobacco products only from a supplier who holds a current tobacco wholesaler license.

(e) Effective January 1, 2010, wholesalers of tobacco products are prohibited from purchasing tobacco products from a person required to obtain an Oklahoma license. A wholesaler shall sell only to a retailer holding an Oklahoma tobacco retailer license.

(f) A licensed retailer is prohibited from selling tobacco products to another licensed tobacco products retailer unless the purpose of the sale is to move inventory between stores which are owned by the same legal entity.

(g) Vending machines from which tobacco is sold constitute a "place of business" and are required to be permitted in the same manner as vending machines from which cigarettes are sold, as set forth in OAC 710:70-2-9.1. If a vending machine sells both cigarette and tobacco products, only one license is necessary as long as both license types are listed. [68 O.S. §§ 3951 et seq.]

### **710:85-13-2. Definitions [NEW]**

The following words and terms, when used in this Subchapter, shall have the following meaning, unless the context clearly indicates otherwise:

"Commission" means the Oklahoma Tax Commission.

"Department" means the Oklahoma Department of Commerce.

"Estimated net direct state benefits" means the calculation by the Department of the tax revenues projected to accrue to the state less the costs projected to accrue to the state. [See: 68 O.S. § 3603]

"Gross payroll" means wages subject to Oklahoma income tax, as defined in 68 O.S. § 2385.1, for sports-league jobs.

"Net benefit rate" means the estimated net direct state benefits computed as a percentage of gross payroll, as set forth in 68 O.S. § 3603. This computation is conducted by the Department and provided to the Commission.

"Sports-league jobs" means full-time-equivalent employment in Oklahoma of employees of a qualified establishment or who are employed by an employment agency or similar entity other than the qualified establishment and who are leased or otherwise provided under contract to the qualified establishment if the job otherwise qualifies as a sports-league job. Sports-league jobs shall not include compensation paid for an athletic contest if the compensation is paid by an entity that does not have its principal place of business in Oklahoma or that does not own real or personal property having a market value of at least \$1,000,000 located in Oklahoma, and the employees or independent contractors of such entity are compensated to compete against the employees or independent contractors of a qualified establishment.

"Start date" means the date on which an establishment may begin accruing benefits, and which date shall be determined by the Department. [See: 68 O.S. § 3603]

## **710:85-13-3. Audits; auditors [NEW]**

**(a) Reports subject to audit.** The quarterly claims filed by the qualified establishment pursuant to the requirements of the Oklahoma Five Major Sports Leagues Rebate Program Act and the rules promulgated thereunder shall be accepted, as filed, by the Commission and are subject to audit.

All qualified establishments are required to retain documentation to verify the sports-league jobs and rebate amounts claimed. Documents retained shall include all employee names, social security numbers, original hire dates, termination dates, individual wages drawn for each month, and copies of claim forms for the duration of the contract. These records shall be retained for a minimum of three (3) years after the final rebate payment is received by the qualified establishment. In the event the Commission is unable to verify the gross payroll, the Commission may request additional information or documentation from the qualified establishment or may request the qualified establishment revise its claim to match the amount verified by the Commission. If the qualified establishment fails to provide additional information or revise its claim within thirty (30) days of the Commission's request, the Commission may adjust the claim accordingly.

**(d) Payment of claim.** Except as provided in OAC 710:85-13-7, a qualified establishment whose claim has been approved by the Commission shall receive a warrant in an amount not to exceed the net benefit rate multiplied by the actual verified gross payroll for sports-league jobs for the calendar quarter for which the claim is filed.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(5) AND 308(E), WITH AN EFFECTIVE DATE OF JULY 11, 2025:

## SUBCHAPTER 5. TEACHER PREPARATION PROGRAM ACCREDITATION [REVOKED]

### 712:10-5-1. Teacher Preparation Program Accreditation And Review Process [REVOKED]

- (a) Oklahoma teacher education institutions function under an 'accreditation program' system which requires the evaluation of teacher education units and programs on a periodic basis.
- (b) Beginning July 1, 1997 institutions which have no accredited teacher education program and which desire to initiate a certificate program shall follow the format outlined herein based on Standards for Oklahoma Accredited Teacher Education Programs and Institutional Plan (see 712:10-5-3). Institutional plans are defined as plans developed and prepared utilizing input from education stakeholders (teacher preparation faculty, arts and science faculty, teacher candidates, teachers, administrators, business and community leaders, and parents) which follow the general guidelines and standards for pre-service teacher preparation programs outlined in sections 712:10-5-3. On July 1, 1997 the Oklahoma Commission for Teacher Preparation, hereafter referred to as the Commission, shall assume responsibility for accrediting all teacher education programs in Oklahoma's public and private institutions of higher education.
- (c) The program accreditation system shall be a multifaceted system based on:
- (1) A competency-based teacher preparation program built around the Standards for Oklahoma Accredited Teacher Education Programs and State Department of Education Competencies, herein after referred to as SDE;
  - (2) Institution plans as outlined in the Standards for Oklahoma Accredited Teacher Education Programs and Institution Plan Format;
  - (3) On-site accreditation review team visits to the campuses of the institutions of higher education;
  - (4) Analysis of data related to student success rates on the general education, professional education, and subject matter assessments;
  - (5) Analysis of student satisfaction data;
  - (6) Analysis of student/teacher candidate portfolios.
- (d) Beginning January 1, 1997 all institutions of higher education with teacher education programs must submit an initial institutional plan outlining how the institution will respond to those standards identified in the Oklahoma Standards for Accredited Teacher Education Programs and Initial Institution Plan (See 712:10-5-3, and OS 70 sections 6-199 through 6-202.)
- (1) All initial plans will be reviewed by the Program Accreditation Committee, hereafter referred to as the PAC and recommendations for accreditation for seven years, accreditation for two years with a focused visit, accreditation for two years with a full visit, defer decision or denial of accreditation will be forwarded to the Commission within sixty days of submission.
  - (2) All PAC members and a minimum of ten prospective members will receive performance training on how to evaluate the initial plans. Only those members demonstrating proficiency in evaluation will be allowed to evaluate the plans.
  - (3) The performance-based training will be conducted by the National Council for Accreditation of Teacher Education, hereinafter referred to as NCATE and/or their designee.
  - (4) Any Commission member or Commission appointee who is involved in any evaluation and/or accreditation decision related to any teacher education unit and/or program must complete the performance-based training related to the review and accreditation of teacher education units and/or programs prior to voting and/or participating on any accreditation decisions.
  - (5) Prior to being accredited each institution must meet the NCATE preconditions for accreditation and all requirements of the OCTP, and/or receive the approval of the OSRIE when applicable, and provide required documentation for each precondition:
    - (A) The institution is an equal opportunity employer and does not discriminate on the basis of race, sex, color, religion, age, or handicap (consistent with Section 702 of Title VII of the Civil Rights Act of 1964, which deals with exemptions for religious corporations, with respect to employment of individuals with specific religious convictions);
    - (B) A copy of the institution's official action pledging compliance with nondiscriminatory law and practice;

(D) The recommendation of the accreditation review team regarding the program will be made to the PAC and the Oklahoma Commission for Teacher Preparation within 90 days after having received the rejoinder [see 712:10-5-1(c)(8)(B)(iv)] and the response to the rejoinder from the team chairs. For NCATE accredited institutions, final accreditation decisions will be made after the NCATE Unit Accreditation Board has forwarded its accreditation decision to the Commission.

**(8) Recommendation process:**

(A) An electronic copy of the final draft of the accreditation review team report will be forwarded to the Commission personnel and to each of the accreditation review team members who will be given the opportunity to suggest corrections in their respective assignment areas. Additionally, the director of teacher education will be given the opportunity to offer input regarding corrections in factual information.

(B) The head of the unit, in consultation with the chief executive officer of the institution, is required to acknowledge receipt of the report and is given the opportunity to prepare a rejoinder to the accreditation review team report. The unit can file the rejoinder and supplemental materials pertinent to the facts and conclusions found in the report of the accreditation review team.

(i) The institutional rejoinder to the accreditation review team report is a vital part of the evidence that the PAC considers as it makes its determination regarding first and continuing accreditation. The PAC considers the first/continuing accreditation report, accreditation review team report and the institutional rejoinder as it prepares its recommendations for the Program Accreditation Committee and subsequently to the full Commission. The PAC may affirm the accreditation review team citations in areas for improvement or modify them based on evidence provided in the institutional rejoinder or to bring consistency to its decisions across institutions.

(ii) The purpose of the rejoinder is to clarify information presented in the accreditation review team report and to correct any factual errors in the report. If the judgments of the accreditation review team are being disputed by the unit, the rejoinder must indicate the grounds for such a stance and the available documentation to support it. This information should be summarized, cited, and included in an appendix as appropriate. The rejoinder should be concise, to the point, and complete.

(iii) The following conditions must be adhered to as the institutional rejoinder is prepared by the unit:

(I) All evidence must describe what existed at the time of the accreditation visit. Changes made by the unit after the visit cannot be considered by the PAC in its deliberations. Changes after the visit should be reported to the Commission for Teacher Preparation as part of the unit's annual report;

(II) All evidence must relate directly to NCATE standards, state requirements, and all procedures that applied at the time of the accreditation visit;

(III) The rejoinder must be factual in nature. All inaccurate information in the accreditation report should be corrected and appropriate documentation submitted with the rejoinder; and

(IV) When the unit does not respond, in writing, to the unmet standards and areas for improvement in the accreditation report, the PAC assumes that the unit concurs with the accreditation review team citation and decision.

(iv) The institutional rejoinder should contain the following:

(f) Letter from the unit head to the Commission Executive Director acknowledging the receipt of the accreditation report;

(ff) Responses to the areas for improvement. If there is evidence that an area for improvement does not exist, the appropriate documentation should be appended;

# Permanent Final Adoptions

---

(III) Perceptions of procedural concerns, if any, regarding the accreditation review team review or process that might have prejudiced the accreditation review team judgments; and

(IV) Appendices that contain information to support any requests for reconsideration of the accreditation review team judgments. If the data were included in the institutional report and not given adequate consideration by the accreditation review team, the appropriate pages should be cited/reproduced; if the reference exceeds three pages in the institutional report, the page numbers should be cited and not duplicated.

(v) The institutional rejoinder must be submitted to the Oklahoma Commission for Teacher Preparation within 30 days of the receipt of the accreditation review team report. When accreditation review team reports are sent to an institution during semester breaks, additional time to prepare the rejoinder will be considered. Additional time beyond the date indicated in the transmittal letter must be approved by the Commission Executive Director.

(C) Final action on the reports and institutional accreditation will proceed according to Section 712:10-5-1(c).

(D) Final action by the Commission may include the following actions:

(i) First and Continuing Accreditation for seven years:

(I) First Accreditation or Continuing Accreditation for seven years is granted to the education unit and program(s) if the Commission finds that standards have been adequately addressed to merit accreditation. This accreditation decision indicates that the unit meets each of the six NCATE standards for unit accreditation. Areas for improvement may be cited, indicating problems warranting the institution's attention. In its annual report the institution will be expected to address progress on the areas for improvement cited in the Commission accreditation report. When the Commission has determined that an education unit is not making progress toward the removal of the areas for improvements cited during their visit, the institution will be notified that the unit will be required to submit a plan and timeline for addressing the areas for improvement. If at the end of six (6) months the Commission determines the education unit has not submitted sufficient data documenting adequate progress toward the removal of the areas for improvement, a state-level Focus Visit will be warranted within 18 months. After such Focus Visit the Commission will have the option of granting continuing accreditation or revoking accreditation. This progress will be reviewed, annually, by the PAC. First accreditation is retroactive to the semester in which the accreditation visit occurred.

(ii) Accreditation for two years with a focused visit:

(I) This accreditation decision indicates that the unit has not met one or more of the standards. When the PAC renders this decision, the unit has or maintains its accredited status, but must satisfy provisions by meeting previously unmet standard(s) within an established time period.

(II) If Accreditation for two years with a focused visit is granted, the PAC will require a focused visit on the unmet standard(s) within two years of the semester of the accreditation decision. After a focused visit, the PAC will (1) grant accreditation or (2) revoke accreditation.

(III) If accreditation is granted, the next on-site visit is scheduled for seven years following the semester in which the accreditation visit preceding the focused visit occurred.

(iii) Accreditation for two years with a full visit:

(I) This accreditation decision indicates that the unit has not met one or more of the NCATE standards, and serious problems exist across standards. When the PAC renders this decision, the unit has or maintains its accredited status, but must satisfy conditions by meeting the previously unmet standard(s) within an established time period.

(II) If accreditation for two years with a full visit is granted, the PAC will require a full visit on the unmet standard(s) within two years of the accreditation decision. After a full visit, the PAC will (1) continue accreditation or (2) revoke accreditation.

---

## Permanent Final Adoptions

- (II) If accreditation is granted, the next on-site visit is scheduled for seven years following the semester in which the continuing accreditation visit occurred.
- (iv) **Defer Decision**
- (I) The UAB or PAC/Commission will make this decision if the BOE team recommended that any standard(s) was met for which the UAB or PAC/Commission did not accept the team's recommendation.
- (II) A supplemental rejoinder related to the new unmet standard(s) may be submitted for review by the UAB or PAC/Commission. The supplemental rejoinder must be based on evidence available at the time of the visit. The institution will be required to submit said documentation to the UAB or PAC/Commission as applicable.
- (III) For NCATE/State institutions, the PAC/Commission will defer decision until the next NCATE UAB meeting. For State only institutions, the PAC/Commission will defer decision for no more than sixty (60) days.
- (IV) If the standard(s) continues to be unmet after the supplemental rejoinder, accreditation will be granted for 18 months with either a focused or full visit.
- (v) **Denial of accreditation (First):**
- (I) Denial of accreditation is rendered when the PAC finds that the professional education unit and/or programs have severe and/or numerous areas for improvement that limits its capacity to offer quality programs.
- (II) All students who have been admitted to the program must be notified by mail, within 30 days of receipt of the PAC/Commission decision, as to the denial of program accreditation of the unit and programs.
- (III) Institutions that are denied accreditation may recommend candidates for certification for one year from the end of the semester in which accreditation is denied.
- (vi) **Revocation of accreditation (Continuing):**

- (IV) An on-site interim accreditation visit may be requested by the Appeals Board, hereinafter referred to as AB, acting on behalf of the Commission Administrative Committee. This visit would result from the committee's determination that compelling reasons exist to authorize reexamination of the accreditation of an institution's professional education unit and/or programs. If the AB determines that a complaint received by the committee needs to be investigated, the committee will authorize an interim accreditation review team visit to the campus. The interim accreditation review team will consist of one member from the first or continuing accreditation review team and the remainder of the members will be appointed by the PAC following the guidelines outlined in 712-10-5(c)(5).

## **(10) Conditions for appeals:**

(A) Any institution that is the object of an adverse decision, as determined by one of the Commission teacher education program review committees and/or unit accrediting committees, may appeal that decision to the Commission Appeals Board:

(B) An adverse decision is defined as the denial or revocation of program(s) or unit accreditation.

(C) An institution may also appeal, in writing, accreditation for two years with a focused visit, accreditation for two years with a full visit, and defer decision accreditation decisions. A adverse decision may be appealed only on the following grounds:

(i) Stated procedures were not followed;

(ii) Evidence favorable to the institution was provided to the accreditation review team but was not considered;

(iii) Evidence was presented to the appropriate board in the form of a rejoinder or stipulation response but was not considered;

(iv) If a college or university believes that one or more of these conditions was a factor in its accreditation, the only available means of redress is through the appeals process; or

(v) There was a lack of the full number of team members due to last minute emergencies; however, that factor alone is not sufficient to uphold an appeal:

(I) The institution must convincingly demonstrate that this fact made a difference in the accreditation decision.

(II) The institution shall prove actual prejudice to it and that the prejudice changed the accreditation decision.

(III) The fact that the institution did not recommend canceling the visit would be evidence that it, at least before the visit, believed that the assembled team would be sufficient to conduct a fair and complete visit.

(D) The findings and recommendations of the AB are received by the full Commission at its first meeting following the meeting of the AB:

(E) Subsequent actions shall be based on grounds upheld by the full Commission and may include, but are not limited to:

(i) Assigning another accreditation review team to revisit an institution;

(ii) Reinstating accreditation or

(iii) Upholding the initial recommendation for denial or revocation of accreditation.

(F) The status of the appellant at the time of the visit remains unchanged until the appeals process has been exhausted.

**(11) Process for appeal.** The following provisions govern the appellate process:

(A) Within 15 days of receiving notice of the adverse decision, an institution electing to appeal an adverse decision of the Commission must present the Commission Executive Director and the board or committee which issued the adverse decision written notification of its intention to appeal.

(B) No later than 30 days from the date that it submits its notification, the institution must submit a brief to the Executive Director which sets forth the specifics of its appeal and includes full documentation.

(C) The Commission Chair shall convene the AB within 30 days after an appeal brief has been filed. The AB will hear and act on the appeal within this time frame.

(D) The appellant shall have the right to present a 30-minute oral argument on its brief. The appellant shall also have the right to be represented by counsel during the appeal, but may not call witnesses or introduce new evidence on its own behalf.

(E) If the decision appealed is accreditation for two years with a focus visit, accreditation for two years with a full visit or defer decision the appellant's right to appeal is limited to the submission of written documentation.

(F) In the case of an accreditation decision review, the AB has the right to seek clarification of the accreditation review team report from the state team chair, and clarification of the PAC's deliberations from the chair of the PAC.

(G) In the case of an accreditation decision review, all evidence presented in the appellant's brief and considered by the AB must be confined to conditions existing at the time of the accreditation review team visit as cited in the final report, or in the case of a petition for stipulation removal, to conditions existing at the time the petition for stipulation removal was submitted.

**(12) Cost of review.**

(A) If the appeal leads to an affirmation of the Commission's original decision, the appellant will be liable for the expenses of the AB, the second accreditation review team visit, and all expenses related to the review. All expenses will be reimbursed according to state travel reimbursement guidelines.

(B) If the AB finds in favor of the institution, the Commission will be liable for expenses of the AB and second accreditation review team. All expenses will be reimbursed according to state travel reimbursement guidelines.

(C) Access to Documents. In cases of accreditation decision review, team chairs and the PAC chair serving as witnesses to hearings of the AB will be provided copies of pertinent action letters and reports. Appellant petitions of appeals are provided to all witnesses.

**(13) Continuing accreditation procedures.** Seven-year continuing accreditation shall follow the same basic format as the NCATE Continuing Accreditation procedures. The accreditation review team will review such things as faculty qualifications and loads, financial support of the unit, follow-up procedures, clinical and field experiences, the residency program, faculty development procedures, and annual candidate assessment data.

**(14) Distribution of findings.**

(A) The accreditation review team chair shall assure delivery of the final draft of its report to the Commission office.

(B) The Commission will coordinate with NCATE (for NCATE accredited institutions) for distribution of reports to other team members.

(C) After the institution has received the reports, it has 30 days to submit a rejoinder to the Commission according to procedures outlined in 712:10-5-1(c)(8)(B).

(D) When the entire process has been completed the Commission will distribute the findings to all interested stakeholders, including the State Department of Education and the Regents for Higher Education.

If the program does not submit acceptable information within the designated timeframe, the decision reverts to "not recognized."

(5) If the program decision is recognized with probation or further development required, a revised report addressing the issues identified by the reviewers must be submitted within 12 months, or the unit may submit a new program report for recognition within 12 months. If the revised report adequately addresses the concerns cited by reviewers, the program decision will be changed to "recognized" or "recognized with conditions." If the program is unsuccessful after two attempts, the program status will be changed to "not recognized."

(6) A program can receive a decision of "not recognized" only after two submissions are unsuccessful in reaching either "recognized" or "recognized with conditions." If the program is not recognized, a revised report addressing unmet standards may be submitted within 12 months of the date of the recognition report. [This report will be sent to the original team if possible.] If the program does not receive a recognized decision within 12 months, admission of new candidates will not be allowed. If the revised report is not recognized, the unit must submit additional revised reports according to guidelines. The unit must exhaust all available NCATE options for revision:

(C) Programs which do not meet the required 80% pass rate on the OSAT may apply to OCTP for state recognition only after the unit has exhausted all available NCATE options for revision. The application for state recognition must address concerns cited by reviewers in the final report.

(D) Programs receiving state recognition under these conditions will maintain recognition until the submission period prior to the unit's next scheduled accreditation visit, at which time the unit will be expected to submit a program review to NCATE or OCTP, as appropriate:

# Permanent Final Adoptions

---

- (8) Units may receive conditional approval for new programs. These programs must undergo reviews as outlined in the New Certification Program Procedures for Established Units guidelines before receiving full recognition. Recognition will be retained through the semester and year of the unit's next accreditation visit.
- (9) Programs that do not comply with the procedures detailed in items (h)3-7 will no longer be eligible to recommend candidates for licensure and certification.
- (10) An institution with a non-compliant program may apply to the PAC for a waiver if there is evidence that the non-compliant status of a program is due to transitioning national standards.

## SUBCHAPTER 25. OKLAHOMA PORT INFRASTRUCTURE REVOLVING FUND [NEW]

### 730:10-25-1. Purpose and Authority [NEW]

The purpose of the Oklahoma Port Infrastructure Revolving Fund (OPIRF) is an emergency, grant, and loan program to fund qualified projects as provided under 82 O.S. § 1141. A qualified project is one that enhances the safe and efficient operation of the commercial waterway systems of this state; or repairs, improves, or constructs waterway or industrial park infrastructure located at or within waterway ports of this state that are determined to provide a public benefit.

### 730:10-25-2. Financing [NEW]

OPIRF provides three types of funding options: Grant, Loan, or Emergency.

- (1) Grants may be awarded at an amount not to exceed 20% of the funds available in the OPIRF. The OPIRF will Grant no more than 80% of the project costs.
- (2) Loans may be awarded at an amount not to exceed 35% of the funds available in the OPIRF. The OPIRF will finance no more than 80% of the project cost. The interest rate on a secured loan will be equal to the yield on U.S. Treasury securities of comparable maturity on the date of execution of the credit agreement, plus a 1% ODOT administrative fee. Interest begins to accrue on OPIRF proceeds immediately upon disbursement of funds. Failure to make timely payments may result in late fees and/or default of the loan.
- (3) At the start of each calendar year, 10% of the funds available shall be reserved for emergency repairs to ports or waterways infrastructure. Emergency funds shall be released only when authorized by the Transportation Commission.

### 730:10-25-3. Administration [NEW]

The Multi-Modal & Planning (MM&P) Division of the Oklahoma Department of Transportation is responsible for administering the OPIRF. The MM&P Division will review applications received and determine if the project is qualified for the OPIRF. When projects involve work within the MKARNS Ordinary High-Water Mark (OHWM), ODOT will consult with the United States Army Corps of Engineers and all Indian tribes with an ownership interest in the riverbed of the Arkansas River that may be affected, for environmental and permitting requirements. Applications for qualified projects will be reviewed by MM&P Division. Qualified projects will be presented to the Waterways Advisory Board (WAB) to be scored based off criteria recommended by the WAB including but not limited to based on the public benefit, the associated funding commitment from other sources, and the ability for the project to be permitted and constructed within an acceptable time frame. The WAB will then recommend to the MM&P Division which applications be submitted to the Transportation Commission for approval.

### 730:10-25-4. Qualified Projects [NEW]

A project, regardless of which port it affects, must enhance the safe and efficient operation of the waterway system. The intended impact under this statutory qualification should not provide a competitive advantage to an individual port or restrict free and fair competition amongst waterway carriers.

## SUBCHAPTER 1. MAINTENANCE

### **730:35-1-11. Department maintenance within municipalities [AMENDED]**

(a) **Discretionary funding.** The Commission shall, except as provided by law, exercise sole discretion in the expenditure of State Transportation funds for work involving Department personnel, equipment or material on roads, streets or other locations in municipalities. Such cases may include but are not strictly limited to the following:

- (1) Maintenance, construction or other improvement of designated portions of the state highway system.
- (2) Right-of-way or other properties owned or under jurisdiction of the Department.
- (3) Maintenance, construction or other improvement of the principal access roads or streets providing connections from the designated state highway system to state institutions, as provided in 730:35-1-6.
- (4) Construction or improvement of industrial access, airport access, lake access, or state park roads, when such facilities are part of an approved industrial access, lake access, or state park road program.

(b) **Routine maintenance.** The following shall govern routine maintenance on the state highway system including frontage roads, local roads, public roads and interchange-collector-distributor roads thereto, within the corporate limits of cities and towns.

- (1) The Department shall maintain, or pay the cost of maintaining, any municipal streets where such streets are a continuation of the State or Federal highway system as follows:

(A) The Department shall maintain the area of the roadway pavement and pavement structure between the gutter lines excluding curbs and sidewalks, and, if no curb exists, only that portion of the roadway pavement and pavement structure between the outer edge of the shoulder lines, excluding any underground utilities and appurtenances. The Department shall not perform maintenance on or pay the

cost of accident or spill clean-up, sweeping, mowing the right-of-way, drainage systems, and facilities including inlets, curbs, sidewalks, and driveways; ~~electronic traffic control devices or highway system lights~~. In areas where cities or towns have annexed additional rural lands into the corporate limits, the Department may choose to continue turf management prior to the development of such lands.

(B) The Department shall maintain or pay for the cost of installation, repair and maintenance of signs and lane markings.

(C) The Department may participate in or pay the cost of lighting and electronic traffic control devices. The maintenance of such equipment shall be the responsibility of the cities and towns, unless otherwise specified by formal written agreement.

(D) The Department may maintain, or participate in the cost of constructing or improving any safety appurtenances.

(E) The cities and towns shall maintain that portion of the rights-of-way beyond the gutter or shoulder lines, including storm sewers and inlets as well as all other underground facilities.

(F) The cities and towns shall maintain any public roads as defined in 730:35-1-2 within their corporate limits.

(2) Maintenance of the designated Interstate Routes which are a part of the National Highway System, urban freeways with fully controlled access, together with all frontage roads, local roads, public roads and interchange-collector-distributor roads thereto, within the limits of the cities and towns which are a part of the state highway system shall be as follows:

(A) The Department shall maintain the highway, interchange ramps, interchange-collector-distributor roads, and that portion of the frontage roads or local roads between the nearest edge of the first crossroad or street and the ramp from the mainline connecting to the frontage road or local road. This maintenance shall include all signs, pavement markings, and other traffic control devices; ~~except for traffic signals and lighting~~.

(B) Cities and towns shall maintain only that area of the right-of-way occupied by a frontage road or local road between the control of access line and the right-of-way line, and that portion of frontage roads or local roads that is not considered a part of an interchange ramp.

(C) The Department shall maintain all interchange and cross-over bridge structures, exclusive of the surface and/or deck as provided in 730:35-1-5.

(D) The cities and towns shall maintain all streets connecting to the highway or Department maintained frontage road, including all signs, pavement markings and traffic control devices along the cross streets, except as noted in 730:35-1-11(b)(2)(A).

(E) Cities and towns shall maintain any Public Roads as defined in 730:35-1-2 within their corporate limits.

**(c) Maintenance agreements.** In all cases, the Department will obtain written maintenance agreements from the governing bodies of such cities and towns. These maintenance agreements shall incorporate the foregoing provisions and such other provisions to which the parties agree delineating maintenance responsibilities. Where written agreements concerning maintenance responsibilities within cities and towns have heretofore been obtained, they are hereby approved if reasonably conforming to the provisions of this section. The provisions of this subchapter are supplemental to such maintenance agreements and shall be used to carry into effect the overall policy of the Commission. Where maintenance agreements cannot be obtained, the provisions of this subchapter and State law shall govern in determining maintenance responsibilities.

(1) The Department will not participate in the improvement or maintenance of campus streets or parking areas at the various state college and university campuses.

(2) Any other uses of funds, personnel or equipment under the jurisdiction of the Commission in municipalities, except in instances of legislative mandate, shall be considered contrary to established policies of the Commission.

(3) The Department shall control, by means of a permit system, driveway entrances and exits on the state highway system, but may delegate this responsibility to a city or town. Before permanent authority is delegated, the city or town involved must enact an ordinance adopting the policy of the Commission on driveway regulations for Oklahoma highways.

(4) The Department shall control, by means of a permit system, the installation of landscaping within the rights-of-way on the state highway system. Modification of right-of-way on controlled access facilities is considered to be a landscape improvement and will be considered for approval in accordance with the Commission policy on fencing for controlled access highways.

The proposed amendments in 770:10-3-1 would amend the reference(s) to “Center” or “Centers” within the rule to the correct reference(s) of “Home” or “Homes”, as well as to amend how care and maintenance charges begin and cease for residents at the Oklahoma Veterans Homes in paragraphs (d), (e), and (i). The amendments would add death as a provision to cease care and maintenance charges on the day the resident expires. The amendments will also update how residents at the Oklahoma Veterans Homes are billed for care and maintenance charges; that maintenance charge rates will be adjusted annually on December 1 of each year; and, add that all annual cost-of-living adjustments from federal benefit or grant programs will now become part of the calculations included in the rate calculation. The proposed amendments will align with practices that are the most mission effective and cost effective for the Oklahoma Department of Veterans Affairs (ODVA) and the State of Oklahoma.

The Oklahoma Statewide Charter School Board proposes these emergency rules to fulfill the requirements of the Board under the Oklahoma Charter Schools Act, 70 O.S.Supp.2023, §§ 3-130–3-167. The emergency rules add, amend, and modify definitions pertaining to charter schools, virtual charter schools, sites, and remove references to the board's now-abolished predecessor, the Statewide Virtual Charter School Board, to ensure that rule language refers to the Statewide Charter School Board. The emergency rules include language to allow the board read-only access to data from charter and virtual charter schools sponsored by the board. The emergency rules also require schools to provide online access and recording for public viewing of the governing board's meetings. The rules further streamline the application for new sponsorship process, including requirements that (1) ensure a representative for the prospective school participates in training related to the application process, and (2) a capacity interview of the leadership team and governing board of a prospective school are competent. The rules also streamline factors for reviewing applications for new charter or virtual charter schools. The formatting of renewals will also be streamlined. The rules add requirements on those charter schools seeking renewal of their charter but transferring sponsorship from an authorized sponsor to the board. The rules also amend the oversight and evaluation for charter and virtual charter schools and how performance will be measured. Finally, the rules amend data required to be submitted to the board on an annual basis.

## **777:10-3-4. Oversight and evaluation of virtual charter schools by the Statewide Virtual charter schools and virtual charter schools by the Statewide Charter School Board [AMENDED]**

- (a) **Tiered school oversight process.** The performance framework sets forth the performance indicators for authorization of virtual charter schools in the State. Schools shall meet or show evidence of significant progress toward meeting the required standard accountability indicators as a condition of continued authorization.

(1) The Statewide Virtual Charter School Board provides a tiered school oversight process that includes a system of monitoring and oversight functions to ensure the school's compliance with all applicable laws, regulations, rules, and terms of the charter contract.

(2) The tiered school oversight process shall provide for review, notices, warnings, probation, and closure of schools that fail to meet the standard accountability indicators. If a school does not take action to comply, the Statewide Virtual Charter School Board may proceed with steps at an appropriate level of concern.

(3) The tiered school oversight process is designed to allow the Statewide Virtual Charter School Board to take appropriate action at any level based on each unique situation that may be identified through the performance framework or identified through another process.

(A) The Statewide Virtual Charter School Board shall perform an annual review and evaluation of the performance of all virtual charter schools. The performance framework includes the indicators assessed and required in statute, rules, and the charter contract. The performance framework is presented annually to the Statewide Virtual Charter School Board and the school's governing board in an open meeting. These indicators may identify potential concerns for further review and research.

(B) Using the results of the performance framework, Statewide Virtual Charter School Board staff reviews and research identified potential concerns to determine the nature and severity of the concern and possible corrective actions. The school is expected to take action to remedy identified deficiency(ies).

(C) Unresolved deficiency(ies) identified in the review and research stage of the tiered school oversight process will generate a notice of concern, issued by Statewide Virtual Charter School Board staff and sent to members of the Statewide Virtual Charter School Board and the school's governing board. Terms and timeline to resolve deficiency(ies) will be included in the notice of concern. The Statewide Virtual Charter School Board may offer support and resources.

(D) A formal warning action to address unresolved deficiency(ies) or other serious concern(s) may be taken by the Statewide Virtual Charter School Board in an open meeting. The warning shall include deficiency(ies), terms and timeline for resolution and requires the school to take action. Support and resources may be made available and/or required.

(E) Probation is a formal action taken by the Statewide Virtual Charter School Board in an open meeting and as a final opportunity for a school to resolve a deficiency(ies). A final plan from the virtual charter school is required.

(F) Closure is a formal action taken by the Statewide Virtual Charter School Board in open meeting on school who fails to resolve a deficiency(ies). It is a final action and requires the Statewide Virtual Charter School Board and the school's governing board to follow the Closure Plan.

**(b) Oversight and annual performance review.** The Statewide Virtual Charter School Board will provide ongoing oversight of the charter schools through data and evidence collection, site visits, attendance of governing board meetings, compliance checks, and school performance reviews. At the end of each year, schools will be subject to an annual performance review consisting of a compilation of performance ratings and findings based on the performance framework standards. Results will be shared with key stakeholders. The charter school will have forty-five (45) calendar to respond to the annual performance review in writing and such response will become part of the public record.

**(c) Performance framework.** The performance framework for designated virtual charter schools establishes accountability criteria and assesses schools in the areas of academic, financial, and organizational capacities.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(7) AND 308(E), WITH AN EFFECTIVE DATE OF JULY 11, 2025:**

### SUBCHAPTER 1. OKLAHOMA SUPPLEMENTAL ONLINE COURSE CERTIFICATION

#### 777:15-1-1. Purpose [AMENDED]

The Statewide ~~Virtual~~ Charter School Board (~~SVCSB~~)(SCSB) makes publicly available a list of supplemental online courses which it has reviewed and/or certified to ensure that the courses are high quality options and are aligned with the subject matter standards approved by the State of Oklahoma. In conjunction with the Office of Management and Enterprise Services (OMES), the ~~SVCSB~~SCSB negotiates with online course providers to offer a state rate price to school districts for supplemental online courses. These rules have been adopted for the purpose of implementing policy and procedures pursuant to Oklahoma Statute Title 70, Section 3-145.3.

#### 777:15-1-2. Definitions [AMENDED]

The following words and terms, when used in this Chapter, shall have the following meaning, unless the context clearly indicates otherwise:

"**Course provider**" means an entity that meets eligibility requirements and provides an online course to Oklahoma school districts.

"**Course review**" means the process conducted by content and pedagogical experts to ensure courses recommended for certification by the ~~SVCSB~~SCSB meet the established standards.

"**Oklahoma Online Course Catalog**" means a publicly available listing of courses certified (or pending review) by the ~~SVCSB~~SCSB available through approved Course Providers.

"**Online course**" means an educational course in which instruction and content are delivered primarily over the Internet. A student and teacher are in different locations for a majority of the student's instructional period, most instructional activities take place in an online environment, the online instructional activities are integral to the academic program, consistent communication between a student and a teacher and among students is emphasized, and a student is not required to be located on the physical premises of a public school district. An online course is the equivalent of what would typically be taught in one semester.

"**Receiver district**" means an Oklahoma public school district that has students enrolled in the district who take one or more online courses.

"**Receiver district ally**" means an individual(s) in the receiving district who monitors student progress in the Horizon Online Platform and serves as a liaison between Horizon faculty and staff, the student, and other stakeholders, including parents.

#### 777:15-1-3. Application for course certification [AMENDED]

(a) To have a course(s) listed in the Oklahoma Online Course Catalog (OCCC), Course Providers must first be approved as vendors through the Oklahoma Management and Enterprise System (OMES) and enter into a contract with the state.

(b) Once the online provider is registered as a state vendor, OMES and the ~~SVCSB~~SCSB will negotiate and enter into a contract with the approved vendor to provide online courses at a state rate.

### **777:15-1-5. Course review requirements [AMENDED]**

(a) Online Course Providers must supply the following to have courses listed in the OOC:

- (1) The name of the institution or organization providing the online content;
- (2) Course title and subject code (using appropriate course title and subject code as established by the Oklahoma State Department of Education's approved Subject Codes for the appropriate academic year);
- (3) Brief course description;
- (4) Grade level(s);
- (5) Subject area;
- (6) Unit(s) of credit;
- (7) Course cost;
- (8) Course designations (e.g., dual-credit, AP, NCAA-eligible, Quality Matters certified);
- (9) Course prerequisites; and
- (10) Instructor credential and qualifications.

(b) At the time of the course review, guest access to the course will be required for the reviewers. If substantive changes are made to a course since its last certification, it must be submitted for review regardless of its current status in the review cycle. Substantive changes would include altering the intended course outcomes, significantly changing instructional strategies or assessment protocols used in the course as a whole, or any revision that impacts standards alignment. Only courses certified (or pending review) by the Statewide ~~Virtual~~ Charter School Board will be accepted into the Oklahoma Online Course Catalog.

(c) Course Providers whose courses have undergone review and approval by a recognized third-party entity must provide the results of those reviews. Depending on the results of the external review, a course may be recommended for state certification with no additional review or with a modified review process (e.g., review only for alignment to state standards).

(d) Course Providers of Advanced Placement (AP) courses must provide the results of their College Board AP Course Audit and Authorization. No other course evaluation will be conducted for AP Courses. If a course is authorized by the College Board as an AP course, it is automatically listed as "state-certified" in the Oklahoma Online Course Catalog. Online Providers must provide evidence annually of AP Authorization Renewal.

### **777:15-1-6. Course review and certification process [AMENDED]**

(a) All approved vendors will have the online courses they submitted published in the Oklahoma Online Course Catalog and reviewed according to the schedule adopted by the ~~SVCSB~~SCSB.

(b) Course reviews will be conducted by content experts and pedagogical experts selected by the ~~SVCSB~~SCSB. Courses will be evaluated using rubrics to determine alignment with the current academic standards approved by the State of Oklahoma (or nationally/ internationally accepted content standards set for courses whose content is not included in state standards) and national standards for quality in online course design. Course Providers whose courses have undergone review and approval by a recognized third-party entity must provide the results of those reviews. Depending on the results of the external review, a course may be recommended for state certification with no additional review or with a modified review process (e.g., review only for alignment to state standards). Online Course Providers of Advanced Placement (AP) courses must provide the results of the AP Course Audit and Authorization. No other course evaluation will be conducted for AP Courses. Online Providers must provide evidence annually of AP Authorization Renewal.

(c) If results of the initial review suggest that a course will not be recommended for certification, the Course Provider will be contacted with the review results and will have fifteen (15) calendar days to revise material or provide additional information pertinent to the review. These revisions will be examined by the course reviewers and, if appropriate, the rubric scores will be modified. Once the course review is complete, results of the evaluation will be presented to the Statewide ~~Virtual~~ Charter School Board (~~SVCSB~~)(SCSB). The ~~SVCSB~~SCSB will consider the evidence and vote whether to certify or not certify the course. The decision will be made on a simple majority vote. If the ~~SVCSB~~SCSB votes to not certify a course, the course will be removed from the Oklahoma Online Course Catalog and the Course Provider will be notified of the reasons the course was not certified. The Course Provider may revise the course and resubmit for additional Course Review and certification consideration. Resubmitted courses will be reviewed after all submitted courses have undergone an initial review. Courses approved will be certified for a five-year period. After which, Course Providers must apply for renewal. Certified courses will be identified as such and have their course review ratings published in the Oklahoma Online Course Catalog. Courses pending review will be identified as such in the Oklahoma Online Course Catalog.

(b) Course providers will be notified if a course(s) is found to be noncompliant and will have fifteen (15) business days after notification to bring the course(s) into compliance. If the course(s) is still noncompliant at the end of this period, the course certification will be revoked and the course will be removed from the Oklahoma Online Course Catalog.

## 777:15-1-8. Process for course certification renewal [AMENDED]

Courses that remain in good standing are certified for a period of five years. Course Providers may apply for renewal of their course certification six months prior to the completion of the course approval period. Course Providers will notify the SVCSBSCSB of their intent to apply for renewal by submitting all documents listed in the Course Review Requirements. Course Providers who have maintained their "good standing" status throughout the course approval period will have their courses reviewed and considered for certification following a similar procedure as their initial Course Review and Certification Process. Aggregate student success data will be considered in renewal decisions. Additionally, the SVCSBSCSB may survey districts to collect satisfaction data and those data may also be considered in renewal decisions. Course Providers who have not maintained a "good standing" status must provide documentation explaining the lapse in "good standing" status and the protocols that are in place to prevent such a lapse in the future.

(B) **Pre-Occupational.** Enrollments that provide engagement and exposure to careers but do not result in an industry credential or are under the minimum hour requirements of occupational programs.

(6) **Hours of attendance.** High school students may attend a technology center up to one-half day pursuing a high school diploma or high school equivalency and up to one-half day completing a CareerTech program in the technology center. Postsecondary/adult students are subject to the policies and procedures established for adult students by the technology center and shall be afforded all benefits and services for which they qualify, regardless of lawful immigration status. Units of coursework completed at a technology center by a postsecondary/adult student are transcribed by the technology center as postsecondary level credit.     - (C) That the applicant owns, leases or has the written consent of the respective landowners to use lands at the point of diversion or lands for placement of water lines or other appurtenances related to use of the water.
- (f) **Limited quantity permit.**
- (1) The Executive Director of the Board may administratively issue regular, seasonal, temporary or term permits to use 15 acre-feet or less of stream water in a calendar year or during its term if the term is less than one year [82:105.13].
  - (2) Notice of the application for such a permit shall be published by the applicant in a newspaper of general circulation one time only in the county of the point of diversion and in the adjacent downstream county, or as otherwise directed by the Board.
  - (3) Written comments about the application must be filed with the Board within ten (10) days after the date of publication or other notice provided.
  - (4) The permit may be issued or denied summarily and immediately after the ten (10) day period at the discretion of the Executive Director, provided that the Executive Director may require that a hearing on the application be held. After such hearing, the application shall be presented to the Board with proposed findings of fact and conclusions of law for consideration.
  - (5) Limited quantity permits cannot be combined to authorize the use of more than a total of 15 acre-feet per year.
- (g) **Priorities among classes.** In circumstances where there is less water actually available than that calculated for purposes of considering a regular permit application, regular permit holders shall have a better right over all other classes of permits. Among regular permit holders, priority in time, determined by date of filing an application as provided in these rules, shall give the better right. Among classes other than regular permit holders, priority in time, determined by date of filing an application as provided in these rules, shall give the better right.

## SUBCHAPTER 9. ACTIONS AFTER STREAM WATER RIGHT OBTAINED

### 785:20-9-5. Reports [AMENDED]

#### (a) Annual reports of water use.

- (1) Water use report forms will be mailed during January of each year to every holder of a valid water right. These reports must be completed and returned with the annual file maintenance fee to the Board within thirty (30) days of receipt thereof. This report shall become a part of each record of each stream water right holder. Willful failure to complete and return such report with the appropriate filing fee may be considered by the Board

as nonuse of water under a water right. In a review of the water use by the water right holder, the Board may adjust its records regarding nonuse after payment of all past accrued fees.

(2) Absent differing expressed direction of the water right holder, if two or more water rights are held by the same person for use of water from the same point of diversion, from the same source of supply and for the same purpose, the total amount used annually under all such water rights shall be recorded first under the water right with the oldest priority date until full use is made, then the next amounts shall be reported under the next oldest priority date, until all amounts are accounted for.

(3) Holders of water rights with multiple diversion points may be required to report use from each diversion point, if diversion points are in different stream segments, or diversion points are in both a stream and lake or pond, or other valid reasons as determined by the Board.

(4) When reporting annual water use, holders of a valid water right may make application on a form provided by the Board to excuse nonuse for the reporting year. If the Board approves the application for the excused nonuse, the time for putting the water authorized to beneficial use shall be tolled for the period of excused nonuse.

**(b) Reports by temporary, and term permit holders.** Upon the expiration of the period for which a temporary, or term permit was granted, the appropriator shall cease the taking of water and file a written report with the Board stating the amount of water used under the temporary, or term permit and the date of cessation.

**(c) Change of address.** It shall be the responsibility of the holder of a water right to provide the Board with a current mailing address for receipt of all correspondence dealing with the water right.

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(7) AND 308(E), WITH AN EFFECTIVE DATE OF JULY 11, 2025:

## SUBCHAPTER 3. RESPONSIBILITY, CLASSIFICATION AND DESIGN STANDARDS

### 785:25-3-6. Minimum spillways performance standards [AMENDED]

#### (a) General performance standards.

- (1) Except as otherwise provided in this Chapter, all dams must meet or exceed the following performance standards as determined by analysis of plans and specifications for the dam and existing site conditions.
- (2) Owners of existing dams which do not meet the following performance standards must make necessary changes in the dam to meet the applicable performance standards.
- (3) The discharge capacity and/or storage capacity of the project shall be capable of passing the indicated spillway design flood without infringing on the minimum freeboard requirements, provided that a design which includes overtopping of the dam may be authorized if specifically approved by the Board.
- (4) The minimum performance standards expressed as magnitude of spillway design flood and minimum freeboard will be assigned to the various size and hazard potential classification determined under 785:25-3-3 as described in Appendix B.

(b) **Amending minimum freeboard.** The minimum freeboard requirement may be amended by the Board on a case-by-case basis for good cause shown by the owner.

#### (c) Probable maximum flood.

- (1) PMF means and refers to the Probable Maximum Flood and is defined as the flood that may be expected from the most severe combination of critical meteorologic conditions, defined as the Probable Maximum Precipitation (PMP), and critical hydrologic conditions that are reasonably possible in the region.
- (2) Since design floods are usually determined by using mathematical computations through computer modeling and since several different acceptable models are available, flood design calculations must fall within plus/minus 5% PMF of the Board's current model results.
- (3) The PMF storm should be the most conservative PMP storm type and duration to adequately reflect the size and hydrologic characteristics of the watershed in which the dam is located.
- (4) *Regional Probable Maximum Precipitation Study for Oklahoma, Arkansas, Louisiana, and Mississippi* (Applied Weather Associates, 2019) shall be used in determining precipitation depth, area, and duration relationships for the PMP. The location-specific precipitation depth-area-duration relationship shall be applied to the spatial and temporal distribution methods described in *Hydrometeorological Report No. 52* (National Oceanic and Atmospheric Administration, 1982).

(d) **PMF on dam designated for regulation.** A dam which the Board has determined is subject to regulation because of its high hazard potential, although otherwise considered too small, shall be required to safely pass 25% PMF with no minimum freeboard.

#### (e) Dams constructed prior to June 13, 1973.

- (1) Any dam constructed prior to June 13, 1973, classified as having high hazard-potential as described in 785:25-3-3 shall be required to pass a minimum design flood as follows:
  - (A) Small size - 25% PMF with one foot of freeboard.
  - (B) Intermediate size - 50% PMF with no minimum freeboard.
  - (C) Large size - 75% PMF with no minimum freeboard.
- (2) Proposed designs to enlarge, alter, or repair a spillway of any dam constructed prior to June 13, 1973, may be required meet the general performance standards set forth in 785-25-3-6(a) as determined by the Board. Provided that any dam constructed prior to June 13, 1973, that does not meet minimum spillway performance standards in Appendix B, and the spillway/spillways is/are proposed to undergo substantial modification, the minimum spillway performance standards defined in 785-25-3-6(a) shall be met by the proposed design.

(f) **Dams constructed after 1973 without Board approval.** An owner of a dam constructed after 1973 without prior approval by the Board shall remove the dam or may request a variance or waiver from the requirement for submittal of plans and specifications as provided for in 785:25-5-2 and 785:25-5-3, provided the owner of the dam shall submit an application containing the following:

- (1) A topographic map of the dam site showing the location of spillway and outlet works.
- (2) Drawings showing the length, width, and height of dam.
- (3) Detailed plans of spillway structures, spillway profile, and procedures for operating of the spillway structure.

# Permanent Final Adoptions

---

(4) Hydrologic and hydraulic analysis report as described in Hydrologic and Hydraulic Guidelines for Dams in Oklahoma, Oklahoma Water Resources Board, Dam Safety Program, August 2011.

(5) Complete a dam breach inundation analysis and map if Board staff determines the dam may be a significant or high hazard-potential structure.

(6) Inspection of the dam by a registered Professional Engineer and submit a written inspection report to the Board not later than 30 days after the inspection and shall contain information as set forth in a Board hazard inspection report.

(7) Pay ~~minimum~~ application fee as provided in 785:5-1-9(a) ~~and 785:5-1-9(f)~~.

(8) In addition, the applicant may be required to submit a detailed geotechnical investigation and analysis of the dam and report on such investigation. The geotechnical investigation shall include a minimum boring layout as follows:

- (A) One (1) crest boring extending through the embankment and foundation materials to bedrock.
- (B) Two (2) crest borings extending through the embankment and foundation materials to bedrock, one near each abutment.
- (C) One (1) boring extending through the embankment and foundation materials to bedrock near the mid-height on the downstream slope of the dam.
- (D) One (1) boring extending through the embankment and foundation material to bedrock along the toe of the dam.

## SUBCHAPTER 7. POST APPROVAL ACTIONS

### 785:25-7-8. Certificate of completion [AMENDED]

(a) **Issuance; revocation; amendments.** Certificates of completion shall be issued and may be revoked or amended as follows:

(1) Upon filing of notice of completion of works by the applicant, the Board shall, within sixty (60) days, inspect or cause the dam to be inspected. The Executive Director or their designee shall approve the issuance of a certificate of completion if, based on the certification from the engineer in the Notice of Completion, the dam or reservoir is safe to impound water within the limitations prescribed in the certificate. However, no certificate of completion shall be issued until receipt of fee for certificate and all invoiced filing and inspection fees.

(2) Every certificate of completion issued shall contain *the date of approval of plans and specifications for the dam, date construction was completed on said dam, and* [82:110.8] any such terms and conditions as the Board may prescribe. The Board may revoke any such certificate whenever it is determined that the dam constitutes a danger to life and property. Whenever such action is necessary to safeguard life and property, the terms and conditions of any such certificate may be amended and a new certificate issued containing the revised terms and conditions.

(3) *Certificates of completion of works from the . . . Board shall be required before any water may be impounded by a new dam or before water may be impounded at an elevation higher than that previously authorized by the Board at an existing dam which has been modified* [82:110.8]

(b) **Notice and action.** After the issuance of the certificate of completion, the Board shall provide notice to the owner, allowing opportunity for a hearing, prior to the issuance of any order revoking or modifying the previous Board certificate.

## SUBCHAPTER 9. ACTIONS AFTER CONSTRUCTION

### 785:25-9-1. Inspections of dams [AMENDED]

(a) **Oversight vested in Board.** Oversight of the maintenance and operation of constructed dams and reservoirs insofar as necessary to safeguard life and property from injury by reason of the failure thereof is vested in the Board.

(b) **Periodic inspections.** Except for low hazard potential dams, owners are required to have their dams inspected at their expense by qualified persons periodically according to a schedule prepared by the Board to meet the requirements of paragraphs (1) and (2) of this subsection. ~~Periodic inspections of dams shall be~~ Periodic inspections shall be conducted and the inspection report submitted to the Board by the end of the calendar year according to hazard potential classifications as follows:

- (1) High hazard. High hazard potential dams shall be inspected at least once ~~annually~~ each calendar year.
- (2) Significant hazard. Significant hazard shall be inspected at least once every three years.

---

## Permanent Final Adoptions

(3) Low hazard. Low hazard potential dams shall be inspected at least once every five years, which inspection shall be conducted by the owner and shall consist of a review of the hazard classification on forms provided by the Board.

(4) Significant or high hazard dams in an unsatisfactory or poor condition, described in Section 6 of the National Dam Safety Review Board's Guidelines for Updating the 2008 National Inventory of Dams (NID), April 2008, as determined by the Board shall be inspected by a registered Professional Engineer at the expense of the owner at least every six months until such time as the deficiencies have been corrected.

~~(5) Periodic inspections shall be conducted by the end of the calendar year indicated by the schedule above.~~

(c) **Expense of periodic inspections**~~Inspections by qualified persons.~~ Periodic inspections shall be at the owner's expense ~~(except~~Except for low hazard potential dams, periodic inspections) and shall be conducted by a Registered Professional Engineer hired by the owner, who is licensed in the state of Oklahoma, and shall have training and/or experience concerning the analysis, design, and/or construction of dams and reservoirs, or by an engineer of any United States governmental agency acting in his official capacity. Provided that inspections of low hazard classification dams may be conducted by persons who are not Registered Professional Engineers but who are trained in inspecting dams.

(d) **Unscheduled inspections.** Unscheduled (non-periodic) inspections such, as those conducted in response to complaints, after major heavy precipitation events, after earthquakes within 50 miles of a high or significant hazard potential dam that measure 5.0 or greater on the Richter magnitude scale, or in emergency situations, may be conducted by Board staff, or the Board may require the owner to conduct an unscheduled inspection at the owner's expense. No fee for such inspection shall be due, provided that a request for inspection by other parties shall be governed by 785:25-9-6.

(e) **United States dams not subject to inspection.** Any dam *constructed by the United States or its duly authorized agencies shall not be subject to inspection while under the supervision of officers or the United States.* [82:105.27]

(f) **Board to notify when inspection due; violation.** The Board shall notify persons shown by its records to own the dam of the date the periodic inspection of the dam is due. Failure to have the inspection completed shall constitute a violation of Board rules.

(g) **Minimum standards.**~~For each inspection completed~~Except for low hazard potential dams, qualified persons shall submit a written inspection report describing any dam safety deficiencies observed and outline remedial actions to be taken to address those deficiencies as follows:

(1) Engineering inspection reports shall be prepared for each inspection completed. The inspecting engineer shall record their findings of the inspection and submit a written inspection report to the Board not later than 30 days after the inspection.

(2) All inspections shall also include documentary digital photographs of the dam, auxiliary spillway, principal spillway inlet structure, principal spillway outlet, any other appurtenances, and any potential safety concerns. A condition rating of all appurtenances shall be assigned in the inspection report in accordance with Board dam inspection guidelines. When explanation is needed to identify or describe the safety concern, notes shall be included in the written report to provide this explanation. Photographs shall be attached to the completed inspection report.

(3) Inspection reports shall include a schedule of corrective actions to be taken to address dam safety deficiencies.

(4) Periodic inspection reports shall also include review of the Emergency Action Plan and of the operation and maintenance manual to assure they are still accurate and applicable, as well as any changes in downstream development or other conditions if applicable.

OAC 785:30-3-1(c)(1) strikes the language referring to the application being in Appendix A, since that appendix was previously removed from the rules. OAC 785:30-3-1(e) ties in directly to the Intent-to-Drill rules implemented in OAC 785:35 in FY23. OAC 785:30-3-3(b) provides six (6) months of application processing time that starts after the applicant is last instructed by the Board as opposed to when the Board is last contact by the applicant. OAC 785:30-5-4(a) adds language clarifying that 90-day provisional temporary permits may be renewable for the oil and natural gas industry. OAC 785:30-7-4(a)(2) removes the language referring to Appendix A, since that appendix was previously removed from the rules. OAC 785:30-7-4(b) removes language allowing a permit holder to drill a replacement well without notifying the OWRB. This language change is a result of the addition of an intent-to-drill process in FY23 requiring well drillers to notify the OWRB when a well requiring a water right is intended to be drilled. Language is added to emphasize the intent

of a replacement well is to service the same area of use as the well that is authorized on the permit. OAC 785:30-7-8 is revoked, which has allowed permit holders to report all their water use on one permit instead of the location where the water was withdrawn. OAC 785:30-13-5(c) takes out the 600-ft spacing requirement from municipal lands for drilling municipal wells as a result of a change in 82 O.S. 1981, §§1020.1 et seq. OAC 785:30 Appendix D adds and updates locations of springs in the Arbuckle-Simpson Groundwater Basin.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(7) AND 308(E), WITH AN EFFECTIVE DATE OF JULY 11, 2025:**

## **SUBCHAPTER 3. PERMIT APPLICATION REQUIREMENTS AND PROCESSING**

### **785:30-3-1. General application requirements [AMENDED]**

(a) **Application form to be used.** The applicant shall complete an application for a groundwater permit on an electronic or other form approved by the Board, copies of which are provided by the Board, and in the manner described by the form. The application form may be presented to the Board in person, by mail, by readable facsimile transmittal, or through the Board's online application service. With copies of the application form, the Board will provide copies of a sample plat on which information as required by the application form must be indicated. The Board may require that relevant portions of the approved form be completed for applications or petitions to amend an existing groundwater right.

(b) **Written permission of owner required if applicant does not own land.** Except as provided in 82 O.S., §1020.21, *no permit shall be issued to an applicant who is not the surface owner of the land on which the well is to be located, or hold a valid [82:1020.11(D)] right from such surface owner permitting withdrawal of water [82:1020.11(D)]*, provided that an owner (or lessee) of a mineral estate severed prior to May 28, 1985, shall not be required to get separate authorization from the surface estate owner, pursuant to the Oklahoma Supreme Court case of Unit Petroleum Co. v. Okla. Water Res. Board. A copy of the ownership documentation or written permission may be required as part of the application.

(c) **Existing and proposed well locations; potential well areas; maximum number of wells to be completed.**

(1) **Locations of existing wells.** The applicant may in the application form Appendix A furnished by the Board describe or show the actual location of existing wells by distances in feet from readily identifiable objects or monuments such as section lines or provide latitude/longitude coordinates of existing wells requested to be authorized.

(2) **Locations of proposed wells.** If specific information is known, for instances by test drilling, the actual locations of proposed wells may be shown in the application plat by distances in feet from readily identifiable objects or monuments such as section lines or by latitude/longitude coordinates.

(3) **Potential well areas.** If the applicant does not have specific information as to location of existing or proposed wells, the potential area or areas where such wells are located or may be drilled and completed on the dedicated lands must be indicated on the application plat. Unless specified well location information is provided, the potential well area information for proposed well locations as indicated on the plat will be used to determine the certified mail notice that the applicant must provide. To be authorized by the permit, specific location information about existing and proposed wells must be provided or the wells must be located in the potential well area or areas.

(4) **Maximum number of wells to be completed.** If the requested permit is issued, it will authorize a maximum number of existing wells and proposed wells to be drilled and completed.

(d) **Additional information.** In addition to the information specified in (a) and (b) of this Section and in the application form, the applicant may be required to submit additional information necessary for proper consideration of the application.

(e) **Authorization to drill groundwater wells.** Groundwater wells pursuant to this Chapter shall follow the requirements of 785:35-13

### **785:30-3-3. Acceptance of application for filing; when applications deemed withdrawn [AMENDED]**

(a) The date of receipt of an application in the office of the Board shall be endorsed thereon and the application noted in the records.

(b) If an applicant does not correct an application or publish notice as instructed by the Board, and no further proceedings are initiated by the applicant for six months or more ~~after last contact with~~ after instructed by the Board, the application shall be deemed withdrawn. The Board shall provide notice to the applicant that the application has been deemed withdrawn.

## SUBCHAPTER 5. GROUNDWATER PERMITS

### 785:30-5-4. Provisional temporary permits [AMENDED]

(a) A provisional temporary permit ~~is a nonrenewable permit~~ may be renewed three (3) times for the oil and natural gas industry except in a sole source aquifer [82:1020.10] granted by and at the discretion of the Executive Director.

(b) The permit is only effective ~~for a period not to exceed ninety (90) days [82:1020.10]~~ and is subject to cancellation at any time during its term.

(c) No hearings are held, no application notice or data is published and no notice to surface estate owners is required on applications for this type of permit.

(d) The application may be approved and the permit may be issued summarily and immediately upon administrative approval where it appears from the verified application and supporting material filed therewith that the permit issuance conditions described in 82 O.S. 1981, §1020.9 and 1020.11(D) are satisfied and that well spacing distances, as specified in 785:30-3-6, and other conditions as may be required by the Board, are met.

(e) On applications in which the applicant is not the surface owner of the lands upon which the water well is to be located, the applicant must satisfy the requirements of 82 O.S. 1981, §1020.11(D) and 785:30-3-1(b).

(f) Provisional temporary permit holders are required to notify the Board in writing within thirty (30) days after the expiration of their permit as to the disposition of the well covered under the permit.

## SUBCHAPTER 7. AMENDMENTS TO GROUNDWATER RIGHTS

### 785:30-7-4. Adding or replacing a well for the purpose of exercising prior rights or existing permits [AMENDED]

#### (a) Additional wells.

(1) The holder of a permit or prior right may make a written petition to the Board for approval of an additional well(s) where such well(s) is or are necessary in order to withdraw the amount authorized by the existing permit. If ownership of the land, permit or prior right changes after the petition is filed, the petitioner must promptly notify the Board and notice of such change may be required.

(2) The petition shall be filed prior to drilling the well(s) on forms provided by the Board and shall be accompanied by a map or plat ~~(see APPENDIX A of this Chapter)~~. The additional well(s) must be located on lands dedicated to a permit to take and use groundwater from the same groundwater basin, be drilled and used to prevent waste and meet applicable well spacing requirements or location exceptions.

(3) The Executive Director shall approve the petition, provided:

(A) That the new well location meets established well spacing or is not closer than one-thousand three hundred twenty feet (1320') from lands owned by another if well spacing is not applicable; or

(B) That, if well spacing is not applicable, there is submitted a written statement from each surface estate owner owning land closer than one-thousand three hundred twenty feet (1320') from the well requested to be authorized, stating that he or she has no objection to the new well location.

(4) If one of the above enumerated conditions cannot be met, the permittee must give notice as set forth in 785:30-3-4 regarding each additional proposed well. If a protest is received, the Board shall schedule a hearing and notify the applicant and protestant of such hearing. Even if no protest is received, the petitioner shall be given opportunity for hearing if the petition cannot be recommended for approval to the Board.

#### (b) Replacement well.

(1) For well locations authorized by a permit or prior right, a replacement well may be drilled on lands relied on to establish the prior right or dedicated lands without prior approval from the Executive Director to service the same area of use as the well being replaced if the proposed replacement well will not be closer than meets established well spacing or will not be closer than one-thousand three hundred twenty feet (1320') from lands owned by another if well spacing is not applicable.

(2) For a well location authorized by permit or prior right where the proposed replacement well location is within one-thousand three hundred twenty feet (1,320') of lands owned by another, the replacement well may be drilled on lands relied on to establish the prior right or dedicated lands ~~without prior approval of the Executive Director~~, to service the same are of use as the well being replaced provided the replacement well is within two-

hundred fifty feet (250) of the well to be replaced.

(3) If paragraphs (1) or (2) of this subsection cannot be met, a petition for an additional well may be filed.

(c) **Location of wells identified.** A legal description or multi-purpose completion report such as that required by 785:35-5-3 showing the location of the well to the nearest ten (10) acre tract shall be submitted to the Board within sixty (60) days after completion of any additional or replacement well.

~~(3) The permits are of the same class and are held by the same owner;~~

~~(4) The lands dedicated to the permits overlie the same groundwater basin;~~

~~(5) The number of wells and withdrawal rate of the wells authorized under the permits will not be changed;~~

~~(6) The lands dedicated to the permits are within the same county.~~

~~(b) The Executive Director may approve the application to consolidate if the requirements of subsection (a) of this section are shown. A new permit number, designated with the year the application to consolidate was filed, shall be given to the consolidated permit.~~

## **SUBCHAPTER 13. MISCELLANEOUS PROVISIONS**

### **785:30-13-5. Allocation of municipal water [AMENDED]**

(a) Allocation of all municipal water from beneath lands which are either inside or outside the corporate municipal limits shall be governed by 82 O.S. 1981, §§1020.1 et seq., as amended.

(b) When a municipality elects to invoke the provisions of §1020.21 (allocation of water from beneath platted lands), its allocation shall be based upon the amount of acres dedicated to the application which are platted and subdivided into lots within the corporate municipal limits and which overlie the basin or subbasin

(c) The Board shall issue the permit if the following additional conditions can be met:

(1) The municipality shall make water reasonably accessible and available to residents on the platted lands dedicated to the application.

~~(2) The wells are or will be located not less than six hundred (600) feet within the municipal limits.~~

~~(3)(2) The wells are or will be on the platted land dedicated to the application, provided that the municipality demonstrates that it owns or otherwise has valid authority to place the wells on the land where the wells are or will be located.~~

(d) The requirements of this Section have no application to water allocated to municipalities from beneath unplatted lands either inside or outside the corporate municipal limits or the use of water from wells drilled by municipalities where groundwater rights were established under prior law unless the municipality elects to bring its use from such wells under provisions of 82 O.S. 1981, §§1020.1 et seq.

(e) A municipality may not allocate groundwater from beneath lands dedicated to a permit unless the municipality acquires ownership of that previously issued permit and changes the purpose of such permit to municipal use if necessary.

## SUBCHAPTER 13. AUTHORIZATION TO DRILL GROUNDWATER WELLS

### 785:35-13-1. Authorization to drill groundwater wells [AMENDED]

(a) Any person who intends to construct any new or replacement groundwater well(s) subject to the provisions of this Chapter shall, before commencing such activity, apply for authorization from the Board on forms provided by the Board, and receive approval from Board staff. Authorizations are not required for groundwater wells completed for domestic use, test holes that will not be cased, geotechnical borings, ~~or~~ heat exchange ~~well~~wells, monitoring wells, recharge wells, and temporary dewatering wells.

(b) Drilling authorizations will not be issued for construction of a well that requires another separate approval from the Board, such as a water right authorization, transfer, amendment or ~~injection~~recharge well authorization, until the other separate permitting requirements have been satisfied. A drilling authorization does not constitute a water right, injection well authorization, or other authorization that may be required.

(c) Any person who has failed or in the future fails to obtain an authorization as required by this section shall make application for a late authorization on forms provided by the Board. The late authorization application shall contain the same information as required by subsection (d). The application for a late authorization shall be accompanied by an additional fee payable to the Board. Failure to make an application for an intent to drill for a well requiring a water right shall be subject to administrative fines.

(d) The application shall be accompanied by a non-refundable fee payable to the Board and shall contain:

- (1) the name and post office address of the applicant or applicants,
- (2) the name and post address of the well owner,
- (3) the intended use,
- (4) the intended latitude/longitude location of the proposed groundwater well (within 10 feet),
- (5) the intended borehole diameter, casing diameter, casing type, estimated depth of well, and screened/perforated if known,
- (6) the estimated or desired capacity in gallons per minute,
- (7) the groundwater well identification number of the water well being replaced if applicable,
- (8) the water right application number if applicable, and
- (9) such other information as the Board requires.

(e) Applications for an authorization to drill a groundwater well will be given a timestamp upon their arrival at the Board offices and will be reviewed according to the time they were received. Applications meeting all the criteria set forth in this section shall be approved by Board staff and those failing to meet the criteria shall be denied or approved with conditions within five (5) business days of receipt by the Board. Expedited, same-day applications that meet the above criteria may be approved for an additional filing fee.

(f) If the application is incomplete or needs corrections, Board staff shall return the application to the applicant for any necessary corrections. Corrections must be made within sixty (60) days or the application will be cancelled. No refund of any application fees shall be made regardless of whether the application is approved, cancelled, or denied.

(g) An application for an authorization or late authorization for a groundwater well shall be denied only if Board staff finds:

- (1) Applications failing to meet the criteria set forth in Chapter 35,
- (2) That the location or operation of the proposed groundwater well would conflict with any regulations adopted by the Board or of other applicable laws of the State of Oklahoma,
- (3) The applicant refuses to agree to the conditions set forth in the approval,
- (4) That the application includes any intentionally misleading or falsified data.

(h) When an application for authorization to drill a groundwater well is approved the applicant shall commence construction of the water well as soon as possible after the date of approval. A drilling authorization may not be assigned from one owner to another or from one driller to another. For wells requiring a water right application, the applicant shall have one (1) year after the approval of the water right application by the Board to complete construction of the groundwater well. If the applicant fails to complete the well under the terms of the authorization, the Board will cancel the authorization. The applicant can request, in writing, a 1-year continuance of the authorization.

## GIST/ANALYSIS:

The changes to this rule are to make it more concise and easier for staff understanding and public understanding and perception. The current rules need correction as they have long had grammatical errors and were not presented in a manner that was easy to read and interpret. Also, this change adds points to the ranking of the REAP grant affording eligible entities the opportunity to increase their opportunity for receiving REAP grant funding. The changes also add a new financing program for hazard mitigation projects that will be implemented by Oklahoma Emergency Management.

## **SUBCHAPTER 6. WATER AND SEWER PROGRAM EMERGENCY GRANTS REQUIREMENTS AND PROCEDURES**

### **785:50-6-1. Approval criteria [AMENDED]**

(a) **General approval standards and criteria.** In the review and consideration of applications for financial assistance under the emergency grant program, the Board shall give consideration to the following general and non-exclusive criteria for application approval:

- (1) **Compliance with laws.** The application and proposed project must be found to be in compliance with all applicable and relevant federal, state and local laws and regulations, and applicant must possess all necessary and incidental legal rights and privileges necessary to project commencement and operation.
- (2) **Eligibility.** The applicant and proposed project must be determined to be eligible for the assistance sought.
- (3) **Local need, support and priority.** The project must be found to be needed in the area to be served and must be found to be sufficient, as proposed, to serve such needs. The Board shall additionally consider the project's relative benefit and priority in relation to the needs of other proposed projects and applicants.
- (4) **Availability of other assistance.** The Board shall consider the feasibility and availability of alternative sources of revenue which could be obtained and utilized by applicant for project financing.
- (5) **Economic feasibility.** The Board shall consider the overall apparent economic viability and feasibility of the project as a whole including proposed revenues from the project and the adequacy and reliability of estimated revenues necessary for loan repayment when indicated.
- (6) **Project feasibility.** The Board shall consider from the engineering data submitted and otherwise available documentation whether the proposed project appears to be feasible, and must determine as a prerequisite for approval and funding that it is cost effective.
- (7) **Statewide needs and public interest.** The Board shall give consideration to the relationship between the proposed project and the overall water resource development needs within the State of Oklahoma as well as to whether the proposed project, if constructed, will serve the public interest and welfare.
- (8) **Availability of funds.** The Board shall take into consideration the current and anticipated availability of ~~assistance~~ funds needed to provide the financial assistance requested.

### (b) **Criteria applicability.**

- (1) The general criteria set forth in (a) and (c) of this Section are intended to constitute and shall constitute general guidelines and standards for application review and consideration by the Board.
- (2) Such criteria shall not be deemed appropriate for strict application and interpretation nor shall such criteria be deemed exclusive.
- (3) In all instances, each individual application and project must be reviewed and considered on its own individual merits.
- (4) The criteria and standards set forth in (a) and (c) of this Section shall accordingly be interpreted and applied so as to allow sufficient flexibility in the ultimate exercise of Board's judgment and discretion.

(c) **Criteria for denying an application.** The Board may deny an application for an emergency grant for any of the following reasons:

- (1) The applicant or the entity which stands to receive the benefit of the financial assistance is not an eligible entity.
- (2) The applicant has had improper or unsound management in the past.
- (3) The project is not cost effective.
- (4) Any other reason based upon applicable law, applicable requirements of the pertinent bond resolution governing use of the bond proceeds, or the Board's judgment and discretion.

### **785:50-6-3. Emergency grant priority point system [AMENDED]**

#### **(a) Basis of priority system and formula.**

(1) **General description.** The priority system consists of a mathematical equation rating the applicants and the proposed project in accordance with the requirements of the statutes by means of a formula awarding points for each criteria used in the evaluation. The maximum point total under the system is one hundred twenty (120). The Board may consider each month, and in order from the highest rating, those applications awarded point ratings of 60 or more priority points. If the Board determines that the applicant with the highest point rating cannot promptly proceed with the project due to delays, including but not limited to those caused by legal problems, engineering problems, feasibility problems or availability of other funding sources, the Board may pass over consideration of such application then proceed to consider in order the next highest rated application.

Applications which are bypassed shall retain their ratings and thus remain eligible for further consideration.

Applications preliminarily determined by Board staff to have point ratings of 59 or fewer shall be deemed denied; provided, such applications may be reevaluated if the applicant submits additional information showing changed circumstances within 120 days after the date of staff's determination, and such information improves the applicant's preliminary point rating.

(2) **Statutory criteria.** The basis of the priority formula has been developed from the enacting legislation. The two primary statutory criteria are:

(A) The emergency situation of the applicant.

(B) Whether or not the applicant can reasonably finance the project without assistance from the state.

(3) **Total priority points.** Total priority points will be calculated and awarded for individual projects; therefore, eligible entities will be required to complete separate applications for each project for which grant funds are requested. Priority lists compiled and published by other Oklahoma State agencies and/or seniority dates of applications submitted shall be utilized to decide ties in point totals among applicants.

#### **(b) Priority formula for eligible entities other than school districts.**

(1) **Formula.** The following formula has been devised to rank grant applications:  $P E + W R + I + L + M H I + F P + A R + B P - A N$ , where:

(A) P = Priority ranking

(B) E = Emergency ranking

(C) W R = Water and sewer rate

(D) I = Indebtedness per customer

(E) L = Amount of local contribution toward project

(F) MHI = Median Household Income

(G) FP = Applicant's ability to finance project

(H) AR = Amount of grant requested

(I) BP = Benefit of project to other systems

(J) AN = Application number

(2) **Explanation.** Each of these criteria are explained below:

(A) **Emergency rankings (E).** Emergencies are ranked by severity with Category 1 being the most severe and Category 2 being the least severe. Points awarded range from a maximum of 50 points for Category 1 and a minimum of 40 points for Category 2. If an applicant requests funds to correct more than one emergency category need, only the amount of assistance needed to correct the most severe need will be considered in the calculation for the application ranking. The applicant will be informed that separate and additional applications must be filed for other needs and projects. An applicant who receives funding for a project under any of the listed emergencies may not reapply under the same emergency. The two (2) emergency ranking categories are as follows:

# Permanent Final Adoptions

---

(i) **Category 1.** Total loss of a water supply or sewage system or loss of a major component of a system due to a natural or unforeseen disaster which could not have been prevented by the exercise of reasonable care by the applicant. Examples of such disasters may include but are not necessarily limited to: tornado; flood; fire; severe weather; landslide; sudden loss of a water supply system; sudden collapse of a major structural portion of a system; signs of imminent failure of a public water supply lake dam, spillway or outlet structure such as settlement or slumping of the crest, excessive seepage, slides, cracks or sloughs along the upstream and downstream slopes of the dam. Also included under this category is the construction of a new water system to serve areas where residents are supplied by domestic sources or domestic systems whose quantity does not supply the basic needs of the residents. In such cases where new or extended systems are proposed, the Board shall consider and determine whether an adequate population density is available to utilize the proposed system. Notwithstanding any other provisions of this Chapter, if the density is preliminarily determined by Board staff to be inadequate for the applicant to feasibly provide operation and maintenance of the new or extended system, then the application will not be recommended for approval until the proper density, which will make the extension feasible, is achieved. Category 1 emergencies receive 50 points.

(ii) **Category 2.** Water or sewer emergencies which could not have been prevented by the exercise of reasonable care by the applicant and which cause immediate danger or an imminent health hazard to the community or other nearby citizens. Such emergencies may include but are not necessarily limited to: users or systems whose water supply is deemed to be dangerous or unhealthy; systems whose supply source becomes contaminated by man-made pollution caused by a person other than the applicant; overflow of raw sewage into homes or streets due to structural failure in the collection mains and/or structural, mechanical, or electrical failure at a lift station due to disasters which could not have been prevented by the exercise of reasonable care by the applicant, including but not limited to tornado, flooding, fire, or landslides; sewage treatment systems which discharge raw or inadequately treated sewage effluent whose quality and/or quantity causes an immediate and imminent health or safety danger to a public water supply due to a structural, mechanical or electrical failure of a process unit(s) caused by disasters which could not have been prevented by the exercise of reasonable care by the applicant, including but not limited to tornado, flooding, fire, or landslides. Also included under this category is the construction of a new water system to serve areas where residents are supplied by domestic sources or domestic systems whose quality is dangerous or unhealthy as a consequence of circumstances that could not have been prevented by the exercise of reasonable care by the applicant. In such cases where new or extended systems are proposed, the Board shall consider and determine whether an adequate population density is available to utilize the proposed system. Notwithstanding any other provision of this Chapter, if the density is preliminarily determined by Board staff to be inadequate for the applicant to feasibly provide operation and maintenance of the new or extended system, then the application will not be recommended for approval until the proper density, which will make the extension feasible, is achieved. Category 2 emergencies receive 40 points.

(iv) The Board will deduct 3 points from the total of the Water and Sewer Rate Structure ranking for any system which charges a flat water or sewer rate (unmetered) without regard to the amount of water or sewer used, and 2 points for a decreasing block rate which lowers the cost per 1000 gallons for customers using larger amounts of water. No points will be added or subtracted for systems using a fixed rate per 1,000 gallons above the minimum. Two points will be added for systems using an increasing block rate. Entities who dedicate sales tax for water and/or sewer improvements will be awarded 1 additional point. Under the category the maximum number of points is 13 and the minimum is -3 points.

**(C) Indebtedness per customer (I).** The indebtedness per customer ranking is calculated by taking the applicant's monthly requirements for debt service on debt incurred for water and/or sewer system purposes and dividing it by the number of customers served.

- (i) If the indebtedness per customer is \$20.00 or greater, the applicant ~~shall be given~~receives 10 points.

**(D) Local participation (I).**

(i) The Board will not approve nor fund any grant application unless the applicant contributes at least fifteen percent (15%) of the total cost of the proposed project.

(ii) The local participation ranking is based on the percent of the total project cost which is locally funded through cash contributions, or incurrence of additional debt through a loan. Grant funds received through other agencies will not be counted as local funding. Points awarded for participation are as follows:

- (I) If the percentage of the project cost locally funded is 90% or greater, the applicant shall be given 10 points.
- (II) If the percentage of the project cost locally funded is at least 80% but less than 90%, the applicant ~~shall be given~~receives 9 points.

(X) If the percentage of the project cost locally funded is at least 15% but less than 20%, the applicant ~~shall be given~~receives 1 point.

(XI) If the percentage of the project cost locally funded is less than 15%, the application shall not be approved nor funded.

(E) **Median Household Income (MHI).** The median household income is calculated according to the most current federal decennial census or American Community Survey data available.

(i) The county median figure for median household income will be used in cases where data for the applicant's service area is not available.

(ii) Points are awarded as follows:

(I) If the median household income is less than \$17,000, the applicant ~~shall be given~~receives 10 points.

(II) If the median household income is \$17,000 to \$20,999, the applicant ~~shall be given~~receives 9 points.

(F) **Ability to finance project (FP).**

(i) The maximum points possible under this criterion for the ability of the applicant to finance the project without assistance from the state is 12.

(ii) The FP ranking gives a standardized account of the amount the existing water/sewer rates would have to be raised in order for the applicant to finance the project through a loan. A standard interest rate and term of 5% for 25 years is assumed. The cost per customer per month is calculated using the following formula: FP equals the product of AR multiplied by (0.0710), divided by the product of (12) multiplied by (C), where:

(I) FP = Estimate of the amount monthly water/sewer rates would have to be raised to finance the amount of grant request for the project.

(II) AR = Amount of grant request. For this calculation, the amount of available reserve not dedicated to the project will be deducted from the amount requested.

(III) (0.0710) = Annual rate factor for a 25 year loan at 5%

(IV) (12) = Number of months per year.

(V) (C) = Number of customers

(iii) In cases where the applicant's current revenues exceed expenses by a large margin, the Board will appropriately adjust the (AR) figure to accurately represent the applicant's ability to finance the project.

(iv) Points in the FP ranking are awarded as follows:

(I) If the ability to finance the project is \$10.00 or greater, the applicant ~~shall be given~~receives 12 points.

(II) If the ability to finance the project is \$8.00 to \$9.99, the applicant ~~shall be given~~receives 11 points.

- (XVI) ~~If the grant amount requested is \$25,000 or less: +10, the applicant receives 10 points.~~

(ii) If a project exceeds \$75,000 and the amount of funds needed over and above the OW RB grant request are being secured through a loan from OWRB, then there will be no deduction of points under this category.

(H) **Project benefit to other systems (BP).** If the applicant's project will benefit other adjacent systems as well as applicant's, or result in or lead to consolidation of systems, an additional five (5) priority points will be included in the total of priority points assigned to the application.

(I) **Number of grants.** Since it is anticipated that entities who have received emergency grants might submit additional grant applications for approval, points will be deducted from such applications according to the following schedule; provided, points shall not be deducted from such any emergency grant which was funded 10 or more years prior to the date of Board action on the pending application and which has been subjected to a Board audit:

(i) If the qualified entity has received one (1) prior grant = 5 reduction points, the application receives -5 points.

(ii) If the qualified entity has received two (2) prior grants = 8 reduction points, the application receives -8 points.

(iii) If the qualified entity has received three (3) prior grants = 10 reduction points, the application receives -10 points.

(iv) If the qualified entity has received four (4) prior grants = 12 reduction points, the application receives -12 points.

(v) If the qualified entity has received five (5) or more prior grants = 14 reduction points, the application receives -14 points.

**(c) Priority formula for school districts.**

(1) School districts, created under Article V of the 1971 School Code, 70 O.S. 1981, §5-101 et seq., are political subdivisions of the State, and therefore are eligible for financial assistance under the Board's program.

(2) In evaluating and prioritizing grant applications from school districts similar criteria to those applied to municipalities, towns and rural water districts will be utilized.

(3) In developing a priority formula for school district applicants, again, the two primary statutory criteria are:

(A) The emergency situation of the school district.

(B) Whether the school district can reasonably finance the emergency project without the Board's assistance.

(4) The emergency aspect of each project is ranked with a maximum of 50 points being given to the most serious situations and a minimum of 30 points to the least serious. The emergency categories and points given for each are the same as those listed in (b)(2) of this Section.

(5) The school district's financial situation is given a maximum of 66 points and is derived by analyzing the following:

(A) Local tax levies

(B) Bonded indebtedness

(C) Local contribution

(D) Median household income within the school district's geographical area

(E) Applicant's ability to finance project

(F) Amount of grant requested

(G) Application number

(6) Priority lists compiled and published by other Oklahoma state agencies shall be utilized to assess the seriousness of the emergency.

(7) Using the previously mentioned analysis, the following formula has been devised to rank school districts' grant applications:  $P = E + LT + BI + L + MHI + FP + AR - AN$ , where:

(A) P = Priority ranking total points

(B) E = Emergency ranking

(C) LT = Local tax levies

(D) BI - Bonded indebtedness

(E) L = School's contribution toward the project

(F) MHI = Median household income of population within a school district

(G) FP = Applicant's ability to finance project

(H) AR = Amount of grant requested

(I) AN = Application number

(8) The criteria E, MHI, FP, AR and AN are the same as that set forth in (b) of this section. LT, BI and L are explained as follows:

(A) **Local tax levies (LT).** Points awarded under this category for local tax levies are based on the total amount of mills levied, as follows:

- (i) ~~95 to 100.00 mills = 13 points~~ If the mills are 95 to 100, the applicant receives 13 points.
- (ii) ~~90 to 94.99 mills = 11 points~~ If the mills are 90 to 94.99 the applicant receives 11 points.
- (iii) ~~85 to 89.99 mills = 10 points~~ If the mills are 85 to 89.99, the applicant receives 10 points.
- (iv) ~~80 to 84.99 mills = 8 points~~ If the mills are 80 to 84.99, the applicant receives 8 points.
- (v) ~~70 to 79.99 mills = 6 points~~ If the mills are 70 to 79.99, the applicant receives 6 points.

- (viii) ~~50 to 54.99 mills = 1 point~~ If the mills are 50 to 54.99, the applicant receives 1 point.
- (ix) ~~45 to 49.99 mills = 0 points~~ If the mills are 45 to 59.99, the applicant receives 0 points.
- (x) ~~40 to 44.99 mills = -1 points~~ If the mills are 40 to 44.99, the applicant receives -1 point.
- (xi) ~~Less than 40 mills = -2 points~~ If the mills are less than 40, the applicant receives -2 points.

(B) **Bonded indebtedness (BI).**

(i) Priority points for Bonded Indebtedness are as follows: ~~Percentage of Indebtedness Points~~

- (I) ~~95% to 100% of debt limitation = 10 points~~ If the percentage is 95% to 100%, the applicant receives 10 points
- (II) ~~90% to 94.99% of debt limitation = 8 points~~ If the percentage is 90% to 94.99%, the applicant receives 8 points.
- (III) ~~80% to 89.99% of debt limitation = 7 points~~ If the percentage is 80% to 89.99%, the applicant receives 7 points.
- (IV) ~~75% to 79.99% of debt limitation = 6 points~~ If the percentage is 75% to 79.99%, the applicant receives 6 points.

- (VIII) ~~55% to 59.99% of debt limitation = 2 points~~ If the percentage is 55% to 59.99%, the applicant receives 2 points.
- (IX) ~~50% to 54.99% of debt limitation = 1 point~~ If the percentage is 50% to 54.99%, the applicant receives 1 point.
- (X) ~~45% to 49.99% of debt limitation = 0 points~~ If the percentage is 45% to 44.99%, the applicant receives 0 points.
- (XI) ~~40% to 44.99% of debt limitation = -1 point~~ If the percentage is 40% to 44.99%, the applicant receives -1 point.
- (XII) ~~30% to 39.99% of debt limitation = -2 points~~ If the percentage is 30% to 39.99%, the applicant receives -2 points.
- (XIII) ~~Less than 30% of debt limitation = -3 points~~ If the percentage is less than 30%, the applicant receives -3 points.

(ii) A deduction of one (1) point from the indebtedness ranking total will be made for applicants with 75% of existing debts financed at rates of 5% or less, and one (1) point will be added if 75% of existing debts are financed at rates greater than 10%.

(C) **Local participation (L).**

(i) In order to achieve the maximum benefit from available grant funds, the Board will not approve nor fund any grant application unless the applicant contributes at least fifteen percent (15%) of the total cost of the proposed project.

(ii) The local participation ranking is based on the percent of the total project cost which is locally funded through cash contributions or incurrence of additional debt through a loan.

Points awarded are as follows:

- (I) If the percentage of the project cost locally funded is 90% or greater, the applicant ~~shall be given~~ receives 10 points.

(6) **Project feasibility.** The Board shall consider from the engineering data submitted and otherwise available whether the proposed project appears to be feasible, and must determine as a prerequisite to application approval and funding that the project is cost effective.

(7) **Statewide needs and public interest.** The Board shall give consideration to the relationship between the proposed project and the overall water resource development needs within the State of Oklahoma as well as to whether the proposed project, if constructed, will serve the public interest and welfare.

(8) **REAP grant amount; availability of funds.** In sizing a REAP grant, the Board shall take into consideration the current and anticipated availability of REAP program funds.

(9) **Conservation Measures.** The Board shall consider whether or not the applicant has taken all reasonable measures to limit waste and conserve water.

(c) **Criteria applicability.**

(1) The general criteria set forth in (b) and (d) of this Section are intended to constitute and shall constitute general guidelines and standards for application review and consideration by the Board.

(2) Such criteria shall not be deemed exclusive.

(3) In all instances, each individual application and project must be reviewed and considered on its own individual merits.

(4) The criteria and standards set forth in (b) and (d) of this Section shall accordingly be interpreted and applied so as to allow sufficient flexibility in the ultimate exercise of Board's judgment and discretion.

(d) **Criteria for denying an application.** The Board may deny an application for a REAP grant for any of the following reasons:

(1) The applicant or the entity which stands to receive the benefit of the grant assistance is not an eligible entity.

(2) Any other reason based upon applicable law or the Board's judgment and discretion.

(e) **Board action.**

(1) After reviewing and considering the submitted application, the Board may proceed to take one of the following alternative forms of Board action on the application:

(A) The Board may approve and grant the application as submitted, in whole or in part, and thereby authorize such further action as may be necessary to effectuate the disbursement of funds.

(B) The Board may retain the application under advisement for further consideration or continue hearing on same for later ruling and disposition, and, the Board may withhold ruling on the application pending further hearing and/or submission to the Board of such further or additional information as the Board may require for application consideration purposes.

(C) The Board may reject and deny the application, in whole or in part, based upon any criteria described in (d) of this Section which may be applicable.

(D) The Board may approve and grant the application, in whole or in part, such approval being conditioned and contingent upon the existence of adequate and available grant funds or conditioned and contingent upon receipt and approval by Board staff of any outstanding and necessary material, information, documents, verifications or other authorization.

(2) Upon approval of an application, the Board may authorize the execution of all necessary grant documents and instruments by the Chairman of the Board, or other designated Board member, and may accordingly authorize and provide for disbursements and may authorize such further or additional action as may be necessary to complete and implement the approved transaction.

## **785:50-8-4. Applicable law; deadline for applications; eligible project costs [AMENDED]**

(a) The Board shall administer applications for REAP funds in accordance with any provisions of law applicable to such applications and REAP funds.

(b) To be considered for and receive funding from funds available for REAP in any given fiscal year, an application must be completed in accordance with the Board's rules and prescribed application form in all material respects with all attachments, and filed by the applicant and received by the Board on or before 5 p.m. the first business day of September of that fiscal year. However, if the deadline cannot be met due to circumstances beyond the applicant's control, the application may be accepted by the Board through the last business day of September with written proof of said circumstances. Any application not properly completed and filed shall not be considered for or funded from funds that may become available during that fiscal year. Furthermore, if no applications are received before the deadline from the area of a given COG, then the Board staff may extend the deadline for that COG through the first business day of November and contact an appropriate official for the COG and notify him or her of the available funds.

(c) A REAP grant application submitted for consideration in a prior fiscal year that was not approved for funding out of funds made available in that prior fiscal year shall expire and ~~be deemed denied unless the applicant files and the Board receives a timely written request to consider said application during the current fiscal year, together with updated application materials as may be reasonably required by the Board. To be timely, such request and updated application materials must be received by the board on or before the first business day of September, of the current fiscal year and cycled out.~~

(d) For purposes of evaluating, approving and funding an application for a REAP grant, categories of project costs which are eligible for assistance ~~shall including, in addition to those project costs described in 785:50-3-~~include engineering undertaking or work to conserve and develop surface or subsurface water resources or to control or develop sewage treatment facilities of the State for all useful and lawful purposes by the acquisition, improvement, extension or construction of dams, reservoirs, and other water storage projects, including, but not limited to underground storage projects, filtration and water treatment plants, including any system necessary to distribute water from storage or filtration plants to points of distribution, or from storage to filtration and treatment plants, facilities for distributing water therefrom to wholesale or retail purchasers, floodplain restoration, including but not limited to home relocations, bank stabilization, storm sewer and drainage improvements and any system necessary to improve or develop sewage treatment, collection or distribution capabilities of any area of the State. Such qualified projects are additionally understood to include financial assistance to acquire and own the lands required for the project, and to obtain the water supply and to construct appropriate treatment facilities as described in 785:50-3-1. Additionally, eligible expenses include:

- (1) Architecture and/or engineer fees related to the project. Provided, however, that in order for these costs to be eligible for award, applicants shall provide documentation that all construction funding is available. If construction funding is not available the request for these costs will be placed in a "pending" status until such time as the construction funding is available. If, however, an Engineering Report is a requirement of a Consent Order, an applicant under Consent Order may be awarded a grant to cover the engineering costs without construction funding being available.
- (2) Fees for soil testing.
- (3) Fees for surveying.
- (4) Payments to contractor(s) for construction of the improvements.
- (5) Legal fees and expenses of counsel for the applicant which are related to the project.
- (6) Services of full-time or part-time inspector.
- (7) Administrative expenses shall not be eligible project costs.

## **785:50-8-5. REAP grant priority point system [AMENDED]**

(a) **Basis of priority system and formula.**

(1) **General description.** The priority system consists of a mathematical equation rating the qualified entities and the proposed project in accordance with the requirements of state law by means of a formula awarding points for each criterion used in the evaluation. The maximum point total under the system is one hundred ~~twenty-five (125)~~ thirty (130). The Board may consider each month, and in order from the highest rating, those applications awarded point ratings of 40 or more priority points. If the Board determines that the qualified entity with the highest point rating cannot promptly proceed with the project due to delays, including but not limited to

## Permanent Final Adoptions

those caused by legal problems, engineering problems, feasibility problems or availability of other funding sources, the Board may pass over consideration of such application then proceed to consider in order the next highest rated application. Applications which are bypassed shall retain their ratings and thus remain eligible for further consideration. Applications preliminarily determined by Board staff to have point ratings of applicant submits additional information showing changed circumstances within 120 days after the date of staff's determination, and such information improves the applicant's preliminary point rating.

(2) **Statutory criteria.** The basis of the priority formula has been developed from the enacting legislation. The primary statutory criteria are:

(A) There shall be a higher priority for any city or town with a population less than one thousand seven hundred fifty (1,750) according to the Census Population than for any jurisdiction with a greater population; and rural water or sewer districts which have less than 525 non-pasture customers; and

(B) *Among other cities or towns, those municipalities having relatively weaker fiscal capacity shall have a priority for project funding in preference to other municipalities* [62:2003]. In order to give a priority evaluation to each applicant, the Board shall evaluate all applications according to the fiscal capacity criteria set forth in this Section.

(3) **Total priority points.** Total priority points will be calculated and awarded for individual projects. Therefore, qualified entities will be required to complete separate applications for each project for which grant funds are requested. Priority lists compiled and published by other Oklahoma State agencies and/or seniority dates of applications submitted shall be utilized to decide ties in point totals among qualified entities.

(b) **Priority formula for eligible entities other than school districts and counties.**

(1) **Formula.** The following formula has been devised to rank grant applications:  $T = P + WR + I + MHI + FP + N + AR + BP + PG + S + WA$ . Where:

(A) T = Total of priority points

(B) P = Population

(C) WR = Water and sewer rate structure

(D) I = Indebtedness per customer

(E) MHI = Median household income

(F) FP = Applicant's ability to finance project

(G) N = Need

(H) AR = Amount of grant requested

(I) BP = Project benefit to other systems

(J) PG = Previous grant assistance

(K) S = Sustainability

(L) WA = Workshop attended

(2) **Explanation.** Each of these criteria are explained below:

(A) **Population (P).** Municipalities which have a population of less than 1,750 according to the latest Census Population ~~shall be given~~ will receive 55 priority points. Rural water or sewer districts which have less than 525 non-pasture customers ~~shall be given~~ will receive 55 points.

(B) **Water and Sewer rate structure (WR).**

~~(i) For systems providing water service only, points are figured according to the same scale set forth in Section 50-7-5(b)(2)(B)(i)~~ For systems providing water service only.

- (I) If he cost per connection per month is \$34.00 or greater, the applicant receives 10 points.
- (II) If the cost of connection per month is \$32.00 to \$33.99, the applicant receives 9 points.

- (XI) If the cost per connection per month is less than \$16.00, the applicant receives 0 points.

(iv) The Board will deduct 3 points from the total of the Water and Sewer Rate Structure ranking for any system which charges a flat water rate or sewer rate (unmetered) without regard to the amount of water or sewer used, and 2 points for a decreasing block rate which lowers the cost per 1000 gallons for customers using larger amounts of water. No points will be added or subtracted for systems using a fixed rate per 1,000 gallons ~~rate~~ above the minimum. Two points will be added for systems using an increasing block rate. Entities who dedicate sales tax for water and/or sewer improvements will be awarded 1 additional point.

Under this category the maximum number of points is 13 and the minimum is -3 points.

**(C) Indebtedness per customer (I).** The indebtedness per customer ranking is calculated by taking the applicant's monthly requirements for debt service on debt incurred for water and/or sewer system purposes and dividing it by the number of customers served. When the applicant is a provider of wholesale water to other systems, the number of customers served is the sum total of the customers served by the systems to whom they sell water.

- ~~the applicant shall be given~~ the applicant receives 10 points.
- ~~the applicant shall be given~~ the applicant receives 9 points
- ~~the applicant shall be given~~ the applicant receives 8 points.
- ~~the applicant shall be given~~ the applicant receives 7 points.

(D) **Median household income (MHI).** The median household income is calculated according to the most current United States Decennial Census or American Community Survey data available.

(i) The county median figure for median household income will be used in cases where data for the applicant's service area is not available.

(ii) Points for this MHI criterion are awarded according to the ~~scale set forth in Section 50-7-5(b)(2)(E)(ii)~~decennial census or American Community Survey data available. Points are awarded as follows:

- (I) If the median household income is less than \$17,000, the applicant receives 10 points.

- (XI) If the median household income is \$52,000 or greater, the applicant receives 0 points.

(E) **Ability to finance project (FP).**

(i) The maximum points possible under this criterion for the ability of the applicant to finance the project without assistance from the state is 12.

(ii) The FP ranking gives a standardized account of the amount the existing water/sewer rates would have to be raised in order for the applicant to finance the project through a loan. A standard interest rate and term of 5% for 25 years is assumed. The cost per customer per month is calculated using the following formula:  $FP = AR (0.0710)/(12)(C)$ , Where:

- (I) FP = Estimate of the amount monthly water/sewer rates would have to be raised to finance the amount of grant requested for the project.
- (II) AR = Amount of grant requested.
- (III) 0.0710 = Annual rate factor for a 25 year loan at 5%.
- (IV) 12 = Number of months per year.
- (V) C = Number of customers.

(G) **Amount of grant requested (AR).** Points under this category for amount of grant requested are determined as follows:

(i) If the ARgrant amount requested is \$140,001 to \$150,000, the applicant ~~shall be given~~receives -5 points.

(ii) If the ARgrant amount requested is \$130,001 to \$140,000, the applicant ~~shall be given~~receives -4 points.

(K) **Workshop attended (WA).** 5 points will be awarded to any applicant who attends, or has a representative attend the pre-application workshop presented by Board staff. Attendance will be verified during the course of the training.

### (c) Priority formula for school districts and counties.

(1) School districts created under Article V of the School Code, 70 O.S. 1991, §5-101 et seq., and counties are political subdivisions of the State, and therefore are eligible for financial assistance under the Board's REAP grant program.

(2) In evaluating and prioritizing grant applications from school districts and counties, similar criteria to those applied to municipalities and rural water districts will be utilized.

(3) In developing a priority formula for school district and county applicants, the primary criteria are average daily membership (for schools only), fiscal capacity, need, amount requested, and previous grant assistance.

(4) The following formula has been devised to rank REAP grant applications by counties and school districts:  $T = ADM + LT + BI + MHI + FP + N + AR + PG + WA$ , Where:

(A) T = Total of priority points

(B) ADM = Average daily membership

(C) Lt = Local tax levies

(D) BI = Bonded indebtedness

# Permanent Final Adoptions

---

(I) PG = Previous grant assistance

(J) WA = Workshop attended

(5) The criteria MHI, FP, N, AR and PG are the same as that set forth in (b) of this Section. The criteria ADM, LT and BI are explained as follows:

## SUBCHAPTER 9. CLEAN WATER STATE REVOLVING FUND REGULATIONS

### PART 3. GENERAL PROGRAM REQUIREMENTS

## 785:50-9-23. Clean Water SRF Project Priority System [AMENDED]

(a) **Preparation.** The Board shall prepare and maintain a current Clean Water SRF Project Priority Listing of potential eligible projects in the order of priority.

(b) **Projects included.**

(1) **Fundable portion.** The fundable portion includes projects scheduled for financial assistance during the current fiscal year, and which are within the limits of currently available funds.

(2) **Planning portion.** The planning portion includes that portion of the priority list containing all of those projects outside the fundable portion of the list, and which are anticipated to receive financial assistance in future fiscal years. The planning portion may also include contingency projects which are scheduled for assistance during the current fiscal year, but for which adequate funds are not available to provide financial assistance. Contingency projects may receive assistance due to bypass provisions or due to additional funds becoming available.

(c) **Public participation.** Before the beginning of each fiscal year, the Board shall ensure that adequate public participation has taken place. A public meeting will be held to discuss the Clean Water SRF Project Priority List and any revisions that were made to the Clean Water SRF Project Priority System. The notice of public meeting shall precede the public meeting by 30 days and shall be published in a statewide publication. At this time, the Board shall circulate information about the Project Priority List including a description of each proposed project. Attendees of the public meeting will be allowed to express their views concerning the list and system.

(d) **Clean Water SRF Project Priority List.** A Clean Water SRF Project Priority List shall become effective and supersede all previous lists upon the beginning of the fiscal year for which it is designated. A Clean Water SRF Project Priority List, as updated during the funding year, shall remain effective until such time as it is superseded by a new list.

(e) **CWSRF Integrated Priority Rating System.** The Board will utilize an integrated priority ranking system to evaluate and rank proposed treatment works projects, ~~including treatment works, Brownfield activities, and stormwater activities;~~ based on the relative impact of the project in achieving the water quality objectives of the Clean Water Act. ~~This system consists of criteria integrating public health protection and Oklahoma's Water Quality Standards beneficial use maintenance and protection goals and Anti-degradation policy, including project type, water quality restoration, water quality protection, programmatic priorities, and readiness to proceed.~~

(1) **Project Type Factor.** The Project Type Factor provides a maximum of seventy (70) points for proposed water quality projects based on the following:

(A) Treatment works or water quality projects designed to effectively eliminate or reduce a documented source of human health threat and/or discharge permit limit violation within a watershed of a waterbody being utilized as a public water supply shall receive seventy (70) points.

(B) Treatment works or water quality projects designed to effectively eliminate or reduce a documented source of human health threat and/or discharge permit limit violation shall receive sixty (60) points.

(C) Treatment works or water quality projects designed to sustain compliance with or provide a degree of treatment beyond permit limits; increase capacity, reliability, or efficiency; reclaim/reuse wastewater; reduce a documented water quality threat, or otherwise maintain beneficial uses shall receive thirty (30) points.

(D) All other eligible treatment works or pollution control projects shall receive twenty (20) points.

(2)(1) **Water Quality Restoration Factor**~~Impacts.~~ The Water Quality Restoration Factor provides a maximum of twenty (20) points for proposed projects located on waterbodies which are not meeting the beneficial uses assigned to them in Oklahoma's Water Quality Standards and which are listed on Oklahoma's 303(d) list as threatened or impaired. The water quality restoration factor will be subject to change whenever the 303(d) List is revised. Water quality projects meeting the following criteria shall receive additional priority points: Points will be awarded if the project is protecting or improving a waterbody.

(A) A project located in a watershed listed as a "NPS Priority Watershed" in Oklahoma's Nonpoint Source Management Program shall receive an additional ten (10) points.

(B) A project listed on Oklahoma's 303(d) list of threatened or impaired stream segments shall receive an additional five (5) points.

(C) A project that implements the recommendations of a conservation plan, site-specific water quality remediation plan, TMDL, storm water management program, water audit or modified 208 water quality management plan, which has been approved by an agency of competent jurisdiction, in a sub-watershed where discharge or runoff from nonpoint sources are identified as causing, or significantly contributing to water quality degradation shall receive an additional five (5) points.

# Permanent Final Adoptions

---

**(3) Water Quality Protection Factor.** The Water Quality Protection Factor provides a maximum of ten (10) priority points to proposed water quality projects that provide maintenance of beneficial uses and protection for water bodies afforded special protection under OWQS. Projects shall receive ten (10) points for satisfying the following criteria:

(A) A water quality project located within the watershed of a stream segment or in a groundwater basin underlying a watershed of a stream segment (known as "Special Source" groundwater):

(i) listed in OWQS Appendix A. as an Outstanding Resources Water, High Quality Water, Sensitive Water Supply, Scenic River, Culturally Significant Water or Nutrient Limited Watershed;

(ii) listed in OWQS Appendix B. as "Areas with Waters of Recreational and/or Ecological Significance"; or

(iii) located in a delineated "source water protection area"; or

(B) A water quality project located in an area overlying a groundwater classified in OWQS with a vulnerability level of Very High, High, Moderate, or Nutrient Vulnerable.

**(4)(2) Programmatic Priority Factor.** The Programmatic Priority Factor provides a maximum of one hundred (100) priority bonus points to projects that address specific programmatic priorities set forth by the Environmental Protection Agency or Board and detailed in the Annual Intended Use Plan. Points will be awarded for affordability criteria, conservation and enforcement/compliance as defined in the states current IUP.

**(5)(3) Readiness to Proceed Factor.** The Readiness to Proceed Factor provides a maximum of four hundred (400) points. Points will be awarded depending on the documents submitted showing the relative "readiness to proceed" with a loan commitment among proposed projects.

(A) A project requesting to be considered for funding within the five-year planning period shall receive one hundred (100) points:

(B) In addition to a request for funding, a project for which preliminary planning documents have been submitted shall receive two hundred (200) points. Preliminary planning documents include a preliminary engineering report and a preliminary environmental information document, and must be submitted to the Board and to the Department or the Conservation Commission as appropriate:

(C) In addition to a request for funding and preliminary planning documents, a project for which a completed loan application has been submitted shall receive three hundred (300) points:

(D) In addition to a request for funding, preliminary planning documents, and a completed loan application, a project for which the appropriate technical plans and specifications necessary to implement the project have been approved by the Department or the Conservation Commission, as appropriate, shall receive four hundred (400) points:

## **(f) Management of the Project Priority List.**

(1) **Tie breaking procedure.** A tie breaking procedure shall be utilized when two or more projects have equal points under the Project Priority System and are in competition for funds. Projects will be ranked according to existing population. According to the most recent federal decennial census or American Community Survey data available, the project with the greatest existing population will receive the higher ranking.

(2) **Project bypass.** A project on the fundable portion of the list may be bypassed if it is determined that the project will not be ready to proceed during the funding year. This determination will be made on projects that are unable to meet the schedule established on the priority list. The applicant whose project is affected shall be given written notices that the project is to be bypassed. Projects that have been bypassed may be reinstated on the funded portion of the list if sufficient funds are available, and the project completes the necessary tasks to proceed. Funds which become available due to the utilization of these bypass procedures will be treated in the same manner as additional allotments.

(3) **Project Priority List update.** The priority list is continually reviewed and changes (i.e., loan award dates, estimated construction assistance amounts, project bypass, addition of new projects, etc.) may occur as necessary.

(4) **Additional allotments.** After defining the fundable portion of the Clean Water SRF Project Priority List, the Board may determine that it is necessary or desirable to obligate additional funds that are available and the list may be extended to include the next highest ranked project or projects on the planning portion of the list. Any sum made available to a state by reallocation or deobligation shall be treated in the same manner as the most recent allotment.

(5) **Project removal.** The Board may remove a project from the Clean Water SRF Project Priority List when the project has been funded, the project is found to be ineligible, it is indicated that the applicant does not intend to continue in the Clean Water State Revolving Loan Program, or the Board has determined that the applicant does not have financial, legal, or managerial capability to construct the project.

(6) **Amount of financial assistance.** The amount of financial assistance shall be the sum of the total eligible costs related to construction. The amount is contingent upon the availability of funds for this purpose. During each funding year, loans totaling twenty-five (25) percent of the funds available from the capitalization grant and state match for that year shall be provided to those eligible small municipalities with a population of 10,000 or less. However, if the state has not met the federal requirement of making binding commitments in an amount equal to one hundred and twenty (120) percent of each quarterly grant payment within one year of receipt of each quarterly payment, other eligible applicants may apply for a loan or an increase to an existing loan to utilize the small community set aside, if such actions will permit the state to comply with the federal binding commitment requirement.

(7) **Addition of new projects to the Clean Water SRF Project Priority List.**

(A) **General.** Prior to the placement of any new projects on the Clean Water SRF Project Priority List, the applicant must submit a request for such placement to the Board. The Programmatic Application must specify that the applicant intends to apply for financial assistance from the Clean Water SRF. The Board will evaluate the Programmatic Application. If it is indicated that a viable project could result which would be in conformance with Clean Water SRF requirements, the potential project will be added to the Clean Water SRF Priority List.

(B) **Brownfield Activities.** Requests received for Brownfield activity projects must satisfy the following requirements before they will be placed on the Clean Water SRF fundable portion of the project priority list:

- (i) Submit a certification from the Department that the project is a Brownfield project;
- (ii) Submit a certification from the Department that urban runoff from the project site potentially impacts water quality; and
- (iii) Submit project documents which determine the water quality benefits of the proposed project.

(C) **Nonpoint source and Watershed Management activities.** Requests received for nonpoint source and watershed management projects must satisfy the requirements of 82 O.S. §1085.58(G), as amended, before they will be placed on the Clean Water SRF fundable portion of the project priority list.

(8) **Categories of need.** All projects receiving financial assistance must fit into at least one of the categories of need listed in 785:50-9-21(a).

(A) A project may include all eligible categories of need.

(B) If a point source project consists of more than one category including a nonpoint source project, its project ranking calculation will be based on that category which will result in the greatest priority points.

(9) **Change of scope.** A change of scope, such as the addition of new construction items, will not be eligible after loan closing unless:

- (A) The change of scope is necessary to result in an operable treatment works due to an oversight and not to replace faulty construction or equipment already funded, or
- (B) The change of scope is necessary due to changes in Federal or State requirements.
