SUMMARY:

This Chapter contains rules about the fees and services offered by the State Environmental Laboratory Services Division (SELSD), DEQ. The proposed revocation of this Chapter in its entirety is intended to be the second step in a two-step process to revoke and replace Chapter 305. Chapter 305 is outdated, and revocation will simplify the process of updating fees and services provided by SELSD, in compliance with Oklahoma Statutes. Since this Chapter was last updated, the Oklahoma statutory language pertaining to Advisory Councils has been amended. The types of laboratory services offered have changed. SELSD's quality assurance and quality control objectives are now part of its Quality System, to ensure consistency with laboratory accreditation requirements to enhance accuracy and reliability. SELSD may provide analytical sample collection and transport services with associated fees based on time and travel expenses. New services have been developed because of state and federal program changes. Updated fees and services, statutory references, Advisory Council authority, Quality System objectives, and fee adjustment options will be incorporated into a new Chapter. The Office of Administrative Rules has authorized the use of Chapter 306 if the Water Quality Advisory Management Council recommends adoption of the revocation of Chapter 305, and replacement by 306, to the Environmental Quality Board.

AUTHORITY:

SUMMARY:

This Chapter contains rules regarding fees and services offered by the State Environmental Laboratory Services Division (SELSD), DEQ. The proposed addition of Chapter 306 to OAC Title 252 is intended to replace Chapter 305, which is proposed for revocation, in its entirety, through the rulemaking process. Chapter 306 provides updated fees and services offered by SELSD, in compliance with Oklahoma Statutes. Chapter 306 includes updated references to statutory language, which grants the Water Quality Management Advisory Council (WQMAC) authority to recommend to the Environmental Quality Board (EQB), rules on behalf of SELSD. The types of services provided are detailed for both DEQ's needs as well as those outside of DEQ including citizens, municipalities, industry, and other agencies. SELSD's Quality Assurance Manual is referenced as well as DEQ's Quality Management Plan, which together represent SELSD's Quality System. The number and types of laboratory analysis services offered are detailed, including all applicable base fees, in Appendix A, and an annual, optional, fee adjustment using the Consumer Price Index (CPI) is included. Chapter 306 also details other analysis, special services, possible discounts for large volume requests, and EPA's grant of primacy naming SELSD as the Principal State Laboratory with laboratory accreditation responsibilities for analytical measuring of contaminants specified in OAC 252:631 (state primary drinking water requirements). The Office of Administrative Rules has pre-authorized the use of Chapter 306 if the Water Quality Advisory Management Council recommends adoption of the revocation of Chapter 305, and replacement by 306, to the Environmental Quality Board.

SUMMARY:

The Department of Environmental Quality (DEQ) is proposing to amend Oklahoma Administrative Code (OAC) 252:517 to incorporate federal changes to maintain Oklahoma's Coal Combustion Residuals (CCR) program approval. Included are new requirements for two formerly unregulated CCR units: legacy CCR surface impoundments and CCR management units. Under this proposed rule, owners and operators of these CCR units will be required to come into compliance with a subset of regulations and commence closure of these units within specified timeframes. Additional minor changes include updated closure standards, increased documentation retention timelines for CCR websites, and citation corrections. The gist of this rulemaking is to add new requirements for legacy CCR surface impoundments and CCR management units and to make other changes to ensure Oklahoma's state CCR program is at least as protective as the federal counterpart.

SUMMARY:

The gist of this rule and the underlying reason for the rulemaking is to update its rules concerning the date of incorporation by reference for the Code of Federal Regulations from July 12, 2023, to July 8, 2024. The first regulatory change was the Clean Water Act Section 401 Water Quality Certification Improvement Rule that became effective November 27, 2023. The purpose of the final rule was to provide stakeholders with a clear and consistent certification process while ensuring protection of vital state, territory, and Tribal water resources. The second regulatory change, effective on June 17, 2024, consisted of EPA finalizing changes to its test procedures required to be used by industries and municipalities when analyzing the chemical, physical, and biological properties of wastewater and other samples for reporting under the EPA's National Pollutant Discharge Elimination System permit program. This provides timelier access to new measurement techniques and greater flexibility in the selection of analy

Part 114. DOULA SERVICES

317:30-5-1216. Eligible providers [AMENDED]

SUMMARY:

The proposed policy revisions clarify OHCA's requirements for agency recognition of doula certifying organizations. There are neither national standards nor minimum certification requirements for doulas. Each doula certifying organization sets its own requirements for doula certification. For that reason, OHCA has developed minimum criteria that doula certifying organizations must meet to be recognized as an approved certifying organization. OHCA will only contract with doulas who are certified by an OHCA-recognized certifying organization. The proposed criteria address geographic location, specialty certifications offered by the organization, frequency of recertification, training modalities, support experience required, references, and practice guidelines and standards (including ethics guidelines and a grievance/disciplinary policy).

317:30-5-87. 340B Drug Discount Program [AMENDED]

SUMMARY:

he proposed revisions seek to remove certain drugs and therapies from the 340b Drug Pricing Program. The 340b program is a federal initiative that allows health care organizations to purchase certain drugs at a discount direct from pharmaceutical manufacturers. One restriction on this program is that no rebates can be collected from any drug or therapy purchased under the program, including supplemental rebates. These revisions would prohibit purchasing drugs which are in a supplemental rebate agreement from being purchased under the 340b program.

SUMMARY:

The proposed rule changes remove the requirement that PACE providers be licensed as an adult day care and clarify some OHCA regulatory requirements of PACE providers. HB3238 of the 2024 Regular Legislative Session amended the Adult Day Care Act and the Home Care Act to exempt PACE organizations from the licensure requirements of adult day cares and home health organizations. It also assigned new regulatory authority to OHCA to create administrative rules necessary to enforce federal PACE regulations (42 CFR Part 460.) These rule revisions will reduce the administrative burden on PACE providers and ensure OHCA's expectations and requirements are clear. The proposed changes also clarify the PACE organization's responsibilities in addressing housing insecurity for a potential or current participant, requirements of the involuntary disenrollment process, and participant use of assisted living.

These revisions align policy with the 1915(c) HCBS waivers, which were previously approved by CMS on June 28, 2024, and made effective July 1, 2024. The proposed revisions will add language that allows the diagnosis of Global Developmental Delay as an acceptable diagnosis for admission to a DDS HCBS waiver for individuals under 6 years of age and clarify that a diagnosis of intellectual disability (ID) is based on Social Security Administration criteria for ID. Other revisions remove the requirement for authorization of community transition services to be issued for the date a member transitions. Additionally, revisions will add a new residential service to be provided to members in custody of OKDHS and adult members with extensive behavioral support needs that cannot be safely met with current available support. Finally, revisions will permit legally responsible individuals to serve as a Habilitation Training Specialist to individuals for whom they are legally responsible.

TITLE 610. STATE REGENTS FOR HIGHER EDUCATION CHAPTER 25. STUDENT FINANCIAL AID AND SCHOLARSHIPS

[OAR Docket #24-1237]

RULEMAKING ACTION:

Notice of proposed PERMANENT rulemaking

PROPOSED RULES:

Subchapter 39. Oklahoma National Guard Educational Assistance Program
610:25-39-3. Assistance [AMENDED]

SUMMARY:

During the 2022 session, the Oklahoma Legislature approved SB 1418 (now 70 O.S. §§ 3231 & 3232), which created the Oklahoma National Guard Educational Assistance Program. Subject to available funding, the bill authorized educational benefits equivalent to resident tuition, mandatory fees, and academic service fees, not to exceed 18 credit hours per semester at institutions in the Oklahoma State System of Higher Education. In addition to a maximum of 120 credit hours of undergraduate coursework, the bill authorized benefits for up to 40 credit hours of graduate coursework toward a master's degree. SB 1418 also created the Oklahoma National Guard Educational Assistance Revolving Fund, a continuing fund not subject to fiscal year limitations consisting of state appropriations, from which the benefits are to be paid by the State Regents. The proposed emergency and permanent rule revisions focus on the inclusion of flight costs and fees. Initially, flight costs and fees for aviation degree programs were excluded from award coverage to maximize student support and align with the intent of SB 1418, as well as with the Oklahoma National Guard's regulations. However, the Oklahoma National Guard now wishes to transition away from this approach and allow funding for flight costs and fees for aviation programs. It is essential that our rules align with this new approach. The proposed rules will allow academic service fees that include flight costs and fees for aviation students.

Subchapter 21. Oklahoma Taxable Income for Subchapter "S" Corporations

710:50-21-4. S Corporations that make an election under the Pass-Through Entity Tax Equity Act of 2019 [AMENDED]

SUMMARY:

Several proposed amendments to the existing rules have been made to implement recent legislation. The proposed amendment to Section 710:50-1-7 increases the charge for copying income tax returns. This increase is intended to cover the expenses associated with locating, printing, and mailing these documents. The proposed amendments to Sections 710:50-3-47, 710:50-19-4 and 710:50-21-4 correct internal cross references and implement the provisions of HB 3559 which relates to the pass-through entity tax election. Beginning in tax year 2024, a qualifying entity may make the election on their Oklahoma income tax return. [68:2355.1P-4] The proposed amendment to Section 710:50-15-52 clarifies current law that out-of-state income includes income from real or tangible personal property or business income outside of Oklahoma. [68:2358(A)(4)] The proposed amendment to Section 710:50-15-62 updates the corporate income tax rate, which was reduced to 4% beginning with tax year 2022. [68:2355(E)] The proposed amendment to Section 710:50-15-81 implements the provisions of HB 3051, relating to the income tax credit for investments in qualified clean burning motor vehicle fuel property, which provides for a reallocation of tax credits if one or two of the categories hit the \$10 million cap and clarifies the treatment of leased equipment, and clarifies the maximum amount of the credit is based on the weight of the vehicle. [68 O.S. § 2357.22] The proposed amendment to Section 710:50-15-109 implements the provisions of HB 4072, relating to the income tax credit for qualified employers and employees of the aerospace sector, amending the definitions of "aerospace sector" and "qualified employee", and providing that a qualified employee may claim the credit for five nonconsecutive tax years. [68:2357.301,2357.304] The proposed amendment to Section 710:50-15-118, relating to the income tax credit for nonrecurring adoption expenses, clarifies the amount of the credit is 10% of nonrecurring adoption expenses, not to exceed \$2,000 (\$4,000 for a married filing joint return) per calendar year. [68:2357.601] The proposed promulgation of new Section 710:50-15-34, new Part 9 in Subchapter 15, amendment to Section 710:50-11-5, and revocation of Section 710:50-15-119, relating to the Oklahoma Parental Choice Tax Credit, implement the provisions of HB 3388 which amended definitions and qualifications, exempted the payments from offset, realigned the private school credit caps to a fiscal year, and timelines for implementation. [68:205.2(F), 70:28-101] Other sections may be amended to clarify policy, improve readability, correct scrivener's errors, remove obsolete language, update or correct citations, update contact information, and ensure accurate internal cross-references, which do not change the interpretation or intent of the rules.

Emergency Adoptions

"If an agency finds that a rule is necessary as an emergency measure, the rule may be promulgated" if the Governor approves the rules after determining "that the rule is necessary as an emergency measure to do any of the following:

- a. protect the public health, safety or welfare,
- b. comply with deadlines in amendments to an agency's governing law or federal programs,
- c. avoid violation of federal law or regulation or other state law,
- d. avoid imminent reduction to the agency's budget, or
- e. avoid serious prejudice to the public interest." [75 O.S., Section 253(A)]

An emergency rule is considered promulgated immediately upon approval by the Governor, and effective immediately upon the Governor's approval or a later date specified by the agency in the emergency rule document. An emergency rule expires on September 15 following the next regular legislative session after its promulgation, or on an earlier date specified by the agency, if not already superseded by a permanent rule or terminated through legislative action as described in 75 O.S., Section 253(H)(2).

Emergency rules are not published in the *Oklahoma Administrative Code*; however, a source note entry, which cites to the *Register* publication of the emergency action, is added to the *Code* upon promulgation of a superseding permanent rule or expiration/termination of the emergency action. *For additional information on the emergency rulemaking process, see 75 O.S., Section 253.*

FINDING OF EMERGENCY:

The Agency requests emergency approval of rule revisions to its current General Providers Policies. The approval of the emergency rule will protect the public health, safety, or welfare by increasing access to essential services, such as vaccines, and ensure compliance with state law.

GIST/ANALYSIS:

The proposed additions will implement pharmacists' services as a covered benefit to SoonerCare members. The policy additions require pharmacists to be licensed by the Oklahoma State Board of Pharmacy, allows coverage of services within pharmacists' statutory scope of practice, and establishes a reimbursement methodology for pharmacists that is identical to physicians'. Further, the proposed changes add pharmacists' services to definition of I/T/U facility encounter services, allowing them to be reimbursed at the OMB rate.

FINDING OF EMERGENCY:

The Agency requests emergency approval of rule revisions to its Applied Behavioral Analysis policy in order to protect the public health, safety, and welfare of all impacted SoonerCare members. By updating this policy, the Agency will ensure that all members receiving ABA services are provided with an acceptable standard of quality care.

GIST/ANALYSIS:

The proposed emergency rule revisions update outdated applied behavioral analysis (ABA) policies to ensure that services meet a standard level of quality for all applicable members. This includes updates to documentation requirements for Behavior Intervention Plans, critical incident reporting, family training requirements, and billing guidelines. Additionally, these rules update the medical necessity criteria and describe various exclusions to treatment. Lastly, language is added to ensure ABA providers do not use restraint, except in extreme and documented circumstances.

(a) Medical necessity criteria. ABA services are considered medically necessary when all the following conditions are met:

- (1) The member is under twenty-one (21) years of age with a definitive diagnosis of an Autism Spectrum Disorder (ASD) from the following providers within the state of Oklahoma or within 50 miles of the Oklahoma Border (as per OAC 317:30-3-89 through 92):

- (2) A comprehensive diagnostic evaluation or thorough clinical assessment completed by one (1) of the above identified professionals must:
 - (A) Include a complete pertinent medical and social history, including pre-and perinatal, medical, developmental, family, and social elements; and
 - (B) Be based on criteria outlined in the Diagnostic and Statistical Manual of Mental Disorders (DSM) or the most current version of the DSM for ASD and/or may also include scores from the use of formal diagnostic tests such as the Autism Diagnostic Interview-Revised (ADI-R), Autism Diagnostic Observation Schedule-2 (ADOS-2), Childhood Autism Rating Scale (CARS) or other tools with acceptable psychometric properties. Screening scales are not sufficient to make a diagnosis and will not be accepted as the only formal scale.

- (C) A comprehensive diagnostic evaluation or clinical assessment will only need to be completed at the first initiation of ABA services and should be no older than two (2) years old. A member does not require an updated assessment or evaluation annually or bi-annually. However, OHCA may request an additional assessment/evaluation if diagnosis and recommendations are not clearly defined.
- (D) If a member changes agencies, the comprehensive diagnostic evaluation or clinical assessment will be required during the initial authorization period.
- (E) The OHCA may suggest an updated comprehensive evaluation or clinical assessment during the prior authorization process if there are any significant medical, behavioral health changes, or concerns regarding treatment identified through the ABA prior authorization process.
- (F) Comprehensive diagnostic evaluations or clinical assessments will only be accepted from an out-of-state provider if the criteria meet documentation requirements outlined in (2)(a)-(c) and must be provided by one of the outlined providers in (1)(a)-(f).
- (3) There must be a reasonable expectation that the member will benefit from ABA. The member must exhibit:
- (A) The ability/capacity to learn and develop generalized skills to assist with his or her independence; and
 - (B) The ability to develop generalized skills to assist in addressing maladaptive behaviors associated with ASD.
- (4) The member is medically stable and does not require twenty-four (24) hour medical/nursing monitoring or procedures provided in a hospital or intermediate care facility for individuals with intellectual disabilities (ICF/IID).
- (5) The member exhibits functional limitations that interfere with participation in daily life and activities that are specific to the core deficits of ASD as outlined in the DSM.
- ~~(5)~~(6) The member exhibits atypical or disruptive behavior within the most recent thirty (30) calendar days that significantly interferes with daily functioning and activities when applicable. Such atypical or disruptive behavior may include, but is not limited to:
- ~~(A) Impulsive aggression~~Aggression toward others;
 - (B) Self-injury behaviors;
 - (C) Elopement that puts the member at risk in the home and/or community (specific examples of elopement as evidenced by dangerous behaviors, i.e., running out the house, into the parking lot, etc.);
 - (D) PICA (specific examples of PICA as evidenced by eating non-food items that put the member at risk);
 - ~~(C)~~(E) Intentional property destruction; or
 - ~~(D)~~(F) Severe disruption in daily functioning (e.g., the individual's inability to maintain in school, child care settings, social settings, etc.) due to changes in routine activities that have not been helped by other treatments such as occupational therapy, speech therapy, additional psychotherapy and/or school/daycare interventions; or
 - (G) Excessive self-stimulation that significantly disrupts the individual's ability to engage in functional behavior.
- ~~(6) The focus of treatment is not custodial in nature (which is defined as care provided when the member "has reached maximum level of physical or mental function and such person is not likely to make further significant improvement" or "any type of care where the primary purpose of the type of care provided is to attend to the member's daily living activities which do not entail or require the continuing attention of trained medical or paramedical personnel.") Interventions are intended to strengthen the individual's/parent's/legal guardian's capacity for self care and self sufficiency to decrease interventions in the home by those other than the parent(s)/legal guardian(s).~~
- ~~(7) It has been determined that there is no less intensive or more appropriate level of service which can be safely and effectively provided.~~

(b) Frequency and duration.

- (1) ABA may be delivered at the following frequency and duration levels. Medical necessity is related to symptom severity as defined by the current version of the DSM in addition to guidelines in policy. All levels of intensity of ABA treatment services may be considered depending upon individual case consideration. The following are guidelines. The objectives of ABA therapy will vary per child/youth, and frequency and duration should be based upon the functional goals of treatment, specific needs of the child/youth, response to treatment, and availability of appropriately trained and certified ABA staff. The member must have exhibited these atypical or disruptive behaviors within the most recent thirty (30) calendars days that interferes with the daily functioning

Emergency Adoptions

and activities. Treatment plans in which the requested frequency exceeds the following service level guidelines will be sent for physician and BCBA consultant review to determine medical necessity.

(A) High frequency (IBI) (greater than thirty (30) hours/week) may be considered when both of the following criteria are met.

(i) Autism Severity Level two (2) or three (3) (per most recent DSM criteria), diagnostic evaluation must be included.

(ii) Goals related to elopement, aggression, self injury, intentional property destruction, or severe disruption in daily functioning (e.g., the individual's inability to maintain in school, childcare settings, social settings, etc.) due to changes in routine activities that have not been helped by other treatments such as occupational therapy, speech therapy, additional psychotherapy and/or school/daycare interventions.

(iii) A Functional Behavioral Assessment (FBA) or Behavioral Intervention Plan (BIP) is required for "High Frequency" level of care.

(B) Moderate frequency (twenty (20) to thirty (30) hours/week) may be considered when documentation shows two or more of the following:

(i) Autism Severity Level two (2) or three (3) (per most recent DSM criteria), diagnostic evaluation must be included.

(ii) Goals related to addressing moderate challenging behaviors not generally seen as age or developmentally congruent (e.g., biting for a child over three (3) years old, excessive temper tantrums) that moderately to significantly interfere with child participation in home or community activities.

(iii) A Functional Behavioral Assessment (FBA) or Behavioral Intervention Plan (BIP) is required for "Moderate Frequency" level of care.

(C) Targeted/focused frequency (ten (10) to twenty (20) hours a week) may be considered when documentation shows two or more of the following:

(i) Autism Severity Level one (1), two (2), or three (3) (per most recent DSM criteria); diagnostic evaluation must be included.

(ii) Focused on specific targeted clinical issues or goals related to specific targeted skills.

(D) Maintenance/consultative level (five (5) to ten (10) hours per week or less) may be considered when documentation shows all the following:

(i) Autism Severity Level one (1), two (2), or three (3) (per most recent DSM criteria); and

(ii) Goals related to integration of specific skills into daily functioning and documentation substantiates the risk for regression after completion of more intense ABA intervention.

(E) A Functional Behavioral Assessment (FBA) or Behavioral Intervention Plan (BIP) is not required for "Targeted or Maintenance" level of care.

(F) Members discharging from long term PRTF/Acute two (2) level of care may initially require more intensive treatment.

(2) The focus of treatment is not custodial in nature (which is defined as care provided when the member "has reached maximum level of physical or mental function and such person is not likely to make further significant improvement" or "any type of care where the primary purpose of the type of care provided is to attend to the member's daily living activities which do not entail or require the continuing attention of trained medical or paramedical personnel.") Interventions are intended to strengthen the individual's/parent's/legal guardian's capacity for self-care and self-sufficiency to decrease interventions in the home by those other than the parent(s)/legal guardian(s).

(3) A functional behavioral assessment may only be requested every six (6) months and shall be completed by the licensed provider when no measurable progress has occurred, or it may be requested by the OHCA. The functional analysis should record the member's serious maladaptive target behavioral symptom(s) and precipitants, and document the modifications of the current treatment plan to address progress, as well as make a determination of the function a particular maladaptive behavior serves for the member in the environmental context;

(4) It has been determined that there is no less intensive or more appropriate level of service which can be safely and effectively provided.

(5) If the member is exhibiting baseline behaviors (behaviors have not improved within a year of attending at least eighty-five percent (85%) of treatment), OHCA may request additional information to support continued treatment.

(6) Discharge plans will be updated each extension request to include realistic criteria for discharge, based on current progress towards goals.

(7) An OHCA discharge notification form shall be submitted when a member has completed treatment or the member has moved to a new provider, or will no longer be returning to care.

317:30-5-314. Prior authorization, service limitations, and exclusions to treatment [AMENDED]

(a) Prior Authorization. Eligible providers must submit an initial prior authorization request to the Oklahoma Health Care Authority (OHCA) or its designated agent. Prior authorization requests shall be granted ~~up by units for one (1)~~ to six (6) months of ABA treatment services ~~as clinically indicated at one (1) time unless a longer duration of treatment is clinically indicated.~~ The number of ~~hours~~units authorized may differ from the ~~hours~~units requested on the prior authorization request based on the review by an OHCA reviewer, ~~BCBA contractor~~, and/or physician. If the member's condition necessitates a change in the treatment plan, the provider must request a new prior authorization. The provider is responsible for ensuring eligibility, medical necessity, procedural coding, claims submission, and all other state and federal requirements are met. OHCA retains the final administrative review over both authorization and review of services as required by 42 C.F.R. 431.10. The prior authorization request must meet the following SoonerCare criteria for ABA services.

(1) The criteria ~~should~~ include a comprehensive behavioral assessment, FBA, ~~and other supporting assessment(s)~~BSP (if applicable), ~~treatment plan, and the OHCA initial prior authorization template~~ outlining the maladaptive behaviors ~~or core deficits~~ consistent with the diagnosis of ASD and its associated comorbidities. Additional assessments that may be submitted include the: Stress Index for Parents of Adolescents (SIPA); Assessment of Basic Language and Learning (ABLLS-R); Assessment, Evaluation, and Programming System (AEPS); Verbal Behavior Milestone Assessment and Placement Program (VB-MAPP); and Personalized System of Instruction (PSI). In addition to completing the initial request form, providers ~~will be~~are required to submit documentation that ~~will consist~~consists of the following:

(A) Information about relevant medical status, prior assessment results, response to prior treatment, and other relevant information gathered from review of records and past assessments.

(B) Information gathered from interview of family and/or caregivers, rating scales, and social validity measures to assess perceptions of the client's skill deficits and behavioral excesses, and the extent to which these deficits impede the daily life of the member and the family.

(C) Direct assessment and observation, including any data related to the identified ~~problem~~maladaptive behavior ~~or core deficits~~. Clinical history from past trauma should be included, if applicable. The analysis of such data serves as the primary basis for identifying pretreatment levels of functioning, developing, and adapting treatment protocols, and evaluating response to treatment and progress towards goals.

(D) Documentation of interviews with parent(s)/caregiver(s) to further identify and define lack of adaptive behaviors and presence of maladaptive behaviors or core deficits.

(E) Length of time that the child/youth has received ABA services as well as previous ABA provider(s).

~~(D)~~(F) Functional assessment of problem behavior that includes antecedent factors, skill deficits, and consequences contributing to the problem behavior. The treatment plan should address all three (3) areas, including antecedent interventions, teaching replacement skills, and modification of consequences. Other supporting assessments may be additionally submitted for review.

(G) All treatment plans should be signed and dated by the parent(s)/guardian(s) and child/youth, if applicable.

(H) The OHCA initial prior authorization form must be filled out completely or the request will be considered as incomplete.

(2) The prior authorization request for ABA treatment will be time limited ~~for up to thirty (30) hours per week~~ unless ~~other hours are~~ deemed medically necessary and authorized through a prior authorization request and must:

(A) Be a one-on-one encounter (face-to-face between the member and ABA provider) except in the case of family adaptive treatment guidance;

(B) Be child-centered and based upon individualized goals that are strengths-specific, family-focused, and community-based;

(C) Be culturally competent and the least intrusive as possible;

Emergency Adoptions

(D) Clearly define in measurable and objective terms the intervention plan so it can address specific target behaviors. The intervention plan should be clearly linked to the identified deficits interfering with the child's participation in daily life activities, and if applicable also related to the identified function of the maladaptive behavior and include antecedent interventions, replacement skills to be taught, and modification of consequences. Additional goals may be identified that are related to the core deficits of ASD and are prioritized based on current research and social significance for the individual member.

(E) Record the frequency, rate, symptom intensity/duration, or other objective measures of baseline levels;

(F) Set quantifiable criteria for progress;

(G) Establish and record behavioral intervention techniques that are appropriate to the identified target and/or maladaptive behaviors. The detailed treatment plan utilizes reinforcement and other behavioral principles and excludes the use of methods or techniques that lack consensus about their effectiveness based on evidence in peer-reviewed publications;

(H) Specify strategies for generalization of learned skills beyond the clinical settings such as in the home or other, clinic, community, or other natural settings;

(I) Document planning plan for transition through the continuum of interventions, services, and settings, as well as discharge criteria. Treatment (behavioral training) will be individualized, and documentation will support the identified skill deficits and atypical or disruptive behavior.

(J) Document the daily schedule by hour and the staff with credentials that will perform each service. If there is a change in staff, identify this in the extension review.

~~(J)~~(K) Include parent(s)/legal guardian(s) in behavioral training techniques so that they can practice additional hours of intervention on their own. The treatment plan is expected to achieve the parent(s)/legal guardian(s) ability to successfully reinforce the established plan of care and support generalization of skills in the home and community settings. Frequency of parental involvement will be determined by the treatment provider and listed on the treatment plan;

~~(K)~~(L) Document parent(s)/legal guardian(s) participation in the training of behavioral techniques in the member's medical record. Parent(s)/legal guardian(s)' participation is critical to the generalization of treatment goals to the member's environment. It is expected that child/youth and parent(s)/guardian(s) attend at least eighty-five percent (85%) of treatment each review period, unless due to sickness or other unforeseen circumstances that may occur, to be documented this in the prior authorization request form; and

~~(L)~~(M) Ensure that recommended ABA services do not duplicate, or replicate services received in a member's primary academic education setting or provided within an Individualized Education Program (IEP), Individualized Service Plan (ISP), or any other individual plan of care. Documentation may be requested by the OHCA to support coordination of services with other providers and to prevent overlap and duplication of services including those in school settings.

(N) Identify if member is receiving additional therapies such as occupational therapy (OT), physical therapy (PT), or speech therapy and the timeframes in which this occurs, in relation to ABA services.

(b) Service Limitations.

(1) Settings. The following limitations apply to where ABA services are provided:

(A) ABA services are not allowed in a daycare setting or school setting, without OHCA approval. If approved, it will be time-limited to three (3) months or less. The BCBA shall create and submit a treatment plan that identifies the goals outlined to assist school staff with the members without ABA staff being present throughout the school year.

(B) The treatment plan should show a titration of services to school paraprofessionals/staff through the duration of the prior authorization.

(C) If the child/youth is transitioning into a private school, where IEPs are not legally required, then services will be time-limited to three (3) months or less. The BCBA should create and submit an FBA, treatment plan, or BSP, along with the prior authorization request that identifies the goals to match the setting and a specific plan to fade direct support.

(D) ABA treatment may be rendered via in-person service delivery, telehealth, or a hybrid of in-person and telehealth. The modality selected for delivery of ABA services must be clearly defined in the prior authorization template and treatment plan. If services will be provided via telehealth, the ABA provider must provide the justification of how treatment will be beneficial to the member and parents(s)/guardian(s) when rendered this way.

Emergency Adoptions

(E) Documentation of services must be maintained, to include: service rendered, location at which service was rendered, and that service was provided via telehealth. Documentation of services must also follow all other SoonerCare documentation requirements.

FINDING OF EMERGENCY:

The Agency requests emergency approval of rule revisions to its waiver policies to protect the public health, safety, and welfare to meet the needs of members who prefer to receive long-term care services and supports in their home or community. Emergency approval is necessary to avoid violation and align new and current rules with Oklahoma's 1915c HCBS waivers federal authority. Without the approval of these emergency rule changes, members would be without access to these services and could affect their overall health outcomes.

GIST/ANALYSIS:

These emergency revisions are necessary to align with the 1915(c) HCBS waivers, which were previously approved by CMS on June 28, 2024, and made effective July 1, 2024. The proposed revisions will add language that allows the diagnosis of Global Developmental Delay as an acceptable diagnosis for admission to a DDS HCBS waiver for individuals under 6 years of age and clarify that a diagnosis of intellectual disability (ID) is based on Social Security Administration criteria for ID. Other revisions remove the requirement for authorization of community transition services to be issued for the date a member transitions. Additionally, revisions will add a new residential service to be provided to members in custody of OKDHS and adult members with extensive behavioral support needs that cannot be safely met with current available support. Finally, revisions will permit legally responsible individuals to serve as a Habilitation Training Specialist to individuals for whom they are legally responsible. The Oklahoma Health Care Authority anticipates that the approval of this emergency rule change will positively impact members by improving their access to the benefits of living in the community.

 - (ii) serious impairment to bodily functions; serious dysfunction of any bodily organ or part; or death.

317:30-5-47. Reimbursement for inpatient hospital services [AMENDED]

Reimbursement will be made for inpatient hospital services in the following manner:

(1) Covered inpatient services provided to eligible SoonerCare members admitted to in-state acute care and critical access hospitals will be reimbursed the lesser of the billed charges or the Diagnosis Related Group (DRG) amount. In addition to the billed charges or DRG payment, whichever is less, an outlier payment may be made to the hospital for very high-cost stays. Additional outlier payment is applicable if either the amount billed by the hospital or DRG payment, whichever applies, is less than a threshold amount of the hospital cost. Each inpatient hospital claim is tested to determine whether the claim qualified for a cost outlier payment. Payment is equal to a percentage of the cost after the threshold is met.

(2) The lesser of the billed charges or DRG amount and outlier, if applicable, represent full reimbursement for all non-physician services provided during the inpatient stay. Payment includes but is not limited to:

(A) Laboratory services;

(B) Prosthetic devices, including pacemakers, lenses, artificial joints, cochlear implants, implantable pumps;

(C) Technical component on radiology services;

(D) Transportation, including ambulance, to and from another facility to receive specialized diagnostic and therapeutic services;

(E) Pre-admission diagnostic testing performed within seventy-two (72) hours of admission; and

(F) Organ transplants.

(3) Charges for services or supplies deemed not medically necessary and/or not separately billable may be recouped upon post payment review of outlier payments.

(4) Hospitals may submit a claim for payment only upon the final discharge of the patient or upon completion of a transfer of the patient to another hospital.

(5) Covered inpatient services provided to eligible members of the SoonerCare program, when treated in out-of-state hospitals will be reimbursed in the same manner as in-state hospitals. Refer to OAC 317:30-3-90 and 317:30-3-91.

(6) Cases which indicate transfer from one (1) acute care hospital to another will be monitored under a retrospective utilization review policy to help ensure that payment is not made for inappropriate transfers.

(7) The transferring hospital will be paid the lesser of the calculated transfer fee or the DRG base payment amount for a non-transfer.

(8) If the transferring or discharge hospital or unit is exempt from the DRG, that hospital or unit will be reimbursed according to the method of payment applicable to the particular facility or units.

(9) Covered inpatient services provided in out-of-state specialty hospitals may be reimbursed at a negotiated rate not to exceed one-hundred percent (100%) of the cost to provide the service. Negotiation of rates will only be allowed when the OHCA determines that the specialty hospital or specialty unit provides a unique (non-experimental) service required by SoonerCare members and the provider will not accept the DRG payment rate. Prior authorization is required.

(10) New providers entering the SoonerCare program will be assigned a peer group and will be reimbursed at the peer group base rate for the DRG payment methodology or the statewide median rate for per diem methods.

(11) All inpatient services are reimbursed per the methodology described in this Section and/or as approved under the Oklahoma Medicaid State Plan.

FINDING OF EMERGENCY:

The Agency requests emergency approval of rule revisions to its waiver policies to protect the public health, safety, and welfare to meet the needs of members who prefer to receive long-term care services and supports in their home or community. Emergency approval is necessary to avoid violation and align new and current rules with Oklahoma's 1915c HCBS waivers federal authority. Without the approval of these emergency rule changes, members would be without access to these services and could affect their overall health outcomes.

GIST/ANALYSIS:

These emergency revisions are necessary to align with the 1915(c) HCBS waivers, which were previously approved by CMS on June 28, 2024, and made effective July 1, 2024. The proposed revisions will add language that allows the diagnosis of Global Developmental Delay as an acceptable diagnosis for admission to a DDS HCBS waiver for individuals under 6 years of age and clarify that a diagnosis of intellectual disability (ID) is based on Social Security Administration criteria for ID. Other revisions remove the requirement for authorization of community transition services to be issued for the date a member transitions. Additionally, revisions will add a new residential service to be provided to members in custody of OKDHS and adult members with extensive behavioral support needs that cannot be safely met with current available support. Finally, revisions will permit legally responsible individuals to serve as a Habilitation Training Specialist to individuals for whom they are legally responsible. The Oklahoma Health Care Authority anticipates

Emergency Adoptions

that the approval of this emergency rule change will positively impact members by improving their access to the benefits of living in the community.

 - (II) When an applicant is approved for an HCBS waiver with a diagnosis of global developmental delay, a new psychological evaluation must be conducted and submitted after the child reaches six (6) years of age. (8) **Member's choice.** A determination of need for ICF/IID Institutional Level of Care does not limit the opportunities of the person receiving services to participate in community services. Individuals are assured of the opportunity to exercise informed choice in the selection of services.

(d) **Request list.** When state DDS resources are unavailable to add individuals to services funded through an HCBS Waiver, persons are placed on a statewide Request for Waiver Services List.

(1) The Request for Waiver Services List is maintained in chronological order, based on the date of receipt of a written request for services on Form 06MP001E, Request for Developmental Disabilities Services. The applicant must submit the required documentation, per Form 06MP001E, Request for Developmental Disabilities Services, for initial consideration of potential eligibility. Active United States Armed Forces personnel, who have a pending HCBS Waiver application in another state for an immediate family member, may be placed on the list with the date they applied in the other state. The person's name is added to the list when he or she provides proof of application date from the other state.

(2) The Request for Waiver Services List for persons requesting services provided through an HCBS Waiver is administered by DDS uniformly throughout the state.

(3) An individual applicant is removed from the Request for Waiver Services List, when he or she:

(A) Is found to be ineligible for services;

(B) Cannot be located by OKDHS;

(C) Does not provide OKDHS-requested information or fails to respond;

(D) Is not an Oklahoma resident at the requested Waiver approval date; or

(E) Declines an offer of Waiver services.

(4) An applicant removed from the Request for Waiver Services List, because he or she could not be located, may submit a written request to be reinstated to the list. The applicant is returned to the same chronological place on the Request for Waiver Services List, provided he or she was on the list prior to January 1, 2015.

(e) **Applications.** When resources are sufficient for initiation of HCBS Waiver services, DDS ensures action regarding a request for services occurs within forty-five (45) calendar days. When action is not taken within the required forty-five (45) calendar days, the applicant may seek resolution, per OAC 340:2-5-61.

(1) Applicants are allowed sixty (60) calendar days to provide information requested by DDS to determine eligibility for services.

(2) When requested information is not provided within sixty (60) calendar days, the applicant is notified that the request was denied, and he or she is removed from the Request for Waiver Services List.

(f) **Admission protocol.** Initiation of services funded through an HCBS Waiver occurs in chronological order from the Request for Waiver Services List, per (d) of this Section based on the date of DDS receipt of a completed request for services, as a result of the informed choice of the person requesting services or the individual acting on the member's behalf, and upon determination of eligibility, per (c) of this Section. Exceptions to the chronological requirement may be made, when:

(1) An emergency situation exists in which the health or safety of the person needing services or of others is endangered and there is no other resolution to the emergency. An emergency exists, when:

(A) The person is unable to care for himself or herself and:

(I) Is hospitalized;

Emergency Adoptions

- (II) Moved into a nursing facility;

(B) OKDHS finds the person needs protective services due to ongoing physical, sexual, or emotional abuse or neglect in his or her present living situation, resulting in serious jeopardy to the person's health or safety;

(C) The behavior or condition of the person needing services is such that others in the home are at risk of being seriously harmed by the person. For example, when the person is routinely physically assaultive to the caretaker or others living in the home and sufficient supervision cannot be provided to ensure the safety of those in the home or community; or

(D) The person's medical, psychiatric, or behavioral challenges are such that the person is seriously injuring or harming himself or herself, or is in imminent danger of doing so.

(2) The Legislature appropriated special funds with which to serve a specific group or a specific class of individuals, per HCBS Waiver provisions;

(3) Waiver services may be required for people who transition to the community from a public ICF/IID or children in OKDHS custody receiving services from OKDHS. Under some circumstances Waiver services related to accessibility may be authorized in advance of transition, but may not be billed until the day the member leaves the ICF/IID and enters the Waiver; or

(4) Individuals subject to the provisions of Public Law 100-203 residing in nursing facilities for at least 30-continuous months prior to January 1, 1989, and are determined by Preadmission Screening and Resident Review (PASRR) evaluation conducted per Title 42 Section 483.100 of the Federal Code of Regulations to have an intellectual disability or a related condition, who are covered under the State's alternative disposition plan adopted under Section 1919(e)(7)(E) of the Social Security Act, and choose to receive services funded through the Community or Homeward Bound Waiver.

(g) Movement between DDS HCBS Waiver programs. A person's movement from services funded through one (1) DDS-administered HCBS Waiver to services funded through another DDS-administered HCBS Waiver is explained in this subsection.

(1) When a member receiving services funded through the IHSW for children becomes eighteen (18) years of age, services through the IHSW for adults becomes effective.

(2) Change to services funded through the Community Waiver from services funded through the IHSW occurs only when:

(A) A member has critical health and safety support needs that cannot be met by IHSW services, non-Waiver services, or other resources as determined by the DDS director or designee; and

(B) Funding is available, per OAC 317:35-9-5.

(3) Change to services funded through the IHSW from services funded through the Community Waiver may only occur when a member's history of annual service utilization was within the IHSW per capita allowance.

(4) When a member served through the Community Waiver has support needs that can be met within the per capita Waiver allowance of the applicable IHSW and through a combination of non-Waiver resources, the individual may choose to receive services through the IHSW.

(h) Continued eligibility for HCBS Waiver services. Eligibility for members receiving services provided through the HCBS Waiver is re-determined by the OHCA LOCEU when a determination of disability was not made by the Social Security Administration. The OHCA LOCEU determines categorical relationship to the SoonerCare disabled category according to Social Security Administration guidelines. OHCA LOCEU also approves the level of care, per OAC 317:30-5-122, and confirms a diagnosis of intellectual disability per the ~~Diagnostic and Statistical Manual of Mental Disorders-SSA~~ guidelines.

(1) DDS may require a new psychological evaluation and re-determination of eligibility at any time when a significant change of condition, disability, or psychological status is noted.

(2) Annual review of eligibility requires a medical evaluation that is current within one year of the requested approval date. The medical evaluation must be submitted by the member or the individual acting on his or her behalf thirty (30) calendar days prior to the Plan of Care expiration.

(i) HCBS Waiver services case closure. Services provided through an HCBS Waiver are terminated, when:

(1) A member or the individual acting on the member's behalf chooses to no longer receive Waiver services;

(3) A member is financially ineligible to receive Waiver services;

- (4) A member is determined by SSA to no longer have a disability qualifying the individual for services under these Waivers;

 - (7) A member is admitted to a nursing facility, ICF/IID, residential care facility, hospital, rehabilitation facility, or mental health facility for more than thirty (30) consecutive calendar days;
 - (8) The guardian of a member who is a minor or adjudicated adult fails to cooperate during the annual review process, per OAC 340:100-5-50 through 340:100-5-58;
 - (9) The guardian of a member who is a minor or adjudicated adult fails to cooperate in the implementation of the OKDHS rule or service delivery in a manner that places the health or welfare of the member at risk, after efforts to remedy the situation through Adult Protective Services or Child Protective Services were not effective;
 - (10) The member is determined to no longer be SoonerCare eligible;
 - (11) There is sufficient evidence the member or the individual acting on the member's behalf engaged in fraud or misrepresentation, failed to use resources as agreed on in the Individual Plan, or knowingly misused public funds associated with these services;
 - (12) The member or the individual acting on the member's behalf either cannot be located, did not respond, or did not allow case management to complete plan development or monitoring activities as required, per OAC 340:100-3-27, and the member or the individual acting on the member's behalf:
 - (A) Does not respond to the notice of intent to terminate; or
 - (B) The response prohibits the case manager from being able to complete plan development or monitoring activities as required, per OAC 340:100-3-27;
 - (13) The member or the individual acting on the member's behalf fails to cooperate with the case manager to implement a Fair Hearing decision;
 - (14) It is determined services provided through an HCBS Waiver are no longer necessary to meet the member's needs and professional documentation provides assurance the member's health, safety, and welfare can be maintained without Waiver supports;
 - (15) The member or the individual acting on the member's behalf fails to cooperate with service delivery;
 - (16) A family member, the individual acting on the member's behalf, other individual in the member's household, or persons who routinely visit, pose a threat of harm or injury to provider staff or official OKDHS representatives; or
 - (17) A member no longer receives a minimum of one (1) Waiver service per month and DDS is unable to monitor the member on a monthly basis.
- (j) **Reinstatement of services.** Waiver services are reinstated when:
- (1) The situation resulting in case closure of a Hissom class member is resolved;
 - (2) A member is incarcerated for ninety (90) calendar days or less;
 - (3) A member is admitted to a nursing facility, ICF/IID, residential care facility, hospital, rehabilitation facility, or mental health facility for ninety (90) calendar days or less; or
