ODMHSAS may require review of additional consumer records to assure a representative sample of records is evaluated to determine compliance with Quality Clinical Standards.

(5) A Site Review Protocol shall be completed during each certification review. Protocols shall contain the current ODMHSAS Standards and Criteria applicable to the facility.

(A) A facility must be prepared to provide evidence of compliance with each applicable standard.

(B) In the event the reviewer(s) identifies some aspect of facility operation that adversely affects consumer safety or health, the reviewer(s) shall notify the facility director and appropriate ODMHSAS staff.

(d) **Report to applicant and plan of correction.**

(1) During the course of the certification process, and prior to determination of certification status, ODMHSAS staff shall report the results of the certification review to the facility.   - (B) The intervention meets or exceeds all the requirements listed in the recommendation; and
  - (C) The provider of the intervention is appropriately accredited.
- (7) Assessments will remain valid for six (6) months from the date of completion:

ODMHSAS approval must be granted for overrides of more than one intervention category.
- (9) Any significant discrepancy between the scores obtained on either the DRI II or the DQ and an appropriately chosen additional supportive instrument should be cause for reevaluation of participant's answers to the assessment instruments. - (A) The recommendation should be reduced to the first intervention category with all services available, and
  - (B) Before using this override, the participant's address shall be verified;
- (14) "On waiting list for appropriate level of care" should be used when one or more of the services required for a specific intervention category is not available within seventy (70) miles from the town the participant identifies as a home town as no one shall be required to travel more than seventy (70) miles to complete any of the recommendations listed here:
- (A) The service recommended must also not be available within thirty (30) days of the initial date of assessment,
  - (B) The recommendation should be reduced to the first intervention category with all services available, and
  - (C) Before using this override, the participant's address shall be verified.
- (15) "Language barriers" should be used when one or more of the services required for a specific intervention category is not offered in the language of a non-English speaking participant within seventy (70) miles from the town the participant identifies as the home town:
- (A) The recommendation should be altered to include the most appropriate combination of interventions available in the participant's language,
  - (B) Due to problems with service availability caused by language barriers, this is the only override in which interventions from multiple categories can be commingled, and
  - (C) Before using this override, the participant's address shall be verified.
- (16) "Sustained abstinence" should be used when an override may be appropriate when recognizing that a significant period of verifiable abstinence or recovery exists between the time of the offense and the assessment:
- (A) The abstinence/recovery must be at least six (6) months' duration,
  - (B) The abstinence/recovery must be continuous,
  - (C) The abstinence/recovery must be verifiable,
  - (D) Three notarized statements from individuals who know, but are not related to, the participant, and
  - (E) The notarized statement verifying abstinence/recovery will be in a form prescribed by the commissioner of ODMHSAS or designee.
- (17) "ASAM override" should be used when the participant has been assessed by a receiving provider as not meeting the ASAM level of care recommended by the ADSAC assessment. This override must be substantiated

by including the receiving provider's ASAM in the participant's ADSAC file.

**450:21-7-9. Standardized evaluation instruments**

- (a) Standardized evaluation instruments shall be administered in the manner intended and findings shall be a component of the overall assessment and recommendations.
(b) The approved standardized evaluation instruments shall be limited to:

- (1) For all alcohol and drug related driving offenses resulting related to driving under the influence or while impaired that result in license revocation, a completed and scored, current computerized version of the Driver Risk Inventory II (DRI II) Driver Risk Inventory (DRI) in a face-to-face structured interview. For all non-driving alcohol and drug related convictions resulting offenses not related to driving under the influence or while in impaired that result in license revocation, a completed and scored, current computerized version of the Defendant Questionnaire (DQ) shall be used and;
(2) A completed biopsychsocial;
(3) A completed and scored additional, supportive clinical instrument to support initial findings shall be chosen by the assessor from the menu of approved supportive instruments listed below:

(5) All additional, supportive clinical assessment instruments shall be used only in a manner consistent with the instrument design, intended purpose and to support the identified level of severity of the participant;
(6) All assessment instruments approved for use in the ADSAC process shall be used according to directions from the manual of each instrument; and
(7) Assessment instruments appropriate for use with those with a primary language other than English shall be identified as the instruments are approved for use by ODMHSAS.

Executive Order (EO) 2020-03, issued on February 3, 2020, requires state agencies to identify at least two (2) existing regulatory restrictions, as defined in EO 2020-03, to be revoked whenever they propose one (1) new regulatory restriction through the permanent rulemaking process. Because the agency recently adopted eight restrictions and revoked three obsolete restrictions, the agency determined that it must identify an additional thirteen (13) regulatory restrictions to be revoked. Among the rules proposed to be revoked in accordance with EO 2020-03 are three (3) rules in Chapter 1 of Title 460 of the Oklahoma Administrative Code (OAC). All of the rules identified below were written more than thirty (30) years ago and appear to no longer serve their intended purpose.

Section 460:1-3-2 was determined by the agency to be outdated and ineffective because it lists an incorrect address for the office of the Oklahoma Mining Commission (OMC), and because the OMC already uses the principal office of the Oklahoma Department of Mines for all its functions.

Section 460:1-3-6 was determined by the agency to be outdated and unnecessary because the Oklahoma Open Records Act, 51 O.S. ' 24A.1 *et seq.*, already provides for the public inspection of all OMC records described by the rule.

Section 460:1-9-1 was determined by the agency to be duplicative because another rule in the same chapter, 460:1-1-1, adequately explains the scope and purpose of Chapter 1 of Title 460 of the OAC.

Executive Order (EO) 2020-03, issued on February 3, 2020, requires state agencies to identify at least two (2) existing regulatory restrictions, as defined in EO 2020-03, to be revoked whenever they propose one (1) new regulatory restriction through the permanent rulemaking process. Because the agency recently adopted eight restrictions and revoked three obsolete restrictions, the agency determined that it must identify an additional thirteen (13) regulatory restrictions to be revoked. Among the rules proposed to be revoked in accordance with EO 2020-03 are two (2) rules in Chapter 3 of Title 460 of the Oklahoma Administrative Code (OAC). Each rule identified no longer serves its intended purpose.

Section 460:3-1-2 was determined by the agency to be outdated and ineffective because it gives an outdated description of the Department of Mines, and because it does not belong in Chapter 3, which contains rules governing administrative hearings related to non-coal mining activities and permits.

Section 460:3-1-3 will be amended to revoke all but subsections (c) and (h), which will be renumbered as subsections (a) and (b). The remaining subsections were determined by the agency to be outdated and unnecessary because they contain outdated information or are duplicative with other rules and statutory requirements. For example, the requirements of subsections (e) and (f) are duplicative with the requirements found in the Oklahoma Open Records Act, 51 O.S. § 24A.1 *et seq.*, which already provides for the public inspection of all agency records described by the rule.

Among the rules proposed to be revoked in accordance with EO 2020-03 is one requirement found in Section

10-25-3 of Title 460 of the Oklahoma Administrative Code (OAC). The provision identified below appears to no longer serve its intended purpose.

Subsection (e) of Section 460:10-25-3 was determined by the agency to be outdated and ineffective because it is no longer necessary to limit collateral bonds to a maximum amount of \$100,000. It is now sufficient for a collateral bond not to exceed the maximum insurable amount determined by the FDIC and FSIC. Section:10-25-3 will be amended to remove the restriction against accepting certificates for a denomination in excess of \$100,000.

## SUBCHAPTER 25. FORM, CONDITIONS, AND TERMS OF PERFORMANCE BONDS

### 460:10-25-3. Terms and conditions of the bond

(a) The performance bond shall be in the amount determined by the Department as provided in Section 460:10-23-2 and 460:10-23-3 or as provided in 460:10-10-5 for limited use permits.

(b) The performance bond shall be payable to the Department.

(c) The performance bond shall be conditioned upon faithful performance of all the requirements of the Mining Lands Reclamation Act, this Chapter, and the conditions of the permit and shall cover the entire permit area.

(d) The duration of the bond shall be for the entire period provided in Section 460:10-23-4.

(e) Collateral Bonds, except Letters of Credit, shall be subject to the following conditions:

(1) The Department shall obtain possession of and keep in custody all collateral deposited by the applicant, until authorized for release or replacement as provided in the bonding regulations contained in Subchapters 21, 23, and 27 of this Chapter.

(2) The Department shall value collateral at their current market value, not face value.

(3) The Department shall require that Certificates of Deposit be assigned to the Department in writing, and upon the books of the bank issuing such certificates.

(4) The Department shall not accept an individual certificate for a denomination in excess of ~~\$100,000.00, or the~~ maximum insurable amount as determined by FDIC and FSIC.

(5) The Department shall require the banks issuing these certificates to waive all rights to setoff or liens which it has or might have against those certificates.

(6) The Department shall only accept automatically renewable Certificates of Deposits.

(7) The Department shall require the applicant to deposit sufficient amounts of certificates of deposits, to assure that the Department will be able to liquidate those certificates prior to maturity, upon forfeiture, for the

amount of the bond required under the bonding regulations.

(f) Letters of Credit shall be subject to the following conditions:

(1) The letter may only be issued by a bank organized or authorized to do business in the United States.

(2) Letters of Credit shall be irrevocable during their terms. The Department may approve the use of letters of credit as security in accordance with a schedule approved with the permit. Any bank issuing a letter of credit for the purpose of this paragraph shall notify the Department in writing at least 90 days prior to the maturity date of such letter of credit or expiration of the letter of credit agreement. Letters of credit utilized as security in areas requiring continuous bond coverage shall be forfeited and collected by the Department if not replaced by other suitable evidence of financial responsibility at least 30 days before the expiration date of the letter of credit agreement.

(3) The letter must be payable to the Department in part or in full upon demand and receipt from the Department of a notice of forfeiture issued in accordance with Subchapter 29 of this Chapter.

(4) The Department shall not accept a letter of credit in excess of 10 percent of the bank's capital surplus account as shown on a balance sheet by a Certified Public Accountant.

(5) The Department shall not accept a letter of credit from a bank for any person, on all permits held by that person, in excess of three times the company's maximum single obligation, as provided by State Law or in the absence of State Law, in accordance with (e)(2) of this section.

(6) The bond shall provide that:

(A) The bank will give prompt notice to the permittee and the Department of any notice received or action filed alleging the insolvency or bankruptcy of the bank, or alleging any violations or requirements which could result in suspension or revocation of the bank's charter or license to do business;

(B) In the event the bank becomes unable to fulfill its obligation under the letter of credit for any reason, notice shall be given immediately to the permittee and the Department;

(C) Upon the incapacity of the bank by reason of bankruptcy, insolvency, or suspension or revocation of its charter or license, the permittee shall be deemed to be without bond coverage in violation of Section 460:10-21-4(b). The Department shall issue a notice of violation against any operator who is without bond coverage. The notice shall specify a reasonable period to replace bond coverage, not to exceed 90 days. During this period, the Department shall conduct weekly inspections to ensure continuing compliance with other permit requirements and the Act. If such a notice of violation is not abated in accordance with the schedule, a cessation order shall be issued.

Among the rules proposed to be revoked in accordance with EO 2020-03 are certain requirements found in Chapter 15 of Title 460 of the Oklahoma Administrative Code (OAC). These provisions are outdated and no longer conform to industry practice.

Subsections (1) and (2) of Section 460:15-1-15 were determined by the agency to be outdated and ineffective because advances in self-rescue devices have made them smaller and lighter, making it no longer necessary to regulate the distance at which they may be kept from the underground miner. Those two subsections shall be removed, leaving only the requirements that the operator provide self-rescue devices and provide training on their use.

Section 460:15-1-19 was determined by the agency to be outdated because it requires "approved [ . . . ] flame safety lamps." Flame safety lamps are antiquated technology and no longer used. The section will be amended to remove all references to flame safety lamps and requirements related to flame safety lamps.

Executive Order (EO) 2020-03, issued on February 3, 2020, requires state agencies to identify at least two (2) existing regulatory restrictions, as defined in EO 2020-03, to be revoked whenever they propose one (1) new regulatory restriction through the permanent rulemaking process. Because the agency recently adopted eight restrictions and revoked three obsolete restrictions, the agency determined that it must propose an additional thirteen (13) regulatory restrictions to be revoked. Among the rules proposed to be revoked in accordance with EO 2020-03 are certain provisions in Chapter 25 of Title 460 of the Oklahoma Administrative Code (OAC). These provisions are duplicative of the agency's other statutory requirements and thus no longer necessary.

Section 460:25-1-9 was determined by the agency to be outdated and unnecessary because the Oklahoma Open Records Act, 51 O.S. § 24A.1 *et seq.*, already provides for the public inspection of all agency records described by the rule.

Section 460:25-7-2 was determined to be ineffective as it lists a specific address for review of blasting permit applications, when it would be more effective to state that such applications will be posted and may be reviewed at the principal office of the Department of Mines. In this way, the public notice procedure will not be interrupted by the relocation of the agency's principal office.

Subsection (u) of Section 460:25-13-5 was determined to be obsolete as it contains requirements for buildings used in the mixing of blasting agents, a practice no longer utilized by industry and no longer allowed by law. Subsection (u) and its requirements will be removed.

Section 460:25-15-5 was determined by the agency to be outdated and unnecessary because the Oklahoma Open Records Act, 51 O.S. § 24A.1 *et seq.*, already provides for the public inspection or confidentiality of certain agency records described by the rule.

Appendix A was determined to be duplicative with the scale distance formula described in Section 460:25-13-19. References to Appendix A in Section 460:25-13-19 will also be removed.

- (2) The suspension of all blasting operations and removal of persons from the blasting area during the approach and progress of an electric storm;
- (3) Signs and warnings shall be done in the following manner:

(A) The prominent display of adequate signs, warning against the use of mobile radio transmitters on all roads within 1,000 feet of blasting operations. Whenever adherence to the 1,000-foot distance would create an operational handicap, this distance may be modified so long as the modification is adequately designed in compliance with paragraph (5) of this subsection to prevent any premature firing of electric blasting caps.

(B) Specimens of signs which would meet the requirements of Section 460: 25-138(p) are the following:

(4) Ensuring that mobile radio transmitters and cellular phones which are less than 100 feet away from electric blasting caps, in other than original containers, shall be deenergized and effectively locked;

(5) Compliance with the recommendations of The Institute of the Makers of Explosives with regard to blasting in the vicinity of radio transmitters as stipulated in Radio

- (p) Explosives, blasting agents, and blasting supplies that are obviously deteriorated or damaged shall not be used. Contact the manufacturer for instructions.
- (q) Delivery and issue of explosives shall only be made by and to authorized persons and into authorized magazines or approved temporary storage or handling areas.
- (r) Blasting operations in the proximity of overhead power lines, communication lines, utility services, or other services and structures shall not be carried on until the operators and/or owners have been notified and measures for safe control have been taken.
- (s) The use of black powder for blasting shall be prohibited.
- (t) All loading and firing shall be directed and supervised by a certified blaster.
- ~~(u) Buildings used for the mixing of blasting agents and water gels shall conform to the requirements of this section.~~
  - ~~(1) Building shall be of noncombustible construction or sheet metal on wood studs.~~
  - ~~(2) Floors in a mixing plant shall be of concrete or of other non absorbent materials.~~
  - ~~(3) All fuel oil storage facilities shall be separated from the mixing plant and located in such a manner that in case of tank rupture, the oil will drain away from the mixing plant building.~~
  - ~~(4) The building shall be well ventilated.~~
  - ~~(5) Heating units which do not depend on combustion processes, when properly designed and located, may be used in the building. All direct sources of heat shall be provided exclusively from units located outside the mixing building.~~
  - ~~(6) All internal combustion engines used for electric power generation shall be located outside the mixing plant building, or shall be properly ventilated and isolated by a firewall. The exhaust system on all such engines shall be located so any spark emission cannot be a hazard to any materials in or adjacent to the plant.~~

### 460:25-13-19. Blasting standards

- (a) In all blasting operations, except as hereinafter otherwise provided, the maximum safe peak particle velocity shall not exceed at the immediate location of any dwelling house, public building, school, church, commercial or institutional building, the following:
  - (1) Distance of structure from a blast 0-300 feet 2.0"/sec PPV ~~(see Appendix A for allowable pounds per delay).~~
  - (2) Distances of structure from blast 301 feet and beyond 1.0"/sec PPV initially until the blaster can determine from a history of blasts that a preponderance of frequencies, 40 HZ or above, are high enough to justify the 2.0"/sec PPV limit.

(b) This ground velocity limit is not construed to mean property owned, leased, or contracted by the blaster or blaster's company or property on which the owner gives a written waiver.

(c) No two (2) consecutive subcharges within any charge shall be separated by a delay time of less than eight (8) milliseconds.

~~(d) A table to be used for determining weight of explosives to be used on a single delay is in Appendix A of this Chapter.~~

~~(e)~~ The standard table for the maximum charge per delay shall be generated by the formula:  $W = (D/\text{scaled distance})^2$ ; Where W is the weight of explosive in pounds and D is the distance from the charge to the nearest dwelling house, public building, school, church, commercial or institutional building in feet. The scaled distance factors allowed for various distances from the blast site, the table in Subsection (h) will be used. On sites where the Department decides it necessary to comply with the provision of the law this formula may be altered.

~~(f)~~ For the purpose of well shooting below 100 feet, the table shall be generated by the formula:  $W = (D/50)^3$ ; Where W is the total weight of explosives in the hole and D is the distance from the charge to the nearest dwelling house, public building, school, church, commercial, or institutional building.

~~(g)~~ Scaled Distance factors allowed for various distances from blast site:

- (1) 0 to 300 ft. from blast site-Use scaled distance factor of 50 without seismic monitoring.
- (2) 301 to 5,000 ft. from blast site - Use scaled distance factor of 55 without seismic monitoring.
- (3) 5,001 ft and beyond from blast site - Use scaled distance factor of 65 without seismic monitoring.

~~(h)~~ For distances less than 300 feet use the table in Appendix A.

Executive Order (EO) 2020-03, issued on February 3, 2020, requires state agencies to identify at least two (2) existing regulatory restrictions, as defined in EO 2020-03, to be revoked whenever they propose one (1) new regulatory restriction through the permanent rulemaking process. Because the agency recently adopted eight restrictions and revoked three obsolete restrictions, the agency determined that it must identify an additional thirteen (13) regulatory restrictions to be revoked. Among the rules proposed to be revoked in accordance with EO 2020-03 is one rule in Chapter 30 of Title 460 of the Oklahoma Administrative Code (OAC). This rule is duplicative with one of the agency's other rules in the same subchapter.

Section 460:30-4-5 was determined to be unnecessary as its requirements are duplicative with the definitions found in Section 460:30-4-3. Section 460:30-4-3 will be amended so that it can stand alone without being accompanied by 460:30-4-5.

**SUBCHAPTER 10. GOOD COMPOUNDING PRACTICES**

**PART 3. GOOD COMPOUNDING PRACTICES FOR STERILE PREPARATIONS**

**535:15-10-54. CSP microbial contamination risk levels**

- (a) **Sterile preparations.** Pharmacies and pharmacists dispensing sterile preparations shall comply with all applicable federal, state, and local law and regulation concerning pharmacy. If the PEC (primary engineering control) is a compounding aseptic isolator that does not meet the environmental requirements described in USP or is a laminar air-flow workbench (LAFW) or a biological safety cabinet (BSC) that cannot be located within an ISO Class 7 buffer area, then only low-risk level nonhazardous CSPs pursuant to a physician's order for a specific patient may be prepared, and administration of such CSPs shall commence within 12 hours of preparation or as

recommended in the manufacturers' package insert, whichever is less. Low-risk level CSPs with a 12-hour or less BUD shall meet all of the following criteria:

- (1) PECs (LAFWs, BSCs, CAIs, CACIs,) shall be certified and maintain ISO Class 5 as described in USP for exposure of critical sites and shall be in a segregated compounding area restricted to sterile compounding activities that minimize the risk of CSP contamination.
  - (2) The segregated compounding area shall not be in a location that has unsealed windows or doors that connect to the outdoors or high traffic flow, or that is adjacent to construction. Sinks should not be located adjacent to the ISO Class 5 PEC. Sinks should be separated from the immediate area of the ISO Class 5 PEC device.
  - (3) Personnel shall follow proper procedures for personnel cleansing and garbing prior to compounding and maintain proper competency of aseptic work practices.
  - (4) Personnel will follow proper procedures in ensure cleaning and disinfection of sterile compounding areas. Additionally, viable and non-viable environmental air sampling must be performed according to facility written procedures.
- (b) **Risk level.** Requirements for compounding of sterile preparations will be based on the distinction of sterile products as either low-risk, medium-risk or high-risk preparations. These risk levels apply to the quality of CSPs immediately after the final aseptic mixing or filling or immediately after the final sterilization, unless precluded by the specific characteristics of the preparation.
- (1) **Low-Risk Level CSPs.** Sterile preparations compounded under all of the following conditions are at a low risk of contamination:
    - (A) The CSPs are compounded with aseptic manipulations entirely within an ISO Class 5 environment or better air quality using only sterile ingredients, products, components, and devices.
    - (B) The compounding involves only transfer, measuring, and mixing manipulations using not more than three commercially manufactured packages of sterile products and not more than two entries into any one sterile container or package (e.g., bag, vial) of sterile product or administration container/device to prepare the CSP.
    - (C) Manipulations are limited to aseptically opening ampuls, penetrating disinfected stoppers on vials with sterile needles and syringes, and transferring sterile liquids in sterile syringes to sterile administration devices and package containers of other sterile products, and containers for storage and dispensing.
  - (2) **Medium-Risk Level CSPs.** When CSPs compounded aseptically under low-risk conditions, and one or more of the following conditions exists, such CSPs are at a medium risk of contamination. 132
    - (A) Multiple individual or small doses of sterile products are combined or pooled to prepare a sterile product that will be administered either to multiple patients or to one patient on multiple occasions.

## Permanent Final Adoptions

---

- (B) The compounding process includes complex aseptic manipulations other than the single volume transfer.
- (C) The compounding process requires unusually long duration, such as that required to complete the dissolution or homogeneous mixing.
- (3) **High-risk Level CSPs.** CSPs compounded under any of the following conditions are either contaminated or at a high risk to become contaminated.
- (A) Non-sterile ingredients are incorporated, or a non-sterile device is employed before terminal sterilization
- (B) Any of the following are exposed to air quality worse than ISO Class 5 for more than 1 hour
- Sterile contents of commercially manufactured products,
  - CSPs that lack effective antimicrobial preservatives, and
  - Sterile surfaces of devices and containers for the preparation, transfer, sterilization, and packaging of CSPs.
- (C) Compounding personnel are improperly garbed and gloved as outlined by USP.
- (D) Sterile water-containing preparations are stored for more than 6 hours before being sterilized.
- (E) It is assumed, and not verified by examination of labeling and documentation from suppliers or by direct determination, that the chemical purity and content strength of ingredients meet their original or Compendial specifications in unopened or in opened packages of bulk ingredients.
- (c) **Immediate use.** The immediate use provision is intended only for those situations where there is a need for emergency or immediate patient administration of a CSP. Such situations may include cardiopulmonary resuscitation, emergency room treatment, preparation of diagnostic agents, or critical therapy where the preparation of the CSP under conditions described for Low-Risk Level subjects the patient to additional risk due to delays in therapy. Immediate use CSPs are not intended for storage for anticipated needs or batch compounding. Preparations that are medium-risk level and high-risk level CSPs shall not be prepared as immediate use CSPs. Immediate use CSPs are exempt from the requirements described for Low-Risk Level CSPs only when all of the following criteria are met:
- The compounding process involves simple transfer of not more than three commercially manufactured packages of sterile nonhazardous products from the manufacturers' original containers and not more than two entries into any one container or package (e.g., bag, vial) of sterile infusion solution or administration container/device. For example, anti-neoplastics shall not be prepared as immediate use CSPs because they are hazardous drugs.
  - Unless required for the preparation, the compounding procedure is a continuous process not to exceed 1 hour.
  - During preparation, aseptic technique is followed and, if not immediately administered, the finished CSP is under continuous supervision to minimize the potential for contact with non-sterile surfaces, introduction of particulate matter or biological fluids, mix-ups with other CSPs, and direct contact of outside surfaces.
- (A) Administration begins not later than 1 hour following the start of the preparation of the CSP.
- (B) Unless immediately and completely administered by the person who prepared it or immediate and complete administration is witnessed by the preparer, the CSP shall bear a label listing patient identification information, the names and amounts of all ingredients, the name or initials of the person who prepared the CSP, and the exact 1-hour beyond use date and time.
- (C) If administration has not begun within 1 hour following the start of preparing the CSP; the CSP shall be promptly, properly, and safely discarded.
- (d) Opened or needle-punctured single dose containers, such as bags, bottles, syringes, and vials of sterile products and CSPs shall be used within 1 hour if opened in worse than ISO Class 5 air quality and any remaining contents must be discarded.
- (e) Single-dose vials exposed to ISO Class 5 or cleaner air may be used for multiple needle entries up to 6 hours after initial needle puncture. Opened single-dose ampuls shall not be stored for any time period. Multiple-dose containers (e.g., vials) are formulated for removal of portions on multiple occasions because they usually contain antimicrobial preservatives.
- (f) The BUD after initially entering or opening (e.g., needle-punctured) multiple-dose containers is 28 days unless an alternate time period is otherwise specified by the manufacturer. This does not mean the expiration date of the unopened container.
- (g) **Quality Assurance.** Quality assurance practices include, but are not limited to the following:
- Routine disinfection and air quality testing of the direct compounding environment to minimize microbial surface contamination and maintain ISO Class 5 air quality.
  - Visual confirmation that compounding personnel are properly donning and wearing appropriate items and types of protective garments, such as eye protection and face masks.
  - Review of all orders and packages of ingredients to ensure that the correct identity and amounts of ingredients were compounded.
  - Visual inspection of CSPs to ensure the absence of particulate matter in solutions, the absence of leakage from vials and bags, and the accuracy and thoroughness of labeling.
  - All clean rooms must meet NSF/ANSI standard 49. The aseptic processing for sterile preparations shall be in an area separate and distinct from the area used for the compounding of nonsterile drug preparations. A primary engineering control (PEC), (laminar airflow workbench (LAFW), biological safety cabinet (BSC), compounding aseptic isolator (CAI) or compounding aseptic containment isolator (CACI)) will be used to prepare all sterile preparations, except those compounded for Immediate Use.

- separate from the buffer room. The anteroom should be available for the decontamination of supplies and equipment, and donning of protective apparel. A sink should be available in the anteroom area so that personnel can scrub prior to entering the buffer room.
- (2) Use total aseptic techniques, including gowning, mask, and hair net.
  - (3) Provide a system for tracking each compounded product including:
    - (A) Personnel involved in each stage of compounding;
    - (B) Raw materials used including quantities, manufacturer, lot number, and expiration date;

### **535:15-10-55. Drug compounding facilities**

- (a) Pharmacies engaging in compounding shall have a specifically designated and adequate space for the orderly compounding of prescriptions, including the placement and storage of equipment and materials.
- (b) The aseptic processing for sterile preparations shall be in an area separate and distinct from the area used for the compounding of non-sterile drug preparations. A primary engineering control (PEC), (laminar airflow workbench (LAFW), biological safety cabinet (BSC), compounding aseptic isolator (CAI) or compounding aseptic containment isolator (CACI)) will be used to prepare all sterile preparations, except those compounded for Immediate Use.
- (c) The area(s) used for the compounding of drugs shall be maintained in a good state of repair. These area(s) shall also be maintained in a clean and sanitary condition. Adequate washing facilities are to be provided and sewage, trash and other refuse in the compounding area is to be disposed of in a safe, sanitary, and timely manner.
- (d) Bulk drugs and other chemicals or materials used in the compounding of drugs must be stored as directed by the manufacturer, or according to USP monograph requirements, in a clean, dry area under appropriate temperature conditions (controlled room temperature, refrigerator, or freezer in adequately labeled containers.) Bulk drugs shall also be stored such that they are protected from contamination.
- (e) Adequate lighting and ventilation shall be provided in all compounding areas.
- (f) Potable water shall be supplied under continuous positive pressure in a plumbing system free of defects that could contribute contamination to any compounded drug preparation.
- (g) Work area and equipment. Any pharmacy dispensing compounded sterile preparations shall meet or exceed the following requirements:
  - (1) A transition area from the general pharmacy (also called ante area or ante room) shall have a certified and inspected ISO Class 8 or better area which may contain a sink. All personnel hand hygiene and garbing procedures, staging of components, order entry, CSP labeling, and other high- particulate-generating activities are performed in the ante area. Drugs and other materials, taken into the transition area shall be removed from corrugated cardboard and other particle-generating materials before being taken into the area.
  - (2) A separate controlled limited access area (also called a buffer area or buffer room) shall have a certified and inspected ISO Class 7 or better environment for compounding sterile solutions. The buffer room shall be of adequate space. Cleanliness of the area is of critical importance.
  - (3) A separate controlled limited access area (also called a buffer area or buffer room) for compounding sterile solutions, which shall be of adequate space for compounding, labeling, dispensing, and sterile preparation of the medication. This area shall have controlled temperature. Cleanliness of the area is of critical importance. Drugs and other materials, taken into the limited

access area, shall be removed from cardboard and other particle generating materials before being taken into the area.

(4) The controlled limited access area shall have a certified and inspected ISO Class 5 environment. Such an environment exists inside a certified laminar airflow hood (clean room, biological safety cabinet or other barrier isolator meeting ISO Class 5 requirements) used for the preparation of all compounded sterile products. The ISO Class 5 environment device or area is to be inspected and certified semiannually. Barrier isolator workstations are closed systems and are not as sensitive to their external environment as laminar airflow equipment. It is recommended to place them in a limited access area with cleaning and sanitizing in the surrounding area on a routine basis.

(5) A pressure gauge or velocity meter shall be installed to monitor the pressure differential or airflow between the clean room and the general environment outside the compounding area. The results shall be reviewed and documented on a log at least every work shift (minimum frequency shall be at least daily) or by a continuous recording device. The pressure between the ISO Class 7 and the general pharmacy area shall not be less than 5 Pa (0.02 inch water column). In facilities where low and medium-risk level CSPs are prepared, differential airflow shall maintain a minimum velocity of 0.2 meters per second (40 feet per minute) between buffer area and ante-area.

(6) Hazardous drugs shall be prepared within a certified Class II, Type A (exhaust may be discharged to the outdoors) or Class II, Type B (exhaust may be discharged to the outdoors) laminar flow biological safety cabinet. Hazardous drug compounding shall have negative pressure to adjacent positive pressure ISO Class 7 or better ante-areas, thus providing inward airflow to contain any airborne drug. All vented cabinets shall be vented through HEPA filtration, preferably to outside air or through use of suitable technology or equipment. Ventilation exhaust shall be placed as not to reenter the facility at any point.

(7) The area shall be designed to avoid excessive traffic and airflow disturbances.

(8) The area shall be ventilated in a manner not interfering with laminar flow hood conditions.

(9) PECs should be left on continuously. If a PEC has been turned off, allow the blowers to run continuously for at least 30 minutes before using.

(10) Daily procedures must be established for cleaning the compounding area. The pharmacy must keep cleaning logs consistent with the minimum cleaning frequency. Logs shall be kept for 2 years as outlined in USP 797 standards:

(11) Minimum frequency of cleaning and disinfecting compounding areas (~~USP 797~~); ~~site and minimum frequency~~ are listed below:

(A) ISO Class 5 [Primary Engineering Control (e.g. LAFW, BSC, CAI, CACI)] shall be cleaned and disinfected at the beginning of each shift, before each

batch, not longer than 30 minutes following the previous surface disinfection when ongoing compounding activities occur, after spills, and when surface contamination is known or suspected.

(B) Counters and easily cleanable work surfaces shall be cleaned and disinfected daily.

(C) Floors shall be cleaned and disinfected daily.

(D) Walls shall be cleaned and disinfected monthly.

(E) Ceilings shall be cleaned and disinfected monthly.

(F) Storage shelving shall be cleaned and disinfected monthly.

**535:15-10-65. Compounding of sterile hazardous drugs**

(a) Although the potential therapeutic benefits of compounded sterile and non-sterile hazardous drug preparations outweigh the risks of their adverse effects in ill patients, exposed healthcare workers risk similar adverse effects with no therapeutic benefit. Occupational exposure to hazardous drugs can result in:

- (1) Acute effects, such as skin rashes;
- (2) Chronic effects, including adverse reproductive events; and
- (3) Possibly cancer. Each facility must have a communication program that identifies hazardous drugs and communicates this list to all workers that participate in product acquisition, storage, transportation, housekeeping, and waste disposal.

(b) Hazardous drugs shall be any drug identified by at least one of the following six criteria: carcinogenicity, teratogenicity or developmental toxicity, reproductive toxicity in humans, organ toxicity at low doses in humans or animals, or genotoxicity. A new or investigational drug that has no information on toxicity should be treated as a hazardous drug. At a minimum, the hazardous drug communication list shall be drugs received in the facility that are recognized as such by the National Institute for Occupational Safety and Health (NIOSH).

(c) Hazardous drugs shall be prepared for administration only under conditions that protect the healthcare workers and other personnel in the preparation and storage areas. Hazardous drugs shall be stored separately from other inventory in a manner to prevent contamination and personnel exposure. Many hazardous drugs have sufficient vapor pressures that allow volatilization at room temperature; thus storage is preferably within a containment area such as a negative pressure room. The storage area should have sufficient general exhaust ventilation, at least 12 air changes per hour (ACPH) to dilute and remove any airborne contaminants.

(d) Hazardous drugs shall be handled with caution at all times using appropriate chemotherapy gloves during receiving, distribution, stocking, inventorying, preparation for administration, and disposal.

Applicants trained in institutions outside the United States, besides those accredited by the Canadian Psychological Association, shall submit an evaluation of their doctoral program as described in 575:10-1-2(c)(4). All doctoral programs submitted for review under this subsection will be evaluated by the following criteria:
- (1) Except in school psychology, the three academic years leading to the doctoral degree must include a minimum of two years of full-time, on campus, graduate study (excluding internship). In school psychology, the three academic years leading to the doctoral degree must include a minimum of one year of full-time postmaster's graduate study as defined by the institution (excluding internship).
  - (2) At least forty-two (42) hours of the specified course work must be primarily psychological in content. The applicant must have a minimum of three (3) or more graduate semester hours in each of the following substantive content areas, for a total of twenty-one (21) hours:
    - (A) scientific and professional ethics and standards,
    - (B) research design and methodology,
    - (C) statistics and psychometrics,
    - (D) biological bases of behavior [e.g. physiological psychology, comparative psychology, neuropsychology, sensation, psychopharmacology].
    - (E) cognitive-affective bases of behavior [e.g. learning, memory, perception, cognition, thinking, motivation, emotion].
    - (F) social bases of behavior [e.g. social psychology, cultural, ethnic, and group processes, sex roles, organization and systems theory], and
    - (G) individual behavior [e.g. personality theory, human development, individual differences, abnormal psychology].
- (3) The remaining twenty-one (21) hours of specified course work may be in the foregoing basic areas or in courses pertaining to the specific program of study.
- (g) **Doctoral degree in area related to psychology not sufficient.** The possession of a doctoral degree from an area related to psychology does not qualify one for licensure as a psychologist. This includes, but is not limited to, applicants with degrees in special education, pastoral psychology (or counseling), counseling and guidance, speech and hearing, and counselor education.
- (h) **Supervised experience.** An applicant for licensure as a psychologist must have two years of supervised experience satisfactory to the Board. Supervisors may not be members of the psychologist's immediate family or other individuals with whom the necessary level of objectivity cannot be maintained. This will include, but is not limited to, spouses, children, siblings, and parents or anyone with whom the psychologist has an emotionally or sexually intimate relationship. Any experience gained under such supervision will be disallowed. This two years of experience must be as a psychologist and in line with the applicant's major program of study for the doctoral degree as determined according to the procedure stated in 575:10-1-2(e). Applicants in the areas of clinical, counseling, and school psychology must have an internship experience. Applicants from psychology programs other than clinical, counseling, or school psychology, who assert the program's purpose to be the training of individuals to provide professional psychological services to the public, must have an internship experience. Internships of applicants from psychology programs with titles other than clinical, counseling, or school psychology programs will be evaluated using the same rules as those used to evaluate applicants with degrees from either clinical, counseling, or school psychology programs, depending upon which the Board deems is the most appropriate corollary based upon the program's training goals and objectives. A predoctoral internship may be used to partially fulfill the two-year experience requirement for licensure. Under no circumstances may more than one year of predoctoral experience as an intern be accepted. The internship must be consistent with the major program of study in the doctoral program which was documented in writing to the Board by the accredited institution [see 575:10-1-2(e)]. Internships in clinical psychology require a full-time experience (40 hours per week) either for one calendar year, or for two years of half-time experience. Counseling and school psychology internships require either a full-time experience (40 hours per

week) for one calendar year or one academic contract year or a half-time experience for two calendar years or two academic contract years. An academic contract year means the school year of the elementary or secondary school setting in which an intern is fulfilling the internship requirement. If the counseling or school psychology internship is completed in other than an elementary or secondary school setting, the one calendar year requirement shall apply.

(i) **General requirements for internships.** Internships must be designed to provide a planned, programmed sequence of training experience. The primary focus and purpose of the internship must assure breadth and quality of training. An internship is an organized program of planned experiences in contrast to simply supervised experience or on-the-job training. The internship must provide training in a range of assessment and treatment activities conducted directly with patients or clients seeking psychological services. At least 25 percent of the trainee's time must be in direct patient or client contact. Internship training is at the post-coursework, post candidacy, post-clerkship, post-practicum, post-externship level. A written statement or brochure must be available which describes the goals and content of the internship, states clear expectations for the quantity and quality of trainee's work, and is furnished to prospective interns.

(j) **Supervision in internships.** A clinical or counseling psychology internship agency must have a clearly designated staff psychologist, who is responsible for the integrity and quality of the training program and who is licensed. In a counseling or clinical psychology internship, the basic supervision must be conducted by a staff psychologist who is trained in the applicant's major program of doctoral study, or a closely related program, and who is licensed. While additional experience with professionals in other disciplines is highly desirable, it is required that clinical and counseling psychology interns have experience with multiple (three or more) supervisors who are licensed as psychologists. Supervision of counseling and clinical psychology interns shall consist of an average of at least 10 percent of the full-time or half-time intern's week. At least half of the supervision of clinical and counseling psychology interns must be regularly scheduled, formal, face-to-face, individual supervision by one or more licensed psychologists with the intent of dealing with psychological services rendered directly by the intern. The remaining half of the supervision may be conducted individually or in a group by licensed psychologists or by other licensed professionals as appropriate to the internship experience. The counseling or clinical psychology internship agency should ordinarily have a minimum of two interns at the internship level of training during the applicant's training period.

(k) **School psychology internships.** School psychology internships must have a clearly designated psychologist who is responsible for the integrity and quality of the training program and who is licensed. In a school psychology internship, the basic supervision must be conducted by a psychologist who is trained in the applicant's major program of doctoral study, or a closely related program, who is licensed, and who may be employed in a setting other than the school district in which the internship is situated. While additional experience

with professionals in other disciplines is highly desirable, it is required that school psychology interns have experience with multiple (two or more) supervisors who are licensed as psychologists. Supervision of school psychology interns shall consist of an average of at least 10 percent of the full-time or half-time intern's week. At least half of the supervision of school psychology interns must be regularly scheduled, formal, face-to-face, individual supervision by one or more licensed psychologists with the intent of dealing with psychological services rendered directly by the intern. The remaining half of the supervision may be conducted individually or in a group by licensed psychologists or by other licensed professionals as appropriate to the internship experience.

(l) **Postdoctoral experience.** At least one year of the two-year experience requirement must be postdoctoral experience as a psychologist and in line with the applicant's major program of doctoral study as determined according to the procedure stated in 575:10-1-2(e).

(1) Except in school psychology, the postdoctoral experience must be a total of 2000 hours of appropriate experience. The postdoctoral experience must either be full time (40 hours per week) for at least one calendar year (50 weeks), or part-time for a period not to exceed three years.

(2) The postdoctoral experience in school psychology must be full time (40 hours per week) for at least one calendar year (50 weeks) or one academic contract year, or a total of 2000 hours (or the number of hours in an academic contract year) of appropriate experience, or equivalent, for a period not to exceed three years.

(3) The postdoctoral experience must be under the supervision of a licensed psychologist(s) who was trained in the applicant's major program of doctoral study, or a closely related program, and who is currently engaged in rendering psychological services relevant to that training.

(4) Applicants must have received and accumulated 75 hours of regularly scheduled, formal, face-to-face, individual supervision from his/her supervisor(s) reasonably distributed throughout each 12 months of the postdoctoral experience.

(5) The postdoctoral experience does not have to be in a private setting.

(6) Applicants completing their postdoctoral experience in an academic or clinical research setting, a minimum of two-years is required to fulfill the Health Service Psychologist requirements. An applicant is required to spend 50% of his/her time performing the following activities:

(A) Direct service/multiple client contacts per week (minimum of five clients) including service in an agency or university-based clinic, or in a private practice under supervision. Minimum for applicants in an academic or clinical research setting is 250 hours per year, for a minimum of two years, over the course of the postdoctoral supervision experience.

(B) Academic or clinical research setting applicants may also perform any of the following activities:

## Permanent Final Adoptions

- (i) Modeling and demonstrating clinical techniques, including assessment and therapy.
  - (ii) Supervision of clinical services, wherein the faculty supervisor assumes direct responsibility for supervisee's clinical work.
  - (iii) Conducting workshops or community groups or public presentations on mental health related topics.
- (67) The postdoctoral experience of applicants who desire a Health Service Psychologist designation must also meet the requirements of 575:10-1-6(b)(5)(B).
- (m) **Examination process.** The full examination for licensure shall consist of two component examinations:
- (1) **Objective examination.** An objective examination in basic psychology, known as the Examination for Professional Practice in Psychology ("EPPP"), all parts of the exam, as required by the Board.
  - (2) **Jurisprudence examination.** A jurisprudence examination based on the Rules of the Board, Psychologists Licensing Act, Code of Ethics and applicable Oklahoma Mental Health Law.
- (n) **Passing scores on examinations.** An applicant is deemed to have passed the objective examination if he/she has obtained at least the minimum pass point designated by the developer of the examination. An applicant is deemed to have passed the jurisprudence examination if he/she has 70 percent of the total items correct.
- (o) **Notification of results.** All applicants will be notified by mail of the results of each component examination within 30 days of the examination date. At the request of the applicant, specific information about his/her performance on any component examination will be provided to the extent the integrity of the exam is not violated.
- (p) **Re-examination.** If either of the two component examinations is failed a total of four times, the application process shall cease. The former applicant may reapply for licensure by submitting a new application for consideration by the Board in accordance with the requirements to become licensed as a psychologist.
- (q) **Waiver of portion of examination or re-examination.** Failure on either portion of the licensing examination will be considered failure of the entire examination for purposes of licensing; however, satisfactory performance on the objective examination or jurisprudence examination will be grounds for waiver of that portion of the examination for future re-examination.
- (r) **Confidentiality of exam scores.** Exam results shall be kept confidential by the Board.
- (s) **Licensing by reciprocity endorsement.** Applicants for licensure under the reciprocity provisions of this act by endorsement may only be licensed if they meet the requirements in 59 O.S. Section 1366(2).
- (t) **Post-Military Service Applicants.**
- (1) The Board shall consider the equivalent education, training and experience completed by an applicant while the applicant was a member of the United States Armed Forces or Reserves, National Guard of any state, the Military Reserves of any state, or the Naval militias of any

state, and apply it in the manner most favorable toward satisfying the qualifications for licensure.

(2) While examining the education, training and experience completed by an applicant while the applicant was a member of the military as described in the preceding paragraph, the Board may consider, but is not limited to, determinations made by institutions of higher education based on the Guide to the Evaluation of Educational Experiences in the Armed Services, published by the American Council on Education.

(u) **Disqualifying offenses.** Pursuant to 59 O.S. § 4000.1, the Oklahoma State Board of Examiners shall maintain a list of offenses under Oklahoma law that could disqualify a person from obtaining a license under the Oklahoma Psychologists Licensing Act (59 O.S. § 1351-1376).

(1) The offenses included on the list substantially relate to the practice of psychology and pose a reasonable threat to public safety. The list of disqualifying offenses is available on the Board's website or by contacting the Board office and requesting the current list. The Board may modify the list as needed to protect the public health and safety.

(2) Individuals may request an initial determination from the Board regarding whether the individuals' criminal history would disqualify that individual from obtaining a license. Such request must be in writing and directed to the Board. The individual must submit a copy of their criminal history and any related documents and court records that specify the criminal history of the individual. A ninety-five dollar (\$95.00) fee shall accompany any request for initial determination. The fee shall be collected by the Board office prior to the determination.

(3) If an individual has a criminal history that includes offenses from another state or federal law violations, the offenses will disqualify an individual if the conduct would also be a crime under Oklahoma law.

(4) The individual may appeal the Board's initial determination of disqualification by submitting a request in writing of the circumstances the individual would like the Board to consider. The Board may discuss the individual appeals at any scheduled meeting of the Board. The individual may be allowed to address the Board during public comment by signing in at the beginning of the meeting at which the appeal may be on the agenda.

### 575:10-1-3. Private Practice Under Supervision

(a) **Purpose.** The purpose of this provision is to provide an opportunity for individuals to fulfill the experience requirements for licensure in psychology in other than academic, governmental, or institutional settings. The applicant for such approval is considered to be requesting entrance into the established practice of a licensed psychologist for the purpose of gaining supervised experience.

(b) **Not an independent practitioner.** The applicant, if approved to conduct Private Practice Under Supervision, is not authorized to represent him/herself as an independent practitioner of psychology to the public.

(c) **Application; eligibility; approval.** Application for approval to Practice Psychology Under Supervision shall be made in the same manner, and on the same forms that are used to apply for licensure. A statement, signed by both the applicant and proposed supervisor, must be submitted with the application. The statement shall contain an explicit statement indicating that the supervisor agrees to supervise the practice of psychology of the applicant, and that the supervisor has read, understands and agrees to the provisions of the law with respect to practice under supervision, 59 O.S., Section 1353(d) to wit, that the supervisor accepts complete and full responsibility for the psychological activities and services of the applicant. Permission to practice under supervision will be granted only after the applicant has completed all requirements for the doctorate and the Board has been so notified by the university awarding the degree. Approval will be extended only to those whose training and experience would qualify them for licensure after completion of the experience requirements of the law, except for the second year of supervised experience as required in 575:10-1-2(g), and has been approved by the Board or a committee selected by the Board to sit for examination. Approval for practice under this provision shall be for a period of one calendar year dating from the date of approval by the Board of the application for Private Practice Under Supervision or until date of licensure. Extension of this approval shall be considered only upon written request of the supervisee and such request must be received prior to the end of the one-year period of previous approval.

(d) **Written agreement between applicant and supervisor.** Applications for approval to engage in Private Practice Under Supervision shall include a written agreement, co-signed by the applicant and his/her supervisor, describing the terms of the supervisory arrangement. Said terms must include supervision time amounting to at least 90 minutes weekly and a statement of fees charged for supervisory time, the extent of the applicant's services rendered to the public while practicing under supervision, and an evaluation of the quality of the applicant's professional and interpersonal skills for rendering services to the public.

(e) **Notice of decision.** The individual applicant for approval for Private Practice Under Supervision shall be notified in writing as to the decision of the Board or committee with respect to said application.

(f) **Preparation and distribution of certain announcements forbidden.** Persons approved for the private practice under supervision are not authorized to represent themselves as independent practitioners of psychology. Preparation or distribution of announcements of practice, independent telephone listings, or other such notices shall be in violation of the authorization to practice under supervision and will lead to automatic revocation of the approval for practice under supervision.

(g) **Terminate responsibilities and obligations.** Any individual practicing psychology under supervision must take the Examination for Professional Practice in Psychology (EPPP) and Jurisprudence Examination no later than one calendar year after the day permission to practice under supervision is granted. Failure to take the examination within the designated

time period shall result in automatic revocation of the approval to practice under supervision. An individual approved for Private Practice Under Supervision who fails all or part of the examination for licensure, may be granted an extension of the approval for Private Practice Under Supervision; however, such approval shall be automatically revoked if the individual does not attempt re-examination within one calendar year from the date of the completion of the last part of the examination which was previously attempted. Under unusual circumstance, such as military service or major illness, an applicant may be granted an extension of the approval to practice until the next examination which the supervisee might reasonably be expected to attempt. If the applicant fails any of ~~the three portions of the~~ licensing examination ~~three~~four times, then approval for practice under supervision will automatically be revoked.

(h) **Requirements for supervisors.** Permission to practice psychology under supervision shall be granted to applicants who otherwise qualify, only if the supervisor for their practice is:

- (1) A psychologist who has been licensed for two years and in good standing.
- (2) Trained in the same major program of study as the applicant's doctoral training and who will supervise the candidate in work consistent with that major program of study.
- (3) Currently engaged in a private practice rendering psychological services to the public on at least a 10-hour weekly basis.
- (4) Is not a member of the psychologist's immediate family nor an individual with whom the necessary level of objectivity can be maintained. This will include, but is not limited to, a spouse, children, siblings, and parents or anyone with whom the psychologist has an emotionally or sexually intimate relationship.

(i) **Supervisor's responsibility.** As per 59 O.S., Section 1353(6), the supervising psychologist accepts full and complete responsibility for all professional conduct of the supervisee; all professional responsibility resides with the supervisor, not with the supervisee. The supervisee will be considered to have joined the practice of the supervisor. The supervisory psychologist will normally be expected to accept no more than three supervisees under the provision of this section. Exceptions to this limit may be approved by the Board if the Board determines that adequate supervision will be provided by the proposed relationship.

### **575:10-1-11. Telepsychology**

(a) **"Telepsychology"** means the practice of psychology as defined 59 O.S. § 1352, including psychological and school psychological supervision, by distance communication technology such as but not necessarily limited to telephone, email, Internet-based communications, and videoconferencing.

(b) **"Resident"** means any individual who is or has been present in Oklahoma for other than a temporary or transitory purpose, or who is domiciled in Oklahoma.

(g) Telepsychology providers recognize that telepsychology is not appropriate for all psychological problems and clients, and decisions regarding the appropriate use of telepsychology are made on a case-by-case basis.

(h) Telepsychology providers will document an emergency plan in the service recipient's record. The plan will specify the procedure for dealing with emergencies that will in an effective and timely way, provide for the service recipient's welfare.

(i) Telepsychology providers shall obtain and document informed consent for the provision of psychological health care services via telepsychology from the client. Such consent shall cover concerns unique to the receipt of psychological health care services via telepsychology, including risks to confidentiality and security, data storage policies and procedures specific to telepsychology, the possibility of disruption and/or interruption of service due to technological failure, insurance coverage considerations, and other issues that can reasonably be anticipated regarding the non-comparability between psychological health care services delivered in person and those delivered via telepsychology.

(j) Telepsychology providers shall establish an agreement relative to the client's access to face-to-face emergency services in the client's geographical area, in instances such as, but not necessarily limited to, the client experiencing a suicidal or homicidal crisis.

(m) Telepsychology providers will explain to service recipients the potential limitations of conclusions and recommendations drawn from the results of testing and will document these limitations in the findings or report.

(n) Before delivering telepsychology services to recipients across state, territorial, and international boundaries, providers should familiarize themselves and ensure that they comply with all applicable laws.

OPERS is adding two rules and amending four rules in Chapter 25: The amendment to 590:25-7-1 adds separate accounts to the types of investment vehicles that can be included in the Plan's investment options. The amendment to 590:25-9-5 amends the required minimum distribution age to comply with federal legislation. The amendment to 590:25-9-8 adds an effective date for

this rule. The amendment to 590:25-9-17 adds SIMPLE IRAs to the list of plan types that can accept rollovers from SoonerSave. New rule 590:25-9-22 is required for compliance with the SECURE Act. The SECURE Act provides that upon the death of a plan participant, the designated individual beneficiary is required to take distributions of his or her entire inherited account within ten years, regardless of whether the RMDs had begun prior to the participant's death. The 10-year rule will not apply to an "eligible designated beneficiary." New rule 590:25-9-23 is required to comply with federal legislation related to 2020 RMD payments that were suspended by the CARES Act.

If the Participant dies while benefits are being paid to the Participant under the Plan and before such benefits have been exhausted, the benefits payable under this Plan shall be paid to the designated beneficiary in accordance with the distribution option selected by the Participant unless the beneficiary selects a different distribution option in accordance with Plan provisions.

**590:25-9-17. Rollovers to other plans**

(a) Effective January 1, 2002, notwithstanding any provisions of the Plan to the contrary that would otherwise limit a distributee's election under this Section, a distributee may elect to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(b) As used in this section:

(1) "Eligible retirement plan", for purposes of a direct rollover, shall mean a qualified trust described in Section 401(a) of the Code, an individual retirement account described in Section 408(a) of the Code, an individual retirement annuity described in Section 408(b) of the Code, or a Roth individual annuity (if the individual is eligible for a Roth rollover) described in Section 408(A)(e) for distributions made after December 31, 2007, that accepts the distributee's eligible rollover distribution. Effective for distributions made after December 31, 2001, an eligible retirement plan shall also mean an annuity contract described in Section 403(b) of the Code and an eligible plan under Section 457(b) of the Code which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan. Effective for distributions made after December 18, 2015, an eligible retirement plan includes a SIMPLE IRA as described in Code § 408(p), provided that the rollover contribution is made after the two-year period beginning on the date the distributee first participated in any qualified salary reduction arrangement maintained by the distributee's employer under Code § 408(p)(2), as described in Code § 72(t)(6). The definition of eligible retirement plan shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Section 414(p) of the Code.

(2) "Eligible rollover distribution" means any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include (i) any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the designated

## Permanent Final Adoptions

beneficiary of the distributee, or for a specified period of ten (10) years or more; (ii) any distribution to the extent such distribution is required under Section 401(a)(9) of the Code; (iii) the portion of any distribution that is not includable in gross income (determined without regard to the exclusion for net unrealized appreciation with respect to employer securities); or (iv) any amount that is distributed on account of hardship.

(3) "Distributee" includes a Participant or a Participant's surviving spouse, or for the limited purposes set forth in paragraph (c) of this section, a non-spouse beneficiary.

(c) Effective January 1, 2007, a non-spouse beneficiary pursuant to Section 402(c)(11) of the Code may elect to have any portion of an eligible rollover distribution paid directly to an individual retirement account described in Section 408(a) of the Code, or an individual retirement annuity described in Section 408(b) of the Code, established for the purpose of receiving the distribution. A rollover pursuant to this paragraph shall be treated as a rollover of an eligible rollover distribution only for purposes of Section 402(c) of the Code.

(d) Except as otherwise provided, this section shall apply to distributions made after December 31, 2001.

### **590:25-9-23. Death after December 31, 2021**

(1) If the Participant dies before the distribution of his or her entire account (regardless of whether any distributions had begun before the Participant's death) and the Participant has a designated Beneficiary:

(A) The entire Account shall be distributed to the designated Beneficiary by December 31 of the calendar year containing the tenth anniversary of the Participant's death.

(B) Notwithstanding paragraph (1)(A), if the designated Beneficiary is an eligible designated Beneficiary, then the eligible designated Beneficiary may elect for the Participant's Account(s) to be distributed:

(i) by December 31 of the calendar year containing the tenth (10th) anniversary of the Participant's death, or

(ii) beginning no later than December 31 of the calendar year immediately following the calendar year in which the Participant died, over the life of the eligible designated Beneficiary or over a period not exceeding the life expectancy of the eligible designated Beneficiary. If the eligible designated Beneficiary is the surviving spouse, payment under item (ii) is not required until the later of December 31 of the calendar year immediately following the calendar year in which the Participant died or December 31 of the calendar year in which the Participant would have attained age seventy and one-half (70  $\frac{1}{2}$ ) (age seventy-two (72)

### 590:35-13-8. Plan-to-plan transfers

This Plan, ~~at the Board of Trustee's discretion~~, may make or receive plan-to-plan transfers to or from other qualified plans, provided the requirements of ~~Code Section 414(1) federal law~~ are met.

### 590:35-13-9. Rollovers to eligible retirement plan

(a) Notwithstanding any provision of the Plan to the contrary that would otherwise limit a distributee's election under this Section, a distributee may elect, at the time and in the manner prescribed by the Plan Administrator, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(b) As used in this section:

(1) **"Eligible rollover distribution"** means any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of ten years or more; any distribution to the extent such distribution is required under Code Section 401(a)(9); the portion of any other distribution(s) that is not includible in gross income, except to the extent provided by paragraph (c) of this section; and effective for distributions made after December 31, 2001, any amount that is distributed on account of hardship shall not be an eligible rollover distribution and the distributee may not elect to have any portion of such a distribution paid directly to an eligible retirement plan.

(2) **"Eligible retirement plan"** means an individual retirement account described in Code Section 408(a), an individual retirement annuity described in Code Section 408(b), or a qualified trust described in Code Section 401(a), or Roth individual annuity (if the individual is eligible for a Roth rollover) described in Code Section 408(A)(e) for distributions made after December 31, 2007, that accepts the distributee's eligible rollover distribution. Effective for distributions made after December 31, 2001, an eligible retirement plan shall also mean an annuity contract described in Code Section 403(b) and an eligible plan under Code Section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan. Effective for distributions made after December 18, 2015, an eligible retirement plan includes a SIMPLE IRA as described in Code § 408(p), provided that the rollover contribution is made after the two-year period beginning on the date the distributee first participated in any qualified salary reduction arrangement maintained by the distributee's employer under Code § 408(p)(2), as described in Code § 72(t)(6). The definition of eligible retirement plan shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under

a qualified domestic relation order, as defined in Code Section 414(p).

(3) **"Distributee"** means a Participant. In addition, the Participant or the Participant's surviving spouse are distributees with regard to the interest of the spouse. For the limited purposes set forth in paragraph (d) of this section, distributee means a non-spouse beneficiary.

(4) **"Direct rollover"** means a payment by the Plan to the eligible retirement plan specified by the distributee.

(c) A portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions which are not includible in gross income. However, such a portion may be transferred only to an individual retirement account or an individual retirement annuity described in section Code Section 408(a) or (b) of the Code, a qualified plan described in section Code Sections 401(a) or 403(a) of the Code, or to an annuity contract described in section Code Section 403(b) of the Code that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution which is includible in gross income and the portion of such distribution which is not so includible.

(d) Effective January 1, 2007, a non-spouse beneficiary pursuant to section Code Section 402(c)(11) of the Code may elect to have any portion of an eligible rollover distribution paid directly to an individual retirement account described in section Code Section 408(a) of the Code, or an individual retirement annuity described in section Code Section 408(b) of the Code, established for the purpose of receiving the distribution. A rollover pursuant to this paragraph shall be treated as a rollover of an eligible rollover distribution only for purposes of section Code Section 402(c) of the Code.

### 590:35-13-13. Death after December 31, 2021

Notwithstanding any contrary provisions, effective for Participant deaths after December 31, 2021, the following distribution provisions shall take effect; provided, however, that such provisions shall be subject to any regulations or other guidance issued under the SECURE Act:

- (E) any other individual who is not more than ten (10) years younger than the Participant. Notwithstanding the preceding, a child described in (4)(B)

above shall cease to be an eligible designated Beneficiary as of the date he or she reaches the age of majority.

Any amount not distributed to the Participant during his or her lifetime shall be distributed after the death of the Participant at least as rapidly as under the method of distribution used as of the date of his or her death. expectancy. Life expectancies will not be recalculated annually.

**590:40-7-36. Rollovers to eligible retirement plan**

(a) **Election to rollover.** Notwithstanding any provision of the Plan to the contrary that would otherwise limit a distributee's election under this Section, a distributee may elect, at the time and in the manner prescribed by OPERS, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover.

(b) **Definitions.** As used in this section:

(1) "Eligible rollover distribution" means any distribution of all or any portion of the balance to the credit of the distributee, except that an eligible rollover distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life expectancy) of the distributee or the joint lives (or joint life expectancies) of the distributee and the distributee's designated beneficiary, or for a specified period of 10 years or more; any distribution to the extent such distribution is required under Code Section 401(a)(9); the portion of any other distribution(s) that is not includible in gross income, except to the extent provided by paragraph (c) of this section; and any amount that is distributed on account of hardship shall not be an eligible rollover distribution and the distributee may not elect to have any portion of such a distribution paid directly to an eligible retirement plan.

(2) "Eligible retirement plan" means an individual retirement account described in Code Section 408(a), an individual retirement annuity described in Code Section 408(b), or a qualified trust described in Code Section 401(a), or Roth individual annuity (if the individual is eligible for a Roth rollover) described in Code Section 408(A)(e), that accepts the distributee's eligible rollover distribution. An eligible retirement plan shall also mean an annuity contract described in Code Section 403(b) and an eligible plan under Code Section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from this Plan. The definition of eligible retirement plan shall also apply in the case of a distribution to a surviving spouse, or to a spouse or former spouse who is the alternate payee under a qualified domestic relation order, as defined in Code Section 414(p).

(3) **"Distributee"** includes a Participant or a Participant's surviving spouse, or, for the limited purposes set forth in paragraph (c) of this section, a non-spouse beneficiary as described in (c) below, as defined by Code Section 401(a)(9)(E).

**595:35-1-8. Administrative penalty and notice of claim**

The Commissioner or the Commissioner's representative may assess an administrative penalty against a person or entity that the Commissioner or the representative has determined violated the Act. See 47 O.S. §§ 230.6 and 230.9.

(1) Where the Commissioner or the representative has determined that a minor violation or violations exist which may be readily corrected by the person involved, the Commissioner or the representative may informally notify such person by mail or telephone of the minor violation within a specified period of time. If the person does not correct the violation within the specified time, the Commissioner or the representative may then assess the administrative penalty with the procedure specified. However, whether the violation is one justifying an administrative penalty or a request for compliance is a decision purely within the discretion of the Commissioner or the representative.

(2) When the Commissioner or the representative has determined that a violation justifying the imposition of an administrative penalty has taken place, the Department shall send a Notice of ~~claim~~ Claim to the ~~respondent~~ Respondent at the ~~respondent's~~ Respondent's last known address. The Notice of ~~claim~~ Claim shall contain:

- (A) the amount of the administrative penalty that the Commissioner or the representative has assessed;
- (B) a statement of the maximum civil penalty for which the ~~respondent~~ Respondent may be liable, and
- (C) a description of the manner in which the ~~respondent~~ Respondent makes payment of the penalty to the Department

(3) Pursuant to 47 O.S. § 2-116, the giving of notice by mail is complete upon the expiration of ten (10) days after deposit of said notice in the United States mail in an envelope with first class postage prepaid, addressed to such person at the address as shown by the records of the Department. The administrative penalty shall be due and owing within twenty-five (25) days after of the date the Notice of ~~claim~~ Claim was sent mailed, unless the concerned party requests a hearing as provided in 595:35-1-9 which shall include the ten (10) days specified by 47 O.S. § 2-116. The payment deadline shall be stayed if the Respondent timely requests a hearing as provided in 595:35-1-9.

**595:35-1-9. Hearings**

(a) In responding to the Notice of Claim, the respondent may submit to the official who issued the notice written explanations, information, or arguments in response to the allegations or the amount of the assessed penalty set forth in the Notice of Claim. The contents of the informal response will be reviewed by the Commissioner's representative who may choose to amend, dismiss, or let the Notice of Claim remain as issued. If the Commissioner's representative does not dismiss the administrative penalty in whole, the respondent shall be notified

as soon as reasonably possible. The respondent shall then be given either the longer of the twenty five (25) days still outstanding or at least ten (10) days to pay the penalty. Should a proposed settlement be rejected by the respondent, the amount of the assessed penalty set forth in the Notice of Claim shall be reinstated.

(b) Any request for a hearing must be filed by the respondent with the Department of Public Safety, Troop S, 200 NE 38th Terrace, Oklahoma City, OK 73105 within twenty five (25) days after the Notice of Claim was sent.

- (c) The request for a hearing must be in writing and must:
- (1) state the name and address of the respondent and of the person submitting the request if different from the respondent,
  - (2) state which allegations of violations, if any, are admitted,
  - (3) state generally the issues to be raised by the respondent at the hearing, but issues not raised in the written request are not barred from presentation at the hearing, and
  - (4) be addressed to the official who issued the notice.

(d) If the hearing is timely requested, such hearing shall be scheduled either at the Department or by telephone.

(e) The Commissioner shall designate the hearing officer. Each party shall be afforded the opportunity to respond and present evidence and argument on all issues involved. Either party may make application for a continuance of the hearing. The granting or denial of such a continuance is within the reasonable discretion of the hearing officer.

(f) The Commissioner or the hearing officer will determine, at his discretion, whether the hearing will be conducted in person or telephonically. Where a telephonic hearing is designated, the procedure specifically applicable to telephonic hearings will be provided to the respondent and the respondent's attorney, if designated, along with the notice letter confirming that the hearing has been scheduled.

(1) Within ten (10) days after receiving notice that the hearing is being held telephonically, the respondent must provide to the Department:

- (A) the name, mailing address, and phone number of the respondent's attorney, if the respondent is being represented by an attorney,
- (B) the name, mailing address(es), and telephone numbers of any witnesses on the respondent's behalf who the respondent desires to have present, and
- (C) the telephone number at which the respondent will be available.

(2) If the respondent, the investigating officer, or a witness desires to have additional exhibits or documentary evidence included in the hearing, the exhibits or evidence must be delivered to the Department's Legal Division at least ten (10) days prior to the hearing. The hearing officer may consider documentary evidence if it is received in time for the hearing. The materials shall be mailed to: Department of Public Safety, Troop S MCSAP Hearing Officer, 200 NE 38th Terrace, Oklahoma City, OK 73105.

(3) At or near the time scheduled for the hearing, the hearing officer will call all parties to the hearing at the telephone number(s) provided. If the telephone line for any of

## Permanent Final Adoptions

the parties is busy, or a party fails to answer, the hearing officer will call again approximately three (3) minutes later.

(A) All parties will be sworn in prior to testimony.

(B) If the rule of sequestration is invoked pursuant to 12 O.S. §2615, the appropriate witness will be disconnected from the conference call by the hearing officer and reconnected prior to testimony.

(4) When the respondent or the designated attorney fails to provide a telephone number or to answer the telephone number provided to the Department, or the line is busy after the hearing officer has attempted a second call after the three (3) minutes as provided in (3) of this subsection, the hearing officer will not call again and an order of default will be entered. It is the responsibility of the respondent to keep the line(s) open to receive the call from the hearing officer.

(5) Should a necessary witness adverse to the licensee, such as an officer, fail to provide a telephone number or to answer or the line is busy, after the procedure provided in (3) of this subsection has been followed, the case will be set aside.

(g) The hearing officer shall render a proposed order based upon the law and the evidence presented. Each party shall be notified of the proposed order either personally or by mail.

(h) The proposed order shall become the final order twenty (20) days from the date of entry.

(i) By written stipulation the respondent may waive compliance with 75 O.S. §311, in accordance with 75 O.S. §311. If not waived the respondent may make written exceptions to the proposed order requesting the opportunity to present briefs and oral argument to the Commissioner. Such a request must:

(1) be in writing, and

(2) be received within twenty (20) days of the entry of the proposed order.

(j) If the respondent fails to appear at the scheduled hearing without good cause, the hearing officer shall record the nonappearance and enter a final order reflecting the effective date of twenty five (25) days after the date of the Notice of Claim in lieu of the decision and final order as described in (h) of this Section.

(k) If the representative fails to appear without good cause, the hearing officer shall record the nonappearance and enter a final order dismissing the administrative penalty action, with prejudice. The parties shall be notified that the department action has been dismissed with prejudice. However such a dismissal affects only those violations listed in the Notice of Claim and does not affect the same or other violations occurring at another time.

(l) A party aggrieved with the final order may file an appeal with the Commissioner requesting a rehearing, reopening, or reconsideration of the case in accordance with 75 O.S. §317. Such an appeal must:

(1) be in writing,

(2) be within ten (10) days of the entry of the final order, and

(3) state the grounds for the appeal and include all arguments and information pertinent to the grounds for appeal.

(m) Where a timely written exceptions to the proposed order or request for a rehearing, reopening, or reconsideration of the case is received, the administrative penalty will be stayed until a final order has been entered. Grounds for rehearing, reopening, or reconsideration are limited to those in the Administrative Procedures Act [75 O.S. §317].

(n) The administrative penalty assessed shall be due immediately upon issuance of the final order. If, within twenty five (25) days after the issuance of a final order, the concerned party does not comply with the terms of the order by paying any administrative penalty assessed the case may be prosecuted by the Commissioner or the representative for enforcement through the Oklahoma County District Court.

(o) A respondent aggrieved with both the hearing officer's and the Commissioner's decisions may file an appeal with the Oklahoma County District Court.

(p) At any time prior to the Commissioner or the representative bringing an action in Oklahoma County District Court for enforcement of the final order, either the respondent or the Commissioner's representative, whose names appears on the Notice of Claim, may recommend a compromise of the amount of the penalty by submitting an offer for a specific amount to the other party. An offer of compromise shall be submitted to the representative who may, after consultation with the Troop S Commander, accept or reject it.

(1) A compromise offer stays the running of any response period then outstanding.

(2) Any compromise agreed to by the parties is also subject to approval by the hearing officer. If a compromise is agreed to by the parties and approved by the hearing officer, the respondent will be notified in writing. Upon receipt of payment by the Department, the respondent will be notified in writing that acceptance of the payment is in full satisfaction of the administrative penalty proposed or assessed, and the Department closes the case with prejudice to the respondent.

(3) If a compromise cannot be agreed to, the respondent will be notified, either personally or by mail, and shall be given ten (10) days or the amount of time remaining in the then outstanding response period, whichever is longer, to respond to whatever action has been taken by Troop S or any other representative authorized to enforce the provisions of the Act.

(q) The administrative penalty is not a substitute for compliance and is not intended to preclude injunctive relief or other non-duplicative remedies, particularly if the Commissioner has determined an order requiring compliance is necessary under the circumstances. Money penalties are not fees allowing the concerned party to continue to operate in violation of the Act or of any rules adopted to carry out the Act. [47 O.S. §230.9(F)]

(a) Any person assessed an administrative penalty pursuant to 47 O.S. §§ 230.6, 230.9, may:

(1) Remit payment in full of the assessed administrative penalty specified on the Notice of Claim, or

(2) Contact Troop S to inquire about the availability of a settlement, or

- (3) Admit the finding of violation and request a hearing to challenge only the amount of the administrative penalty, or
- (4) Request a hearing to challenge the finding of violation and the assessment of penalty.
- (b) If the Respondent remits payment in full of the assessed administrative penalty specified on the Notice of Claim, such payment shall constitute full satisfaction of the administrative penalty, and the Department shall close the case with prejudice to the Respondent. The payment in full shall constitute a binding waiver and forfeiture of a right to hearing. If Respondent remits payment in full after having requested a hearing, the Department shall cancel any scheduled hearing and notify Respondent that the hearing has been canceled and the case has been closed.
- (c) The Department has authority, in its sole discretion, to compromise, negotiate a settlement, or agree to a payment plan for any Notice of Claim.
- (d) Pursuant to 47 O.S. § 2-116, the giving of notice by mail is complete upon the expiration of ten (10) days after deposit of said notice in the United States mail in an envelope with first class postage prepaid, addressed to such person at the address as shown by the records of the Department. If a Respondent elects to request a hearing, the request for hearing must be addressed to the Troop S Administrative Hearing Officer, and must be received within twenty-five (25) days of the date the Notice of Claim was mailed, which shall include the ten (10) days specified by 47 O.S. § 2-116. A hearing request may be submitted online, by mail at the address reflected on the Troop S website, or via hand delivery at the address reflected on the Troop S website. See <https://www.ok.gov/ohpcmv/>.
- (e) The request for hearing must be submitted through the online form or in writing and must:

  - (1) state

    - (A) the name, address, phone number and email address of the Respondent,
    - (B) if the Respondent will be represented by an attorney, the name, address, phone number and email address of the attorney,
    - (C) the commercial vehicle examination report number, and
    - (D) the DOT Number;

    - (A) intends to challenge the finding of violation and the assessment of penalty, or
    - (B) admits the finding of violation and intends only to challenge the amount of the administrative penalty assessed.
- (f) All hearings shall be conducted by a designated hearing officer (which may include the Commissioner) in compliance with 75 O.S. §§ 310, 315. Each party shall be afforded the opportunity to respond and present evidence and argument on all issues involved. Either party may make application for a continuance of the hearing. The granting or denial of such a continuance is within the reasonable discretion of the hearing officer.
- (g) If a hearing is timely requested, such hearing shall be scheduled, in the discretion of the hearing officer, either at

- the Department for in-person hearing or for telephonic hearing. Where a telephonic hearing is designated, the procedure specifically applicable to telephonic hearings will be provided to the Respondent and the Respondent's attorney, if designated, along with a notice of hearing confirming that the hearing has been scheduled.
- (1) Within fifteen (15) days, which shall include the ten (10) days specified by 47 O.S. § 2-116, after receiving notice that the hearing is being held telephonically, the Respondent must provide to the Department:

    - (A) the name, mailing address, and phone number of the Respondent's attorney, if the Respondent is being represented by an attorney,
    - (B) the name, mailing address(es), and telephone number(s) of any witness(es) who the Respondent desires to have present, and
    - (C) the telephone number at which the Respondent will be available.
  - (2) If the Respondent, the investigating officer, or a witness wishes to present exhibits or documentary evidence during the hearing, the exhibits or evidence must be received by the Department, at least ten (10) days prior to the hearing, and must be submitted in accordance with the instructions provided by Troop S in the notice of hearing.
  - (3) At or near the time scheduled for the hearing, the hearing officer will call all parties to the hearing at the telephone number(s) provided. If the telephone line for any of the parties is busy or a party fails to answer, the hearing officer will call again approximately three (3) minutes later.

    - (A) All parties will be sworn in prior to testimony.
    - (B) If the rule of sequestration is invoked pursuant to 12 O.S. § 2615, the appropriate witness will be disconnected from the conference call by the hearing officer and reconnected prior to testimony.
  - (4) When the Respondent or the designated attorney fails to provide a telephone number or to answer the telephone number provided to the Department, or the line is busy after the hearing officer has attempted a second call after the three (3) minutes as provided in paragraph (3) of this subsection, the hearing officer will not call again and an order of default will be entered. It is the responsibility of the Respondent to keep the line(s) open to receive the call from the hearing officer.
  - (5) Should a necessary witness adverse to the Respondent, such as an officer, fail to provide a telephone number or to answer, or if the line is busy, after the procedure provided in (3) of this subsection has been followed, the case will be set aside.
  - (h) The hearing officer shall render a proposed order, in compliance with 75 O.S. § 311, based upon the law and the evidence presented. The proposed order shall include findings of fact and conclusions of law, separately stated. Findings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts supporting the findings. The proposed order shall be served on the parties either personally or by certified mail, return receipt requested.

## Permanent Final Adoptions

---

- (1) Within twenty (20) days of the date the proposed order was served on the parties, which shall include the ten (10) days specified by 47 O.S. § 2-116, any party may object to the proposed order by submitting written exceptions and briefs to the Commissioner. The objecting party may also include a request to present oral argument to the Commissioner. Any such objections shall be submitted through the address reflected on the Troop S website and addressed to the Troop S Administrative Hearing Officer. The Commissioner will render a decision on the proposed order in accordance with 75 O.S. §§ 311, 312.
- (2) If no party objects, the proposed order shall become the final agency order twenty (20) days after it was served on the parties.
- (i) If the hearing was conducted by the Commissioner, the Commissioner shall issue a final agency order, which shall include findings of fact and conclusions of law, separately stated. Findings of fact, if set forth in statutory language, shall be accompanied by a concise and explicit statement of the underlying facts supporting the findings. See 75 O.S. § 312(A). Parties shall be notified of any final agency order either personally or by certified mail, return receipt requested, or as otherwise specified in 75 O.S. § 312(B).
- (j) If the Respondent fails to appear at the scheduled hearing without good cause, the hearing officer shall record the nonappearance and enter a final order reflecting the effective date of twenty-five (25) days after the date the Notice of Claim was mailed.
- (k) If the Department representative fails to appear without good cause, the hearing officer shall record the nonappearance and enter a final order dismissing the administrative penalty action, with prejudice. The parties shall be notified the Notice of Claim has been dismissed with prejudice. Such a dismissal affects only those violations listed in the Notice of Claim and does not affect the same or other violations occurring at another time.
- (l) A party aggrieved by the final agency order may file an application requesting a rehearing, reopening, or reconsideration of the case. Grounds for rehearing, reopening, or reconsideration shall be limited to those recognized by 75 O.S. § 317.
- (1) Such an application must:
- (A) be in writing, submitted through the address reflected on the Troop S website, and addressed to the Troop S Administrative Hearing Officer.

- (C) state all grounds for the application and include all arguments and information pertinent to the grounds for application, and
- (D) comply with the provisions of 75 O.S. § 317.
- (2) The Commissioner will issue an order on the application. If the Commissioner grants rehearing, reconsideration or review, the order of the agency shall set forth the grounds which justify such action. If rehearing, reconsideration or review is granted, the matter may be heard by the Commissioner, or the Commissioner may refer the matter

to a hearing officer. The hearing shall be confined to those grounds upon which the reconsideration, reopening or rehearing was ordered.

(m) A party aggrieved by the final agency order may also seek judicial review to the extent permitted by, and according to the provisions of, 75 O.S. § 318.

(n) Where timely written exceptions to the proposed order or request for a rehearing, reopening, or reconsideration of the case are received, the administrative penalty will be stayed until a final order has been entered.

(o) The administrative penalty assessed shall be due immediately upon the agency order becoming final pursuant to subsections (h) or (i). If, within twenty-five (25) days of the date the Notice of Claim becomes due and owing, which includes the ten (10) days specified by 47 O.S. § 2-116, the concerned party does not comply with the terms of the order by paying any administrative penalty assessed, the Department may seek to recover the penalty through any mechanism authorized by 47 O.S. § 230.9(G).

(p) The administrative penalty is not a substitute for compliance and is not intended to preclude injunctive relief or other non-duplicative remedies, particularly if the Commissioner has determined an order requiring compliance is necessary under the circumstances. Monetary penalties are not fees allowing the concerned party to continue to operate in violation of the Act or of any rules adopted to carry out the Act.

### **595:35-1-10. Administrative penalty assessment guidelines**

(a) **General.** The Act does not recommend or suggest specific penalties for violation of the Act or any rules adopted to carry out the Act. Instead, the Act lists certain elements which the Commissioner or the Commissioner's representative may take into account in assessing penalties and establishes the maximum penalty for categories of violations. These guidelines serve to ensure the public and the respondent that assessment decisions will be made rationally and objectively on the merits of each case. †See generally 47 O.S. §§ 230.6 and 230.9‡.

(1) These guidelines are not meant to be used to determine when enforcement action will be taken, nor are they meant to be a rigid requirement. Instead, they are meant to assist the Commissioner or the representative in assessing each administrative penalty based on the seriousness of the underlying offense. For example, the fine for violations such as stop light violations or horn or other similar equipment failure violations would not exceed that authorized by statute if adjudged in a court of competent jurisdiction. However, repeated violations of this nature would evidence a pattern of safety violations which would fall within one of the categories set forth in (b) of this Section.

(2) If a hearing is necessary, the hearing officer may eventually assess an administrative penalty which is different than the original administrative penalty imposed in the Notice of Claim.

(3) Because of the volume of violations, the examples in this section are not all inclusive; they are only intended

to serve as a guide for the types of violation categories. ~~The Code of Federal Regulations incorporated by reference contains the complete listing of all violations covered by this Act.~~ OAC 595:35-1-4 contains a complete listing of all violations that may be enforced through an administrative penalty assessment issued pursuant to 47 O.S. §§ 230.6 and 230.9.

(b) **Categories of violations.** The Act separates the types of violations into the following four categories:

(1) **Record keeping violations.** ~~{See 47 O.S. § 230.9(B)(1)}.~~ These are violations of the administrative requirements of the Act, including failure to make, require, or keep records, or the falsification of entries in the records required by the Department of Transportation regulations pertaining to motor carrier safety as adopted and contained in Title 49 of the Code of Federal Regulations (CFR).

(A) ~~The Act provides for a penalty not to exceed one hundred dollars.~~ One Hundred Dollars (\$100.00) for each record keeping offense, provided that the total of all administrative penalties assessed against any violator for all record keeping offenses related to any single violation shall not exceed Five Hundred Dollars (\$500.00).

(B) ~~The Act further provides that each day of a violation shall constitute a separate violation/offense against any respondent, provided that the total penalties for all offenses relating to any single violation shall not exceed five hundred dollars (\$500.00).~~

(C) Some examples of record keeping violations include:

- (i) Failure to properly maintain complete driver qualification files on each driver employed. ~~{See 49 CFR § 391.51}.~~
- (ii) Record of duty status violations. ~~{See 49 CFR § 395.8}.~~
- (iii) Failure to keep maintenance and inspection records. ~~{See 49 CFR § 396.3}.~~
- (iv) Failure to prepare or retain driver's vehicle inspection reports. ~~{See 49 CFR § 396.11}.~~

(2) **Serious pattern of safety violations.** ~~{See 47 O.S. § 230.9(B)(2)}.~~ The Act provides for a fine of Two Hundred Dollars (\$200.00) for each offense not to exceed One Thousand Dollars (\$1,000.00) for each serious pattern of safety violation. The Commissioner or the representative may find a serious pattern of safety violations exists if the respondent has repeatedly violated equipment and operational requirements of the Act, and such violations are of a nature which indicates they are not the result of isolated human error but are of a tolerated pattern which the respondent could have detected and corrected if he or she wanted to meet his or her full safety responsibility to the public. Although any single violation may not by itself have a high probability of causing an accident, the violations taken as a whole may collectively demonstrate the respondent's unwillingness to exercise proper safety supervision or control which will eventually lead to accidents. Examples of some violations which may be included in a serious pattern of safety violations are:

- (A) Scheduling a run which would necessitate the vehicle being operated at speeds in excess of those prescribed. ~~{see 49 CFR § 392.6}.~~
- (B) Light violations. ~~{see 49 CFR § 393.11}.~~
- (C) Failure to cover a battery. ~~{see 49 CFR § 393.30}.~~
- (D) Failure to protect or support electrical wiring. ~~{see 49 CFR § 393.28}.~~
- (E) Making detachable wiring connections by twisting together wires. ~~{see 49 CFR § 393.32}.~~
- (F) Failure to maintain a motor vehicle windshield free of prohibited damage, or using prohibited vision reducing matter upon windshield or windows. ~~{see 49 CFR § 393.60}.~~
- (G) Failure to mark push out or escape windows. ~~{see 49 CFR § 393.63}.~~
- (H) Sleeper berth violations. ~~{see 49 CFR § 393.76}.~~
- (I) Heater violations. ~~{see 49 CFR § 393.77}.~~
- (J) Failure to maintain a motor vehicle with:
  - (i) a defroster. ~~{see 49 CFR § 393.79}.~~
  - (ii) two rear vision mirrors. ~~{see 49 CFR § 393.80}.~~
  - (iii) an operative horn. ~~{see 49 CFR § 393.81}.~~ or
  - (iv) an operable speedometer. ~~{see 49 CFR § 393.82}.~~
- (K) Failure to mark bus emergency exits. ~~{see 49 CFR § 393.92}.~~
- (L) Violations of the driver's requirements including:
  - (i) hours of service violations. ~~{see 49 CFR § 395.3}.~~ or
  - (ii) failure to maintain a log book. ~~{see 49 CFR § 395.8}.~~
- (M) Inspection violations as per 49 CFR §396.3(A)(2), §396.9.

(3) **Substantial health or safety violations.** ~~{See 47 O.S. § 230.9(B)(3)}.~~ The Act provides for a penalty not to exceed One Thousand Dollars (\$1,000.00) per violation/offense. This category includes any violation which, if allowed to continue, would result in accidents, deaths, injuries, and public property damage act or acts which evidences that a substantial health or safety violation exists or has occurred which could reasonably lead to or has resulted in serious personal injury or death. Acts which are substantial health or safety violations are of a nature so blatant that no carriers or drivers could have operated vehicles on the public highway without knowing the defects existed, and therefore chose to disregard public safety. ~~Substantial health or safety violations are listed in the Commercial Vehicle Safety Alliance North American Standard Out-of-Service Criteria such that they have been found to be of sufficient magnitude that they require taking the driver, vehicle or container out of service. Examples and include but are not limited to the following:~~

- (A) Using a driver lacking training or experience to determine if the cargo or baggage has been properly

(D) Violations and defects of lower and upper fifth wheels and certain safety devices, ~~§ 49 CFR § 393.70~~.

(J) Failure to obey any hazardous material regulation, ~~§ 49 CFR § 397.2~~, or

(K) Violations which would normally fall within the "serious pattern" category but which may be of such a severe nature that they constitute a substantial health or safety violation.

(4) **Gross negligence or reckless disregard.** ~~§ 47 O.S. § 230.9(D)~~. The Act provides that, except for record keeping violations, an employee shall not be liable for a violation of the Act unless the Commissioner determines that such actions of the employee constituted gross negligence or reckless disregard for safety, in which case such employee shall be liable for an administrative penalty not to exceed One Thousand Dollars (\$1,000.00). Gross negligence exists where the employee acts in such a way which indicates complete disregard or indifference to the safety of other people's property or welfare.

(5) **Certain misuses of vehicles or containers.** ~~§ 47 O.S. § 230.6~~. The Act provides for a civil penalty assessed to an employee of not less than Two Thousand Five Hundred Dollars (\$2,500.00) nor more than Five Thousand Dollars (\$5,000.00). The Act also provides for a civil penalty assessed to an employer of not less than Two Thousand Seven Hundred and Fifty Dollars (\$2,750.00) nor more than Twenty-Five Thousand Dollars (\$25,000.00). Some examples of certain misuses of vehicles or containers are:

(A) Operating, or requiring or permitting the operation of, a motor vehicle or container declared out of

service before all required corrections are made, ~~§ 49 CFR § 396.9 (c)(2)~~.

(B) For a driver who is declared out of service, operating, or requiring or permitting the driver to operate, a motor vehicle before prescribed off duty or sleeper berth time has been accumulated, ~~§ 49 CFR § 395.13(c)~~.

(c) **Factors.** The Act requires that the Commissioner or the representative take into account the following factors, ~~§ 47 O.S. § 230.9(E)~~:

(1) **Nature of the violation.** A consideration of the appropriate category of the violation.

(2) **Circumstances of the violation.** A broad consideration which includes both aggravating as well as mitigating factors known to the Commissioner or the representative at the time of the assessment.

(3) **Extent of the violation.** Requires the Commissioner or the representative to consider the magnitude, scope, frequency, and range of a violation. This is a major factor where there are numerous violations involving a large number of vehicles or employees of the respondent. It indicates that the respondent has a greater magnitude, frequency, and range of violations.

(4) **Gravity of the violation.** An evaluation of the seriousness of the violation. The seriousness is to be measured by the likelihood of the occurrence of the event, and the severity of the event if it occurred or were to occur. The gravity is not to be measured abstractly, but on a case-by-case basis taking into account all relevant factors.

(5) **Culpability.** The quality of the respondent's awareness of his or her actions, and the degree to which he or she was responsible for averting such violations. In determining the culpability of a respondent, ignorance is no excuse. Instead, culpability will be determined on the basis of whether the respondent knew or should have known of the violation, and to what extent the respondent had control of the violation.

(6) **History of prior offenses.** The Commissioner or representative will consider the respondent's performance record in terms of prior Notices of Claim, prior warnings, citations, and prior compliance efforts of the respondent. Both similar violations and different types of violations in the past should be taken into account, but the similar past violations should be given more weight.

(7) **Ability to pay and ability to do business.** The Commissioner or the representative may consider the respondent's inability to pay or whether the payment of such a penalty would affect the respondent's ability to do business.

(8) **Such other matters as justice and public safety may require.** These are other matters, not specifically covered by one of the other factors, which can be either aggravating or mitigating factors and ~~should~~ may be taken into account by the Commissioner or the representative in setting the penalty if, in the interests of justice and public safety, a reduction or an increase in the amount of the assessment is required in order to achieve the purposes of the Act. Other matters might be either positive or negative,

such as: cooperation or lack of cooperation; general attitude towards compliance; equities; institution or revision of a safety director or safety consultant; comprehensiveness of corrective action, such as whether the action is focused narrowly to the specific violation or broadly to the general area of concern; compliance or noncompliance by the date set in the notice of claim; speed of compliance; and other matters. These matters, both negative and positive, are to be considered together, and they may cancel out one another.

**595:35-1-11. Intrastate compliance reviews**

The payment deadline shall be stayed if the Respondent timely requests a hearing as provided in OAC 595:35-1-9.

(a) The purpose of the Oklahoma Tuition Aid Grant Program is to provide need-based grant assistance to eligible Oklahoma resident students and to serve the state's most needy students in a fair and equitable fashion using funds made available pursuant to the Oklahoma Higher Education Tuition Aid Act and ~~in conjunction with the Leveraging Educational Assistance Partnership Program administered by the U.S. Department of Education.~~

(b) The Oklahoma Tuition Aid Grant Program was established to assist Oklahoma college students with demonstrated financial need to meet the cost of attendance at postsecondary institutions in Oklahoma through reimbursement of a portion of their costs of attendance. ~~Congress amended the Higher Education Act of 1965 to provide incentive grants to states for the implementation or expansion of state grant programs. Accordingly, the purpose of the Leveraging Educational Assistance Partnership Program (LEAP) is to provide matching funds to encourage operation of state grant programs to improve student access and choice in higher education. States pay all administrative costs and match federal allotment dollars from non federal resources. Funds not used by one state may be reallocated to others in proportion to their higher education enrollments.~~

**610:25-7-2. Legislative authority [REVOKED]**

(a) ~~Federal. Leveraging Educational Assistance Partnership Program is authorized under Title IV, Part A, Subpart 3 of the Higher Education Act of 1965, as added by P.L. 92 318, and amended by P.L. 94 482, P.L. 95 43, P.L. 95 566, P.L. 95 96, P.L. 96 374, P.L. 97 35, and P.L. 105 244.~~

### **610:25-7-6. Eligibility; amount of grant; application procedures and deadlines; disbursement of funds**

(a) ~~A college tuition aid grant shall~~may be awarded annually to each eligible, qualified full-time or part-time undergraduate or graduate student enrolled in a curriculum leading to a degree or certificate in an institution of collegiate grade or postsecondary institution providing a program of training to prepare students for employment in a recognized occupation in Oklahoma approved or accredited by the Oklahoma State Regents for Higher Education or appropriate postsecondary agency in accordance with the following [70 O.S. § 626.7]:

#### (1) Eligibility.

(A) Each full-time or part-time resident student's financial eligibility will be based on their Expected Family Contribution (EFC) calculated for federal Title IV student financial aid eligibility. A resident student is one who meets the current Policy on Residence Status of Enrolled Students in the Oklahoma State System of Higher Education. ~~Full time and part time status will be defined in accordance with the current definition for full time or half time enrollment status for federal Title IV student financial aid eligibility.~~

(B) ~~The Oklahoma State Regents for Higher Education shall determine by rules and regulations the maximum number of semesters a student may be eligible for grants.~~ [70 O.S. § 626.7] An otherwise eligible undergraduate student can continue to receive awards as long as they are eligible for funding from the federal Pell grant program. Graduate students can receive a maximum of eight full-time disbursements.

(C) ~~No student shall be eligible for grants unless he maintains such minimum standards of academic performance as are required by the institution in which the student is enrolled.~~ [70 O.S. § 626.7] The minimum standards of academic performance shall be those required by the institution for federal Title IV financial aid recipients.

(D) Students who are incarcerated are not eligible to receive tuition aid grants. Incarceration will be defined in accordance with the current definition for federal Pell grant eligibility.

(E) Students must be enrolled in a postsecondary institution eligible to participate in the federal Title IV student financial aid programs.

At the time of the notification, summer award amounts will be announced.~~

(B) ~~The percentage of aid awarded shall be based on a need analysis system that is consistent with federal student financial aid regulations.~~ [70 O.S. § 626.7] ~~The percentage of aid awarded shall be based on the student's Expected Family Contribution (EFC) calculated for federal Title IV student financial aid eligibility. The Oklahoma State Regents for Higher Education will issue an annual award payment schedule identifying the maximum eligible EFC and identifying the percentage of aid to be awarded according to EFC ranges.~~

(C) ~~The Oklahoma State Regents for Higher Education shall determine by rules the annual maximum award based on an annual assessment of funds availability. The State Regents shall not increase the annual maximum award amount unless funding is sufficient to serve at least the same number of students as the previous academic year.~~ [70 O.S. § 626.7]

(D) The minimum amount of grant to be awarded is \$200 per academic year or \$100 per semester or other enrollment period.

(E) The award must be included in the student's financial aid package managed by the institution. If the inclusion of the tuition aid grant award results in the student receiving more financial assistance than is needed to meet their cost of education as determined by the institution, the institution will resolve the over-award in accordance with federal Title IV student financial aid regulations. The institution may

reduce or revoke the award if necessary to resolve the over-award.

(3) *Application procedures and deadlines. The Oklahoma State Regents for Higher Education may adopt rules and regulations, prescribe and provide appropriate forms for application and employ such persons, contract for such services and make such additional expenditures as may be necessary or appropriate for effectuating the provisions of this act. For non-standard enrollment, disbursements will be made consistent with federal Pell Grant regulations.~~

**GIST/ANALYSIS:**

These revisions are necessary to incorporate statutory changes made by Senate Bill 132 passed during the 2021 legislative session which extended the application period for the program to the 11th grade effective beginning in Fall 2021. Students may now apply at any time during the 8th -11th grade. For homeschool students the bill extended the application period to age 16, allowing homeschool student to apply between the ages of 13 and 16;

Current statutes require students in the program to complete high school curriculum requirements that are based on college admission requirements for state system colleges and universities. The revisions incorporate recent changes to the admission curricular requirements; and

Legislation passed in 2017 deleted references to "cooperative agreements." The revisions remove this obsolete text from the rules.

### 610:25-23-2. Eligibility of participants

Eligibility to participate in the program must be established by both the student and his/her parent(s), custodial parent(s), or guardian(s). Students enrolled in the eighth, ninth ~~or tenth grade~~, tenth, or eleventh grade at a public or private school and whose parents' income meets the financial need criteria are eligible to apply to become a program participant. Students educated by other means who are between the ages of thirteen (13) and ~~fifteen (15)~~ sixteen (16) are eligible to apply to become a program participant. Eligibility requirements to participate in the program include the following:

- (1) The student must be a resident of the state of Oklahoma or be enrolled in a school district located in this state that serves students who reside in both this state and an adjacent state pursuant to a contract as authorized in Section 5-117.1 of Title 70 of the Oklahoma Statutes; and
- (2) The student's parent(s), custodial parent(s), or guardian(s) must establish financial need.

(A) To meet the program's financial need criteria, the income of the student's parent(s) from taxable and nontaxable sources shall not exceed \$50,000 per year at the time the student applies for participation in the program. Beginning in 2017-2018, the federal adjusted gross income of the student's parent(s) shall not exceed \$55,000 per year at the time the student applies for participation in the program. Beginning in 2021-2022, the federal adjusted gross income of the student's parent(s) shall not exceed \$60,000 per year at the time the student applies for participation in the program. (B) Parents of students making application to the program must use one of the following options to establish financial need eligibility:

(i) Documentation of their most recent calendar (tax) year income. Parents of ~~tenth grade~~ eleventh grade applicants may use the calendar (tax) year income that coincides with the spring semester of the ~~tenth grade~~ eleventh grade if the application is submitted by the required deadline; or

(ii) Documentation of current yearly income from an officially approved application for free or reduced-price school meals or other state or federal means-tested programs as determined by the State Regents. The State Regents may limit use of this option to pilot projects as determined by the State Regents. If requested by the State Regents, parents may be required to provide additional documentation of income.

(iii) The Oklahoma State Regents for Higher Education shall review the determination of financial need eligibility of the student as set forth in section (2)(A) above if the income from taxable and nontaxable sources of the student's parent(s) includes income received from nontaxable military benefits or income received from the federal Social Security Administration due to the death or disability of the student's parent(s). If the income of the student's parent(s), excluding income received from nontaxable military benefits or income received from the federal Social Security Administration due to the death or disability of the student's parent(s), does not exceed the limitations set forth in section (2)(A) above, the student shall be determined to have met the financial need eligibility [70 O.S. § 2605(D)(6)]

(h) Students must attain a minimum 2.50 cumulative GPA on a 4.00 grading scale for all work attempted in grades nine through twelve.

(i) Homeschool students and students graduating from a high school not accredited by the State Board of Education must achieve a composite score of 22 or higher on the ACT test or the equivalent SAT test score. Only ACT scores reported by ACT for tests administered prior to the student's high school graduation will be considered. (e) Payment will not be allowed for courses taken in excess of those required for a baccalaureate degree;

(f) Beginning with students graduating high school in 2017-2018 and thereafter, payment will be limited to 129 semester credit hours, or the equivalent, except as provided in the following. (i) Students who have previously received awards shall have priority over students applying for initial awards;

(j) The Oklahoma State Regents for Higher Education shall take into consideration other grants and scholarships received by an eligible applicant when making awards [70 O.S. § 2604]. Award recipients may not receive financial aid in excess of his/her cost of attendance as determined by the institution in which the student is enrolled. The cost of attendance determined by the institution shall be consistent with regulations for federal Title IV student financial aid programs. If necessary, an award shall be reduced by an amount which makes the student's total financial aid equivalent to the student's identified cost of attendance.

(k) Beginning with the 2018-2019 academic year, an award shall not include payment for non-credit remedial courses.

(l) If a student withdraws from a class in which he or she has received an award from the Oklahoma Higher Learning Access Program, the awarded funds shall be returned to the Oklahoma Higher Learning Access Program. (b) DVR and DSBVI requires the client to participate in the cost of some vocational rehabilitation services if the client and/or client's family income exceeds the established basic living requirement for the applicable family size. Any client whose available family income exceeds the applicable basic living requirements is required to apply the monthly surplus to the cost of services during each 30 day period services are provided.

(c) A basic living requirement has been established for different size family groups. A family member is an individual who is a relative or guardian of an applicant or eligible individual. Basis living requirements are based on 200% of the Federal poverty level adjusted annually for family size. The standard is intended to cover only the necessities of food, shelter, utilities, clothing, transportation, and incidentals to give the counselor some criteria by which to measure the financial need of a client. To qualify as independent from the family group, the client must meet on of the following criteria:

    - (B) Examples of acceptable verification include the latest Federal income tax return, payroll information, insurance policies, client report, and/or counselor observation.
- (d) The client can be provided services not based on financial needs, the following services do not require a determination of financial need status:
- (1) services provided to assess eligibility and priority for services (services which would require the individual's participation in cost under an IPE will also require the individual's participation in cost during an evaluation of the individual's ability to benefit from VR services);
  - (2) counseling and guidance including information and support services to assist an individual in exercising informed choice;
  - (3) referral and other services to secure needed services from other agencies, including other components of the statewide workforce development system;

- If a payment is required of the client, it will be made to the vendor.
- (f) The counselor will re-evaluate the client's financial situation at least annually and any time there is a change in the financial situation of the client or family. The amount of client participation in cost is based upon the most recent determination of client's financial needs at the time the IPE or amendment. If applicable, the extent of the individual's participation in paying for the cost of services is identified on the IPE service (e.g. Family monthly income surplus will be exhausted prior to agency financial contribution).
  - (g) The client's financial needs must be verified when an IPE includes service which require client participation in costs of services.
  - (h) Determination of income and liabilities will be verified and documented by the counselor in the record of service when services in the IPE and amendments require client participation in cost. If the individual refuses to provide the requested information, DRS resources will not be used to purchase services which require client participation in cost of the services.
    - (1) Income.
      - (A) Income generated from salaried wages will be calculated by gross earnings minus federal taxes, state taxes and social security deductions.

- (i) Case recording requirements. A statement regarding the re-evaluation of financial needs must be included in the record of service. The financial review may be included in the IPE review if they occur at the same time.

## SUBCHAPTER 7. VOCATIONAL REHABILITATION AND SERVICES FOR THE BLIND AND VISUALLY IMPAIRED

### PART 3. CASE PROCESSING REQUIREMENTS

#### 612:10-7-22.1. Processing referrals and applications

(a) **Referrals.** DRS must establish and implement standards for the prompt and equitable handling of referrals of individuals for vocational rehabilitation services, including referrals of individuals made through the one-stop service delivery systems under section 121 of the Workforce Innovation and Opportunity Act. The standards must include timelines for making good faith efforts to inform these individuals of application requirements and to gather information necessary to initiate an assessment for determining eligibility and priority for services.

(1) Processing incoming referrals. All referrals to DVR and DSBVI will be contacted by the VR counselor and appropriate action taken within 30 days, after receipt of the referral information. The counselor is responsible for completing a contact by telephone or in person. The counselor is responsible for providing interpreter services to referrals who are deaf or non-English speaking. In situations where the individual cannot be personally contacted, correspondence will be mailed to the individual for informational purposes.

(2) Referrals to rehabilitation teachers. All individuals who are legally blind, whether being served by a DVR counselor or a DSBVI counselor, will be referred to a rehabilitation teacher. Rehabilitation teachers may also receive counselor referrals and provide services for individuals who are not legally blind but have functional limitations due to vision loss and have potential to benefit from rehabilitation teaching services.

(b) **Application.** Once an individual has submitted an application for vocational rehabilitation services, including applications made through common intake procedures in one-stop centers under section 121 of the Workforce Innovation and Opportunity Act (WIOA), an eligibility determination must be made within 60 days, unless exceptional and unforeseen circumstances beyond the control of the designated State unit preclude making an eligibility determination within 60 days and counselor and the individual agree to a specific extension of time; or meets the other criteria under 34 CFR 361.41

(b) (1) (i-ii).

(1) In those instances of exceptional and unforeseen circumstance beyond the control of DRS, where the eligibility determination is unable to be completed within the time frame identified in (b) of this section. The QVRC, utilizing the electronic case management system, will complete the Extension of Eligibility form documenting the date the eligibility form was completed, the date of expected eligibility determination; along with documentation of the date of when the client and counselor agreed to the extension; unless a decision was made to conduct a Trial Work Experience.

(c) **Social Security Administration (SSA) Beneficiaries' Verification.** During the initial interview, the VR counselor shall advise applicants for the VR program that individuals who are SSI/SSDI beneficiaries are generally presumed eligible for VR and that verification of the applicant's benefit status is needed. Verification may include a copy of an award letter from SSA, or a Ticket-to-Work as found in 34 CFR 361.42 (a) (3) (i-ii).

(d) **Application Status.** While the client is in this status, the counselor will secure sufficient information to make a determination of eligibility and priority group assignment, determine ineligibility for vocational rehabilitation services, or to make a decision to conduct a Trial Work Experience or an Extended Evaluation. The VR Professional Qualified Vocational Rehabilitation Counselor will determine whether an individual is eligible for vocational rehabilitation services within a reasonable period of time, not to exceed 60 days from the date of application.

(e) **Necessary information.** The minimum information necessary to initiate an assessment to determine eligibility and priority for services consists of:

(f) **General Health Checklist.** The general health checklist (GHC) is a survey tool used to determine what diagnostic information will be needed to assess an applicant's eligibility or ineligibility. A general health checklist will be completed for each applicant. The counselor/teacher in consultation with the client will decide if purchasing a medical examination is necessary when the GHC indicates the presence of any condition. This decision will be based upon availability of existing medical records, and the reported degree of limitation to employment caused by the condition.

(g) **Informed Choice.** VR and DSBVI staff must assure that applicants or, as appropriate, their representatives are provided information and support services to assist applicants and recipients of services in exercising informed choice throughout the rehabilitation process in accordance with 34 CFR 361.52.

(1) Informed choice and the provision of vocational rehabilitation services require that communications with persons with disabilities are effective.

(2) DVR staff informs each applicant and recipient of services through appropriate modes of communication about the availability of and opportunities to exercise informed choice. Individuals with cognitive or other disabilities who require assistance in exercising informed choice will be notified that support services are available.

(h) **Case recording requirements.** Pertinent information from the initial interview and applicant information forms is recorded in a narrative that is placed in the record of service.

(1) Documentation of the process of providing informed choice information and use of appropriate modes of communication is included in the record of service.

  - (2) **Allergies/Asthma.** Allergies/asthmatic conditions that require continuous or intermittent medical intervention and result in a substantial impediment to employment will be considered eligible for services.
  - (3) **Deafness and Hearing Loss.** The rehabilitation professional will base eligibility determination upon one of the measurement methods listed below, as performed by a ~~qualified audiologist or other qualified professional~~ licensed audiologist as determined by the Department. The case record must document the method chosen provides the most accurate evaluation of functional hearing level for the individual. The licensed audiologist will do a Comprehensive Hearing Evaluation (CHE) with written recommendations for treatment. not acceptable and should not be considered by the rehabilitation professional in addressing the rehabilitation needs.

(A) **Eligibility criteria.** Eligibility criteria for each method of measurement are listed in (i) through (iv) of this Subsection. (v) **Only a licensed audiologist can determine the speech discrimination or word recognition and articulation index score.** The Vocational Rehabilitation Counselor will utilize these scores in determining eligibility and identification of the functional barriers to employment.

(I) A Consultation by the Rehabilitation Counselor for the Deaf (RCD) that the applicant has hearing loss that constitutes a physical or mental impairment and the physical or mental impairment constitutes or results in a substantial impediment to employment; and

(II) A Consultation by a Rehabilitation Counselor for the Deaf (RCD) that the applicant requires vocational rehabilitation services to prepare for, secure, retain, advance in, or regain employment that is consistent with the individuals unique strengths, resources, priorities, concerns, abilities, capabilities, interest and informed choice.

(B) **Severity of Hearing Loss.** All individuals who qualify as having a severe hearing loss or, who

are culturally Deaf and/or use Manual Communication, will be referred to a Rehabilitation Counselor for the Deaf and Hard of Hearing (~~RCD~~) (RCD for a consultation on severity of loss and functional limitations) The RCD then will determine whether the case needs to be assigned to an RCD. Relevant information provided will include copies of the initial interview narrative recording, medical information, eligibility data entry form, Individualized Plan for Employment, pertinent copies of case narratives and DRS application form. ~~On receipt of a referral, the RCD will contact the client and make a determination of potential for Deaf and Hard of Hearing services. The referring counselor will be informed in writing of the RCD's findings.~~

(i) **Severe Hearing Loss.** Average hearing loss, as calculated above, is considered severe when:

(I) The hearing loss in one ear is profound (91 dB or greater) and the hearing loss in the better ear is at least 31 dB; or

(II) The SRT in each ear is 55 dB or greater.

(iii) **Severe Speech Discrimination or word recognition score.** An individual is considered to have a severe disability when the speech discrimination or word recognition score is 59% or less.

(4) **Diabetes.** The individual must require prescribed medication to control the condition. Those persons whose diabetes is controlled by diet and exercise alone or whose condition does not result in a substantial impediment to employment will not be considered eligible. Eligible clients will be required to undergo a visual exam by a licensed ophthalmologist at least once a year. Diabetes management training will be incorporated into the IPE unless the client shows that he/she has previously completed diabetes management training. When recommended by a physician, diabetes management training will be incorporated into the IPE regardless of past diabetes education received by the individual.

(5) **Facial and Disfigurement Conditions.** When these conditions result in an impediment to employment an individual may be eligible for VR services.

(6) **Learning Disabilities.** Learning disabilities is a general term that refers to a group of disorders manifested by significant difficulties in the attainment and use of listening, speaking, reading, writing, reasoning, or mathematical abilities. Learning disabilities are identified when there are difficulties learning and using academic skills, as indicated by at least one of the following occurring even with interventions: Inaccurate or slow reading, difficulty understanding the meaning of what is read, difficulties

with spelling, difficulties with written expression, difficulties mastering numbers sense, facts or calculation, and difficulties with mathematical reasoning. Also, academic skills are significantly below those expected for the student's chronological age and causes issues with academic and occupational performance. Academic areas include, impairment in reading, impairment in written expression, and impairment in mathematics.

(7) **Mental Disorders.** Individuals may be eligible for vocational rehabilitation services based on a mental health diagnosis made by a qualified professional (612:10-7-98 (17)(A)(1-5)). Documentation must be filed from a qualified professional indicating the client is participating in a treatment plan and in compliance with all medication as prescribed. Treatment must be incorporated as a service in the IPE for individuals with a mental disorder.

(8) **Intellectual Disability.** To be eligible, individuals having an I.Q. of 69 or below and substantially limited adaptive functioning, as measured by an individual intelligence test, will be considered to have a substantial disability. Individuals eligible under IDEA with an I.Q. level higher than 69 may be considered to have a substantial impairment provided the documentation used by the school in determining eligibility under IDEA, in the counselor's judgment, confirms the individual is functioning in the intellectual disability range of ability. Individuals not enrolled in public school special education classes with an I.Q. higher than 69 may be considered to have a substantial impairment provided appropriate documentation confirms the individual is functioning in the intellectual disability range of ability.

(9) **Height.** To be eligible, a person's stature must constitute or result in a substantial impediment to employment.

(10) **Obesity.** To be eligible, a person must be considered obese according to a recognized medical classification protocol and the impairment must constitute or result in a substantial impediment to employment. Some type of weight loss plan or treatment for obesity must be included as a service in the IPE.

(11) **Visual.** Any of the following conditions may provide a basis for eligibility due to visual disability:

(A) **Blindness.** A central visual acuity of 20/200 or less in the better eye with best correction, or a limitation in the field of vision in the better eye so that the widest diameter of the visual field subtends an angle of 20 degrees or less. "Best correction" refers to the use of standard eyeglasses or contact lenses, and does not include use of bioptic telescopic systems or any specialized lenses which cannot be worn by the individual on a sustained basis.

(B) **Visual impairment.** A central visual acuity of 20/60 or less in the better eye with best correction, or other visual condition which, for the individual, results in functional limitations and constitutes a barrier to employment. Other visual conditions which may result in functional limitations include, but are not limited to, limited peripheral vision, extreme light

sensitivity, loss of depth perception, loss of stereopsis, diplopia (double vision), aphakia, total absence of color discrimination or red-green deficiency, blurred vision, eye muscle and movement conditions, and cortical visual impairment.

(C) **Progressive eye disease.** Diagnosis of a progressive sight threatening disease or condition that has resulted in functional limitations for the individual or is expected to progress rapidly. Progressive eye diseases which may result in significant vision loss include, but are not limited to, retinitis pigmentosa, diabetic retinopathy, glaucoma and macular degeneration.

(12) **Re-evaluation.** Individuals with chronic disabilities that can be removed with little or no residual limitations will not be eligible for purchase of services other than those related to the required treatment.

**612:10-7-24.2. Assessment for determining eligibility**

(a) To determine whether an individual is eligible for vocational rehabilitation services:

(1) the counselor will use to the maximum extent possible and appropriate existing data including counselor observations, education records, information provided by the individual or the individual's family, and determinations made by officials of other agencies; and

(2) to the extent necessary provide appropriate assessments, including provision of goods and services during the assessment, to obtain additional documentation necessary to make the determination of eligibility and priority group assignment. The counselor will carefully evaluate the need to provide assistive technology devices and services or worksite assessments.

(b) The ~~counselor~~ Qualified Vocational Rehabilitation Counselor (QVRC) will determine whether an individual is eligible for vocational rehabilitation services within a reasonable period of time, not to exceed 60 days after the individual has submitted an application for services. This time period may be extended only when unforeseen and exceptional circumstances beyond the control of the Department preclude completing the determination of eligibility within the 60 days and the individual agrees a specific extension of time is warranted as documented on the Need for Extension of Time to Determine Eligibility form; or a trial work period ~~or an extended evaluation~~ is needed to determine the individual's ability to benefit from VR services.

(c) Documentation that the individual has a disability which constitutes or results in an impediment to employment must come from qualified professionals.

(d) Eligibility determinations will be expedited for applicants who have been determined eligible for vocational rehabilitation services by an American Indian Vocational Rehabilitation Services (AIVRS) Program. Counselors will work cooperatively with the applicable American Indian VR Program to obtain pertinent diagnostic and other documentation, and utilize such documentation, as appropriate, in making eligibility decisions that are prompt or, whenever feasible, immediate.

## Permanent Final Adoptions

---

(e) A qualified rehabilitation professional may proceed with a determination of eligibility if there is an obvious and/or observable disability that results in an impediment to employment. The VR specialist will document observations pertaining to the applicant's disability. After making the determination of eligibility the VR specialist may authorize any assessments and services necessary to further document eligibility, establish priority group placement and determine rehabilitation needs for development of the Individualized Plan for Employment.

(f) Diagnosis and evaluation are to be provided only for determination of eligibility for VR services, priority group placement, and determination of VR service needs. DVR and DSBVI funds are not to be used to assist an individual in establishing eligibility for other programs.

(g) When necessary, diagnostic evaluations may be purchased at any time during the life of the case.

(h) If an individual is determined eligible, the VR counselor will notify the individual in writing. If the individual is determined to be ineligible, the counselor will notify the applicant and provide information on further options in accordance with DRS policy on ineligibility decisions.

(i) Eligibility for supported employment. The counselor may not find an individual ineligible for supported employment services because a resource for providing extended services cannot be identified. In this instance, the counselor will:

- (1) accept the individual as eligible for VR services;
- (2) plan VR services as appropriate, including the expected availability of extended services; and
- (3) seek out and/or help in developing the needed extended services resource.

(iii) information on the availability of assistance in completing DVR/DSBVI forms required in developing the IPE;

(iv) For cases involving Diabetes, Mental Disorders, and Obesity, treatment must be incorporated as a service in the IPE, in accordance with DRS policy rules.

(D) a copy of a DRS publication addressing client's rights and responsibilities.

(2) For cases in an open priority group, the IPE must be completed and signed as soon as possible, consistent with the needs of the individual, but not more than 90 calendar days following the eligibility determination, unless the individual or the authorized representative and the VR or SBVI counselor jointly agree to an extension of time of a specific duration. The 90-day time frame for development of the IPE will be applied from the date a closed priority group is reopened.

(b) **Vocational objective.** The primary purpose in providing vocational rehabilitation services is to assist an eligible individual obtain appropriate competitive employment in an integrated setting consistent with the individual's informed choice. The choice of a vocational objective for an individual receiving vocational rehabilitation services must be based primarily upon the individual's strengths, resources, priorities, concerns, abilities, interests and capabilities, consistent with the general goal of competitive integrated employment.

(1) **Informed choice.** The vocational objective is to be chosen with the full participation of the client. The client's interests and informed choice determine his or her vocational goal to the extent these factors are consistent with the client's strengths, resources, priorities, concerns, abilities, interests and capabilities.

(2) **External conditions.** Factors such as the local labor market or local economy must also be taken into consideration. However, in most cases these factors cannot be used as the only basis upon which to determine whether a vocational objective is appropriate.

(c) **General requirements for the Individualized Plan for Employment.**

(1) The IPE documents the client's chosen employment goal, and the planning of vocational rehabilitation services which are necessary to achieve a successful employment outcome. The client will be a full participant in the development of the IPE or any amendments consistent with Federal and State regulations, laws, and statutes. The eligible individual must be given the opportunity to exercise informed choice in selecting an employment outcome, the specific VR services to be provided under the plan, the service providers, and the methods for service delivery. For cases in an open priority group, the IPE must be agreed to and signed by the eligible individual or authorized representative, approved by a VR counselor and, as appropriate, other administrators employed by DVR or DSBVI within 90 days of determination of eligibility, unless the individual or the authorized representative of the individual and the VR or SBVI counselor jointly agree to an extension of time of a specific duration. To the maximum extent

### PART 5. CASE STATUS AND CLASSIFICATION SYSTEM

#### 612:10-7-51. Individualized Plan for Employment

(a) **Options for developing the Individualized Plan for Employment (IPE).** The VR counselor will provide the eligible individual, or the individual's authorized representative, in writing and in appropriate mode of communication, with information on the individual's options for developing the IPE.

(1) The required information will include the following:

(A) information on the availability of assistance, to the extent determined to be appropriate by the eligible individual, or authorized representative, from a qualified VR counselor in developing all or part of the IPE, and the availability of technical assistance for this purpose;

(B) a description of the required content of the IPE;

(C) as appropriate:

(i) an explanation of agency requirements for client participation in cost of services;

(ii) additional information requested by the individual or authorized representative;

possible, the IPE is to be provided in the native language or mode of communication of the individual or, as appropriate, of a parent, family member, guardian, advocate, or authorized representative. It is also required the client receive a copy of the plan and any subsequent amendments.

(2) The IPE is subject to continuous development and change. Substantial changes to the IPE are documented as amendments. A substantial change is broadly defined as any change in the employment objective, or in service needs or available resources not accounted for in the original IPE or existing amendment(s). The amount of any client participation in the cost of a service will be based upon the determination of client's financial status completed at the time the relevant IPE or amendment is written, and is to be stated in the IPE or amendment. If services based upon financial status are included in the original IPE and/or in the amendment, a new Financial Status Determination form will be completed when the IPE is amended. A copy of any Amendment to an Individualized Plan for Employment will be given to the client, or client's authorized representative, as appropriate.

(3) Diagnosis related to eligibility or the IPE can be provided at any time it is necessary during the life of the case.

(4) An IPE is not considered in effect until all required approvals have been obtained in accordance with Department policy.

(5) Plan reviews are comprehensive reviews of the entire IPE. A plan review can be done at any time, but must be done at least annually. The client must be given the opportunity to review the plan and, if necessary, participate in its redevelopment and agree to its terms. A financial status determination will be completed at the time of plan review when the IPE includes services based upon client's financial status.

(d) **Content of the Individualized Plan for Employment.** The Individualized Plan for Employment must include:

(1) a description of the specific employment outcome that is chosen by the client consistent with the individual's unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice consistent with the general goal of competitive integrated employment (except that in the case of a student or a youth with a disability, the description may be a description of the individual's projected post-school employment outcome), and the estimated timeframe for the achievement of the employment outcome;

(2) a description of the specific VR services that are:  
(A) needed to achieve the employment outcome including as appropriate, the provision of assistive technology services and devices, and personal assistance services, including training in the management of such services;  
(B) provided in the most integrated setting that is appropriate for the service involved and is consistent with the informed choice of the client; and  
(C) timelines for the achievement of the employment outcome and for the initiation of services.

(3) a description of the service provider chosen by the client or authorized representative, and the methods of services delivery;

(4) a description of the criteria that will be used to evaluate progress toward achieving the employment outcome;

(5) the terms and conditions of the IPE including as appropriate:

- (A) the responsibilities of DVR or DSBVI;
- (B) the responsibilities of the client, including:
  - (i) the client's responsibilities for the employment outcome;
  - (ii) the client's participation in paying the cost of VR services; and
  - (iii) the client's responsibility to apply for, accept, and use comparable services and benefits to defray in whole or in part the cost of VR services.

(6) for an IPE that includes supported employment services, information identifying:

- (A) the extended services needed by the client; and
- (B) the source of the extended services, including natural supports, or an explanation concluding there is a reasonable expectation a source will become available; and
- (C) the weekly work goal.

(7) if it appears they will be necessary, a statement of needed post-employment services.

**612:10-7-57. Services interrupted, Service-I**

(a) Circumstances may arise that prevent a client from participating in the established IPE. These circumstances may therefore require a temporary interruption of services. A case is placed in Service-I when the client is unable to participate in the IPE because of circumstances beyond their control or the participant has not fulfilled requirements identified by the VR agency. Service-I may be used when planned services will be interrupted and there is an assumption that services may resume within a reasonable period of time. Cases should not remain in interrupted status for more than 9 months.

(b) The Rehabilitation Counselor will perform the following actions to a case placed in Service-I status:

- (1) Contact client at least every 30 days to determine status of interruption.
- (2) Review circumstances periodically with Supervisor to determine whether the record of services should remain open or be closed, as appropriate to the individual case.
- (3) Change status when appropriate.

**612:10-7-58. Closed Rehabilitated**

(a) **Use of Closed Rehabilitated status.** A case is closed as rehabilitated because the client has achieved an employment outcome as a result of vocational rehabilitation services. Cases closed as rehabilitated must as a minimum meet the requirements in (1) through (5) of this Subsection:

(1) the provision of services under the individual's IPE has contributed to the achievement of the employment outcome;

## Permanent Final Adoptions

---

- (2) the employment outcome is consistent with the individual's strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice;
  - (3) the employment outcome is in an integrated setting, consistent with the individual's informed choice;
  - (4) the individual has maintained the employment outcome for a period of at least 90 days; and
  - (5) at the end of the appropriate period under Paragraph (4) of this Section, the individual and the VR Counselor consider the employment outcome to be satisfactory and agree that the individual is performing well on the job.
- (b) **Out of state.** Clients who move out of state after services have been completed are closed in rehabilitated status if the requirements in Subsection (a) of this Section can be met. If those requirements cannot be met the case will be closed, not rehabilitated.
- (c) **Successful closure prior to completion of IPE.** If employment is secured before completion of the IPE, a counselor must document the conditions of substantial services and suitable employment were met. If planned services are interrupted prior to achieving the originally planned vocational goal, and services provided have directly contributed to the employment outcome for the individual or to job retention, an IPE amendment is not needed to revise the vocational goal prior to closure. A plan amendment is required when there is a substantial deviation from the original employment goal.
- (d) **Cases closed from supported employment.** An individual with the most significant disabilities who is receiving supported employment services is considered to be successfully rehabilitated if the individual maintains a supported employment placement for a minimum of 90 days beyond stabilization. In addition to the criteria for "suitably employed", the counselor must document that the individual has met or has made substantial progress toward meeting the weekly work goal defined in the IPE, the client is satisfied with the job, the employer is satisfied with the client's job performance, extended services are in place, all supported employment requirements have been met, and the case is ready for closure. The closure documentation will address any significant differences in the ultimate work week achieved as compared with the predicted goal.
- (e) **Cases closed from employment and retention.** An individual with severe disabilities who is receiving employment and retention services is considered to be successfully rehabilitated when the client maintains employment for a minimum of 90 days after placement, or for a minimum of 4 weeks plus 90 days if the individual required the "4 Weeks Job Support" Milestone.
- (f) **Case recording requirements.** The client, or the client's authorized representative as appropriate, will be a full participant in the decision to close the case. The last discussion of the closure decision with the client, or the client's authorized representative, will be held ~~within 30~~at the end of the required 90 days of the closure, and will be documented in a case narrative. The client will be notified in writing of the closure and advised of the availability of Post-Employment Services.
- (g) **Documentation at Successful Closure.** Prior to closure, a copy of the current pay stub identifying the individual's

competitive hourly wage and hours to determine weekly earnings. If the current pay stub is not available, then the following is acceptable:

- (1) An individual's written report of employment information and required wage information documented on an authorized DRS form (DRS-C-065) with their dated signature; or
- (2) A detailed case note identifying the individual's employment information including the current competitive hourly wage and work hours in a typical week that is based on the counselor's conversation with the actual employer. Prior to calling an employer, the individual shall be informed that information provided and gathered is limited to what is necessary to document and verify employment. This provides the individual the opportunity to discuss preferences and options for obtaining required documentation. A signed Release of Information should be in the case file.
- (3) If verification as stated above is not forthcoming and all efforts to obtain acceptable verification are documented, then the following is acceptable: a detailed case note identifying the individual's employment information including the current competitive hourly wage and work hours in a typical week, the date the final employment verification was received with justification for the individual not providing formal documentation.
- (4) Individuals who are self-employed are required to provide wage documentation of competitive integrated self-employment.

### 612:10-7-62. Post-Employment services

- (a) **Use of Post-Employment services.** Post-employment services may be provided to assist rehabilitated clients to retain, regain, or advance in employment, consistent with the individual's strengths, resources, priorities, concerns, abilities, capabilities, interests and informed choice.
- (1) The need for post-employment services will be assessed at initiation of the IPE. Ongoing assessment continues during case services, is documented as needed, and is reassessed just prior to case closure.
  - (2) Post-employment services may also be provided for needs that were not anticipated in the original IPE or prior to case closure. Post-employment services can be provided to individuals who receive Supported Employment Services if such services are needed to maintain the supported employment placement and those services are not available from an extended services provider.
  - (3) Post-employment services are not to be used in instances of underemployment when extensive retraining is needed.
  - (4) Cases reopened on a post-employment basis do not require re-establishment of eligibility. New diagnosis is needed only if there has been a change in the client's physical or mental condition. Any vocational rehabilitation service or combination of services necessary to assist the individual retain, regain, or advance in employment may be provided if the service(s) does not involve a complex

or comprehensive effort. If comprehensive services are indicated, a new application is taken.

(5) Federal regulations forbid the setting of arbitrary time limits on the provision of post-employment services. If the client has been employed for a long period of time, the counselor must carefully review the client's situation before making the decision to provide post-employment services as opposed to opening a new case.

(b) **Other considerations.** Other considerations in determining a client's eligibility for post-employment services are:

(1) **Financial Needs.** A new financial need determination must be made if services requiring consideration of client participation in the cost of services are to be provided.

(2) **Emergency conditions.** Treatment of an emergency condition will not be considered as a post-employment service.

(3) **Upgrading.** Post-employment services are provided to help the individual advance in employment only when the nature of the individual's impediment to employment makes advancement the most appropriate post-employment outcome consistent with the individual's unique strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice.

(c) **Transfer of cases.** Clients needing post-employment services who have moved to another area of the state will have their cases transferred. When a rehabilitant who has moved out of state requests post-employment services, the counselor will refer the individual to the rehabilitation program in the state where the individual resides. Upon receipt of a release signed by the client, copies of the requested information from the closed record of service will be forwarded to the receiving state agency. If an individual who was a rehabilitant in another state requests post-employment services from our state, information must be requested from the state where services were previously provided. All requests must include a specific release of confidential information signed by the applicant. The case will be processed as a new referral, but will be served and documented as a post-employment case.

(d) **Criteria for terminating post-employment services.** Decisions to terminate post-employment services must be made on an individual basis in consultation with the client.

(e) **Case recording requirements.** The same principles of client involvement are required in the IPE for Post-Employment Services as are required under any other IPE. Case recording will be made at significant times during the process, including assessment of progress, the decision to conclude services and the results achieved at the completion or termination of services.

~~(f) **Use of Post-Employment services completed.** The case can be closed as soon as the services in the Post-Employment Services amendment have been completed insofar as possible and the client has been consulted regarding the closure decision.~~

~~(g) **Case recording requirements.** Closure from post-employment status is documented in the case record and in a closure letter given to the client.~~

## PART 11. PHYSICAL AND MENTAL RESTORATION SERVICES

### 612:10-7-98. General guidelines for physical and mental restoration services

(a) To the extent that assistance is not readily available from a source other than DVR or DSBVI, diagnosis and treatment of physical and mental impairments may be provided to assist the individual with a disability in preparing for, securing, retaining or regaining employment. Physical or mental restoration services are provided only when the condition is stable, or slowly progressive. A slowly progressive condition is one in which the client's functional capacity is not expected to diminish so rapidly as to prevent successful completion of vocational rehabilitation services, and/or employment for a reasonable period of time. The individual is liable for services he or she arranged which were not planned and initiated under the auspices of DVR and DSBVI. DVR and DSBVI will not pay for hospitalization or treatment occurring prior to initiation of an Individualized Plan for Employment (IPE). DVR and DSBVI will not pay for emergency hospitalization or treatment needed at the time of referral. However, diagnostic examinations or information may be paid from DVR and DSBVI funds for use in eligibility determination, priority group placement, or determination of vocational rehabilitation needs. Physical and/or mental restoration services will be purchased only from licensed or board certified health professionals unless otherwise specified in DRS policy. Payment will be made in accordance with the established fee schedule of the Department.

(b) Temporary conditions with sudden onset do not fall within the definition of impairment for eligibility purposes. Emergency treatment of remediable conditions will not be purchased by DVR and DSBVI except under intercurrent illness policy. When the staff is in doubt as to the effect of such a condition upon the outcome of the IPE objectives, a medical consultation may be requested.

(c) DVR and DSBVI do not provide long-term or ongoing physical or psychological treatment. DVR and DSBVI funds cannot be used to initiate treatment that is reasonably anticipated to last more than three months unless supervisory approval has been obtained for a three month extension. Additional three month extensions may be approved if the client maintains reasonable progress toward achieving the vocational goal. Persons needing long-term or ongoing treatment are to be referred to other medical assistance sources if available.

(d) Payment from DVR and DSBVI funds may be planned and authorized only after applicable third party pay sources provide verification of the expense they will cover, and not cover, associated with the physical or mental restoration services in question. When DVR and DSBVI funds are used to supplement a third party pay source, planned services and the authorization will be limited to those expenses that fall within the scope of the program and that do not exceed the difference between what the third party pay source will pay and the Department's established payment schedule.

(e) Individuals with chronic disabilities that can be removed with little or no residual limitations will not be eligible for

## Permanent Final Adoptions

---

purchase of services other than those related to the required treatment.

(f) Physical and mental restoration services may include but are not limited to:

- (1) Braces and orthotic devices.
- (2) Chiropractic services. A chiropractor providing treatment must be duly licensed to practice his profession in Oklahoma, have a current provider/vendor agreement with DRS, and following evaluation of the client's needs, must provide a treatment plan with goals, time frames and the estimated number of treatments required to meet the goals. Treatment may not be extended beyond three months unless progress toward treatment goals can be determined.
- (3) Dental services. Dental services may be provided to treat or correct dental conditions that constitute an impediment to employment or participation in the rehabilitation process, produce health problems or aggravate an existing disability. Dental services with a projected cost over \$5,000.00 require review by the DRS dental consultant and supervisory approval.
- (4) Dialysis and treatment for end-stage-renal-disease. DVR and DSBVI may assist with the cost of Medicare deductible, co-insurance, and services not covered by Medicare if documentation states other resources are not available and the client is actively participating in an IPE with treatment as part of the plan. Requests for kidney transplants must be approved by the medical consultant.
- (5) Prescription drugs and prescribed medical supplies. Prescription drugs and/or prescribed medical supplies may be purchased when required for proper diagnosis, for post-operative treatment, or to stabilize a documented disability. The need for the drugs and/or medical supplies must be documented in a physician's report. Payment will be made for generic type drugs unless the physician specifically requests a brand name drug.
- (6) Hearing aids and audiological services.
- (7) Hospitalization when recommended by a physician and the client is to receive medical treatment or surgery. Hospitalization may also be authorized for diagnostic services upon recommendation of a physician.
- (8) Treatment for intercurrent illness. Intercurrent illness is an illness or injury which occurs during the course of an individual's vocational rehabilitation and, if not treated, will complicate or significantly delay achievement of the client's employment outcome. DVR and DSBVI will purchase treatment for intercurrent illness or injuries if the client is not covered by health insurance or eligible for comparable services and benefits, or when the provision of services through comparable services and benefits would significantly interrupt or delay treatment for an individual at extreme medical risk, jeopardize a job placement or impair the individual's progress in achieving the planned employment outcome.
- (9) Laboratory work and x-rays if required by the physician to complete his examination or in conjunction with diagnosis or treatment.

- (10) Low vision services.
- (11) Medical examinations, when necessary to determine eligibility, achieve a goal in the IPE or when related to an intercurrent illness.
- (12) Nursing services can be provided for a client who is convalescing from physical restoration services if recommended by the doctor of treatment. Either Registered Nurses or Licensed Practical Nurses may be used to provide this service when a current medical vendor agreement is on file with the Department. Volunteers may be used if less technical care is needed and if approved by the client's physician.
- (13) Physical and occupational therapy may be provided on either an in-hospital or outpatient basis if recommended by the attending physician.
- (14) Post-operative care of cataract patients.
- (15) Prosthetic eyes, glasses and other optical aids.
  - (A) Glasses and other visual aids and services may be prescribed or provided by either an ophthalmologist or an optometrist. Other optical aids recommended by optical aid clinics are purchased upon the recommendation of the specialist(s) in one or more such clinics. Prosthetic eyes are provided, upon the recommendation of an ophthalmologist.
  - (B) Lenses and frames for glasses purchased by DRS will be authorized at fee schedule prices. The vendor may add a service charge not to exceed the established fee. An additional code and fee may be added for tinting if it has been prescribed by the physician or optometrist that performed the eye examination with written medical/vocational justification.
  - (C) The fee that has been established for frames will only cover the cost of plain sturdy frames. Clients do not have the option of selecting more expensive frames and paying the difference between the vendor's price and the amount authorized. If the vendor accepts payment from the client or a representative of the client and also files a claim with the Department for the same services, a violation of the Provider Agreement has occurred and the vendor would be subject to sanctions.
  - (D) If a client selects special frames and has sufficient resources to purchase them, the frames should not be included on the authorization and the client would be responsible for the entire cost of the frames.
- (16) Prosthetic limbs.
  - (A) Prosthetic limbs may be provided if the prosthesis is recommended by a physician. The client who has successfully worn a prosthesis will not be required to see an orthopedist or physiatrist, or attend an amputee clinic unless some other disorder is apparent.
  - (B) An individual who has never worn a prosthesis must be seen by a physician before the prosthesis is provided. The client must agree to training in its use. Gait training is considered Personal Adjustment Training and does not require client participation in cost. However, physical therapists providing the

training are recognized as medical vendors and require authorizations completed on a Medical Service Authorization.

(C) Persons with multiple amputations must have the special examination and training.

(D) The counselor may authorize for a prescribed standard prosthesis without further review. The choice of prosthesis must be closely related to its intended use in a work setting, or in relation to reasonable independent living goals. Non-standard prostheses (i.e., myoelectric) will not be purchased with DRS funds unless medically justified and/or required for a specific employment, or independent living, outcome. When a prosthesis other than a standard prosthesis is prescribed the counselor will request a consultation from the appropriate medical consultant. Justification for the non-standard prosthesis must be documented in the case record.

(17) Psychiatric and psychological treatment.

(A) Psychotherapy may be provided for emotional conditions which may be expected to respond within a reasonable period of time. Psychotherapy can be provided only by the sources in (1) - (5) of this Subsection.

(i) Psychiatrists certified by the American Board of Psychiatry and Neurology or completed the required training and are "Board Qualified", or who have spent a major portion of their time in a particular specialty for at least two years and are recognized as specialists in the local community (same criteria as applied to other medical specialists).

(ii) Licensed Doctors of Medicine or Doctors of Osteopathy who have received specific training for and are experienced in performing mental health therapeutic, diagnostic, or counseling functions.

(iii) Psychologists with a doctorate in clinical or counseling psychology who hold a valid license to practice psychology.

(iv) Psychologists with a doctorate in clinical or counseling psychology who are employed by governmental agencies exempt from the licensing law.

(v) Other licensed clinicians or those employed by governmental agencies who have received administrative approval to provide this treatment service.

(B) Upon receipt of a written report from the therapist, the supervisor may approve additional three-month periods of therapy. Clients needing long-term or ongoing psychiatric or psychological treatment will be referred to the appropriate community mental health center.

(C) Personal Adjustment Counseling may be provided for those persons with emotional conditions who may benefit from counseling to bring about a more adequate social adjustment, alleviate superficial anxiety, and to create more effective interpersonal

relationships. Personal Adjustment Counseling may be provided by: those individuals listed in (17) (A) of this Subsection.

(18) Speech therapy/training as recommended in a speech evaluation. Speech therapy, although provided by recognized speech-language pathologists (SLP) therapists, is considered Personal Adjustment training and is not based on financial status. The providers of speech therapy are classified as medical vendors.

(19) Surgery and medical treatment.

(A) Surgery and complex or unusual medical treatment may be provided when recommended by a specialist. Medical consultant approval will be obtained prior to planning and authorizing a diagnostic procedure which could lead to immediate surgical treatment. The medical consultant will give conditional approval for the possible surgery if deemed necessary. Normal post-operative care is an integral part of the surgery; therefore, no post-operative charges are to be paid above the approved surgical fee.

(B) Specified outpatient surgical services are approved for payment when provided in qualified outpatient surgical facilities. Qualified facilities include Medicare certified free standing ambulatory surgical centers, Medicare certified hospitals offering outpatient surgical services, and hospitals which have an agreement with DRS.

(C) The counselor will advise the client he/she may be liable for any balance due when payment by private insurance exceeds the Department allowable rate.

(20) Weight loss treatment. A weight loss plan or treatment are included as a service in the IPE for individuals who are eligible on the basis of obesity. A licensed dietician or a physician skilled in weight reduction must monitor any treatment program authorized by the agency. Surgery for weight loss is not provided unless medically recommended as treatment for morbid obesity, a second confirming medical opinion is obtained, the surgery is approved by the DRS medical consultant and supervisory approval is obtained. Before approving DRS provision of surgery for treatment of morbid obesity, the supervisor shall consider the individual's past experience with standard weight loss protocols, and medical and behavioral factors that may impact the individual's ability to obtain long-term benefit from the surgery.

(21) Wheelchairs and other durable medical equipment when prescribed by a physician or recommended by an occupational therapist, physical therapist, assistive technology specialist or person with equivalent qualifications. Power mobility devices may be purchased for individuals when necessary to assist the client in achieving IPE goals.

(A) The client, and/or client's authorized representative, will participate in choosing from which vendor the wheelchair or durable medical equipment will be purchased. Wheelchairs and other durable medical equipment will be authorized at the agency approved fee.

## Permanent Final Adoptions

---

(B) The client, or client's family or authorized representative as appropriate, is responsible for maintaining wheelchairs or other durable medical equipment in good working order. DVR and DSBVI will pay for repairs to wheelchairs or other durable medical equipment during the life of the case unless there is clear evidence the equipment has been damaged due to client abuse or neglect. An agency-purchased wheelchair will be returned to the agency if the client becomes unable to use it.

(C) Wheelchair rental may be authorized for a period not to exceed six months when necessary to assist the client with mobility. An exception can be made if it is documented that rental is more cost effective than purchase.

### PART 13. SUPPORTIVE SERVICES

#### 612:10-7-130. Maintenance

(a) **General guidelines.** Maintenance means monetary support provided to an individual for expenses, such as food, shelter, and clothing, that are in excess of the normal expenses of the individual and that are necessitated by the individual's participation in an assessment for determining eligibility and vocational rehabilitation needs or the individual's receipt of vocational rehabilitation services under an individualized plan for employment.

(1) Maintenance is a supportive service provided to assist with the out-of-ordinary or extra expenses to the individual resulting from and needed to support the individual's participation in diagnostic, evaluative, or other substantial services in the IPE. The provision of maintenance as a supportive service is not synonymous with general assistance payments. It is not intended to pay for those living costs that exist irrespective of the individual's status as a DVR and DSBVI client.

(2) Maintenance, including payments, may not exceed the cost of documented expenses to the individual resulting from service provision. Authorizations for maintenance will not be issued to pay the cost, or part of the cost, for any other service or expense.

(b) **Provision of maintenance.** To receive maintenance, an individual must be either an eligible DVR or DSBVI client or an applicant for vocational rehabilitation services undergoing diagnostic evaluation and testing. For an accepted client, maintenance must be a supportive service and will be provided in combination, with another VR service listed in the Individualized Plan for Employment. The costs of the maintenance may not exceed the amount of increased expenses that the IPE causes for the individual or his/her family. Maintenance cannot substitute for or supplement income assistance payments.

(1) **Maintenance for diagnostic and evaluation services.** Maintenance payments for individuals receiving diagnostic or evaluation services may be authorized for overnight care, short-term lodging and/or meals.

(2) **Maintenance for physical restoration services.** Maintenance for physical restoration services is paid to

the client until he/she is able to work. The client must be in his/her own home and the covered period of convalescence is to be 60 days or less. For convalescent periods in excess of 60 days, the counselor will refer the client to other sources for assistance (public assistance, SSI). In no instance will medical maintenance be paid while the client is hospitalized.

(3) **Maintenance for training.** Maintenance can be authorized for full time vocational school students or college students. Maintenance can be authorized for a client granted an exception to the full-time attendance requirement under 612:10-7-150(a). DRS will not pay for assistance with room and board expenses if there is a state funded vocational school, college or university within 40 miles of the client's official residence. In addition, DRS will only sponsor room and board expenses related to on-campus housing options with the lowest cost. DRS will only sponsor hotel costs associated with pre-vocational or personal and work adjustment training if the total cost of the hotel stay and per diem is less than the total cost of transportation to and from the hotel. Exceptions to this administrative rule may be granted due to issues such as disability requirements. All exceptions must be approved by the Programs Manager and thorough justification must be documented in the case. If DRS is to assist with summer room and board costs or rental assistance for summer semester at any level, there will be a requirement to participate in a minimum of 6 hours.

(4) **Maintenance for job search services.** Maintenance for job search services requires an IPE with major services directed toward the goal of employment.

(5) **Maintenance for job relocation.** Maintenance may be paid to a client for assistance in relocating to a new job site. Maintenance services for this purpose must be identified on the IPE.

(c) **Clothing expenses.** Clothing and/or uniforms can be purchased when needed to begin training or enter employment. Everyday clothing needs of the client are considered as part of the basic living requirements. Any clothing purchased for the client must be:

- (1) required by the training facility;
- (2) necessary to participate in job search or begin employment; or
- (3) necessary to begin a training program that requires clothing standards beyond the client's means.

(d) **Day care expenses.** Day care expenses will be paid for from DVR and DSBVI funds only when necessary to participate in the IPE, and it is fully documented that no other resources are available for this service, including family members and friends.

(e) **Case Recording.**

(1) Maintenance payments will be provided and carefully tied to the achievement of specific VR outcomes which must be stated and documented in the case record and the IPE to justify such payments.

(2) Documentation as appropriate that justifies room and board expenses off campus related to on-campus housing options with the lowest cost.

(3) Documentation that other resources are not available to assist in day care expense, including family and friends.

**PART 15. TRAINING**

**612:10-7-142. General guidelines for training services**

(a) **Types of training.** Training provided by DVR and DSBVI may include:

(1) Vocational. Vocational and other training services, including personal and vocational adjustment training, advanced training in, but not limited to, a field of science, technology, engineering, mathematics (including computer science), medicine, law, or business); books, tools, and other training materials, except that no training or training services in an institution of higher education (universities, colleges, community or junior colleges, vocational schools, technical institutes, or hospital schools of nursing or any other postsecondary education institution) may be paid for with funds under this part unless maximum efforts have been made by the State unit and the individual to secure grant assistance in whole or in part from other sources to pay for that training. Vocational training provides the knowledge and skills necessary for performing the tasks involved in an occupation. Such knowledge and skills may be acquired through training from an institution, on-the-job, by tutors or through a combination of these methods. Vocational training may be provided for any occupation.

(A) For the first 60 credit hours or during the completion of an Associate's degree, DRS will only sponsor up to the cost of tuition and fees charged by the local state funded community college or state university within 40 miles of the client's official place of residence. If the client chooses to attend a different training site, DRS will only sponsor an amount equivalent to the amount that would be sponsored if attending the local college/university. Additional transportation or maintenance costs related to attending another training site will not be sponsored by DRS.

(B) For the completion of a Bachelor's degree, DRS will only sponsor up to the cost of tuition and fees charged by the state funded college or university closest to the client's official place of residence that offers a program to reach the vocational objective. Additional transportation or maintenance costs related to attending another training site will not be sponsored by DRS.

(C) Exceptions to the policies for college/university training must be approved by the Programs Manager through justification and must be documented in the record of service. Possible exceptions include but are not limited to:

(i) The need to attend a school outside of the 40 mile limit is due to disability related factors such as the need for accessible on campus housing.

(ii) The degree major approved by the DRS Counselor for the client is not available at the local college or university.

~~(D) Training is provided in those colleges and universities which are accredited by the appropriate accrediting agency, whose credits will be given full recognition by other accredited colleges and universities, and which are under contract. Private and denominational colleges and universities may be used for the training of DRS clients, provided they are accredited and under contract.~~

~~(i) The Department will sponsor only the number of semester hours or remaining hours required for a specific degree. Exceptions may be approved by the counselor.~~

~~(ii) Previously completed credit hours which are applicable to the degree requirements will be incorporated in the development of the IPE. When a client changes majors, DVR and DSBVI funding will be limited to the number of credit hours needed for the new major minus the number of DVR and DSBVI funded credit hours lost due to the change in majors, unless the change in majors results from circumstances beyond the client's control.~~

(2) Prevocational. Prevocational training includes any form of academic or basic training provided for the preparatory skills needed for entrance into a vocational training program or employment. Prevocational training is initiated to enhance occupational knowledge or skills or to remove an educational deficiency interfering with employment.

(3) Personal or work adjustment. Personal or work adjustment training includes any training given for one or a combination of the reasons given in (A) - (D) of this paragraph.

(A) To assist the individual in developing personal habits, attitudes, and skills enabling the individual to function effectively in spite of disability.

(B) To develop or increase work tolerance prior to engaging in prevocational or vocational training or in employment.

(C) To develop work habits and to orient the individual to the world of work.

(D) To provide skills or techniques enabling the individual to compensate for a disability such as the loss of a body part or the loss of a sensory function.

(b) Continued eligibility for college or university training. Training may be provided for clients who:

(1) DVR or DSBVI clients in college or university training will be expected to attend classes regularly and make continuous progress toward graduation; and are mentally, physically and/or emotionally capable of pursuing a course of training to completion;

(2) Maintain an overall 2.0 grade point average (GPA), based on a four point (4.0) scale; and require training to achieve an employment outcome or other goals established in the Individual Plan for Employment (IPE); and

## Permanent Final Adoptions

---

- (3) Carry the minimum number of semester hours determined to be full time at the school attended. Exceptions may be granted by the counselor, based on severity of disability, scheduling problems, or other valid reasons determined to have a reasonable opportunity for obtaining employment in the chosen vocation.
- (4) Full-time requirement for DRS graduate sponsorship would equal the required minimum of hours per semester. (I.e. 9 hours during the regular semester and 4 hours in the summer).
- (c) **Continued eligibility.** A client in training at a vocational school will be based on the client's performance in respect to grades, progress and attendance. The minimum standards used by the training facility for satisfactory progress in respect to grades and attendance will be utilized by DVR and DSBVI staff in determining the progress of the client. Clients attending vocational technical schools who withdraw or fail course work will be required to pay for a like number of credit or clock hours during the following enrollment period. Decisions related to training are based on the individual needs and informed choices of the client as identified in the IPE.
- (d) **Withdrawals and failures.** Clients who withdraw or fail college or university courses paid by DVR and DSBVI will be required to pay for a like number of hours during the following enrollment period subject to the guidelines in (b) section. When a client fails to meet the requirements for continued sponsorship the guidelines in (A-C) of this Subsection are to be followed: A client failing to meet the grade point requirement may continue to receive services not based on financial need. DVR and DSBVI will only pay tuition and fees for courses which count toward requirements consistent with the vocational goal of the IPE. Training of DVR and DSBVI clients is provided by colleges, universities, private business and trade schools, state supported vocational schools, employers in the form of on-the-job training, sheltered workshops, and other approved training facilities with valid contracts.
- (1) Payment of training services based on client's financial need will not be provided if the client's grades fall below 1.8 overall GPA.
- (2) Training services may be paid for a client having an overall GPA between 1.8 and 1.9 for the first semester that grades fall below 2.0 overall GPA. Subsequent enrollments can only be paid if the student's overall GPA shows progress.
- (3) A client failing to meet grade point requirements may be approved by the counselor if there are extenuating circumstances beyond the client's control.
- (e) **Public institutions of higher learning.** Tuition and fees for DVR and DSBVI clients attending public colleges and universities will be paid at the rate set for resident students by the Oklahoma Regents for Higher Education and within limits prescribed by the Legislature. DVR and DSBVI will pay those fees charged to all students and special fees associated with required courses in the student's major field of study. Federal regulations require a search for comparable services and benefits with the results documented before payment can be

made for training in the following institutions: colleges, universities, community/junior colleges, public or private vocational/technical schools, or hospital schools of nursing. PELL grants and other available Federal/State student aid (excluding merit awards) must be applied to tuition, fees and all other educational expenses as a first dollar source prior to consideration of the expenditure of DRS funds.

(f) **Private institutions of higher learning.** Tuition and fees for students in attendance at accredited private or denominational schools will be paid at the same rate as that paid at state supported colleges or universities of equal rank. Advanced standing test for college students: DRS can pay the fee for advanced standing tests. Proof of a passing grade is required prior to payment. Training costs will not be authorized beyond the first DVR and DSBVI sponsored enrollment until proof of the availability of comparable benefits is received by the counselor.

(g) **Public or private vocational schools.** Schools that have a valid purchasing agreement with DRS, those training costs may be purchased, after use of available comparable benefits such as PELL grants and other federal/state student aid (excluding merit awards). Once training has begun, the client is expected to progress toward the vocational objective at a steady rate. This requires the client to attend training on a regular basis, and maintain a full-time load unless an exception is granted by the counselor due to severity of disability, scheduling problems or other valid reasons. Training progress reports or other methods of reporting (i.e., grade reports, transcripts) are utilized to document training progress. Sporadic attendance and reduced training loads causing a delay in the completion of training must be reviewed by the counselor. The client is responsible for advising the counselor of problems encountered during the training program.

(h) **Out-of-state training.** Out-of-state training may be approved when one or more of the following applies, and the case record documents the basis for this determination: All types of institutional, technical, personal adjustment or employment training are purchased by an authorization issued by the counselor.

- (1) The course of training is not available within the state;
- (2) The out of state training program is no more expensive than in-state training; or
- (3) There are specific considerations based on severity of the disability which preclude the use of in-state facilities.

(A) Tuition for a student who attends an out-of-state college or university will be paid at the same rate paid at Oklahoma colleges or universities of equal rank. Payment for textbooks and training tools and supplies can be provided for clients in out-of-state training, in accordance with DRS administrative rules.

(B) Prior to client's enrollment at a facility located in another state, an approved Justification for Out-of-State Training form must be submitted to the DRS State Office.

(C) The DRS Contracts Unit must complete renewal of contracts no less than two months prior to present contract expiration date to ensure continuation of services. When a contract lapses because renewal was not completed within time frames, the Department cannot pay the institution's claim.

(i) **Training for individuals in custody of the Department of Corrections.** DVR and DSBVI funds are not used to defray the cost of training for individuals in the custody of the Department of Corrections. This does not apply to individuals who meet the criteria set forth within a joint memorandum of understanding between DRS and the Department of Corrections.

(j) **Distance Education.** Distance education may include but is not limited to internet training, correspondence training and talkback TV.

(1) Distance education may be provided if the client needs training which may be obtained most practically by distance education.

(2) Tuition for college and/or vocational distance education cannot exceed the State rate for comparable training.

(3) Distance educational programs will only be approved if institution has recognized accreditation.

(k) **Tutorial training.** Tutorial training may be provided for clients with significant disabilities who cannot receive training by another method or who may need assistance to complete a formal training course satisfactorily. Persons chosen to provide tutorial training for clients must have the necessary skills to provide assistance to the client and be willing to provide the training at a time and place suitable to the client. Examples of proof of necessary skills are the following:

- (1) Letter of recommendation from college or university
- (2) Teaching certificate
- (3) Transcripts
- (4) Other documentation of knowledge, skills or ability to instruct in the designated subject.

(l) **Personal or vocational adjustment.** Personal or vocational adjustment training includes any training given for one or a combination of the reasons given in (1) – (3) of this paragraph.

(1) Training includes but is not limited to conditioning activities for developing work tolerance, work therapy, occupational therapy, speech training and speech correction, auditory training, gait training, diabetes management courses, driver's training, and mobility training. It may also include development of personal habits, attitudes, and work habits necessary to orient the individual to the world of work.

(2) To develop or increase work tolerance prior to engaging in prevocational or vocational training or in employment.

(A) Vocational training provides the knowledge and skills necessary for performing the tasks involved in an occupation. Such knowledge and skills may be acquired through training from an institution, on the job, by tutors or through a combination of

these methods. Vocational training may be provided for any occupation.

(B) Prevocational training includes any form of academic or basic training provided for the preparatory skills needed for entrance into a vocational training program or employment. Prevocational training is initiated to enhance occupational knowledge or skills or to remove an educational deficiency interfering with employment.

(3) To provide skills or techniques enabling the individual to compensate for a disability such as the loss of a body part or the loss of a sensory function. High school students eligible for this service must be at least 16 years of age and may not participate for more than 18 months unless client and counselor determine additional time is needed.

(m) **Federal/State student aid.** Federal regulations mandate a search for comparable services and benefits with the results documented before payment can be made for training in the following institutions: colleges, universities, community/junior colleges, public or private vocational/technical schools, or hospital schools of nursing. PELL grants and other available Federal/State student aid (excluding merit awards) must be applied to tuition, fees and all other educational expenses as a first dollar source prior to consideration of the expenditure of DRS funds, regardless of whether the student is attending a vocational, trade, public or private institution of higher education.

(n) **Payment of training costs.** DVR and DSBVI will only pay tuition and fees for courses which count toward requirements consistent with the vocational goal of the IPE. Training of DVR and DSBVI clients is provided by colleges, universities, private business and trade schools, state supported vocational schools, employers in the form of on the job training, and other approved training facilities with valid contracts.

(1) Training costs will not be authorized until proof of the availability of comparable benefits is received by the counselor.

(2) After the completion of the first semester, a grade report, proof of enrollment, and an itemized invoice are required documentation to support the authorization for tuition and fees. It is the responsibility of the client to provide this support documentation. The client may provide this documentation electronically or as a printed document in the standard format used by the school.

(3) Each client is responsible for providing the counselor a copy of the college or university's current semester costs before the designated "Drop and Add" date.

(o) **Case Recording Requirements.**

(1) The record of service will contain testing and/or supportive data to substantiate the reasonable expectation for successful completion of a training program.

(2) Clients approved for college or university training will exhibit the ability to do college work. The counselor will have evidence in the record of service indicating the client's ability to do college work before a program is developed calling for training at the college or university level.

## Permanent Final Adoptions

(3) Training progress reports or other methods of reporting (i.e., grade reports, transcripts) are utilized to document training progress.

(4) Documentation will state why the particular out-of-state provider is being used in terms of specific clients, and address the issues of, selection of vocational objective, projected starting and completion dates, breakdown of costs, and extent of comparable services and benefits.

(5) Case notes are necessary when an authorization is completed to include a description of services being provided (i.e. tuition and fees) and the date of service on all direct authorizations. Include number of hours enrolled, what semester, date of service.

### **612:10-7-150. Continued eligibility for college or university training**

(a) **Requirements for continued eligibility.** DVR or DSBVI clients in college or university training will be expected to attend classes regularly and make continuous progress toward graduation.

(b) **To continue assistance with college or university training,** the client must maintain a cumulative 2.0 grade-point average (GPA), based on a four point (4.0) scale.

(c) **The client must maintain at a minimum the cumulative GPA required by the Institution for the client's major field of study.** If the client is unable to consistently maintain the minimum cumulative GPA for their chosen field of study, the Counselor will reassess the justification for continued training and whether a change in vocational goal is necessary.

(d) **The client must carry the minimum number of semester hours determined to be full time at the school attended.** Exceptions may be granted by the counselor, based on severity of disability, scheduling problems, or other valid reasons.

(e) **When a client fails to meet the requirements for continued sponsorship the guidelines in (1) - (5) of this Subsection are to be followed:**

(1) Payment of training services based on client's financial status will not be provided if the client's grades fall below 1.5 cumulative GPA.

(2) Training services may be paid for a client having a cumulative GPA between 1.5 and 1.9 for the first semester that grades fall below 2.0 cumulative GPA. Subsequent enrollments can only be paid if the student's cumulative GPA shows progress.

(3) A client failing to meet the grade point requirement may continue to receive services not based on financial status.

(4) A client failing to meet grade point requirements may be approved by the counselor if there are extenuating circumstances beyond the client's control.

(5) A client failing to meet grade point requirements will be contacted as soon as appropriate to complete a program review to determine if a change in services, vocational goal, or objectives is needed. A client failing to meet chosen goals will not have his/her case closed until the counselor has provided counseling and guidance and determined that a change in the IPE is inappropriate. The

counselor should investigate the need for further vocational and/or educational evaluation to explore alternative employment goals.

(f) **Withdrawals and failures.** Clients who withdraw or fail courses paid by DVR and DSBVI will be required to pay for a like number of hours during the following enrollment period subject to the guidelines in (a) of this Section.

(g) **Changes in training program.** Client will be required to sponsor a like amount when there is a change in the planned training, and coursework previously sponsored by DRS cannot be applied to the new training program. This will not be applied when the change is required due to the disability.

### **612:10-7-164. Personal and work adjustment training**

(a) Personal and/or work adjustment training is provided by facilities and schools having valid contracts with the Department.

(b) Personal or work adjustment training is the provision of skills or techniques for the purpose of enabling the individual to compensate for a disability such as the loss of a member of the body or the loss of sensory function.

(1) ~~Personal or work~~ Work adjustment training includes but is not limited to:

(A) conditioning activities for developing work tolerance,

(B) work therapy,

(C) occupational therapy,

(D) lip reading,

(E) ~~speech training and speech correction~~ therapy,

(F) auditory training,

(G) gait training,

(H) ~~diabetes management courses~~ education training,

(I) driver's training, and

(J) mobility training.

(2) ~~Personal adjustment training~~ may also include:

(A) development of personal habits,

(B) attitudes, and

(C) work habits necessary to orient the individual to the world of work.

(3) This service does not require client participation in cost of services. High school students eligible for this service must be at least 16 years of age and may not participate for more than 18 months unless client and counselor determine additional time is needed.

### **612:10-7-171. Credential attainment and measurable skill gains for post-secondary training programs**

(a) **Recognized Postsecondary Credentials:** A Recognized Postsecondary Credential is defined as a credential consisting of an industry-recognized certificate or certification, a certificate of completion of an apprenticeship, a license recognized by the State involved or Federal Government, or an associate or baccalaureate degree, as well as graduate degrees for purposes of the VR program as required by section 103(a)(5) of the Rehabilitation Act of 1973, as amended by Title IV of WIOA.

A recognized postsecondary credential is awarded in recognition of an individual's attainment of measurable technical or industry/occupational skills necessary to obtain employment or advance within an industry/occupation. These technical or industry/occupational skills generally are based on standards developed or endorsed by employers or industry associations.

(b) Credential Attainment: Under the WIOA, workforce agencies are required to report the percentage of those participants enrolled in an education or training program (excluding those in OJT and customized training) who attained a recognized postsecondary credential during participation in or within one year after closure of the case. This is based on the sub-regulatory guidance related to the implementation and operation of the performance accountability system under section 116 of WIOA and the implementing regulations in 34 CFR parts 361 subpart E.

(c) In addition, agencies are expected to report documented progress (academic, technical, occupational, or other) that a participant makes in a training or education program toward obtaining a recognized postsecondary credential. This progress is reported throughout the life of the case and are referred to as Measurable Skill Gains (MSG).

(d) Reporting credential attainment and Measurable Skill Gains: The goal to achieve a credential through a recognized education or training program must be included on the IPE in order to properly report Credential Attainments and MSGs. No Credentials or MSG's are reported on cases that have not reached Service status or higher. It is expected that Participants assist with obtaining the required documentation and staff are to use DRS electronic case management system to record credential attainments and MSGs, as soon as documented proof has been obtained. Credential attainment can be reported up to one year after case closure. Measurable Skill Gains are only reported prior to case closure.

**PART 19. SPECIAL SERVICES FOR INDIVIDUALS WHO ARE BLIND, DEAF, OR HAVE OTHER SIGNIFICANT DISABILITIES**

**612:10-7-196. Interpreter services**

~~(a)~~ **Interpreter services.** Interpreter services are sign language or oral interpretation services for individuals who are deaf or hard of hearing and tactile interpretation services for individuals who are deaf-blind. Specially trained individuals perform sign language or oral interpretation. Interpreter services also include real-time captioning services for persons who are deaf or hard of hearing as found in 34 CFR 361.5 (c) (10) and 361.48 (b) (10).

- (1) Does not include spoken language interpretation.
- (2) Interpreter services do not require client participation in cost of services.
- (3) The interpreter will submit a claim at the end of each specified time period.

~~(b) Deaf-Blindness Specialist.~~ To promote and coordinate appropriate services for persons with dual losses of vision and hearing, the Division of Services for the Blind and Visually Impaired employs a Deaf-Blindness Specialist. This specialist

works with counselors, rehabilitation teachers and others who provide services directly to clients who are deaf blind. A major role served by this specialist is coordinating services and ensuring dialogue among schools, programs, agencies and organizations serving the deaf and blind.

~~(1) Due to the overwhelming impact upon the individual with a combination disability of deafness and blindness, a multiple disciplinary approach is needed to adequately serve these individuals. Unique problems in mobility and communication can cause severe social, recreational, academic deprivation and long term prevocational training may be necessary.~~

~~(2) Persons who are deaf blind are capable of competitive employment and the counselor will carefully evaluate expected employment outcomes.~~

~~(e) Case Recording.~~ In training situations, the counselor must document that interpreter services are not available through the training facility or other sources before interpreter services are provided.

**612:10-7-205. Services to persons who are deaf-blind**

(a) **Overview of services.** Because of the overwhelming impact upon the individual with a combination disability of deafness and blindness, a multiple disciplinary approach is needed to adequately serve these individuals. Unique problems in mobility and communication can cause severe social, recreational, academic deprivation and long term prevocational training may be necessary. Persons who are deaf-blind are capable of competitive employment and the counselor will carefully evaluate expected employment outcomes.

(b) **Deaf-Blindness Specialist.** To promote and coordinate appropriate services for persons with dual losses of vision and hearing, the Division of Services for the Blind and Visually Impaired employs a Deaf-Blindness Specialist. This specialist works with counselors, rehabilitation teachers and others who provide services directly to clients who are deaf-blind. A major role served by this specialist is coordinating services and ensuring dialogue among schools, programs, agencies and organizations serving the deaf and blind.

(c) Support Service Providers. Support Service Providers (SSPs) promote independence by providing deaf-blind individuals with visual and auditory access to the environment. SSPs facilitate interpersonal communication and provide environmental information and sighted guide services to deaf-blind individuals during assessment for eligibility determination and IPE-related activities as requested by DRS. IPE related activities may include, but not be limited to, all contacts with the DRS, IPE related activities may include, contacts with DRS staff including meetings; job interviews, job site orientation, non-emergency medical appointments (scheduled or authorized by DRS) and community events pertaining to the client's vocational goal, such as job fairs, networking events, community-based training, filling out job applications or other paperwork. Services may include driving client to the IPE related activity and home again, reading client's mail and transmitting it in a mode that is accessible to the client. DRS should not be involved in payment for SSP services that are arranged without agency knowledge, or are used for purposes

not directly connected with the client's DRS case including assessment for eligibility determination, IPE-connected services or job readiness or placement activities.

## **PART 21. PURCHASE OF EQUIPMENT, OCCUPATIONAL LICENSES AND CERTIFICATES**

### **612:10-7-216. Tools, occupational equipment, initial stocks and supplies**

(a) Tools, occupational equipment and supplies will be provided to eligible clients to the extent necessary to achieve their vocational goal providing the client has adequate resources available for the proper maintenance and upkeep of such tools and equipment. The client, or client's family or authorized representative as appropriate, is responsible for maintaining tools, occupational equipment, initial stocks, and supplies in good working order. DVR and DSBVI will not pay for repairs to tools, occupational equipment, initial stocks and supplies purchased with DVR and DSBVI funds once title has been released to the client. DVR and DSBVI will not pay for repairs before title is released when there is clear evidence that the damage resulted from abuse or neglect.

(b) The client will retain possession and control of articles while engaging in the job or occupation for which articles were provided, or when title is released to client. Occupational tools, occupational equipment, and initial stocks and supplies are defined as follows:

(1) Occupational tools are considered to be those minimum tools required for a designated trade, necessary to the employment of the individual, and not furnished by the employer. DRS will NOT purchase operable firearms even if required for employment. Counselor will assist the individual in finding resources to help in this purchase if necessary.

(2) Occupational equipment is equipment required to meet the minimum needs of an individual in starting and conducting a business of his or her own.

(3) Initial stocks and supplies are those materials and merchandise necessary for the client to become operational in a business.

(c) Purchase of occupational tools, equipment and initial stocks and supplies will be made in accordance with current DRS purchasing rules. If the client is required to participate in cost of services, the payment will be made to the nonmedical vendor. When the equipment is received and/or installed, the appropriate rehabilitation professional completes the Receipt for Equipment and Title Agreement. If the purchase total is \$5,000 or more, the rehabilitation professional then signs the vendor's invoice and routes it to DRS state office.

### PART 23. SELF-EMPLOYMENT PROGRAMS AND OTHER SERVICES

#### 612:10-7-230. Self-employment programs

(a) Self-employment is not a vocational goal itself but a method of achieving employment. Self-employment programs may be divided into Contract Labor and Self-Employment.

(1) **Contract Labor.** Employment is contract labor when the client has a contract or on-going business with a company or person to provide a specific product or service for a fee. The service or product is produced to meet the vendor's specifications and needs. The purchasing company often supervises the work.

(2) **Self-Employment.** In Self-Employment, the consumer/client owns, manages and operates a business selling goods or services for the purpose of making a profit, ex: (Business Enterprise Program). Self-Employment ranges from sole proprietorships and independent contractors to multi-employee companies and independent franchise operations.

(A) The client must have the proper skills and managerial ability to succeed in the trade or occupation for which the services are provided; and

(B) The client must have adequate resources available for the proper maintenance and upkeep of the required tools, equipment, and stocks. The client is responsible for the maintenance and repair of any tools, equipment, and stocks.

(b) Agency Role. The role of the VR Agency is not to serve as the sole funding source for self-employment endeavors. Other funding resources must be researched and utilized when available. DRS may participate in partially funding small business start-up or the retention of an existing client owned and operated business but does not have a capital or loan program for the establishment businesses. These investment resources must come from other sources. DRS will assist the client in making informed decisions, reduce or eliminate the barriers created by the disability(ies), training regarding small business development/self-employment, and assisting the individual in identifying possible funding resources.

(c) DRS will not assist with services to maintain or expand an existing self-employment business. However, services can be offered which might address changes brought on by a disabling condition that limits or interferes with a person's ability to continue to operate their business independently. These services might include but are not limited to such things as AT assessment for changes in worksite or job tasks; recommendations for purchase of adaptive equipment; worksite or vehicle modifications that are needed for a person to continue operating their business; or training in the use of required adaptive equipment or techniques. Before consideration will be given to assisting with an existing business the client must provide copies of the most recent two years of profit and loss statements and/or tax returns showing business profitability. DRS will not support businesses that have failed to demonstrate profit sufficient to support the individual financially.

(d) When to Consider Self-employment. The counselor may consider self-employment when all of the following guidelines have been met.

(1) The income derived from a self-employment plan is to be the primary source of support.

(2) Is the client's informed choice consistent with their unique strengths, resources, priorities, concerns, abilities, capabilities and interests.

(3) When a client expresses interest in self-employment, the individual will be required to participate in a vocational assessment with focus on self-employment potential. The assessment will include a self-evaluation completed by the client.

(4) The counselor will document, as appropriate, in the comprehensive assessment that the client has the academic, communication and managerial skills to manage their own business and the resources to demonstrate a likelihood of success.

(e) Once it has been determined by DRS that self-employment is a feasible goal, an IPE will be written to further assist the self-employment concept and the client is sent to training for developing a business plan.

(f) Certain individuals may require on-going supports or services for a business plan to be successful. The counselor will assist the individual in identifying and securing these support services. DRS cannot be responsible for funding these supports following successful employment outcomes.

(g) Clients who are receiving SSI/SSDI will be referred to a DRS Benefits Planner to review how profits from self-employment will affect their benefits prior to the completion of an Individualized Plan for Employment.

(h) The agency may provide some financial assistance toward self-employment plans that have met the requirements as specified in policy. The counselor will determine the client's financial status and any required financial participation by the client. The client's contribution may come from personal resources, property, loans, PASS plan funds or small business start-up grants from other assistance programs. A client who is receiving SSI/SSDI must submit a Plan to Achieve Self-sufficiency to SSA for review and consideration before any DRS funds can be expended toward a self-employment start up business.

(i) Any required client financial participation is applied to the cost of planned services.

(j) The agency's contribution to a self-employment plan will not exceed \$5,000 without supervisory approval.

(k) The Agency will consider three-tiers of support for self-employment.

(1) Tier 1 is for self-employment plans that are considered low cost, simple and considered low risk. These cases will be limited to DRS financial contribution up to \$5,000. DRS will cover 100% of costs minus any required client financial contributions. In Tier 1 cases the client is required to provide the Basic Business Plan which includes the following items:

- (A) Business feasibility study.
- (B) Monthly personal and living expenses worksheet.
- (C) Business start-up expenses worksheet.
- (D) Projected monthly cash flow worksheet showing business profits versus cost of operations.

(2) Tier 2 is for self-employment businesses with anticipated costs from \$5,000 up to \$10,000. In these cases the client is responsible for providing 25% of the anticipated costs. Client contribution can come in many forms including the use of existing equipment or home/office space which the client owns: bank loans; PASS Plans, or any other Agency approved financial contribution. All IPE's included in Tier 2 with planned expenses over \$5,000 must be reviewed and approved by the Programs Manager. In Tier 2 self-employment cases the client is required to provide the Comprehensive Business Plan that includes:

- (A) Detailed description of the proposed business.
- (B) Market research.
- (C) Sales Plan.
- (D) Management Plan.
- (E) Business License and City Zoning regulations.
- (F) Supporting documents will include:
  - (i) List of identified vendors.
  - (ii) Items requested to be paid by DRS.
  - (iii) Items and resources provided by client.
  - (iv) Credit Report.
  - (v) Copy of the client's last two years of tax returns if they were required to file.

(vi) A 100 form completed and signed by the client to be submitted to the Oklahoma Tax Commission for disclosure of tax information.

(3) Tier 3 self-employment cases are those with an anticipated cost which exceeds \$10,000. Tier 3 cases will require the same supporting documentation as Tier 2. In Tier 3 the client will be required to contribute a minimum of 50% of the anticipated costs exceeding \$10,000. All Tier 3 self-employment cases require review and approval by the Field Coordinator.

(4) Tier 2 and Tier 3 self-employment proposals will be required to have their Business Plan reviewed and approved by Agency designated staff and/or Review Panels.

(l) Items that the agency will not approve for funding include:

- (1) Construction or purchase of real estate.
- (2) Businesses that are speculative in nature such as stocks, bonds or other investments or considered speculative by the Better Business Bureau.
- (3) Businesses that are organized as not for profit.
- (4) Businesses organized as hobbies.
- (5) Purchase of vehicles including farming, ranching and construction vehicles.
- (6) Refinancing of existing debt.
- (7) Business plans that are not developed as the primary source of support.
- (8) A business endeavor that does not have an agency approved business plan.
- (9) Any business activity related to the Marijuana business including the production, distribution and/or sale of marijuana products.
- (10) DRS will not assist with the purchase of a franchise business or any type of pyramid business arrangement.
- (11) The purchase of domestic animals or livestock.

(m) Purchases and support services. All Agency purchases for a plan with a goal of self-employment will be in accordance with established purchasing policy regarding the competitive bid process and referrals to the State Office Purchasing Unit. Any requests for assistance with maintenance or transportation will be required to meet established policy guidelines for these support services.

(n) The counselor will continue to be available for technical assistance upon completion of approved purchases. Counselor will review with client every 3 months the progress of the business. This will include copies of the businesses profit and loss statements and record of business performed. The purpose of these reviews is to determine if the involvement in self-employment is allowing the client to substantially increase his/her earnings to achieve self-employment success and be able to meet on-going financial obligations of the business. Should the business not be showing an increase in the income of the client, the counselor will review, with the client, the client's business plans to try to increase the business income. If necessary, the client may be referred to the small business development center or similar program for technical assistance in making changes in business operation to achieve a business profit.

(o) As stated in the IPE, this case would be agreed upon as a successful closure if the business is stable after 90 days and

# Permanent Final Adoptions

has met the specified level of performance. At the time of case closure, title for all goods purchased by the agency will be released to the client.

(p) As stated on the IPE the Counselor will discuss with the client at time of successful case closure that the client will be expected to furnish the Agency with income verification for the first year after successful case closure for reporting purposes as required under WIOA. This income verification can come in the form of self-employment worksheets signed and attested to by program participants or other approved Agency forms of verification.

## 612:10-7-230.2. Self-Employment Guidelines

## **612:10-7-250. Reporting Credential Attainment and Skill Gains for High School Transition Students**

- (a) Under the WIOA, workforce agencies are required to report the percentage of those participants enrolled in secondary education who attained a recognized credential during participation in or within one year after closure of the case. - (c) In order to properly report credentials and skill gains, the high school education goal must be included on the IPE for any Student With Disability (SWD) for whom a plan is developed while still enrolled in high school. It is expected that staff will use the DRS electronic case management system to record enrollments (educational goals), and document credential attainments and skill gains. Supporting documents proving the credential or skill gain must be entered into the system as well. Timely reporting of these attainments and skill gains is critical. The Participant is expected to assist with obtaining the required documentation. Credential attainment can be reported up to one year after case closure. Managers receiving loans will sign a merchandise security agreement that will be retained on file by DRS and released to the manager when loan repayment is complete along with a letter from the BEP Operations Coordinator officially notifying the licensed manager of their full repayment of the loan.

(6) When a merchandise loan is secured by stock, a licensed manager may not permit the ownership of the stock to vest in any person or organization other than the SLA.

(7) When a licensed manager leaves a business enterprise, any remaining merchandise loan balance (and other unmet obligations to the SLA) will be subtracted from the ending inventory to determine the manager's equity in the ending stock.

(8) Merchandise loans are not allowed for satellite facilities unless extenuating circumstances prevail and only

after approval of BEP Operations Coordinator in consultation with the ECM chair person.

(9) Merchandise loans for existing managers currently operating an "A" or "B" classified facility as their primary may be granted at the discretion of the BEP Operations Coordinator in consultation with the ECM chair person.

(c) **Failure of licensed manager to repay loan.**

(1) If a licensed manager's merchandise loan payment is not received in the BEP office within five days after the due date, the licensed manager will be placed on probation and is not eligible to make application into the selection process. Merchandise loan payments are due at the time monthly reports and set-aside payments are due. (612:25-6-22)

(2) If a licensed manager's merchandise loan payment remains delinquent through the succeeding month and is not received in the BEP office within five days after the succeeding month's due date, the BEP operations coordinator will recommend suspension or termination of the operator's agreement by the SLA director unless an alternate repayment schedule has been approved by the SLA. The SLA will initiate action to collect a remaining merchandise loan balance when a loan payment is two months overdue.

(3) When a licensed manager leaves the program for any reason, the merchandise loan is due in full unless arrangements are made with the SLA to divide the balance into twelve (12) equal payments that will be due on the first day of each month.

(d) **Second merchandise loan.**

(1) Under documented extreme circumstances, a licensed manager who has paid off his/her previous merchandise loan may receive a second merchandise loan for the same facility when it has been determined that the loan is necessary to allow the licensed manager to remain in his/her facility.

(2) If a licensed manager requires a second merchandise loan while the first loan is still outstanding, other than for the expansion of his/her facility, he/she will be placed on probation until one of the loans is paid in full.

(3) Second merchandise loans for the purpose of facility expansion will be limited to 50% of the cost of additional salable merchandise needed.

(e) It is the incoming ~~manager's~~ Licensed Manager's choice to ~~procure any~~ accept or reject any and or all merchandise or personal property from the out-going ~~manager~~ Licensed Manager, however, a merchandise loan cannot be used to purchase property. If this condition occurs, the outgoing manager must be given a one week notice prior to the facility turnover to the new manager. The incoming Licensed Manager must notify the Business Consultant and the outgoing Licensed Manager of his/her intent of purchasing outgoing manager's inventory seven (7) days prior to the day of the inventory count.

### PART 9. ASSIGNMENT OF LICENSED MANAGERS

#### 612:25-4-53. Assignment and transfer

(a) **Assignment.** The State Licensing Agency (SLA) administers a competitive selection process to accomplish the assignment of primary facilities to qualified individuals. The selection process established by the SLA provides that the Elected Committee of Licensed Managers (ECM) is an active participant in the selection of facility managers.

(b) **Transfer.** The SLA, in consultation with the ECM board, may transfer a qualified licensed manager to a different location of similar complexity and income potential when it appears to be in the best interest of the licensed manager and/or the BEP. The SLA notifies the licensed manager and the ECM Chairboard, in writing, by registered or certified mail of the transfer and the grounds for the transfer. The transfer policy cannot be used to circumvent the competitive selection process.

#### (c) **Displaced Licensed Manager.**

(1) A Displaced Licensed manager will have up to one (1) year to make application for a BEP facility that is comparable to his or her displaced facility.

(2) A Displaced Licensed Manager will be given 15 bonus points in the next interview selection for a permanent placement in a BEP facility that is relatively comparable in complexity, financially and if possible, geographically.

(3) A Displaced Licensed Manager could accept a satellite assigned facility that is not comparable to their recent displaced facility without surrendering their displaced bonus points and status.

(4) Should the Displaced Licensed Manager elect to accept the assigned satellite as his or her primary placement facility, then that Displaced Licensed Manager would surrender the displacement status with the agreement from the SLA and ECM.

(5) The SLA will consult with the ECM Chair to determine beginning and expiration date of eligibility of the Displaced Licensed Manager and provide notice in the Licensed Managers preferred format.

#### 612:25-4-55. Qualifications

(a) In order to apply for manager placement in a Classification "A" or "B" facility in the Business Enterprise Program (BEP), an individual must hold a permanent license issued by the State Licensing Agency (SLA). In addition, the SLA requires experience in the program before an individual will be considered eligible to apply for "A" or "B" classification business enterprises with the exception of (b) of this section. Certified graduates of the BEP Training Program are only eligible to apply for Classification "C" or "D" facilities with

the exception of (b) of this section. A location new to the BEP program is to be classified "C" for the initial 90 days of operation. The BEP Operations Coordinator, in consultation with the ECM Chairperson, will determine the need for any experience requirements.

(b) Applicants who qualify for the next lower classification will be considered for interview when no qualified applicants apply for a classification "A" or "B" facility announcement when it is deemed appropriate to do so by the BEP Operations Coordinator in consultation with the ECM Chairperson.

(c) Experience requirements for each classification are:

(1) Classification A. Applicants will be restricted to individuals who have a minimum of three (3) years total experience in an Oklahoma Business Enterprise including a minimum of one (1) year of management experience.

(2) Classification B. Applicants will be restricted to individuals who have a minimum of two (2) years total experience in an Oklahoma Business Enterprise, including a minimum of six (6) months of management experience.

(3) Classification C. No experience required, except on new locations as deemed appropriate by the BEP Operations Coordinator in consultation with the ECM Chairperson.

(4) Classification D. No experience required.

(d) The BEP Operations Coordinator, in consultation with the ECM Chairperson, may require additional BEP experience on applications for any facility. Verified BEP experience from another state may be considered.

(e) Applicants will not be eligible to apply for a business enterprise facility if any of the following conditions exist:

(1) The licensed manager applicant's cumulative total days off on probation is sixty (60) or more days in the most recent twelve (12) months or the SLA has initiated suspension/termination proceedings against the licensed manager.

(2) The applicant is not current with their merchandise loan payments.

(f) Applicants must be eligible to obtain an Oklahoma Tax Permit and be in good standing with the Oklahoma Tax Commission (OTC) for assigned, transferred or satellite business enterprises. Along with each application, the applicant is to provide a signed OTC form A 100 to determine their standing in relation to Sales Tax and Employee Withholding. The OTC form A 100 will be used on a one-time basis for a tax inquiry in relation to that announcement application only.

#### 612:25-4-57. Applicant Selection Committee

**Selection Committee.** The Selection Committee shall be established and convened by the SLA. The Selection Committee will consider applicants for assignment. The Selection Committee shall make recommendation(s) to the BEP Operations Coordinator or designee. The BEP selection committee

is chaired by the BEP Operations Coordinator or designee. Members include two members of the SLA staff, the area member of the ECM or alternate and the chairperson of the ECM or alternate (vice-chair or secretary or another member of the ECM, in order). If no member of the ECM can serve in either capacity the BEP Operations Coordinator shall poll ~~from the ECM chairs outside of State of Oklahoma~~ the licensed managers to complete the committee. No person can serve on the selection committee who has a conflict of interest or is related to an applicant.

**612:25-4-58. Annual and Performance Evaluations**

(a) The BEP will conduct an annual evaluation of each licensed manager at the end of each calendar year. Performance evaluations will be conducted when a manager applies for a facility or when a probationary period ends. All evaluations will be based on data collected from the manager's primary assigned facility and will consist of the previous twelve (12) working ~~months~~ month's information. If a Licensed Manager does not have a primary facility, the satellite facility will be used (in accordance with BEP 612:25-4-53(c)(1-5). The Licensed Manager will be advised of the results of any evaluation in writing. The manager will be evaluated in the following areas:

To be eligible the manager must score at least 80 of the available 100 points. Any score above 80 will accrue to the benefit of the licensed manager in that selection process by adding it to their total score. If there is a second interview conducted, these points will not be added to the total points of the second interview.

**612:25-4-59. Interview, Selection Process and Scoring**

- (a) All eligible applicants will be referred by the SLA to the Selection Committee for a personal interview.
- (b) All personal information made available to the Selection committee and all information discussed in the course of a selection is held confidential. Information will not be released to any other individual, agency, or organization by Selection Committee members, unless they are advised in writing by the SLA's legal counsel to release information.
- (c) An applicant not present at the appointed time for their interview will have his/her name removed from consideration for this location unless due to reasonable extenuating circumstances make them unable to appear and a majority vote of the selection committee agrees to allow a change of the interview time.
- (d) Following every interview, each Selection Committee member will complete a score sheet on the applicant. Members of the Selection committee must complete their own score sheets before assisting another member. After each interview, the scores from all score sheets on the applicant will be totaled. Selection Committee members may not change their scores for an applicant after scores for the applicant have been tabulated. The total scores for all applicants will then be ranked.
- (e) Any candidate not scoring a minimum of 50 percent of the available points, not including seniority, performance evaluation, or displaced manager points, will be deemed not qualified to manage the facility being considered.
- (f) The score of the Chairperson of the Selection Committee's score will not be added into the ranking unless it is a tie.

The SLA will have the responsibility of convening the same Selection Committee and notifying all eligible applicants of the time and place of the second interview. The second interview will be governed by the same process rules as the initial interview described above.
- (i) To determine the final rankings of the applicants, combine the personal interview points from the second interview to the combined point total of the first interview.

  - (2) Business Plan;
  - (3) Performance evaluation points accrued over 80;

## Permanent Final Adoptions

### 612:25-4-61. Satellite business enterprise locations

(a) A business enterprise facility will be considered a satellite and may be assigned to a licensed manager on a temporary basis when:

- (1) the regular selection process does not produce a permanent licensed manager,
- (2) a licensed manager has been removed by the SLA, or
- (3) ~~when a business enterprise is vacated on short notice by a licensed manager~~ when a business enterprise is vacated by a Licensed Manager without giving the SLA at least 30 days notice.
- (4) when notification of a new business enterprise is received by the SLA from a federal, state, county or private entity with less than a 30 day notice.

(b) The BEP Operations Coordinator, in consultation with the Chairperson of the Elected Committee of Licensed Managers, may assign a licensed manager to a satellite business enterprise. The length of the agreement for a temporary assignment will be until the regular selection process can generate a permanent licensed manager, but not less than 180 days, unless a shorter period is agreed upon by the satellite manager. In order to achieve an equitable distribution of satellite business enterprises, a licensee that currently operates a satellite location will not be eligible for an additional satellite unless there are no other qualified licensed managers interested. Licensed Managers who only qualify for lower facility classifications than the satellite under consideration may be assigned when it is deemed appropriate by the BEP Operations Coordinator, in consultation with the ECM Chairperson.

(c) Satellite locations will be reviewed by the SLA, in consultation with the ECM board through consultation with the ECM chair person, every ~~180 days~~ 10 months for possible advertisement of permanent assignment, adding in whole or in part to another business enterprise facility, continue the satellite assignment, or ~~closure~~ issuing Grantor a temporary variance. The satellite manager will be kept informed when this will occur and the result of the review.

(d) The licensed manager may resign the satellite agreement with 30 days written notice.

- (m) The licensed manager will supervise employees in a manner that promotes quality customer service.

- (c) **Probationary letter.** The probationary letter will specify the cause(s) for placing the manager on probation and rules that have been violated. It will clearly state the terms of the probation, including the length of the probationary period, the remedial action required and the consequences of failure to take remedial action. A statement will be included which indicates it has been read and understood by the licensed manager, followed by a space for the licensed manager's and business consultant's signature, and the date. This acknowledgement does not imply that the licensed manager agrees with the issues identified, but rather, that he/she understands the terms of his/her probation. Refusal to sign does not invalidate the letter.
- (d) **Probationary periods.** Probationary periods are usually 30 to 90 days, at the discretion of the BEP Operations Coordinator, but may be longer or shorter as circumstances warrant. The exact period of probation will be specified in the probationary letter.

~~(a) If no petition is filed by the second Friday after an election, then the Administrator shall certify the results to the Commission.~~

### **CONTACT PERSON:**

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(7) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2022:**

## **SUBCHAPTER 1. GENERAL PROVISIONS [REVOKED]**

### **630:4-1-1. Purpose [REVOKED]**

~~The rules of this Chapter are adopted pursuant to Title 82 O.S. Sections 1451 B-1471. They are adopted as standards guiding the practice and procedures of the Oklahoma Scenic Rivers Commission ("OSRC") and for the purpose of simplifying procedures, avoiding delays, saving expense, and facilitating administration of the Scenic Rivers Area for the Flint Creek and the Illinois River and those portions of Barren Fork Creek within Cherokee County.~~

### **630:4-1-2. Scope [REVOKED]**

~~The rules of this chapter govern all hearing proceedings for individual hearings before the OSRC. Exhaustion of these proceedings is required prior to resort to relief of the Oklahoma state district courts.~~

### **630:4-1-3. Authority [REVOKED]**

~~Individual hearings in the name of the Commission are conducted pursuant to Article II of the Oklahoma Administrative Procedures Act (75 O.S. Sections 308a and following, the~~

"APA"), to the rules of this chapter and, where additional guidance is needed, generally to the civil procedures followed by the Oklahoma district courts.

**630:4-1-4. Hearing sites [REVOKED]**

Unless the act requires otherwise, hearings shall be held in a location established by the hearing examiner or the Commission. However, due regard shall be given to the convenience of the parties or their representatives and witnesses.

**630:4-1-5. Computation of time [REVOKED]**

Except as otherwise provided in the regulations of this chapter, computation of time is based upon the following:

- (1) Except as otherwise provided by order, computation of time is based upon calendar days.
- (2) In computing any period of prescribed time, the day on which the designated period of time begins is not included. The last day of the period is included unless it is a Saturday, Sunday, or legal holiday on which the OSRC is not open for business, in which event the period runs until the end of the next day which is not a Saturday, Sunday or legal holiday.
- (3) Intermediate Saturdays, Sundays, or legal holidays are excluded from the computation when the period or prescribed time is seven (7) days or less.

**630:4-1-6. Interpretive opinion about a rule or order [REVOKED]**

Any person who alleges that any OSRC rule or order interferes with or impairs, or threatens to interfere with or impair, their legal rights may petition the OSRC to request a declaratory ruling about the applicability of the rule or order. The Administrator shall provide a copy of the petition to the Commissioners with a recommendation. Properly filed petitions shall be placed on the agenda for the next regularly scheduled Commission meeting that is at least two weeks after the petition is filed.

- (1) **Form and content of petition.** Petitions for a declaratory ruling shall be in writing, shall identify the particular rule(s) involved, include a brief statement of the issues raised by the rule(s) which cause the request to be made, include a statement of the petitioner's personal interest in the ruling, describe any communications with OSRC members or employees about the issues, and pose the specific question(s) to be answered and the relief sought.
- (2) **Determination.** To address a petition for declaratory ruling, the Commission may rule on the petition, refer the petition to a hearing examiner or decline to rule on the petition. Rulings shall state the findings of fact and conclusions of law upon which they are based. If the OSRC does not make a ruling or begin an individual proceeding on the petition within 90 days after the petition is filed, the petition shall be deemed to have been denied. If the OSRC begins an individual proceeding on the petition, it

shall offer an opportunity for a hearing to the petitioner. After the OSRC issues a ruling or a final order, the OSRC shall mail a copy of the ruling or final order to the petitioner by certified mail, return receipt requested.

(3) **Judicial review.** A declaratory ruling or refusal to issue such ruling shall be subject to judicial review in the manner provided for review of decisions in individual proceedings in the APA, 75 O.S. ' 307.

**630:4-1-7. Conduct and record of individual hearings [REVOKED]**

(a) **Open to public.** The Commission or a designated hearing examiner shall conduct every individual hearing before the OSRC. All hearings shall be open to the public unless a protective order is entered to uphold confidentiality laws; however, upon motion of a party, the Commission or the hearing examiner may exclude from the hearing room any witness not at that time under examination. Neither a party nor their attorney may be excluded.

(b) **Record.** All testimony shall be taken on the record unless otherwise designated by the Commission or the hearing examiner. The OSRC shall make an electronic recording of the hearing proceedings that shall be the official record. The recording will not be transcribed as a matter of course. Copies of the recordings shall be provided to a party on written request. The cost of transcription, if done, shall be borne by the party having the recording transcribed.

(c) **Court reporter.** A party may have the proceeding transcribed by a court reporter at the expense of the party. The original transcript shall be filed with the OSRC. Each party requesting copies shall make arrangements for such with the reporter, and pay the costs.

(d) **Maintenance of the record.** The record of a hearing and the file containing the notices and the pleadings will be maintained by the OSRC. All pleadings, motions, orders and other papers submitted for filing in an individual proceeding shall be stamped with the date filed by the Commission or the hearing examiner upon receipt.

(e) **Designation on appeal.** On an appeal to district court, the parties may designate and counter-designate portions of the record to save costs, following the procedures in the APA.

## Permanent Final Adoptions

---

### 630:4-5-2. Appointment of hearing examiner [REVOKED]

The Administrator may appoint hearing examiners to conduct individual hearings from the OSRC staff or retain local or government counsel.

### 630:4-5-3. Filing of documents [REVOKED]

(a) Any initial pleadings in a proceeding to be conducted or being conducted by a hearing examiner under these rules shall be filed, by hand or by mail, with the OSRC.

(b) Any person filing initial pleadings with the OSRC or a notice of appeal shall furnish an original and one copy. Any person filing other documents with the OSRC shall furnish only an original.

(c) Any person who has initiated an individual hearing under these rules before the OSRC or filed a notice of appeal shall file proof of service with the same in the form of a return receipt where service is by registered or certified mail, or an acknowledgement by the party served or a verified return where service is made personally. A certificate of service shall accompany all other documents filed by party in any proceeding.

(d) The effective filing date for documents initiating proceedings shall be the date the document is received by the OSRC.

### 630:4-5-4. Petition, service and request for hearing [REVOKED]

(a) **Petition.** If the Administrator or the Commission determines that action should be taken to enforce the rules or minimum local government standards of the OSRC, the Administrator may initiate an individual hearing pursuant to the APA by filing a petition with the OSRC and by serving the petition on each respondent. The petition shall include a statement of the legal authority and jurisdiction under which the action is taken, reference to the statutes and rules involved, a short and plain statement of the matters asserted and the relief requested. The petition may allege facts by attaching and incorporating a document by reference. The petition shall provide that the action shall commence and become effective fifteen (15) calendar days after receipt of the petition by the Respondent, unless the Respondent timely files a written request for a hearing with the OSRC.

(b) **Service.** The petition shall be served on each respondent personally or by registered or certified mail, return receipt requested. Substitute service of a petition may be completed after personal and mail service are attempted with the filing of an affirmation of the attempted service and that the petition were then mailed first class mail to the last known address of the respondent. All subsequent documents shall be served personally or by first class mail. Service shall thereafter be made on attorneys who have entered an appearance for a party. Service of a petition is complete at the time of personal service or, if service is made by mail, upon receipt. Service of all subsequent documents is complete at the time of personal service or, if service is by mail, upon mailing.

(c) **Request for hearing.** A request for hearing must set forth objections to the petition and will be timely filed if said

request is in writing and postmarked or hand delivered to the OSRC within fifteen (15) calendar days of the date the party received the petition. If a timely written request for a hearing is not filed by the Respondent, the allegations in the petition shall be deemed confessed by the Respondent and the action will become final as set forth herein. If the written request for hearing is timely filed, such hearing shall be scheduled before the Commission or a hearing examiner at least fifteen (15) days after the date said request is filed, and the parties shall be notified of the date, time and place of the hearing. If an emergency exists, a hearing may be conducted without the filing of a petition and without waiting fifteen (15) days.

### 630:4-5-5. Intervention [REVOKED]

(a) Any person may petition for leave to intervene at any stage of a proceeding before the OSRC.

(b) A petitioner seeking leave to intervene shall incorporate in the petition a statement setting forth the interest of the petitioner and how the interest is or may be adversely affected.

(c) The hearing examiner or the OSRC shall grant intervention where the petitioner:

(1) Has a statutory right to initiate the proceeding in which he wishes to intervene; or

(2) Has a protected interest which is or may be adversely affected by the outcome of the proceeding or the proceeding involves minimum local government standards under OAC 630:1-1-6.

(d) If neither (1) or (2) of subsection (c) of this section apply, the hearing examiner shall consider the following in determining whether the intervention is appropriate:

(1) The nature of the issues;

(2) The adequacy of representation of petitioner's interest which is provided by the existing parties to the proceeding;

(3) The ability of the petitioner to present relevant evidence and argument; and

(4) The effect of intervention on the OSRC's implementation of its statutory mandate.

(e) Any person granted leave to intervene in a proceeding may participate in such proceeding as a full party or, if desired, in a capacity less than that of a full party. If an intervenor wishes to participate in a limited capacity, the extent and the terms of the participation shall be at the discretion of the hearing examiner.

### 630:4-5-7. Motions [REVOKED]

(a) Except for oral motions made in proceedings on the record, or where the hearing examiner otherwise directs, each motion shall be in writing and shall contain a concise statement of supporting grounds.

(b) Unless the hearing examiner orders otherwise, any party to a proceeding in which a motion is filed shall have fifteen (15) days from service of the motion to file a response.

(c) Failure to make a timely motion or to file a response may be construed as a waiver of objection.

(d) The hearing examiner shall rule on all motions as expeditiously as possible.

**630:4-5-8. Waiver of right to hearing [REVOKED]**

Any person entitled to a hearing before a hearing examiner may waive such right in writing.

**630:4-5-9. Powers of hearing examiners [REVOKED]**

- (5) Hold conferences for settlement or simplification of the issues;

- (8) Take other actions authorized by these regulations and the act;
- (9) Require or allow the filing of briefs, proposed findings of fact and conclusions of law by the parties;
- (10) Issue final orders for parties in default, for withdrawals of petitions and for settlements; and

- (3) To explore the possibility of agreement disposing of any or all of the issue in dispute; and
- (4) For such other purposes as may be appropriate.

(c) Except as otherwise provided in the regulations of this subchapter, the jurisdiction of the hearing examiner shall terminate upon:

- (1) The filing of a notice of appeal from an initial decision or other order dispositive of the proceeding;
- (2) The issuance of an order of the Commission granting a petition for review; or
- (3) The expiration of the time period within which a petition for review or an appeal to the Commission may be filed.

**630:4-5-10. Notice of hearing [REVOKED]**

A hearing examiner shall give notice in writing to the parties of the time, place, and nature of any hearing.

**630:4-5-11. Certification on interlocutory ruling [REVOKED]**

Upon motion or upon the initiative of the hearing examiner, the examiner may certify to the Commission a ruling which does not finally dispose of the case if the ruling presents a controlling question of law and an immediate appeal would materially advance the ultimate disposition by the examiner.

**630:4-5-12. Summary decisions [REVOKED]**

(a) At any time after a proceeding has begun, a party may move for summary decision of the whole or part of the case.

(b) The moving party under this section shall verify any allegations of fact with supporting affidavits, unless the moving party is relying upon depositions, answers to interrogatories, admissions, or documents produced upon request to verify such allegations.

(c) A hearing examiner may grant a motion under this section if the record, including the pleadings, depositions, answers to interrogatories, admissions and affidavits show that:

- (1) There is no disputed issue as to any material fact; and
- (2) The moving party is entitled to summary decision as a matter of law.

(d) If a motion for summary decision is not granted for the entire case or for all the relief requested and an evidentiary hearing is necessary, the hearing examiner shall, if practicable, and upon examination of all relevant documents and evidence before him, ascertain what material facts are actually and in good faith controverted. He shall thereupon issue an order specifying the facts that appear without substantial controversy and direct such further proceedings as deemed appropriate.

**630:4-5-14. Orders and decisions by hearing examiner [REVOKED]**

(a) Except as may otherwise be required by the APA, the OSRC has the burden of going forward to make a prima facie case for the petition, and issues are decided by substantial evidence.

(b) An order or decision rendered by a hearing examiner disposing a case shall be delivered or mailed to each respondent, and shall incorporate:

- (1) Findings of fact and conclusions of law and the basis and reasons therefore on all the material issues of fact, law and discretion presented on the record;
- (2) An order granting or denying relief; and
- (3) A notice that the order or decision of the hearing examiner will be issued as a final order unless, within 15 days after the date it was mailed to them, they mail or deliver to the OSRC a written request for review by the Commission. The appeal to the Commission must state facts, reasons and the specific relief requested.

**630:4-5-15. Effect of order or decision by hearing examiner [REVOKED]**

(a) An order or decision by the hearing examiner shall be made final if that order or decision is not timely appealed to the Commission. If not timely appealed to the Commission, then the Administrator shall sign the order or decision by the hearing examiner as a Final Order and mail a copy to each respondent by certified mail, return receipt requested.

(b) If an order or decision by a hearing examiner is timely appealed to the Commission, then the Commission shall at its next meeting take up the matter, and allow each party an opportunity to present arguments why the order or decision should not become a final order.

# Permanent Final Adoptions

(c) After hearing arguments, the Commission may affirm the order or decision of the hearing examiner, or may for good cause modify the decision or order of the hearing examiner and issue a revised order with findings of fact and conclusions of law, or may refer the order or decision back to the hearing examiner for a hearing on specific matters. The Administrator shall mail a copy of a Final Order by the Commission to each respondent by certified mail, return receipt requested.

(d) A party may appeal a Final Order as provided in the APA.

## 630:4-5-16. Certification of record [REVOKED]

~~Within five (5) days after an order or decision by a hearing examiner has been rendered, the hearing examiner shall certify the official record of the proceedings, including all exhibits, and transmit the official record for filing to the OSRC. The tape of the hearing shall not be transcribed unless an appeal of the order or decision is made to the Commission pursuant to Subchapter 13 of this chapter.~~

## 630:4-5-17. Discovery [REVOKED]

~~Following the initiation of a proceeding and with permission of the hearing examiner the parties may initiate discovery at any time so long as it does not interfere with the conduct of the hearing. Discovery shall generally be conducted according to the Oklahoma Discovery Code, 12 O.S. § 3224 and following.~~

  - (4) ~~All signs placed along the river corridor shall be informational in nature and shall comply to standards established by the OSRC.~~
  - (5) ~~Display on each flotation device used the name of the enterprise and an identification number at least three (3) inches high and two (2) inches wide on both the right and left sides (port and starboard sides), or once if it has no sides.~~
  - (6) ~~Provide reasonable assistance in river clean up and navigational hazard removal in his float area at least once each week during all weeks his flotation devices are operated on the river.~~
  - (7) ~~Provide, in each flotation device used, at least one wearable personal flotation device in good and serviceable condition for each person on board so placed as to be readily accessible and of a size suitable to the person who is or will be wearing it.~~
  - (8) ~~The OSRC can better protect the river and deploy its resources with knowledge of how many people are floating the river during various times. Accordingly, each operator shall track and annually report to the Administrator on a per month basis the number of their customers per commercial float area from May through September. These reports are due by December 31 each year on the forms provided by the OSRC.~~

## Permanent Final Adoptions

(i) Non-profit youth organizations may elect to obtain temporary licenses for their flotation devices as commercial flotation devices provided they do not exceed the float area restrictions of the scenic rivers as described in 630:10-1-7.

### 630:10-1-6. Suspend or revoke license [REVOKED]

(a) The OSRC retains the right to suspend or revoke the licenses or permits, in whole or in part, of any commercial float operation after the OSRC makes a finding that:

- (1) The operation has engaged in a pattern of willful violation of OSRC rules and regulations;
- (2) The ecosystem of the river section within which the particular flotation device is authorized to float is, or is in danger of being, harmed by the number of flotation devices authorized and it is necessary for the protection of that section of the river to revoke a certain number of licenses;
- (3) The health and safety of individuals floating on the river is threatened by the number of flotation devices currently licensed to float on a particular section of the river; or
- (4) The commercial operator has failed to comply with licensing requirements of rule 630:10-1-5.

(b) Except in case of emergency as provided in the Oklahoma Administrative Procedures Act, the OSRC may make such a finding only after the commercial float operation has been given notice and the opportunity for a hearing.

### 630:10-1-7. Limitation on licensing of flotation devices [REVOKED]

(a) It is the intent of the OSRC in issuing commercial flotation licenses to protect the ecosystem and environment and the aesthetic, scenic, historic, archaeologic, and scientific features of the scenic river areas as well as the public health and safety of individuals using the scenic river areas.

(b) It is the determination of the OSRC that at this time the scenic rivers cannot assimilate the damages to their ecosystems, environments, aesthetic, scenic, historic, archaeologic, and scientific features if more than 3,900 licenses are issued. Further, the protection of public health and safety requires that the OSRC not grant additional licenses.

(c) The OSRC recognizes the current interests and property rights of persons with respect to flotation devices presently available for hire within its jurisdiction subject to the OSRC Commercial Float Area limitations provided hereinafter. The number of such devices shall be set at a maximum of 3,900 for the combined scenic river areas.

(d) Any licensing of flotation devices in excess of said 3,900 shall be subject to approval of the OSRC if the applicant reasonably demonstrates there will not be an adverse impact on the waterways within the jurisdiction of the OSRC. Such additional licensing shall be determined on the basis of density of current usage, number of licenses requested, and other considerations necessary for river protection.

(e) In the event the OSRC determines that the requested licenses may harm the ecosystem, environment, aesthetic, scenic, historic, archaeologic or scientific features of the

section of the river for which the licenses are sought, so that the health and safety of individuals floating on the river may be threatened by the addition of new flotation devices, the OSRC shall deny the number of licenses requested over 3,900 that it deems to be necessary to protect the scenic rivers. Any license issued above 3,900 in any calendar year shall be temporary, for a stated period of time, and shall not be renewed during the annual licensing process.

(f) Since May 1, 1987, the Illinois River scenic river area has been divided into the following sections for commercial flotation operation and licensing purposes:

- (1) From the Arkansas-Oklahoma state boundary (Illinois River mile 0) southward to Round Hollow Public Access Area (Illinois River mile 27.7) shall be known as OSRC Commercial Float Area One (OSRC CFA One).
- (2) From Round Hollow Public Access Area (Illinois River mile 27.7) southward to the Comb's Bridge (Illinois River mile 36.1) shall be known as OSRC Commercial Float Area Two (OSRC CFA Two).
- (3) From Comb's Bridge (Illinois River mile 36.1) southward to and including the confluence of the Barren Fork Creek with the Illinois River shall be known as OSRC Commercial Float Area Three (OSRC CFA Three).

(g) During weekends and holidays in May through September only commercial float devices licensed for OSRC CFA Two may float in OSRC Commercial Float Area Two. However, upon customer request commercial float operations without licenses for OSRC CFA Two may allow up to 20 of their commercial flotation devices during such times to combine a float in Commercial Float Area Two with their licensed area.

(h) The operation of a commercial flotation device within an OSRC Commercial Flotation Area in violation of 630:10-1-7, shall subject that commercial float operation to a fine not to exceed One Hundred Dollars (\$100.00). [82 O.S. Supp. 1991, Section 1470(A)].

### 630:10-1-9. Non-commercial fee procedures [REVOKED]

(a) Private, non-commercial flotation devices and persons who use them are subject to such statutory fees that are in effect while they are floating on state-designated scenic rivers.

(b) The Administrator shall develop forms and procedures for the collection and administration of non-commercial fees.

(c) Businesses and commercial float operations ("collectors") may, on behalf of the OSRC, collect non-commercial fees and issue receipts or usage indicators when they are approved by the Administrator and use the current forms and procedures of the OSRC. Collectors shall remit the non-commercial fees they collect to the OSRC using the current forms and procedures. Collectors may retain a percentage of statutory non-commercial fees for administering the non-commercial fee process in the amount that is currently designated by the Commission but not more than 10%.

(d) River Rangers and the Administrator may require anyone using a non-commercial flotation device on or leaving the waters of a scenic, who does not establish that they are exempt

from statutory fees, to either show a receipt for or pay the statutory non-commercial fee.

(d) The Administrator may waive or suspend camping fees for certain periods in the public interest.

**630:10-2-3. Time limits and extensions [REVOKED]**

(b) Camping within the same campsite or public access area for longer than 7 consecutive days is prohibited without prior written approval from the Administrator.

(c) The Administrator may grant extensions beyond the 7 consecutive day limit in writing after consideration of the extent of public access area use, the particular recreation season, and anticipated holiday or weekend occupancy.

(d) The daily camping fee covers use of campsites from 5:00 p.m. on the day of payment until 5:00 p.m. on the following day. Occupants shall vacate the campsite by removing their personal property from the campsite prior to 5:00 p.m. on the day they are scheduled to leave.

**630:15-1-1. Purpose [REVOKED]**

The purpose of this Chapter is to establish standards for the Oklahoma Scenic Rivers Commission ("OSRC") to protect the natural resources of the scenic rivers located within its current operating area, which includes the Illinois River and Flint Creek within Adair, Cherokee and Delaware Counties, and those portions of Barren Fork Creek within Cherokee County (referred to in this Chapter as "scenic rivers").

(b) Gravel mining operations which remove gravel from the river beds of scenic rivers are prohibited and are declared a public nuisance.

(c) Gravel mining operations are prohibited and declared a public nuisance where such operations remove gravel from the banks of scenic rivers if such removal negatively impacts the river by causing turbidity, erosion, pollution, or otherwise damages the scenic river environment.

(d) This section shall apply to restrict state permits to mine gravel that are pending as of April 20, 1993 or new permit applications submitted after that date. The Administrator may authorize site specific exemptions for good cause, such as to remove gravel that was deposited above the ordinary high water mark by floods.

**630:15-1-14. Ice chest restriction [REVOKED]**

To prevent littering, no flotation device shall contain an ice chest that does not have a secured lid to prevent spilling its contents or is larger than 48 quart capacity on a scenic river.

## SUBCHAPTER 3. CODIFICATION OF RULES

### PART 1. INTRODUCTORY PROVISIONS

#### 655:10-3-1. Function; scope

(a) This Subchapter describes the codification scheme for inclusion of rules in the Oklahoma Administrative Code and its supplements. Inclusion of a rule in the OAC requires prior publication in the Register as a finally adopted permanent rule, ~~or as an adopted preemptive rule that has been approved by the Governor, or an expedited rule repeal that has been approved by the Legislature.~~ Emergency rules are not added to the OAC or its supplements. However, emergency rules are published in the Register. They are part of the history of a Section or Appendix as referenced in Section/Appendix source notes in the OAC, and must be prepared pursuant to the codification scheme.

(b) Unless otherwise specifically noted, the rules of this Subchapter apply to permanent, emergency, and preemptive rules, and to expedited rule repeals.

#### 655:10-3-3. Rulemaking after publication of first OAC

After publication of the first OAC, any rulemaking actions undertaken by an agency shall be prepared as additions, revocations, or amendments to the OAC, as follows:

(1) **Amendments; revocations.** All amendments or revocations shall bear the proper OAC numbers and shall amend or revoke OAC text. The OAR shall not accept for Register or Code publication an amendment to or revocation of any rule unless the regulatory text being amended or revoked:

(A) appears in the most recent published Code or Code supplement, or

(B) appears as finally adopted regulatory text in an issue of the Register published after the closing date for publication in the most recent published Code or Code supplement, or

(C) appears as an expedited rule repeal in an issue of the Register published after the closing date

for publication in the most recent published Code or Code supplement.

(2) **New rules.** Prior to the adoption of a new Chapter, the agency shall contact the OAR for assignment of a new Chapter number pursuant to 655:10-3-22. If the agency proposes a new Subchapter, Part, Section, or Appendix, the agency shall assign the new OAC number or numbers pursuant to 655:10-3-23 through 655:10-3-24.1 and proceed with the rulemaking process. The OAR may not accept a new rule for Register or Code publication unless the rule is prepared pursuant to the requirements of this Subchapter and Subchapters 5 and 7 of this Chapter.

**PART 5. CODE NUMBERING, HEADINGS, AND TAGLINES**

**655:10-3-25. Section subdivision numbers/letters and taglines**

(a) **Section subdivision numbers/letters.**

(1) **Structure.** Sections may be subdivided according to the following structure, in the order shown, subject to the provisions of (2) through (4) of this subsection.

(A) A subsection is designated by a lower-cased letter of the alphabet enclosed in parentheses [e.g., (a), (b), (c)].

(B) A paragraph is designated by an arabic numeral enclosed in parentheses [e.g., (1), (2), (3)].

(C) A subparagraph is designated by an upper-cased letter of the alphabet enclosed in parentheses [e.g., (A), (B), (C)].

(D) A unit is designated by a lower-cased roman numeral enclosed in parentheses [e.g., (i), (ii), (iii), (iv)].

(E) A subunit is designated by an upper-cased roman numeral enclosed in parentheses [e.g., (I), (II), (III), (IV)].

(2) **Tabulation.** Tabulation is a device for arranging the structure of Section subdivisions. With the exception of an "implied subsection (a)" [see 655:10-3-26(b)], subsections begin at the left margin. Paragraphs are indented approximately 1/4 inch; subparagraphs are indented approximately 1/2 inch; units are indented approximately 3/4 inch; subunits are indented approximately 1 inch. If the text of a subdivision exceeds one line, the second and any succeeding lines are aligned under the first parenthesis of the subdivision number or letter.

(3) **Designation.** If only one subsection exists in a Section, it is not designated as a subsection. The same policy applies to all other Section subdivision levels. For example, agencies may not use (a) without (b), or (1) without (2), etc. [See also 655:10-3-26(b) (relating to use of "implied (a)")]

(4) **Definitions.** Definitions of specific terms in a Definitions Section shall be formatted in an alphabetical listing and shall not be structured according to (1) through (3) of this subsection. [See 655:10-5-10 (relating to definitions Sections)]

(b) **Section subdivision taglines.** A tagline that briefly describes a Section subdivision's contents may be used [see also 655:10-5-15 (relating to writing taglines)], with the following exceptions:

(1) If the subdivision is an "implied subsection (a)," a tagline may not be used, as exemplified by 655:10-3-10 and 655:10-7-12. [See also 655:10-3-26(b) (relating to "implied (a)")]

(2) If a Section subdivision does not contain at least one complete sentence, or does not begin a sentence which is completed in lower-level subdivisions, a tagline may not be used, as exemplified by 655:10-15-5(a)(1)(A) through ~~(O)~~(P).

(3) If a tagline is used for any one subdivision, taglines must be used in all its corresponding subdivisions, as exemplified by taglines used throughout this Chapter.

(4) When taglines are used at a subdivision level, taglines must be used at any higher level subdivisions within the Section, except when the higher level subdivision is an "implied subsection (a)."

(5) If a subdivision is itself subdivided, and if no text precedes its subdivisions, it must be assigned a tagline, as exemplified by (c) of this Section.

(c) **Location; format; subdivision text.**

(1) A Section subdivision tagline is located on the same line as, and immediately following, the subdivision's number or letter [see (a) of this Section].

(2) The number/letter and the tagline are separated by approximately two spaces.

(3) The tagline is immediately followed on the same line by a period, two spaces, and the Section subdivision's text. The second line of text, and all succeeding lines within the subdivision, begin directly below the first parenthesis of the subdivision number or letter.

(4) The Section subdivision tagline is bolded; the subdivision number or letter is not bolded.

(5) The first letter of the first word of the tagline is capitalized; the remaining words of the tagline are typed in lowercase letters unless the word itself is a proper noun or otherwise requires capitalization.

(6) For examples of provisions in (1) through (5) of this subsection, see Section subdivision taglines used throughout this Chapter.

(d) **Assignment; promulgation.** Section subdivision numbers/letters and taglines are assigned by the adopting agency and reviewed by the OAR prior to publication in the Register and Code. Section subdivision numbers/letters and taglines must be promulgated as part of the regulatory text.

**PART 7. REGULATORY TEXT**

**655:10-3-35. Placement of Sections and Section text**

(a) **Placement of Sections.** In a rule document (emergency, permanent, ~~or~~ preemptive, or expedited repeal), affected Sections (i.e., Sections that are being added or revised in some way) follow the enacting clause [see 655:10-7-14 (relating to

# Permanent Final Adoptions

regulatory text)]. Sections should be separated by one or two blank lines.

(b) **Placement of Section text.** The text of a Section, referred to as "Section text," begins on the first line below the Section number and tagline, as follows:

(1) **No subdivisions used.** If the Section contains no subdivisions, the first line of text is ~~indented~~tabbed approximately 1/4 inch, and the second and succeeding lines of text begin at the left margin.

(2) **Subdivisions used.**

(A) **"Implied (a)" used.** If the Section begins with an "implied (a)" [see 655:10-3-26], the first line of text is ~~indented~~tabbed approximately 1/4 inch, and the second and succeeding lines of text begin at the left margin. Subdivisions of the "implied (a)" are formatted pursuant to 655:10-3-25.

(B) **Subsections used.** If the Section is divided into subsections, the first line of text begins with the subsection designation [i.e., (a)] at the left margin. The text of the subsection begins approximately two spaces following its tagline, if used, or approximately two spaces following its letter designation, if a tagline is not used. For formatting subsequent subsections [i.e., (b), (c), etc.] and further subdivisions, see 655:10-3-25.

## SUBCHAPTER 5. RULE DRAFTING REQUIREMENTS

### 655:10-5-6. Superseded emergency actions; expired emergency rules

(a) **Text affected.**

(1) **Superseded amendments.** When an emergency amendment is superseded by a permanent action, ~~or~~ another emergency action, or an expedited repeal which affects the same Section or Appendix, the later action must be prepared as an amendment to or revocation of the last promulgated permanent text in that Section or Appendix (i.e., prior to any emergency action). The previous emergency action is superseded by the later action upon the effectiveness of the later action.

(2) **Superseded new Section/Appendix.** When an emergency enactment of a new Section or Appendix is superseded by a permanent enactment of the Section/Appendix, or another emergency enactment of the Section/Appendix, each action must be prepared as the enactment of new language. Although the agency may alter the language of the earlier emergency action, the agency does not identify changes (through the use of strikeouts and underscoring) to the earlier emergency rule text. Emergency rule text is never amended, but is superseded by later rulemaking actions. The earlier emergency rule is superseded upon the effectiveness of the later rule.

(3) **Superseded revocations.** When an emergency revocation is superseded by a permanent or emergency revocation or an expedited repeal of the same Section or Appendix, the later revocation must be prepared as a

revocation of the last promulgated permanent text of that Section or Appendix.

(b) **Expiration date of superseding emergency actions.** When an emergency action is superseded by another emergency action or actions, the expiration date of the later action(s) must retain the same expiration date as the first emergency action [see 75:253(H)].

(c) **Preamble statement.** When the rules in a rule document will supersede existing emergency rules, the agency shall identify the superseded emergency rules under the heading **SUPERSEDED EMERGENCY ACTIONS** in the preamble [see 655:10-7-11(b)~~(5)~~(15)] and 655:10-7-11.1(c)(3)(H) of the rule document.

(d) **Expired emergency actions.** Agencies must notify the OAR in writing when an emergency action on a Section or Appendix expires without being superseded by a permanent or preemptive action. Agencies should notify the OAR upon the expiration of the emergency rule. The OAR will document the existence and expiration of the emergency language in the next available annual supplement by publishing a source note that cross references to the Register publication of the emergency action.

**SUBCHAPTER 13. CORRECTION OF ERRORS**

**655:10-13-2. Errors prior to Register publication**

In the event an agency discovers an error in a document after submission to the OAR but prior to its publication in the Register, the agency may contact the OAR for a determination as to whether the OAR is able to accept the corrections, based on the following:

(1) **Timeliness.** The timeliness of the agency's request to correct an error(s) in a document filed with the OAR but not yet published will determine the OAR's ability to accept corrections on any document filed. This determination will be based on how far the OAR has progressed in its processing of that document at the time the request is received, as well as the impact a correction would have on the OAR's ability to complete the production and distribution of the applicable Register issue by the publication date.

(2) **Qualifying errors.** If the OAR determines the corrections to be timely, as described in (1) of this Section, the OAR will use the following additional criteria to determine if the errors may be corrected:

(A) **Notice documents.** Errors discovered in notice documents may be corrected prior to publication.

(B) **Permanent rule documents.** Errors discovered in permanent rule documents may be corrected

# Permanent Final Adoptions

prior to publication, unless the correction would cause a conflict with the following statutory provisions:

- (i) *[T]he text of the rule submitted for publication shall be the same as the text of the rule that has been finally adopted* [75:308.1(B)], and
- (ii) The agency may *change the format of . . . rules . . . to comply with the standard provisions established by the Secretary. . . so long as there is no substantive change to the rule* [75 O.S., Section 251(B)(2)(i)].

(C) **Emergency rule documents.** Emergency rule documents may not be corrected after approval by the Governor; except, the agency may change the format to comply with the ARR, as described in 75 O.S., Section 251(B)(2)(i). If these errors are discovered after the agency has filed the emergency rule document with the OAR [see 655:10-9-1(c)(1) (relating to filing emergency rule documents)] but prior to publication, the agency may correct these errors.

(D) **Preemptive rule documents.** Preemptive rule documents may not be corrected after approval by the Governor; except, the agency may change the format to comply with the ARR, as described in 75 O.S., Section 251(B)(2)(i), before filing the preemptive rule document with the OAR. If these errors are discovered after the agency has submitted a preemptive rule document to the OAR [see 655:10-9-1(c)(1) (relating to filing preemptive rule documents)] but prior to publication, the agency may correct the errors.

(E) Expedited rule repeal documents. Expedited rule repeal documents may not be corrected after final legislative adoption; except, the agency may change the format to comply with the ARR before filing the expedited rule repeal document with the OAR [see 655:10-9-1(c)(3) (relating to filing expedited rule repeal documents)]. If these errors are discovered after the agency has submitted the expedited rule repeal document to the OAR but prior to publication, the agency may correct the errors.

## 655:10-13-3. Errors after Register publication

### (a) Rule documents.

#### (1) Permanent rule documents and expedited rule repeal documents.

(A) **Regulatory text.** In the event an agency discovers an error in regulatory text in a permanent rule document or expedited rule repeal document after publication in the Register, the agency may correct the error through ~~emergency, preemptive, or permanent~~ rulemaking procedures only.

#### (B) **Other than regulatory text.**

(i) **Published pages.** When an agency discovers an error in the preamble (except effective date) or enacting clause (except effective date) in a permanent rule document or expedited rule repeal document after publication in the Register, the agency may submit a Notice of Error in Published Document pursuant to 655:10-7-35.

(ii) **Non-published pages.** When an agency discovers an error in the unpublished attestation or supplemental information pages of a permanent rule document or expedited rule repeal document after publication in the Register, the agency may submit the corrected page or pages to the OAR. Upon review and acceptance of the corrected pages, the OAR will add the corrected pages to the official files.

(2) **Emergency and preemptive rule documents.** Emergency and preemptive rule documents may not be corrected by an agency after publication in the Register.

### (b) Notice documents.

(1) **Corrections allowed.** When an agency discovers an error in one of the following types of notice documents after publication in the Register, the agency may correct such error by submitting a Notice of Error in Published Document [see 655:10-7-35]:

- (A) Statement of Submission to Governor and Legislature.
- (B) Notice of Legislative Disapproval of Rules.
- (C) Notice of Withdrawn Rules.

(2) **Corrections not allowed.** When an agency discovers an error in a notice document which announces an action affecting the public's direct participation in the rulemaking process (as identified in (A) through ~~(C)~~(D) of this paragraph), the agency may not correct the notice document after publication in the Register. The agency may submit a new notice document and, if applicable, publish a Notice of Cancelled Hearing or Comment Period; however, the new document acquires a new "publication date" for purposes of compliance with APA time restrictions (e.g., minimum 30-day comment period). Notice documents which may not be corrected with a Notice of Error in Published Document include the following:

- (A) Notice of Rulemaking Intent.
- (B) Notice of Expedited Rule Repeal Request.
- (C) Notice of Cancelled Hearing or Comment Period.
- ~~(D)~~ Notice of Continued Hearing or Comment Period.

## SUBCHAPTER 3. EFFECTIVE FINANCING STATEMENT (EFS)

### 655:15-3-2. UCC filing requirements

The filing of the EFS with the Secretary of State is in addition to the UCC filing requirements for perfection provided in Title 12A, Oklahoma Statutes Section 1-9-501. [12A:1-9-320.6(6)(5)]

## SUBCHAPTER 5. MASTER LIST AND BUYER REGISTRATION

### 655:15-5-2. Buyer, Commission Merchant and Selling Agent registration

(a) **Registration form.** Each buyer registration form must be properly completed, signed and submitted with the correct fee before it can be accepted for filing.

(b) **Registration Agreement Form.** A properly completed and signed Registration Agreement form is also required as a part of the registration.

(c) **Protection.** Protection of buyers of farm products, commission merchants and selling agents afforded by the Central Filing System is addressed in [12A:1-9-320.4] and [12A:1-9-320.6(d)].

(d) **Effective date of registration.** All buyer registrations accepted for filing within the Office of the Secretary of State on or before the 20th day of each month will begin their registration that month. All buyer registrations received in the Office of the Secretary of State after the 20th day of the month will be registered to begin receiving the master lists distributed the next month. These deadlines are necessary in order to ensure system capture of registrants and ample time for preparation and distribution of information.

(e) **Duration of registration.** The registration is effective for twelve months. Registrants must file a buyer registration form annually and pay the required fee to continue receiving lien information. Registrants are responsible for the timely renewal of their registrations.

(f) **Amendment of registration.** Registrants wishing to change the products and/or counties requested from the master list must file an amendment to their buyer registration.

(g) **Legislative conflicts.** Conflicts between the Oklahoma and Federal legislation have been brought to the attention of registrants by inclusion of the following statement on buyer registration forms: "Oklahoma law at present purports to limit the right of secured parties to give direct notification to buyers, commission merchants, and selling agents of a security interest. These provisions conflict with the provisions for direct notification in 7 U.S.C. 1631, as to matters in interstate commerce or otherwise subject to Federal jurisdiction. Therefore, until there is a clarification of the law, if you disregard direct notification, you do so at your own risk."

noncompliance with the standards of ethical practices specified in this section will constitute unethical practices in the securities business; however, the following is not intended to be a comprehensive listing of all specific events or conditions that may constitute such unethical practices. The standards shall be interpreted in such manner as will aid in effectuating the policy and provisions of the Securities Act, and so as to require that all practices of broker-dealers, and their agents, in connection with their activities in this state shall be just, reasonable and not unfairly discriminatory.

(b) **Standards.**

(1) A broker-dealer and its agents, in the conduct of its business, shall observe high standards of commercial honor and just and equitable principles of trade. A broker-dealer and its agents shall not violate any federal securities statute or rule or any rule of a national securities exchange or national securities association of which it is a member with respect to any customer, transaction or business effected in this state.

(2) **Recommendations**

(A) A broker-dealer and its agents shall have reasonable grounds for believing that a recommended transaction or investment strategy involving a security or securities is suitable for such customer based upon the customer's investment profile. A customer's investment profile includes, but is not limited to, the customer's age, other investments, financial situation and needs, tax status, investment objectives, investment experience, investment time horizon, liquidity needs, risk tolerance, and any other information disclosed by the customer or known to the broker-dealer or agent.

(B) A broker-dealer and its agents fulfill the customer-specific suitability obligation for an institutional account, as defined in 660:11-1-3, if (i) the broker-dealer or agent has a reasonable basis to believe that the institutional customer is capable of evaluating investment risks independently, both in general and with regard to particular transactions and investment strategies involving a security or securities and (ii) the institutional customer affirmatively indicates that it is exercising independent judgment in evaluating the broker-dealer or agent's recommendations. Where an institutional customer has delegated decision-making authority to an agent, such as an investment adviser or a bank trust department, these factors shall be applied to the agent.

(3) Charges, if any, for services performed, including miscellaneous services such as collection of monies due for principal, dividends, or interest, exchange or transfer of securities, appraisals, safekeeping or custody of securities, and other services, shall be reasonable and not unfairly discriminatory between customers.

(4) In "over-the-counter" transactions, whether in "listed" or "unlisted" securities, if any broker-dealer or agent of a broker-dealer buys for their own account from their customer, or sells for their own account to their customer, they shall buy or sell at a price which is fair,

taking into consideration all relevant circumstances, including market conditions with respect to such security at the time of the transaction, the expense involved, and the fact that they are entitled to a profit; and if they act as agent for their customer in any such transaction, they shall not charge their customer more than a fair commission or service charge, taking into consideration all relevant circumstances including market conditions with respect to such security at the time of the transaction, the expense of executing the order and the value of any service they may have rendered by reason of their experience in and knowledge of such security and the market therefor.

(5) No broker-dealer or agent of a broker-dealer shall publish or circulate, or cause to be published or circulated, any notice, circular, advertisement, newspaper article, investment service, or communication of any kind which purports to report any transaction as a purchase or sale of any security unless such broker-dealer believes that such transaction was a bona fide purchase or sale of such security; or which purports to quote the bid price or asked price for any security, unless such broker-dealer believes that such quotation represents a bona fide bid for, or offer of, such security. If nominal quotations are used or given, they shall be clearly stated or indicated to be only nominal quotations.

(6) No broker-dealer or agent of a broker-dealer shall make an offer to buy from or sell to any person any security at a stated price unless such broker-dealer or agent is prepared to purchase or sell, as the case may be, at such price and under such conditions as are stated at the time of such offer to buy or sell.

(7) A broker-dealer, when a member of a selling syndicate or a selling group, shall purchase securities taken in trade at a fair market price at the time of purchase, or shall act as agent in the sale of such securities.

(8) A broker-dealer who in the capacity of paying agent, transfer agent, trustee, or any other similar capacity, has received information as to the ownership of securities, shall under no circumstances make use of such information for the purpose of soliciting purchases, sales or exchanges except at the request and on behalf of the issuer.

(9) No broker-dealer or agent of a broker-dealer shall, directly or indirectly, give, permit to be given, or offer to give, anything of value to any person for the purpose of influencing or rewarding the action of such person in connection with the publication or circulation in any newspaper, investment service, or similar publication, of any matter which has, or is intended to have, an effect upon the market price of any security, provided that this rule shall not be construed to apply to matter which is clearly distinguishable as paid advertising.

(10) A broker-dealer at or before the completion of each transaction with a customer shall give or send to each customer written notification disclosing:

(A) whether such broker-dealer is acting as a broker for such customer and some other person; and

(B) in any case in which such broker-dealer is acting as a broker for such customer or for both such

customer and some other person, either the name of the person from whom the security was purchased or to whom it was sold for such customer and the date and the time when such transaction took place or the fact that such information will be furnished upon the request of such customer, and the source and amount of any commission or other remuneration received or to be received by such broker-dealer in connection with the transaction.

(11) A broker-dealer or agent of a broker-dealer controlled by, controlling, or under common control with, the issuer of any security, shall, before entering into any contract with or for a customer for the purchase or sale of such security, disclose to such customer the existence of such control, and if such disclosure is not made in writing, it shall be supplemented by the giving or sending of written disclosure at or before the completion of the transaction.

(12) A broker-dealer or agent of a broker-dealer who is acting as a broker for a customer or for both such customer and some other person, or a broker-dealer who is acting as a dealer and who receives or has promise of receiving a fee from a customer for advising such customer with respect to securities, shall, at or before the completion of any transaction for or with such customer in any security in the primary or secondary distribution of which such broker-dealer is participating or is otherwise financially interested, give such customer written notification of the existence of such participation or interest.

(13) The following standards shall apply to discretionary accounts:

(A) No broker-dealer or agent of a broker-dealer shall effect with or for any customer's account in respect to which such broker-dealer or agent or employee is vested with any discretionary power any transactions of purchase or sale which are excessive in size or frequency in view of the financial resources of such customer and character of such account.

(B) No broker-dealer or agent of a broker-dealer shall exercise any discretionary power in a customer's account unless such customer has given prior written authorization to a stated individual or individuals and the account has been accepted by the broker-dealer, as evidenced in writing by the broker-dealer or the partner, officer, or manager duly designated by the broker-dealer, in accordance with (22) of this subsection.

(C) The broker-dealer or the person duly designated shall approve promptly, in writing, each discretionary order entered and shall review all discretionary accounts at frequent intervals in order to detect and prevent transactions which are excessive in size or frequency in view of the financial resources of the customer and the character of the account.

(D) This section shall not apply to:

(i) discretion as to the price at which or the time when an order given by a customer for the purchase or sale of a definite amount of a specified security shall be executed, except that the

authority to exercise time and price discretion will be considered to be in effect only until the end of the business day on which the customer granted such discretions, absent a specific, written contrary indication signed and dated by the customer. This limitation shall not apply to time and price discretions exercised in an institutional account, as defined in 660:11-1-3, pursuant to valid Good-Till-Cancelled instructions issued on a "not-held" basis. Any exercise of time and price discretion must be reflected on the order ticket;

(ii) bulk exchange at net asset value of money market mutual funds ("funds") utilizing negative response letters provided:

(III) The negative response letter contains a comparative description of the investment objectives of each fund and a prospectus of the fund to be purchased; and;

(IV) The negative response feature will not be activated until at least 30 days after the date on which the letter was mailed.

(14) A broker-dealer or agent of a broker-dealer who is participating or who is otherwise financially interested in the primary or secondary distribution of any security which is not admitted to trading on a national securities exchange, shall make no representation that such security is being offered to a customer "at the market" or at a price related to the market price unless such broker-dealer or agent knows or has reasonable grounds to believe that a market for such security exists other than that made, created, or controlled by such broker-dealer or agent, or by any person for whom he is acting or with whom he is associated in such distribution, or any person controlled by, controlling or under common control with such broker-dealer or agent.

(15) No broker-dealer or agent of a broker-dealer shall effect any transaction in, or induce the purchase or sale of, any security by means of any manipulative, deceptive or other fraudulent device, practice, plan, program, design, or contrivance.

such broker-dealer or agent; and, regardless of any agreement between the broker-dealer or agent and a customer authorizing the former to lend or pledge such securities, no broker-dealer or agent shall lend or pledge more of such securities than is fair and reasonable in view of the indebtedness of the customer, except such lending as may be specifically authorized under (C) of this paragraph.

(C) No broker-dealer or agent of a broker-dealer shall lend securities carried for the account of any customer which have been fully paid for or which are in excess of the amount which may be loaned in view of the indebtedness of the customer, unless such broker-dealer or agent shall first have obtained from such customer a separate written authorization designating the particular securities to be loaned.

(E) No broker-dealer or agent of a broker-dealer shall guarantee a customer against loss in any securities account of such customer carried by the broker-dealer or in any securities transaction effected by the broker-dealer or agent with or for such customer.

(F) No broker-dealer or agent of a broker-dealer shall share directly or indirectly in the profits or losses in any account of a customer carried by the broker-dealer or agent or any other broker-dealer or agent, unless such broker-dealer or agent obtains written authorization from the broker-dealer carrying the account; and, a broker-dealer or agent shall share in the profits or losses in any account of such customer only in direct proportion to the financial contributions made to such account by the broker-dealer or agent. Exempt from the direct proportionate share limitation are accounts of the immediate family of such broker-dealer or agent. For purposes of this section, the term "immediate family" shall include parents, mother-in-law or father-in-law, husband or wife, children or any relative to whose support the broker-dealer or agent otherwise contributes directly or indirectly.

(17) The following standards shall apply to customer credit:

(A) No broker-dealer or agent of a broker-dealer shall take or carry any account or make a transaction for any customer under any arrangement which contemplates or provides for the purchase of any security for the account of the customer or for the sale of any security to the customer where payment for the security is to be made to the broker-dealer by the customer

(i) in the event such broker-dealer acts as an agent or broker in such transaction, it shall immediately, in the regular course of its business, make an actual purchase of the security for the account of the customer, and shall immediately, in the regular course of its business, take possession or control of such security and shall maintain possession or control thereof so long as it remains under obligation to delivery of the security to the customer;

The remaining three hours may consist of other topics related to clinical supervision, including instruction specific to the supervision of clinical fellows. A speech-language pathologist who has completed six hours of training is eligible to supervise both clinical fellows and speech-language pathology assistants, provided that the six-hour training includes three hours, specific to supervision of clinical fellows and three hours specific to supervision of assistants.

## Permanent Final Adoptions

All supervision must include documentation of direct and/or indirect supervision provided by the supervising speech-language pathologist to each client/patient at least every 90 calendar days. For full-time speech-language pathology assistants (full-time is defined as 30 hours or more per week) a minimum of four hours of direct supervision per month and as much indirect supervision as needed to facilitate the delivery of quality services must be maintained. For part-time speech-language pathology assistants (part-time is defined as less than 30 hours per week) a minimum of two hours of direct supervision per month and as much indirect supervision as needed to facilitate the delivery of quality services must be maintained.calendar days, a minimum of 10% of direct supervision is required with a minimum of 8 indirect supervisory activities per month. For those speech language pathology assistants working less than 20 hours per week, a minimum of 4 indirect supervisory activities are required per month. The supervising speech-language pathologist must be always available in person or by electronic means when the speech-language pathology assistant is implementing a treatment program is performing clinical activities. The supervision must be documented on a supervision log signed by the supervisor and the assistant. Direct supervision must also be documented on the client/patient session note. (a) **Rules described.** "Rules" of the Oklahoma Tax Commission are formal statements of policy which set out procedures to be followed in the administration of various tax levies and fees. Rules describe broad interpretations of the tax laws, often prescribe forms, and may set out informal and formal procedures for filing, remitting, registering and objecting to the various taxing provisions. Rules may also prescribe procedures for the granting, denial, suspension, renewal, or revocation of various permits and licenses administered by the Commission. Rules are subject to the provisions of Article I of the Oklahoma Administrative Procedures Act (APA), in Title 75 of the Oklahoma Statutes and must be promulgated under the terms of the APA before they are considered effective. Rules which have been promulgated have the full force and effect of law and continue in effect until amended or revoked under APA provisions.

(b) **Availability.** Current rules, both permanent and emergency, of the Oklahoma Tax Commission are available on the Oklahoma Tax Commission website at [www.tax.ok.gov](http://www.tax.ok.gov) or from the Taxpayer Resource Center, ~~123 Robert S. Kerr Ave~~ 300 N. Broadway Ave, Oklahoma City, OK 73102, during normal business hours.

### 710:1-3-73. Opinions and letter rulings

(a) **Opinions not issued by the Commission.** An "opinion" is a formal document, generally prepared by legal counsel, expressing conclusions that interpret or apply the law to a set of assumed facts. As so defined, the Oklahoma Tax Commission does not issue opinions. However, legal counsel may prepare such a document to advise the Commission or a taxing Division within the Commission.

(b) **"Opinion" defined.** Thus, an "opinion," with respect to the Oklahoma Tax Commission, means a written communication embodying formal legal advice, upon which the Commission may base, in whole or in part, administrative decisions, decisions in individual tax proceedings, or prospective policy decisions. Opinions, being advisory to the Commission, do not constitute authority by any party for challenging any matter pending before the Commission.

(c) **Opinion may impact policy, rulemaking.** To the degree that a policy of the Commission, based upon such a legal opinion, impacts broad segments of taxpayers and is to be given future effect by the Commission, such policy may be promulgated as a rule of the Commission.

(d) **Availability of opinions.** Such opinions as may be made available to the public, pursuant to the provisions of Section 302(A)(4) of Title 75, as further defined and limited by the terms of Section 24A.1, et seq. of Title 51, will be limited to those which are, or will be embodied in policy of the Commission.

(e) **"Letter ruling" described.** The Tax Policy and Research Division and the Office of the General Counsel may draft and issue letter rulings, which are informal written statements of policy or treatment of specific fact situations under Oklahoma tax law. Such a letter ruling may generally be relied upon only by the taxpayer to whom it is issued, provided that all facts have been accurately and completely stated, and that there has been no change in applicable law.

(f) **Requests for letter rulings.** Requests by individuals or groups of taxpayers for letter rulings will be honored by the Commission, at its discretion, and in consideration of the time and resources available to respond to such requests. Requests for letter rulings should be made to the Tax Policy and Research Division, Oklahoma Tax Commission, ~~123 Robert S. Kerr Ave~~, Oklahoma City, OK ~~73102-73194~~.

(g) **Letter ruling may initiate rulemaking.** To the degree that a letter ruling impacts broad segments of taxpayers and is to be given future effect by the Commission, such letter ruling may become the basis for a rule of the Commission.

(h) **Availability of letter rulings.** Letter rulings may be viewed at the Taxpayer Resource Center, ~~123 Robert S. Kerr Ave~~ 300 N. Broadway Ave, Oklahoma City, OK 73102, during normal business hours.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(7) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2022:**

## SUBCHAPTER 1. GENERAL PROVISIONS

### 710:10-1-4. Limitation of the fair cash value on homestead property of qualified owners; and additional homestead exemption

(a) The procedures and requirements set out in this Section shall be used to implement the limitation of the valuation on homestead property of qualified owners for ad valorem purposes and the additional homestead exemption:

(b) For purposes of qualifying for the senior valuation limitation and/or the additional homestead exemption "**gross household income**" means the gross amount of income of every type, regardless of the source, received by all persons occupying the same household, whether such income was taxable or nontaxable for federal or state income tax purposes,

including pensions, annuities, federal Social Security, unemployment payments, public assistance payments, alimony, support money, workers' compensation, loss-of-time insurance payments, capital gains and any other type of income received, and excluding gifts. The term "gross household income" shall not include any veterans' disability compensation payments, or the amount of any federal stimulus or relief payments related to the COVID-19 virus.

(c) **"Senior valuation limitation"** means the implementation of Oklahoma Constitution, Article 10, Section 8C, which directed county assessors to limit the fair cash value of the homestead property of any qualified person who has made proper application. The applicant's property must be a valid homestead property, with proper evidence of a homestead or an application made in 1997 or subsequent years. As with any homestead, the general statutes for homestead qualification apply to the limitation. Only one homestead, and by extension, only one limitation is permitted in any one year. The limitation applies only to the occupied homestead property and may not be applied to non-homestead property. [See: 68 O.S. §§ 2888, 2889, 2890, 2893].

(1) **Relationship to exemptions and other programs.**

The senior valuation limitation is available to qualified owners in addition to participation in the circuit breaker and additional homestead exemption. Availability of the senior valuation limitation is not dependent upon the county's compliance status with the State Board of Equalization.

(2) **Qualified owner.** The taxpayer must be at least 65 the year before the senior valuation limitation is approved, and the applicant's total household annual income for the previous year must not exceed the amount as provided in the Oklahoma Constitution, Article 10, Section 8C. The income threshold for the gross household income from all sources for an individual head of household under this Section shall not exceed the amount determined by the United States Department of Housing and Urban Development to be the estimated median income for the preceding year for the county or metropolitan statistical area which includes such county. The Tax Commission shall provide this information to each county assessor each year, as soon as it is available.

(3) **Application; qualification; duties of assessor; right of appeal.** In order to be eligible for the senior valuation limitation, the individual must apply at the county assessor's office by completing form OTC 994, Application for Property Valuation Limitation and Additional Homestead Exemption. The application must be made between January 1 and March 15. The limitation will be in effect for the tax year in which the application is made and approved, based on the current year valuation.

(A) For the limitation to be valid, form OTC 994, Application for Property Valuation Limitation and Additional Homestead Exemption, must be completed in its entirety as to income, age, ownership, and other information.

(B) The county assessor has the right and duty to review the information provided, ask any necessary

questions, request documentation of age, income, or other information.

(C) The county assessor shall deny any application that is inaccurate, incomplete, inadequately documented, or otherwise invalid pursuant to this Section.

(D) The county assessor may request assistance from the Oklahoma Tax Commission in determination of income qualifications under 68 O.S. § 2890.

(E) The taxpayer may appeal any denial of a senior valuation limitation application by the county assessor to the county board of equalization in the same manner as an appeal of the denial of a homestead exemption.

(4) **Review of valuation for error.** The county assessor should review the valuation of the property for clerical errors, incorrect physical characteristics, or other material error affecting valuation in order to protect the taxpayer. This review shall not include a revaluation of the property solely because it may be below fair cash value.

(5) **Physical improvements to property.** If a physical improvement is made to the property, such as a room addition, additional square footage, garage, out buildings, enclosed garage, or similar improvement, the improvement shall be valued in the same manner as these improvements are presently valued. This additional valuation shall be added to the limited value of the property before the construction occurred. If improvements are added to the property, the fair cash value shall be increased by the amount attributable to the addition. The new total value is then limited again, so long as the owner and property remain qualified. Physical additions or changes that are considered normal maintenance, such as normal repairs, minor re-modeling, roof repair or insulation, minor energy efficiency improvements, or retro fit improvements such as wheelchair ramps to provide access to the property, are not generally considered physical improvements affecting the valuation limitation.

(6) **Duration of, and conditions which terminate the limitation.** The senior valuation limitation is valid on the property as long as the taxpayer owns and occupies the property and title to the property is not transferred, changed, or otherwise modified. If the taxpayer fails to own and occupy the property or if title to the property is transferred, changed, or conveyed to another person, the senior valuation limitation shall expire. It is then the responsibility of the county assessor to value the property at fair cash value consistent with constitutional provisions, statutes and applicable rules. If the person's gross household income from all sources exceeds the amount provided in the Oklahoma Constitution, Article 10, Section 8C, the senior valuation limitation shall expire and the value of the property shall be subject to the three percent limitation increase for that year.

(7) **Instances in which tax amount may increase, despite limitation.** The senior valuation limitation applies to the valuation, however; tax increases may occur under the specific situations outlined as follows:

# Permanent Final Adoptions

(A) If an additional millage such as a bond issue or other levy is added;

(B) If judgment is rendered against the county and a judicial order directs an additional levy; or,

(C) If the county voters adopt a measure increasing the assessment percentage within the county under the authority of Section 8, Article 10, of the Oklahoma Constitution.

(8) **Additional homestead exemption.** "Additional homestead exemption" means an exemption in addition to the amount of the homestead exemption authorized and allowed in Section 2889 of this Title 68, to the extent of One Thousand Dollars (\$1,000.00) of the assessed valuation on each homestead of heads of households whose gross household income from all sources for the preceding calendar year did not exceed ~~Twenty~~ Twenty-Five Thousand Dollars (~~\$20,000.00~~)(\$25,000.00).

(A) To qualify for the additional homestead exemption, the individual must apply at the county assessor's office by completing form OTC 994, Application for Property Valuation Limitation and Additional Homestead Exemption.

(B) The application must be made on or before March 15 or within thirty (30) days of taxpayer's receipt of a County Assessor Notice of Increase in Valuation of Real Property form (OTC 926) whichever is later. [68 O.S. § 2890(C)].

## SUBCHAPTER 2. BUSINESS PERSONAL PROPERTY VALUATION SCHEDULES

### 710:10-2-1. General provisions

(a) **Purpose.** The provisions of this Subchapter have been adopted, pursuant to 68 O.S. § 2875(D)(4), to provide information regarding the schedules of values of personal property given to county assessors to assist in the assessment of personal property.

(b) **Schedules of values.** Schedules of values are intended only to provide the user with an approximation of value for the personalty "typical" for the class, not an absolute value.

(c) **Schedules of trending and depreciation.** Trending schedules are used to adjust historical cost to a current estimated replacement cost new. (4) **Base payroll** means total payroll for the calendar year the construction, acquisition, or expansion assets are first placed in service and the subsequent four (4) calendar years of eligibility.

(5) **Initial payroll** means payroll for the calendar year immediately preceding the initial construction, acquisition or expansion. In the event initial payroll is not comprised of a complete year's payroll, the amounts reported must be computed to arrive at an annual figure.

(b) **Qualification or statutory requirements.** ~~Except as otherwise provided in (6) and (7) of this subsection, To qualify for exemption facilities other than those discussed in subsections (c) and (d) must meet the requirements mandated by statute and summarized in (1) through (5) of this subsection:~~

(1) Facilities must satisfy the requirement of being new, expanded, or acquired.

(2) The investment cost of the construction, acquisition or expansion of the manufacturing facility must be Two Hundred Fifty Thousand Dollars (\$250,000.00) or more within the calendar year in which the construction, acquisition or expansion occurred. The investment cost of the construction, acquisition or expansion of the manufacturing facility must be Five Hundred Thousand Dollars (\$500,000.00) or more with respect to assets placed into service during calendar year 2022. For subsequent calendar years, the investment required shall be increased annually by a percentage equal to the previous year's increase in the Consumer Price Index-All Urban Consumers ("CPI-U") and such adjusted amount shall be the required investment cost in order to qualify for the exemption authorized by 68 O.S. § 2902. The Oklahoma Tax Commission shall publish on its website at least annually the adjusted dollar amount in order to qualify for the exemption and shall include the adjusted dollar amount in any of its relevant forms or publications with respect to the exemption. Investment Cost shall not include the cost of direct replacement, refurbishment, repair or maintenance of existing machinery or equipment, except that "investment cost" shall include capital expenditures for direct replacement, refurbishment, repair or maintenance of existing machinery or equipment that qualifies for depreciation and/or amortization pursuant to the Internal Revenue Code of 1986, as amended, and such expenditures shall be eligible as part of an "expansion" that otherwise qualifies under this section.

(3) Base payroll for the calendar year the assets are placed in service must be increased over initial payroll by at least Two Hundred Fifty Thousand Dollars (\$250,000.00) if the facility is located in a county with a population of less than seventy-five thousand (75,000) persons according to the most recent federal decennial census or by at least One Million Dollars (\$1,000,000.00) if the facility is located in a county with a population of seventy-five thousand (75,000) or more, according to the most recent federal decennial census. For the subsequent four years of eligibility, base payroll must be maintained

in an amount equal to, or greater than, the base payroll amount established for the calendar year the assets are first placed in service. The Oklahoma Tax Commission may request verification from the Oklahoma Department of Commerce that an establishment seeking an exemption for real or personal property pays an average annualized wage that equals or exceeds the average wage requirement in effect for the year in which the real or personal property was placed into service. It shall not be necessary for the establishment to qualify for incentive payments pursuant to the Oklahoma Quality Jobs Program Act, but the establishment shall be subject to the wage requirements of the Oklahoma Quality Jobs Program Act with respect to new direct jobs in order to qualify for the exempt treatment authorized by this section.

(A) To determine initial and base payroll, the Tax Commission must verify all payroll information through the Oklahoma Employment Security Commission (OESC) utilizing reports filed with the OESC for the applicable calendar years. [See: 68 O.S. § 2902(C)(4)].

(B) The amount of increased payroll shall include payroll for full-time-equivalent employees in this state who are employed by an entity other than the facility which has qualified to receive an exemption pursuant to the provisions of this Section and who are leased or otherwise provided to the facility, if such employment did not exist in this state prior to the start of initial construction or expansion of the facility.

(C) A manufacturing facility shall have the option of excluding certain components from its payroll. Manufacturing facilities electing to exclude either of the options in (i) or (ii) of this subparagraph, shall document the election by an attached addendum to the application at time of filing which states in detail any payroll exclusions. The signed affidavit must state that from the start of initial construction, acquisition, or expansion, to the completion of said construction, acquisition, or expansion, or for three (3) years, whichever occurs first, the establishment or expansion of the facility will result in a net increase of the required base payroll. When the increased payroll requirement is met, the affidavit will be considered satisfied and no longer in effect.
