PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(7) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2022:

SUBCHAPTER 1. GENERAL PROVISIONS

710:45-1-3. Security required

(a) Bond required generally. As a condition for assignment of a gross production tax purchaser reporting number and/or as a condition for approval to remit gross production taxes, a tax remitter must post a bond in an amount equal to an estimated three months' tax liability. The Tax Commission, in its discretion, may authorize a reduced bond amount.

(b) Adjustment of bond in applicable cases. At the end of one year, the tax remitter may reduce its bond to an amount equal to one month's tax liability, based upon a monthly average of the prior year's tax liability, provided that a reduction in the bond amount will be permitted only if the tax remitter has had no tax deficiencies or delinquencies in the prior year. Upon approval by the Tax Commission, the bond amount may be adjusted annually thereafter, depending upon fluctuations in the yearly tax liability of the tax remitter.

(c) Adjustment of bond for estimated payment. A tax remitter who has paid the one-time estimated gross production tax payment required by 68 O.S. § 1010a, will be permitted, upon request, to reduce the amount of surety bond required by the amount of the estimated payment. However, the one-time payment of gross production tax may not be reduced or refunded until the taxpayer is no longer required to remit gross production taxes.

(d) When bond is not required. Taxpayers who have an estimated liability of One Thousand Dollars (\$1,000.00) or less per year are not required to post a bond.

(e) Applicability. This Section does not apply to bond requirements for reclaimers and transporters which are governed by separate rules in this Chapter.

## SUBCHAPTER 3. RETURNS AND REPORTS

### PART 7. OTHER REQUIRED REPORTING

#### 710:50-3-53. Income tax withholding - oil and gas royalties

(a) Effective for royalty payments made on or after October 1, 2000 and before July 1, 2006, any remitter who distributes revenue to a non-resident royalty interest owner is required to deduct and withhold Oklahoma income tax from each payment being made with respect to production of oil and gas in Oklahoma. The amount of income tax to be withheld is six and three-fourth's percent (6.75%) of the gross royalty amount paid. Effective for royalty payments made on or after July 1, 2006, the rate of withholding for any remitter who distributes revenue to a non-resident royalty interest owner is ~~five percent (5%)~~ the highest Oklahoma marginal individual income tax rate with respect to production of oil and gas in Oklahoma

(b) For purposes of this Section, "remitter" means any person who distributes revenue to royalty interest owners; "gross royalty" means that amount which is reported for federal income tax purposes on IRS Form 1099; "non-resident royalty interest owner" means any person who is not a current or permanent resident of Oklahoma who retains a non-working interest in oil or gas production; and "oil" and "gas" shall have the meaning as the terms are defined in 68 O.S. § 1001.2. Oil and gas royalty payments made to publicly-traded partnerships as defined by Section 7704 (b) of the Internal Revenue Code that are treated as partnerships for federal tax purposes or its publicly-traded partnership affiliates are not subject to the withholding requirement in subsection (a).

(c) Remitters are required to file an Oklahoma Nonresident Royalty Withholding Tax Return and pay the Oklahoma income tax withheld on a quarterly basis, pursuant to this subsection:

(1) For royalty payments made during January, February, and March, the amount withheld is due no later than April 30;

(2) For royalty payments made during April, May, and June, the amount withheld is due no later than July 30;

(3) For royalty payments made during July, August, and September, the amount withheld is due no later than October 30; and

(4) For royalty payments made during October, November, and December, the amount withheld is due no later than January 30 of the following year.

(d) The remitter is also required to provide non-resident individual royalty owners and the Oklahoma Tax Commission an annual written statement showing the name of the remitter, to whom the royalty was paid, the amount of the royalty payment and the amount of Oklahoma income tax withheld. Further, the statement must also furnish the royalty owner's name, address, and social security number or Federal Employer Identification Number. This annual filing with the Oklahoma Tax Commission may be done separately, or in conjunction with the annual reporting requirement under 68 O.S. § 2369, if applicable to the remitter.

(e) Any non-resident royalty interest owner from whom an amount is withheld pursuant to the provisions of this Section, and who files an Oklahoma income tax return is entitled to a credit for the amount withheld. If the amount withheld is greater than the tax due, the non-resident royalty interest owner will be entitled to a refund of the amount of the overpayment.

(f) If the non-resident royalty interest owner is a pass-through entity, the pass-through entity shall allocate the non-resident royalty withholding to its partners, shareholders or members in the same manner as the royalty income.

**710:50-3-54. Income tax withholding for pass-through entities**

  - (5) When a pass-through entity is a publicly traded partnership, as defined by Section 7704(b) of the Internal Revenue Code, and is treated as a partnership for purposes of the Internal Revenue Code. - (g) **Due dates for payment of pass-through entity withholding.** Pass-through entities that withhold income tax on distributions of taxable income to non-resident members are required to remit the amount of tax withheld from each non-resident member on or before the due date of the pass-through entity's income tax return, including extensions. - (h) **Required reports.** The pass-through entity is required to provide non-resident members and the Oklahoma Tax Commission an annual written statement showing the name of the pass-through entity, to whom the distribution was paid, the amount of taxable income distributed, and the amount of Oklahoma income tax withheld. Further, the statement must also furnish the non-resident member's name, address, and social security number or Federal Employer Identification Number. To accomplish this:
- (1) Each pass-through entity must provide non-resident members with Oklahoma Tax Commission Form 500-B on or before the due date of the pass-through entity's income tax return, including extensions. If the amount withheld is greater than the tax due, the non-resident member will be entitled to a refund of the amount of the overpayment.
- (j) **Pass-through entities must register.** Pass-through entities that make distributions subject to Oklahoma withholding must register with the Oklahoma Tax Commission.
- (k) **Affidavit filing procedures.** Non-resident members who elect to file a Nonresident Member Withholding Exemption Affidavit agreeing to be subject to the personal jurisdiction of the Tax Commission in the courts of this state for the purpose of determining and collecting any Oklahoma taxes, including estimated tax payments, and any related interest and penalties, must remit the affidavit to the appropriate pass-through entity. The pass-through entity is to retain the affidavit and the Oklahoma Tax Commission by the due date of the required annual tax return of the pass-through entity.

- (2) **Federal income taxes.** Federal Income Taxes are not deductible.
- (3) **Federal loss carryback/carryforward.** A Federal net operating loss carryover or carryback will not be utilized in determining Oklahoma taxable income. For the allowance of Oklahoma Net Operating Loss deduction refer to (4) of this Section.
- (4) **Oklahoma net operating loss carryback/carryover.** An election may be made to forego the Net Operating Loss (NOL) carryback period. A written statement of the election must be part of the timely filed Oklahoma loss year return.

(A) **Oklahoma net operating loss.** [See: 68 O.S. § 2358(A)(3)]

(i) An Oklahoma Net Operating Loss (NOL) may be carried back or over in accordance with 26 U.S.C.A. § 172 until December 31, 1992. However, no Oklahoma NOL can be carried back to years beginning before January 1, 1981 unless there is a Federal NOL carryback from the same loss year to the same carryback year.

(I) For net operating losses incurred for tax years beginning on or after January 1, 2001, and ending on or before December 31, 2007, the loss **carryback** shall be for a period as allowed in the Internal Revenue Code; and

(II) For tax years beginning after December 31, 2007, and ending before January 1, 2009, the loss carryback period shall be for a period of two (2) years; and

(III) For tax years beginning after December 31, 2008, the loss carryback period shall be for a period as allowed by Section 172 of the Internal Revenue Code.

(ii) Any Oklahoma Net Operating Loss (NOL) carryback not allowed, due to no Federal loss carryback to the same year, may still be carried back to the years beginning after December 31, 1980, or carried over until utilized, without regard to a Federal loss.

(B) **Oklahoma net operating loss computation for carryback to years beginning before January 1, 1981.** The following shall apply to Oklahoma net operating loss before January 1, 1981:

(i) Consolidated federal filing: In the loss year, the percentage of the Oklahoma loss to all loss companies in the consolidation. (If no consolidated loss, there is no NOL allowable.)

(ii) Separate company federal filing: In the loss year, the percentage of the Oklahoma loss to Federal loss. (If no Federal loss, there is no NOL allowable.) This percentage is then applied to the Federal NOL (each loss year separately) when it is taken (absorbed) on the filed Federal Return. The

Oklahoma NOL can be used in the same Oklahoma year it is used on the filed Federal Return year.

(5) **Oklahoma accrued income tax.**

~~(A) Oklahoma will allow a deduction for Oklahoma Accrued Income Tax. The Oklahoma Accrued Income Tax is computed by dividing Oklahoma Net Income by the number 21 (twenty one) for tax years beginning after December 31, 1984, and the number 26 (twenty six) for tax years beginning before January 1, 1985. For tax years beginning after December 31, 1989, the number 17.6667 shall be used as follows:~~

~~(i) Divide the Oklahoma net income by the number 26 for tax years beginning before January 1, 1985.~~

~~(ii) Divide the Oklahoma net income by the number 21 for tax years beginning after December 31, 1984 and ending before January 1, 1990.~~

~~(iii) Divide the Oklahoma net income by the number 17.667 for tax years beginning after December 31, 1989 and ending before January 1, 2022.~~

~~(iv) Divide the Oklahoma net income by the number 26 for tax years beginning after December 31, 2021.~~

(B) There is no deduction for Oklahoma ~~Accrued Income Tax~~ **accrued income tax** when Oklahoma ~~Net Income~~ **net income** is a loss. [See: 68 O.S. § 2358(A)(5)] When credits are allowed, the accrual of Oklahoma tax will not be allowed on the amount of Oklahoma taxable income that is covered by the credit, except for credits that have been acquired by transfer. The amount paid for credits that have been acquired by transfer can be used as a payment of tax for purposes of computing the deduction for Oklahoma accrued tax. Tax accrual is allowed on the amount of income for which tax is actually paid. The example in Appendix A of this Chapter shows how the accrual should be calculated. A schedule such as the example should be attached and submitted with Form 512.

(6) **Expenses allocated to nontaxable income.** 68 O.S. § 2358(A)(4) provides that deductions should be allocated to assets that may produce nontaxable income.

(A) An adjustment is required when a corporation has an investment in assets which produce income which is non-unitary, or separately allocable. Such items may include, but are not limited to, investments in subsidiaries, other corporation's bonds, U.S. Obligations or other types of securities that produce income which is excluded from Oklahoma income.

(B) A ratio is used to allocate expenses between unitary business operations and all other activities that do not produce unitary income. The manner in which this adjustment is made is as follows: A fraction, or percentage, is computed by dividing the average of investment in assets, the income from which is allocable, by the average of total assets. This percentage is

then applied to certain expenses claimed on the return to arrive at the amount of expenses related to non-unitary business, and the resulting amount is added back to federal taxable income.

(C) Generally, interest expense is the only expense against which the adjustment described in subparagraph (B) of this paragraph is applied. However, facts and circumstances may indicate that other expenses should be considered in this allocation. This adjustment will be considered in all cases where deemed appropriate. [See: 68 O.S. § 2358(A)(4)] [See example in Appendix E of this Chapter]

(7) **Interest income.**

(A) **U.S. obligations.** Interest income from U.S. obligations is excluded from Federal taxable income to arrive at Oklahoma taxable income. Interest income received from FNMA, GNMA, or the Internal Revenue Service is not income from an obligation of the U.S. government and cannot be excluded to arrive at Oklahoma taxable income.

(B) **Other interest income.**

(i) Interest income is to be directly allocated to the domiciliary situs of the taxpayer; except that interest income received from accounts receivable income shall be included in apportionable income.

(ii) There shall be added to Oklahoma taxable income, interest income on obligations of any state or political subdivision thereof which is not otherwise exempted pursuant to Federal laws or laws of this State, to the extent said interest is not included in federal taxable income or adjusted gross income.

(8) **Dividends.** Dividends are to be allocated to the domiciliary situs of the taxpayer. [See: 68 O.S. § 2358(A)(4)(b)]

(A) For purposes of calculating Oklahoma taxable income, foreign earnings deemed repatriated pursuant to 26 U.S.C. § 965 shall be considered dividend income and shall be allocated to the domiciliary situs of the taxpayer.

(i) To the extent such income is not included in the calculation of a taxpayer's federal taxable income due to inclusion on an IRC 965 Transition Tax Statement rather than the income tax return, the income shall be included on the Oklahoma return as an addition to net taxable income.

(ii) If a taxpayer elects to make installment payments of tax pursuant to the provisions 26 U.S.C. § 965, such election may also apply to the payment of Oklahoma income tax, attributable to the income upon which such installment payments are based.

(B) For purposes of calculating Oklahoma taxable income, global intangible low-taxed income included in federal income pursuant to 26 U.S.C. § 951A shall be considered dividend income and shall be allocated to the domiciliary situs of the taxpayer.

(9) **Domestic International Sales Corporation (DISC) and Foreign Sales Corporation (FSC) Commission Expense.** Expenses incurred in producing DISC and FSC Dividend income shall be allocated on the same basis as the DISC and FSC Dividend income. [See: 68 O.S. § 2358(A)(4)]

(10) **Net oil and gas income.** Income or loss from oil and mining production or royalties, and gains or losses from sales of such property, shall be allocated in accordance with the situs of such property. General and administrative expenses will be allocated on the basis of Oklahoma direct expense to total direct expense. [See: 68 O.S. § 2358(A)(4)(a)]

(11) **Oklahoma 22% depletion.** Oklahoma depletion on oil and gas may be computed at twenty-two percent (22%) of gross income derived from each Oklahoma property during the taxable year.

(A) For tax years beginning on or after January 1, 2001, and ending on or before December 31, 2011, and for tax years beginning on or after January 1, 2014, major oil companies, as defined by 52 O.S. § 288.2(4), shall be limited to fifty percent (50%) of net income for such property (computed without allowance for depletion).

(B) During years not specified herein, the Oklahoma depletion allowance, for all taxpayers, shall not exceed fifty percent (50%) of the net income of the taxpayer (computed without allowance for depletion) from the property.

(C) The percentage depletion calculated shall not be a duplication of the depletion allowed on the Federal Income Tax Return. [See: 68 O.S. § 2353(10)]

(12) **Net rental income and safe harbor leasing.** The following provisions apply to the treatment of net rental income and safe harbor leasing:

(A) ~~Net Rental Income~~ net rental income is separately allocated. [See: 68 O.S. § 2358(A)(4)]

(B) A schedule of ~~Net Rental Income~~ net rental income is required to be filed with the return showing gross income and all expenses (depreciation, repairs, taxes, interest, general and administrative expense, etc.).

(13) **Royalties; patents; copyrights.** [See: 68 O.S. § 2358(A)(5)]

(A) Income from patent or copyright royalties is apportionable.

(B) Income from which expenses have been deducted in producing such patent or copyright royalties in arriving at apportionable income (including the purchase of such patent or copyright royalties) shall be apportionable.

(14) **Capital gains or loss - 4797 gains or loss.**

(A) Gains (losses) from the sale or other disposition of unitary assets or any other assets used in the unitary enterprise are apportionable. [See: 68 O.S. § 2358(A)(5)]

## Permanent Final Adoptions

---

(B) Gains (losses) from sale of property, the income from which is separately allocated shall also be separately allocated.

**(15) Partnership income or loss from corporate partners.**

(A) Partnership income or loss shall be separately allocated. [See: 68 O.S. § 2358(A)(4)]

(B) The Oklahoma distributive share of partnership income as determined under 68 O.S. § 2358 and 68 O.S. § 2362 shall be allocated to Oklahoma.

**(16) Overhead allocation.** The Commission may adjust or allocate overhead expenses to or from a parent or subsidiary, or between divisions in order to more accurately reflect the overhead expenses. [See: 68 O.S. § 2366]

**(17) Federal new jobs credit deduction.** For tax years beginning after December 31, 1980, the Federal New Jobs deduction is disallowed due to Oklahoma's own Investment/New Jobs Credit.

**(18) Deductions related to directly allocated income/loss.** Deductions incurred in producing income of a nonunitary nature shall be allocated on the same basis as the income. (Examples: Liquidation of subsidiaries, worthless stock loss, bad debts due subsidiaries on sale of stock, etc.) [See: 68 O.S. § 2358(A)(4)]

**(19) Intercompany eliminations.** There are no provisions to allow intercompany eliminations in computing the income of each company filing an Oklahoma Consolidated Return.

**(20) Other income.** Generally, other income, unless it is separately allocable under 68 O.S. § 2358(A)(4) is apportionable. [See: 68 O.S. § 2358(A)(5)]

**(21) Add-back of federal bonus depreciation for Oklahoma Income Tax purposes.** Generally, corporations claiming the federal bonus depreciation (as allowed under provisions of the federal *Job Creation and Workers Assistance Act of 2002*, the provisions of the federal *Economic*

*Stimulus Act of 2008* or the federal *American Recovery and Reinvestment Act of 2009*) are required to add back a portion of the bonus depreciation and then claim it in later years for Oklahoma Income Tax purposes.

(A) Corporations filing Oklahoma Income Tax Returns will have to add back eighty percent (80%) of any bonus depreciation claimed under provisions of the federal *Job Creation and Workers Assistance Act of 2002*, the federal *Economic Stimulus Act of 2008* or the federal *American Recovery and Reinvestment Act of 2009*. Any amount added back can be claimed in later years. Twenty-five percent (25%) of the amount of bonus depreciation added back may be subtracted in the first taxable year beginning after the bonus depreciation was added back, and twenty-five percent (25%) of the bonus depreciation added back may be deducted in each of the next three succeeding taxable years.

(B) The provisions relating to the add-back of the federal bonus depreciation apply only to C-Corporations and are not applicable to corporations which have elected to be treated as Subchapter S Corporations pursuant to 26 U.S.C. § 1361 et seq. of the Internal Revenue Code, nor to Limited Liability Companies.

**(22) Add-back of applicable Section 179 expenses.** For tax years beginning on or after January 1, 2009 and ending on or before December 31, 2009, any amount in excess of One Hundred Seventy-five Thousand Dollars (\$175,000.00) which has been deducted as a small business expense under Internal Revenue Code Section 179 as provided in the federal *American Recovery and Reinvestment Act of 2009* must be added back to Oklahoma taxable income.

Sections 710:65-1-7 and 710:65-7-13 have been amended to update the list of entities which may pass through their sales tax exemption to a contractor for purposes of fulfilling a public contract with the exempt entity.

Section 710:65-7-15 has been amended to add existing entities exempted from sales tax on their purchases with the applicable documentation to be accepted by the vendor for purposes of a vendor's relief from liability to collect sales tax.

tax exemption; Section 2 of SB 415 [2021], effective April 28, 2021 which provides that qualifying 100% veterans receiving the referenced exemption prior to November 1, 2020, must register with the veterans registry prior to July 1, 2023, in order to remain qualified for exemption and HB 2780 [2021] which provides that in order to claim a refund of sales taxes erroneously paid, the eligible taxpayer must submit to the OTC a signed notification of the vendor's denial of the sales tax exemption for 100% disabled veterans. [68:1357, 1361.2]

New Sections 710:65-13-368 and 710:65-13-369 have been added to outline the process to qualify for the sales tax exemption for sales of tangible personal property or services used solely for construction and remodeling projects to a qualifying organization that is exempt from taxation pursuant to the provisions of the IRC, 26 U.S.C., Section 501(c)(3) and for the sales tax exemption to qualified non-profit organizations that provide repair or restoration of single-family dwellings or the construction of a replacement single-family dwelling following a natural disaster. The referenced sales tax exemptions were enacted pursuant to the passage of HB 1935 [2021], effective November 1, 2021. [68:1356]

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(7) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2022:**

**SUBCHAPTER 1. GENERAL PROVISIONS**

**710:65-1-7. Consumer/user defined; specific applications**

"Consumer" or "user" means a person to whom a taxable sale of tangible personal property is made or for whom a taxable service is performed.

(1) **Hospitals, sanitariums, nursing homes and emergency medical care.** Hospitals and sanitariums are primarily engaged in the business of selling services, and for the purposes of the Sales Tax Code are considered to be the consumers or users of all tangible personal property and services used in the operation of the institution. Thus, the gross proceeds derived from sales of tangible personal property and certain services to such institutions

are subject to tax. This paragraph applies to all hospitals, sanitariums and nursing homes, including those owned or operated by churches, fraternities, cooperatives, or any other organization, except those operated by the Federal Government, the State, or a political subdivision thereof.

(2) **Withdrawals from stock.** If any business purchases tangible personal property for resale, manufacturing or further processing and that business withdraws tangible personal property, either from its inventory or after such inventory has been manufactured or processed for its own use or consumption, that business has made a taxable sale and the value of the property withdrawn is taxable at its "sales value", as defined in OAC 710:65-1-2. The business withdrawing tangible personal property from inventory should include the "sales value" of such property in gross receipts or gross proceeds on its sales tax report for the month the property was withdrawn.

(3) **Contractors.** Contractors are consumers or users, and must pay sales tax on all taxable services and tangible personal property, including materials, supplies, and equipment, purchased to develop and improve real property. Examples of contractors subject to this paragraph are: painting contractors, road contractors, grading and excavating contractors, electrical contractors, plumbing contractors, and other persons engaged in a contractual arrangement to make improvements on real property. A person working for a salary or wage is not considered a contractor. The Sales Tax Code limits the ability of contractors to make purchases exempt from sales tax based on the exempt status of another entity to the following situations: [See: 710:65-7-6 and 710:65-7-13]

(A) A contractor who has a public contract, or a subcontractor to that public contract, with an Oklahoma municipality, county, public school district, city-county library system, an institution of the Oklahoma System of Higher Education, a rural water district, the Grand River Dam Authority, the Northeast Oklahoma Public Facilities Authority, the Oklahoma Municipal Power Authority, the City of Tulsa-Rogers County Port Authority, the Broken Bow Economic Development Authority, the Muskogee City-County Port Authority, the Oklahoma Ordnance Works Authority, the Durant Industrial Authority, the Ardmore Development Authority, the Oklahoma Department of Veterans Affairs, the Central Oklahoma Master Conservancy District, Arbuckle Master Conservancy District, Fort Cobb Master Conservancy District, Foss Reservoir Master Conservancy District, Mountain Park Master Conservancy District, Waurika Lake Master Conservancy District or Department of Central ~~Central~~ the Office of Management and Enterprise Services only when carrying out a public construction contract on behalf of the Oklahoma Department of Veterans Affairs and effective July 1, 2022, the University Hospitals Trust may make purchases of tangible personal property or services, which are necessary for carrying out the public contract, exempt from sales tax.

(B) A contractor who has entered into a contract with a private institution of higher education or with a private elementary or secondary institution, may make purchases of tangible personal property or services, including materials, supplies and equipment used in the construction of buildings owned and used by the institution for educational purposes exempt from sales tax.

(C) A contractor who has contracted with an agricultural permit holder to construct a facility which will be used directly in the production of any live-stock, including facilities used in the production and storage of feed for livestock owned by the agricultural permit holder, may make purchases of materials, supplies and equipment necessary to fulfill the contract, exempt from sales tax.

(D) A contractor may make purchases of materials, supplies and equipment necessary to fulfill a contract, exempt from sales tax, for use on campus construction projects for the benefit of institutions of the Oklahoma State System of Higher Education or private institutions of higher education accredited by the Oklahoma State Regents for Higher Education. The projects must be financed by or through the use of nonprofit entities which are exempt from taxation pursuant to Section 501(c)(3) of the Internal Revenue Code.

(E) A contractor may make purchases of machinery, equipment, fuels, and chemicals or other materials, exempt from sales tax, which will be incorporated into and directly used or consumed in the process of treatment of hazardous waste, pursuant to *OAC 710:65-13-80*. ### SUBCHAPTER 3. REPORTS AND RETURNS; PAYMENTS AND PENALTIES; RECORDS

#### PART 1. GENERAL PROVISIONS

##### **710:65-3-1. Reports, payments, and penalties**

(a) **Monthly reporting.** Every vendor, except as noted in (b), (c) and (d) of this Section, shall file with the Commission on or before the 20th day of each month, a report on forms to be obtained from the Commission, covering sales for the previous calendar month.

(b) **Semiannual reporting.** Any vendor who is classified as a Group Three vendor or whose total tax liability for any one (1) month does not exceed Fifty Dollars (\$50.00) must notify the Commission of its intent to file a semiannual return and remittance in lieu of a monthly return and remittance, provided the vendor qualifies.

(1) **Qualification.** To qualify, the vendor must substantiate that the vendor is in business making sales incidental to that business, or is seasonal or transient, or makes sales through peddlers, solicitors or other salesmen without an established place of business. Otherwise, to qualify, filing records will have to substantiate the fact that the vendor's sales tax liability, for the past six (6) consecutive months immediately preceding the date of the application, has not exceeded Fifty Dollars (\$50.00) in any one month. Requests to file semiannually should be directed to the Registration Section of the Business Tax Services Division, Oklahoma Tax Commission, P.O. Box 269057, Oklahoma City, Oklahoma ~~73126~~ 905773194 or by FAX at (405) 521-3826.

(2) **Commencement of semiannual reporting.** It should be clearly understood that semiannual filing should not be commenced until the Commission notifies taxpayer, in writing, that Commission records have been amended to reflect semiannual filing status. Failure to follow this procedure may result in taxpayer receiving assessments, adjustments, etc. for the months of February through June and August through December.

(3) **Semiannual reporting due dates.** When the application for semiannual filing has been approved, returns shall be filed on or before the 20th day of January and July of each year for the preceding six (6) months' period.

(4) **Revocation of authorization.**

(A) Conditions that could cause revocation of the authorization to report semiannually are:

(i) In the event that the vendor filing the return on a semiannual basis becomes delinquent in either the filing of the return or the payment of the taxes due thereon, or

(ii) In the event that the liability of a vendor, who has been authorized to file returns and to make payments on a semiannual basis, exceeds Fifty Dollars (\$50.00) in sales tax for any one month, or

(iii) In the event that the Commission determines that any semiannual filing or return or any payment of tax due thereon would unduly jeopardize the proper administration of the Oklahoma Sales Tax Law.

(B) If the Commission decides it is necessary to revoke the authorization to file semiannually in relation to any of the conditions in (A) of this paragraph, the taxpayer will be required to file returns and to pay the tax due on a monthly basis.

(c) **Semimonthly electronic reporting.** Persons owing an average of Two Thousand Five Hundred Dollars (\$2,500.00) or more, per month, in total sales taxes for the previous fiscal year shall remit the tax due and shall participate in the Tax Commission's electronic funds transfer and electronic data interchange program, according to the following schedule:

(1) For sales from the first (1st) day through the fifteenth (15th) day of each month, the tax shall be due and payable on the twentieth (20th) day of the month, and remitted to the Tax Commission by electronic funds transfer. A taxpayer will be considered to have complied with the requirements of this paragraph if, on or before the twentieth (20th) day of each month, the taxpayer paid at least ninety (90) percent of the liability for that fifteen-day period, or at least fifty (50) percent of the liability incurred during the immediate preceding calendar year for the same month; and

(2) *For sales from the sixteenth (16th) day through the end of each month, the tax shall be due and payable on the twentieth (20th) day of the following month, and remitted to the Tax Commission by electronic funds transfer; [See: 68 O.S. § 1365(D)(2)]*

(d) **Electronic reporting.** Beginning June 1, 2007, all new sales tax registrants required to report and remit sales tax shall file their monthly sales tax report in accordance with the Tax Commission's electronic funds transfer and electronic data interchange program unless the vendor receives an exception to the electronic filing requirement pursuant to OAC 710:65-3-4(c).

(e) **Electronic reporting; due dates; delinquency dates.** Persons required to remit the tax due pursuant to subsection (c) and (d) shall file a monthly sales tax report in accordance with

the Tax Commission's electronic data interchange program on the twentieth (20th) day of the month following that in which the sales occurred. Taxes not paid on or before the due dates specified in subsection (c) shall be delinquent from such dates.

(f) **Payment.** Remittances covering the sales tax liability reported shall accompany the sales tax return. Sales taxes will be considered delinquent and interest as provided by law will be charged, if payment is not received or postmarked by the date the return is due.

(g) **Interest.** Interest at the rate provided by law will be imposed on all liability not paid at the time when required to be paid. Said interest will be imposed and collected on the delinquent tax at the statutory rate from the date the tax is delinquent until paid.

(h) **Audit; refund/credit for overpayment; assessment inclusive of interest due.** When, in the course of an audit, it is found that the tax being audited was overpaid for any period included in the audit, and the taxpayer has not filed a verified claim for refund of the overpayment, the overpayment may be allowed as a credit against the total liability established during the audit. The overpayment shall be applied to the liability as of the date of the overpayment. Whenever an assessment is made for any delinquent tax, the amount of interest due thereon at the time the assessment is made shall be included in the assessment.

(i) **Liability for tax, penalty, interest; interest computation.** Any taxpayer responsible for the payment of any tax levied by any state tax law shall be liable for payment of interest at the rate set by statute on any amount of tax not paid before it becomes delinquent. Interest shall be computed for each day of delinquency from the date the tax becomes delinquent until it is paid.

(j) **Penalty for failure to file and remit.** Penalties - A vendor who fails to file a return and remit the full amount of the tax within fifteen (15) days after the tax is due shall be subject to a penalty of ten (10) percent of the amount of tax due.

(k) **Penalty for failure or refusal to file after demand.** In the case of failure or refusal to file within ten (10) days after written demand has been served upon the taxpayer by the Commission, a penalty of twenty-five (25) percent may be assessed and collected.

(l) **Penalty for fraud.** If any portion of the deficiency is due to fraud with intent to evade tax, a penalty of fifty (50) percent shall be added, collected, and paid.

(m) **Waiver of penalty; interest.** At the discretion of the Commission, the interest or penalty, or both, may be waived provided the taxpayer can demonstrate that the failure to pay the tax when due is satisfactorily explained, or that the failure resulted from a mistake by the taxpayer of either law or fact, or that the taxpayer is unable to pay the interest or penalty due to insolvency. Requests for waiver or remission must be made in writing and must include all pertinent facts to support the request. [See: 68 O.S. §§ 217, 1365, 1405]

**710:65-3-4. Contents of monthly sales report**

it appears on the sales tax permit of the business and the period (month and year) covered by the report. In instances where a business does not provide a sales tax number, the federal employer identification number (FEIN) or social security number (SSN) of the business is required to be included on the sales tax report. In addition, the report shall disclose the following:

- (1) Total gross receipts for the preceding month from sales, both taxable and non-taxable.
  - (2) The "**sales value**" of all withdrawals from inventory of goods initially purchased exempt from sales tax, including all items withdrawn for gifts, donations, prizes or business or personal use. Included is the cost of all withdrawals from inventory of goods initially purchased on a tax deferred basis pursuant to a direct pay permit which are subsequently withdrawn for a taxable use.
  - (3) Deductions allowed by law. Deductions not specifically delineated on the face of the return must be fully explained in the space provided.
  - (4) The amount of tax due, including any city or county tax, or both, as described in (c) of this Section.
    - (A) The return should show the amount of interest (if any) that is due.
    - (B) The return should show the amount of penalty (if any) that is due.
  - (5) Such other reasonable information as the Commission may require. [See: 68 O.S. §1365]
- (b) **Exception to the requirement to file electronically.** The vendor may apply in writing to the Business Tax Electronic Filing Coordinator, Oklahoma Tax Commission, Business Tax Services, ~~123 Robert S. Kerr Ave., Oklahoma City, OK 7310273194,~~ for a determination that the vendor is unable to participate in the electronic funds transfer and electronic data interchange program, and if the application is approved, the vendor will be permitted to report on paper.
- (1) To determine whether a vendor is "unable" to file electronically, the following guidelines shall be utilized:
    - (A) The taxpayer does not have access to a computer or internet access at home or place of business; and,
    - (B) The taxpayer does not use a tax preparer that has a computer or one that does not have internet access.
  - (2) Any exception to the electronic filing requirement will be granted for only twelve (12) months. At the end of the exception period the taxpayer's electronic filing capability may be reviewed.
  - (3) An aggrieved taxpayer may protest the determination of the Commission as provided by 68 O.S. § 207 pursuant to OAC 710:1-5-20 through 710:1-5-49, the Rules of Practice and Procedure before the Office of the Administrative Law Judges.
- (c) **Reporting for city and county taxes.**
- (1) The state tax is determined by applying the state rate to the amount of net taxable sales (all sales less deductions allowed by law).
  - (2) The amount of city sales tax is determined by multiplying the amount of net taxable sales for each city by the rate for that city.

- (3) The amount of county sales tax is determined by multiplying the amount of net taxable sales for each county by the rate for that county.
- (d) **Excess tax collected.** If the vendor has collected, in the aggregate, an amount of sales tax from its customers, larger than the amount which would result from multiplying the taxable sales by the tax rate, whether due to the use of the bracket charts supplied by the Commission, the use of an electronic cash register that rounds up the tax, or any other reason, the vendor is responsible for remitting the total tax collected. The statement "**Excess Tax Collected**" should be written on the face of the report, under the line captioned "**Total Due.**"

However, an applicant is not precluded from submitting an amended application or may submit a new application after a reasonable period of time from the date of the original application. For purposes of this subsection "**reasonable period of time**" means a period of time of not less than twelve (12) calendar months duration from the date of the Commission denial or refusal to issue the permit.
- (f) **Issuance, scope, limitations of direct payment permit.** When a direct payment permit is issued to a particular legal entity, it will include all branches and divisions of that entity which are purchasing taxable items. A direct payment permit issued to a supplier by one branch or division shall apply to purchases made by all branches or divisions from the same supplier. For purposes of this Section, "**branches and divisions**" shall be limited to those subunits or groups associated with a single unique federal employer identification number. A direct payment permit-holder may not authorize any other person or entity to purchase any taxable items under the permit. Use by unauthorized persons may result in revocation of the permit.
- (g) **Use of direct payment certification procedure with vendors.** A direct payment permit-holder must provide its vendors with the direct payment certification defined in this Section and a copy of its direct payment permit in order to make those purchases to which the permit is applicable.
- (h) **"Direct payment certification" described.** "**Direct payment certification**" means the procedure by which a direct payment permit-holder provides a vendor with properly completed documentation and certification as to its deferred status. Properly completed documentation may consist of a copy of the direct payment permit, multi-state exemption certificate, or other document, so long as it contains the information described in (1) through (4) of this subsection.
- (1) A **copy** of the purchaser's Direct Payment Permit (DPP), or if unavailable, the name, address, and DPP number of the purchaser;

  - (4) The signature of the purchaser or a person authorized to legally bind the purchaser, and date signed.

(i) **Limitations on use of direct payment procedure.** Direct payment certification procedures are not applicable to the purchase of materials or supplies used, transferred, or consumed by a third party in performing services for the direct payment permit-holder, regardless of whether the third party is a contractor, service provider, or other person.

(j) **Incidence of tax for purchases made pursuant to direct payment permit and stored in Oklahoma.** For taxable items purchased under a direct payment permit, the incidence of Oklahoma sales and use taxes to be accrued and remitted on items stored in Oklahoma is to be determined by reference to this subsection, as well as to the provisions of the Oklahoma Sales and Use Tax Codes. [See: 68 O.S. § 1361(C)]

(1) **Use tax to be accrued on items and goods purchased outside Oklahoma.** Items and goods purchased outside Oklahoma pursuant to an Oklahoma direct payment permit, which are intended solely for use in other states, but which are stored in the state pending shipment to such other states, or which are temporarily retained for the purpose of fabrication, repair, testing, alteration, maintenance, or other service, are not subject to Oklahoma use tax. Finally, the Commission may suspend, cancel, or revoke a direct payment permit, at any time, for non-compliance with the provisions of this Section, with applicable Oklahoma tax statutes, or for other good cause shown. Proceedings related to the cancellation or refusal to issue a license or permit pursuant to this Section shall be governed by 710:1-5-100 and 710:1-5-21 through 710:1-5-49 of the permanent rules of the Commission.

(a) **Sales "by" churches.** Sales by churches are not subject to sales tax when it can be said that such selling is noncompetitive with business establishments.

(1) The following are tests for determining that such selling is noncompetitive:

(A) The transactions are conducted by members of the church and not by any franchisee or licensee.

(B) All of the proceeds must go to the church organization.

(C) The transaction must not be a continuing one but rather should be held whether annually or a reasonably small number of times within a year. The test of reasonableness would be an administrative decision, to be made by the Commission.

(D) The reasonably ascertainable dominant motive of most transferees of the items sold must be the making of a contribution, with the transfer of property being merely incidental and secondary to the dominant purpose of making a gift to the church.

(2) In addition, there are these further considerations as guides to the resolution of questions raised by each individual situation:

(A) The nature of the particular item sold. All other things being equal, the decision as to candy might well be different from the decision as to refrigerators.

(B) The character of the particular sale, and the real practical effect upon putative competition. [See: 68 O.S. § 1356(7)]

(b) **Sales "to" churches.** Generally, sales made directly to a church are exempt from sales and use tax. Only sales purchased by the church, invoiced to the church, and paid for by funds or check directly from the church, will qualify for the exemption. A vendor wishing to be relieved of liability to collect the tax should follow the requirements of *OAC 710:65-7-6* and *710:65-7-15*.

(c) **Purchases by contractors.** Purchases of taxable personal property or services by a contractor with whom a church has duly entered into a construction contract, or to any subcontractor to such construction contract, are exempt provided they are necessary for carrying out the contract. A vendor wishing to be relieved of liability to collect the tax should follow the requirements of subsection (c) of *OAC 710:65-7-13*.

(d) **Application process.** Application for exemption is made by submitting to the Business Tax Services Division, Oklahoma Tax Commission, ~~423 Robert S Kerr Ave,~~ Oklahoma City, OK ~~7310273194~~, a completed Form 13-16-A, contained in Packet E<sub>2</sub> available online at [www.tax.ok.gov](http://www.tax.ok.gov) along with supporting documentation which shows that the church consists of a body of believers which holds religious services and public notification of the place and time of those services such as a copy of a newspaper or yellow pages ad, newsletter or bulletin sent to regular attendees or distributed during a service.

**PART 10. COAL**

**710:65-13-55. Exemption for coal mining**

(a) **Qualification in general.** Sales of machinery, electricity, fuels, explosives and materials, excluding chemicals, used in the mining of coal in this state are exempt from sales or use tax.

If purchases will be made from a vendor on a regular basis, the vendor may make subsequent sales without requiring proof of eligibility for each sale, providing the person to whom the exempt sales are being made has agreed in writing to notify the vendor of any and all purchases which may be made to which the exemption would not apply. Vendors may accept the certification set out in this subsection in the same manner as any other letter certifying to a specific statutory exemption as set out in 710:65-7-6 and 710:65-7-15.

(g) **Limitations.** Any letter certifying an exemption issued under this Section is valid only for use by the addressee and is not transferable. The exemption may **not** be used by any other entity, even if that entity claims to be an agent, administrator, party to a contract or other relationship. Each entity desiring to obtain a letter certifying an exemption must make application in its own name.

## SUBCHAPTER 1. GENERAL PROVISIONS

### 710:90-1-13. Pensions, annuities, and certain other deferred income

(a) **Treatment of designated distributions.** Designated distributions, as defined by the Internal Revenue Code (IRC), Section 3405, whether periodic or non-periodic, should be treated as if they were a payment of wages for Oklahoma ~~Income Tax Withholding~~ ~~income tax withholding~~ purposes. The payor of any periodic or non-periodic payment should inform recipients who are or become Oklahoma residents of the need to withhold if:

(1) The recipient has not chosen the election of "no federal withholding," provided by Section 3405 of the Internal Revenue Code, or

(2) The recipient elects to have Oklahoma ~~Income Tax~~ ~~income tax~~ withheld irrespective of any election to not withhold federal income tax.

(b) **Treatment of periodic payments.** The amount to be withheld from a periodic payment is determined as if it were a payment of wages. The marital status and number of withholding allowances an employee may claim in determining the tax to be withheld shall be the same as that claimed on Form W-4P, Withholding Certificate for Pension or Annuity Payments, or a similar form provided by the payer.

(1) If the recipient has not provided a withholding certificate, tax will be withheld as if the recipient were married and claiming three (3) withholding allowances.

(2) The recipient can choose not to have tax withheld, regardless of how much tax is owed for the previous year, or is expected to be owed in the current year.

(c) **Treatment of non-periodic payments.** Tax will be withheld at a ~~five percent (5%)~~ the highest Oklahoma marginal individual income tax rate on any non-periodic payments.

(1) The recipient cannot use Form W-4P to determine the amount to be withheld, since withholding allowances or marital status are not taken into consideration.

(2) The recipient can use Form W-4P to specify an additional amount to be withheld.

(3) The recipient can also use Form W-4P to choose not to have tax withheld.

(d) **Employer contributions.** Employer contributions to qualified cash or deferred arrangements are not subject to Oklahoma ~~Withholding Tax~~ withholding tax.

(4) For royalty payments made during October, November, and December, the amount withheld is due no later than January 30 of the following year.

(d) The remitter is also required to provide non-resident individual royalty owners and the Oklahoma Tax Commission an annual written statement showing the name of the remitter, to whom the royalty was paid, the amount of the royalty payment and the amount of Oklahoma income tax withheld. Further, the statement must also furnish the royalty owner's name, address, and social security number or Federal Employer Identification Number. This annual filing with the Oklahoma Tax Commission may be done separately, or in conjunction with the annual reporting requirement under 68 O.S. § 2369, if applicable to the remitter.

(e) Any non-resident royalty interest owner from whom an amount is withheld pursuant to the provisions of this Section, and who files an Oklahoma income tax return is entitled to a credit for the amount withheld. If the amount withheld is greater than the tax due, the non-resident royalty interest owner will be entitled to a refund of the amount of the overpayment.

(f) If the non-resident royalty interest owner is a pass-through entity, the pass-through entity shall allocate the non-resident royalty withholding to its partners, shareholders or members in the same manner as the royalty income.

A peer-to-peer car sharing program is not engaged in "renting motor vehicles without a driver" in Oklahoma within the meaning of Section 2110 of Title 68 of the Oklahoma Statutes, except as specifically provided in that section. A peer-to-peer car sharing program is not "engaged in the business of renting motor vehicles without drivers" under the provisions of Section 8-101 of Title 47 of the Oklahoma Statutes. **"Rental agreement"** means an agreement of ninety (90) days or less duration on any motor vehicle that is rented to a person by a business engaged in renting motor vehicles without drivers in this state and includes those peer-to-peer car sharing agreements only involving shared vehicles for which the shared vehicle owner has not paid the applicable taxes upon purchase of the shared vehicle.

**715:10-1-4. Optional TRS membership**

The following employees are eligible to be members of ~~the Teachers' Retirement System~~ TRS at their option:

## Permanent Final Adoptions

(1) "Non-classified optional personnel" ~~employees~~ regularly employed by the public, state-supported educational institutions in Oklahoma for twenty (20) hours or more per week at a rate of compensation comparable to other persons employed in similar positions and receive payment for service by a school or state warrant, recorded on a warrant register with standard payroll deductions, and receive benefits generally provided to regular employees provided.

(A) A non-classified optional employee shall have thirty (30) days from the date of hire or initial eligibility to join the System, whichever is later, to make a one-time written irrevocable election to opt out of the System on a form provided by TRS. If an eligible employee fails to make an election within the thirty-day period, the eligible employee shall be deemed to participate in the System.

(B) A non-classified optional employee who opts out of participation in the System shall be ineligible for future participation in the System; provided, however, that if the employee is hired for a classified position, he or she shall become a member of the System but shall not be eligible for prior service credit for service performed while employed in a non-classified position during which time the employee opted out of participation in the System.

(2) Any member absent from the teaching service who is eligible to continue membership under special provisions of 70 O.S. 17-116.2, provided that such employee continues to be employed by a governmental agency.

### SUBCHAPTER 5. ESTABLISHING OTHER SERVICE CREDITS

#### 715:10-5-9. Re-establishing withdrawn service

~~After returning to employment in the public schools of Oklahoma~~ re-establishing participation in TRS, a member may redeposit a withdrawn account to re-establish service previously withdrawn from the system. For purposes of this section the following shall apply:

(1) A "classified" and "non-classified" member (except as noted in paragraph 2 of this section) who has returned to public education employment and has established one full year (twelve calendar months) of creditable Oklahoma service, is eligible to redeposit withdrawn contributions. A redeposit of withdrawn contributions must include all

applicable interest, which shall be computed at a simple interest rate of ten percent (10%) per annum from the date of the withdrawal to the date repayment is made.

(2) Non-classified members who voluntarily withdrew from membership in TRS, ~~between July 1, 1984 and June 30, 1990,~~ without terminating employment in the public schools of Oklahoma, are not eligible to redeposit or purchase past service for any period of employment between the date of the membership period covered by the withdrawn account and the date of return to membership in TRS.

(3) Non-classified members who voluntarily ~~ceased~~ ceased monthly contributions to TRS while continuing to be employed in an eligible position shall be considered to have withdrawn from membership.

(4) Requests for redeposits should be made to TRS in writing. The request must include the name in which the service was rendered, the TRS Member ID number or Social Security number, and the number of years withdrawn.

(5) Documentation of this service is on file with TRS and will be verified by the staff. Service that cannot be verified must be purchased under the rule for establishing service prior to membership.

Such installment payments may be paid in 12-month increments, but shall be completed within 60 months. The member shall be responsible for maintaining the payment schedule. Payments are due on the first day of each month. A monthly installment not paid within sixty (60) days of the due date will result in immediate termination of the installment payment schedule. The member will be given the option of paying the remaining balance within six (6) months. If the balance is not paid in full in the remaining six (6) month period, the redeposit will be canceled. Installment payments shall include interest based upon actuarial assumptions adopted by the TRS Board of Trustees. Such installment payments shall be completed before the member's effective retirement date. No proration is allowed for partial payments. If payments terminate prior to completion of the installment agreement, the amount paid by the member shall be refunded without interest.

(7) Redepositing of withdrawn accounts must be completed, and payment made to TRS, ninety (90) days prior to the effective date of a member's official retirement date.

(8) No person may make a redeposit to a member's account after the death of the member.

#### 715:10-5-38. Credit for service as an optional employee prior to July 1, 2021

(1) The member shall not be eligible to purchase withdrawn service as described in OAC 715:10-5-9(2) or service for which the member had ceased monthly contributions on at any prior date as described in OAC 715:10-5-9(3).

(2) The member is not receiving and is not eligible to receive retirement credit or benefits from the service in any other public retirement system of this state, the United States government, or any other state or territory of the United States.

(3) The purchase price for eligible non-classified optional service credit shall be based upon actuarial costs as defined in OAC 715:10-5-4. All payments for such service credit must be made while the member is an active contributing member or within sixty (60) days after the end of the member's employment in the public schools in Oklahoma. No person may purchase service credit for such employment after the member's death.

(4) The payments for such service credit may be made in one lump sum or in equal monthly installments for up to sixty (60) months, as provided in OAC 715:10-5-4 and may be made as a picked-up service credit purchase in compliance with OAC 715:10-5-35.

(5) The purchase of service must be completed, and payment made to TRS, no later than ninety (90) days prior to the effective date of a member's official retirement date.

~~(2) The financial officer of the employing school certifies the member's election to stop contributions and the date the member's last contributions will be remitted to TRS.~~

~~(3) Any member who withdraws under the conditions listed here may rejoin the Teachers' Retirement System, under the provision of OAC 715:10-1-4(8). A member who terminates membership under this section cannot re-deposit contributions withdrawn under this section at a later date, even if the individual returns to membership in TRS. The member will also forfeit any right to purchase service performed from the date of termination of membership under this section and prior to the re-entry date, and will forfeit any unused sick leave accumulated from the date of termination of membership under this section and prior to the re-entry date.~~

~~(4) A member's contributions cannot be terminated, by either the member or the employer, without termination~~

~~of TRS membership. Any member who ceases contributions while still employed in an optional position shall be deemed to have become an ineligible member of TRS, and will have forfeited all rights to retirement benefits provided by TRS for the service prior to the date the member ceased contributions.~~

~~(5) An employer may prevent its employees from withdrawing, under this rule, if the employer has a negotiated labor agreement, or formalized IRS plan, prohibiting such terminations and withdrawals.~~

~~(6) After tax contributions can be refunded to an optional member prior to separation from service. Pre tax contributions cannot be refunded until the member terminates employment or turns 62. Following termination of employment, TRS should be contacted for the proper form to be completed for return of pre tax contributions. Upon completion of the verification form by the school and the mandatory four month waiting period, payment of the balance of the account will be made at the same time as regular withdrawals.~~

**715:10-11-4. Refunds of contributions**

(a) Refunds for overpayment of employer annual contributions, ineligible service purchases, and membership service contributions of less than six (6) months shall be made upon request by the employing school if the payment of contributions was made based on mistake of fact or law.

The required application must be completed and on file. The amount to be returned to the employer is the excess of the amount contributed or paid over the amount that would have been contributed or paid had no mistake been made.~~

~~(2) No interest shall be paid on refunds for this purpose.~~  
~~(3) Contributions reported by the employer as "pre-tax" contributions will be refunded to the employer.~~

(b) Refunds of excess employee contributions shall be distributed to the member as soon as practical through a lump sum payment for all past overpayments with appropriate interest under OAC 715:10-11-1. The distribution shall be reported on IRS Form 1099-R for the year of the distribution.

(c) A ~~teacher~~person employed by any school district or technology center school district, who holds a valid certificate issued by the State Department of Education or the State Board of Career and Technology Education and is employed on a full-time basis as a teacher, principal, supervisor, administrator, superintendent, counselor, librarian, or certified or registered nurse~~qualifies for a minimum salary pursuant to the State's minimum salary schedule~~ shall have a specific amount credited against the employee's contribution amount to TRS. The State of Oklahoma shall pay an annual amount as set forth in 70 O.S. § 17-108.2 for each fiscal (or plan) year.

(d) Each school district or technology center school district shall adjust each eligible employee's monthly contribution to TRS in accordance with statutory provisions, and shall cause the annual amount paid by the State of Oklahoma as provided in the preceding paragraph to be deducted from the monthly remittance to each eligible employee's retirement account and a like amount added to the net pay of the eligible employee.

(1) If the school district pays the retirement contribution in addition to the employee's total compensation, the employer must reduce the employee's annual retirement contribution which the school pays to TRS by the appropriate amount and add that amount to each eligible employee's net pay.

(2) If the school district deducts the retirement contribution from each employee's total compensation, whether as a salary reduction to pay the retirement contribution as a fringe benefit or as a deduction on an after-tax basis, the employer must adjust the employee's annual retirement deduction in accordance with the amount to be paid by the State. The adjustment in the retirement deduction will result in an increase to the eligible employee's net pay.

(3) The State contribution to each eligible employee's retirement account is determined by the total experience of each employee as verified by the State Department of Education or the Oklahoma Department of Career and Technology Education.

(4) The State contribution must be calculated and paid in equal monthly installments as determined by the eligible employee's contract, i.e., ten months, eleven months or twelve months. Eligible employees who work ~~less than a full contract year, whether full-time for less than a full contract year or part-time for the full contract year,~~ shall have the prescribed State contribution prorated ~~in accordance with the eligible employee's full-time equivalent rate of employment~~proportionately based on the

employee's full-time employment during the relevant contract period.

**715:10-13-7. Matching Funds**

~~Statutes require employers~~Employers of Teachers' Retirement System~~TRS members whose compensation is paid from federal funds or externally sponsored agreements such as grants, contracts, and cooperative agreements shall to match the contributions of these members on all compensation, or that portion of, compensation paid from these funds. Federal matching~~Matching funds shall be paid in addition to employer and employee contributions and shall be transmitted at the same time and in the same manner as the members' contributions. Effective July 1, 2001, employers shall match on a pro rata basis the contributions of members whose salaries are paid by federal funds or externally sponsored agreements such as grants, contracts and cooperative agreements. Matching contributions shall be required on all salaries funded from revenues other than funds generated from local taxes or revenues originating from the State of Oklahoma. No later than April 1, 2001, and each April 1 thereafter year, the TRS Board of Trustees of the Teachers' Retirement System shall set the two contribution rates to be paid by employers.

(1) Traditional Matching Rate: The first rate shall be applied to all services paid by federal funds or externally sponsored grants or agreements performed by members except those services that are included in the definition of "Summer School Program," as defined in subsection 2 below. This contribution rate shall be determined using cost principles established by federal regulations and shall be consistent with generally accepted accounting principles.

(2) Summer School Matching Rate: The second rate shall be applied to service performed by members during a Summer School Program. "Summer school program" is defined as a program offering academic enrichment for students from Pre-K through 12th grades during the summer term after the close of the school year. Members shall only be considered as providing service to a summer school program if such service is provided pursuant to a separate summer school contract between the member and the participating employer. The term "Summer School Program" does not include services performed at a participating employer offering an extended school year pursuant to 70 O.S. § 1-109.1 or services performed pursuant to a twelve-month contract with the employer. The contribution rate shall be determined using cost principles established by federal regulations and shall be consistent with generally accepted accounting principles. The Summer School Matching Rate may take into consideration whether, or to what extent, such service is likely to add to members' service credit or final average salary; however, this rate shall not exceed one-half (1/2) of the Traditional Matching Rate.

**715:10-13-8. Procedure for making contribution deductions**

The Teachers' Retirement System contribution deduction shall start with the payment for the first month of a "classified" employee's contract, or the first month of membership for an optional "non-classified" member. This contribution shall be based on the total compensation for the month, but shall not apply to the compensation of a substitute teacher or any employee working on a less than one-half time basis. Individuals who join the Teachers' Retirement System during the school year, and who have been employed prior to becoming a member, must make retroactive contributions from the beginning of that school year. The membership date of such a member is the date of first payment not the beginning of the school year. The member shall not receive credit for a year of service until the balance of contributions, including any contributions required by the employer, are received by TRS. Interest compounded annually at ten percent (10%) per annum shall be levied against the balance due until paid.

(1) The total deductions in any one school year shall not exceed the maximum limit prescribed by statutes as defined in OAC 715:10-13-3.

(2) In determining the amount of the contribution for a member in any payroll period, the employer shall consider the total compensation earned from all sources. The contribution shall be calculated on the gross compensation before any deductions, such as tax-sheltered annuity, income taxes, Social Security, etc. Deductions shall be made at the statutory contribution rate on each month's compensation until the maximum annual compensation level is reached. Total monthly compensation shall be reported in the monthly salary column of the remittance report. Monthly compensation includes gross wages and fringe benefits paid or provided by the remitting agency.

(3) Monthly contributions for employees of a comprehensive university, whose maximum compensation level is less than the member's regular annual compensation, may be remitted in twelve equal payments to the member's account during the school year. It shall be the responsibility of the employer to insure any required adjustment in contributions is made if a member terminates employment or the member's salary changes during the school year.

~~(4) Required Contributions contributions must shall be remitted monthly, as long as the individual is employed in a position for which membership is a condition of employment. No member, including non-classified optional employees, may terminate contributions and retain membership in Teachers' Retirement System, except as expressly provided elsewhere in the statutes or TRS rules.~~

(5) As of July 1, 1979, members who signed a waiver to contribute on a maximum annual salary of \$7,800 are required by law to contribute on their total compensation not to exceed any current maximum contribution level.

(6) The Department of Corrections shall contribute the employer's share to the Teachers' Retirement System. The contribution shall be the same dollar amount required of the member.

Members seeking to return to employment as a classroom teacher under this provision must meet all of the following requirements:~~

This documentation must be accepted by and approved by TRS prior to the member commencing employment under this provision.~~

Legislation enacted during the 2021 legislative session allows members who retired on or before July 1, 2020, to return to employment as an active classroom teacher for a public school or career technology district with no earnings limitations in certain circumstances.   - (4) Within sixty (60) days of the member's return to employment, the member's employer must provide

**"Adopted materials"** Adopted materials refers to materials approved by the State Textbook Committee and purchased with state funds.

**"Ancillary material"** ~~Ancillary items considered for adoption shall be compatible with the textbook bid. This term refers to materials intended and designed to be used with a comprehensive program submitted by the same publisher. Examples of this type of material may include but are not limited to workbooks, quizzes, puzzles, test banks, transparencies, black line masters, etc. Materials intended and designed to be used with a comprehensive program submitted with the corresponding comprehensive program or comprehensive materials with the publisher bid. Additionally, this also includes one edition of the initial student instructional material such as a student text (electronic or print). Instructional materials or textbooks designed to guide instruction for, and learning of, grade-level courses or subject areas. Materials should align to and encompass the breadth of Oklahoma Academic Standards or learning objectives associated with the grade level(s) course being bid.~~

**"Core subject cycle"** This term refers to the period of time for which contracts are entered into for subjects identified by the State Textbook Committee. The cycle begins when contracts go into effect for the items bid in a subject area, and the cycle ends when the contracts expire and new contracts are established for materials in the same subject area. The State Textbook Committee operates under a six-year adoption cycle for all subjects except Instructional Technology, which operates under a three-year adoption cycle.

**"Free materials"** Materials in any medium which a publisher intends to make available without cost upon the purchase of textbooks bid and adopted.

~~"Supplementary item or supplementary material materials"~~ These terms refer This term refers to items intended and designated to guide the instruction of one or a few of the curriculum standards for the subject area for which the item has been submitted. Supplementary materials are designed to be used independently or cooperatively with bid items submitted in the same subject area by the same or different publisher. Examples of supplementary items may include but are not limited to maps, atlases, flash cards, classroom libraries, stories about significant people in the subject area, selected readings, literature guides, assessment materials or small books textbooks or instructional materials teaching about one component of a subject area.

## SUBCHAPTER 3. BIDDING PROCEDURES

### 720:10-3-5. Materials to be considered for adoption

(a) One copy of each textbook and one sample of each learning package, kit, or other comprehensive review materials shall be filed with the office of the Secretary of the state Textbook Committee on or before the date specified in the schedule for the textbook adoption process. Textbooks must be in final form.

(b) One copy of each textbook and one sample of each learning package, kit, or other comprehensive review material and materials not listed as free shall be provided to each member of the State Textbook Committee, review teams, and to each Congressional District Review Center. Failure to deliver samples by the date established by the State Textbook Committee calendar will result in a bid rejection.

(c) Samples of textbooks provided to the State Textbook Committee members and review teams may be returned to the publishers, donated to a school district or donated to a college or university. Under no circumstances shall the samples become the personal property of the committee member or the ~~advisor~~ review team members. Under no circumstances shall the samples be sold or donated for resale purposes.

(d) In order for a library or university to be designated by the State Textbook Committee as a Congressional District Review Center the library or university must agree to the following conditions:

(1) conveniently display materials immediately upon the receipt of materials and maintain the display until such date adopted by the State Textbook Committee;

(2) obtain approval of the State Textbook Committee before disposing or distributing the materials to any other person or entity; and remove materials from public access once they are adopted. Materials may remain accessible for on-site use to a limited audience (education professionals and pre-service teachers); and

(3) sample materials may be returned to the publisher or may be disposed of with the approval of the State Textbook Committee.

(e) Highly-visible, permanent labels stating, "sample not to be sold" must be attached to each item furnished as a sample to the State Textbook Committee, review teams, Congressional

Review Centers and the office of the Secretary of the State Textbook Committee.

(f) Consumable materials must be clearly marked as consumable.

(g) Each publisher must warrant that all books adopted shall comply with the standards in the Manufacturing standards and Specifications for Textbooks approved by the National Advisory Commission on Textbook Standards.

(h) The State Textbook Committee favors regular editions, but special editions may be considered provided the differences between the two (2) editions are set forth with the bid.

(i) Digital content and related materials will be considered for adoption.

(j) Teacher materials will be adopted as separate items only at the kindergarten level and ESL.

(k) Instructional Materials shall be adopted in no more than one (1) core subject cycle.

~~(l)~~

~~(m)~~ A book which has been bid and rejected by the State Textbook Committee cannot be bid again for the subject contract cycle.

~~(n)~~ Technology components of instructional materials, including, but not limited to applications using computer assisted instruction, Web 2.0 Tools, Saas (Software as a Service) and other Cloud-based technologies, shall include comprehensive teacher materials listing special requirements for the respective subject or course along with

- (1) instructions on how to use the technology components;
- (2) an inventory of the components of the program;
- (3) specifications for the hardware necessary to operate the system; and
- (4) on-demand technical support.

~~(o)~~ Specifications for the hardware necessary to operate the instructional computer software system must be identified. If the hardware and equipment essential for review of the materials bid in any category is not available, it shall be supplied to the State Textbook Committee, Congressional District Review Centers, review teams, and the State Department of Education for the duration of the review process.

~~(p-q)~~ Publishers may not pilot programs to be bid for adoption without explicit written permission from the district superintendent and site administrator. Pilots must be completed no later than the date of the call for bids one adoption cycle year prior to the opening and consideration of bids in that subject area. Violation of this rule will result in immediate removal from the state textbook list.

**720:10-3-6. Ancillary materials and supplementary items**

(a) Any ancillary materials ~~items or supplementary items~~ listed with textbooks in the annual requisition must be approved by the State Textbook Committee with the corresponding comprehensive materials or programs being bid unless designated as free. If ancillary ~~or supplementary~~ materials are not available at the time of the initial adoption, but subsequently become available, publishers may submit the ancillary ~~and supplementary~~ materials out of cycle. When the Call for

Bids is mailed each year, publishers can submit letters of intent to present ancillary ~~and supplementary~~ materials. Samples must be sent to all members of the State Textbook Committee and review team members, to the regional review centers and to the office of the Secretary of the State Textbook Committee. The ancillary ~~and supplementary item(s) materials~~ will be considered for adoption at the regular adoption meeting. The adopted ancillary materials ~~and supplementary item(s)~~ will be listed in the next annual requisition.

(b) Supplementary materials are not reviewed or approved by the State Textbook Committee. Supplementary materials purchased with State Textbook funds should undergo a rigorous local review process with the local district textbook committee prior to selection. Supplementary materials should supplement adopted comprehensive materials or programs but not replace them. Supplemental materials must be listed on the Supplemental Materials Form of the Bid and additionally labeled, "Supplemental Materials not reviewed or approved by the State Textbook Committee".

**SUBCHAPTER 5. PROCEDURES FOR EVALUATING AND VOTING TO SELECT TEXTBOOKS**

**720:10-5-1. Advisors [REVOKED]**

~~(a) Each textbook committee member shall select a maximum of five (5) advisors for each subject in which textbooks have been called for adoption to assist in the textbook review process. One (1) of the advisors may be a lay member who has a child in public school in this state and who does not have a teaching certificate. All remaining advisors will be certified educators with experience in the adoption area.~~

~~(b) Official advisors must abide by all laws and rules and regulations of the State Textbook Committee and the state.~~

~~(c) Nothing in this section is intended to limit the right of textbook committee members to seek advice from as many sources as they wish; however, textbook samples may be provided only to official advisors.~~

**720:10-5-5. Consideration of new materials due to unusual or extraordinary circumstances**

(a) Under the provisions of Title 70, Article XVI, Section 16-102, any resident of the State of Oklahoma, or publisher of textbooks, who feels that unusual or extraordinary circumstances exist in a particular subject area during the period of adoption may, by written request to the State Textbook Committee, present evidence that significant new techniques of teaching, significant new findings or discoveries, or other new information or knowledge exists in a particular subject area that would warrant consideration by the State Textbook Committee of new materials in that particular subject area.

(b) Written requests will be addressed to the Secretary of the State Textbook Committee. The written request will include the name, address, and phone number of the person making the request. Also to be included are the subject area name and grade classification. The person making the request will

# Permanent Final Adoptions

then describe in detail any new technique, procedure, finding, discovery, and any other information that will aid the Committee in making a decision. Furthermore, the person making the request will address the impact the technique, procedure, finding or discovery will have on students or education and the impact the absence of this information will have upon students or education until the next adoption period.

(c) Upon determination by three-fourths (3/4) of the members of the State Textbook Committee that unusual or extraordinary circumstances exist in a particular subject area, the Committee may select one or more textbooks in that subject area for the remainder of the adoption period.

(1) The chairperson of the Committee will direct the Secretary of the Committee to issue a Call for Bids in the subject area indicated. Said Call for Bids will include:

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(7) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2022:

SUBCHAPTER 3. ACCEPTANCE OF CHECKS

725:15-3-2. Definitions

The following words or terms when used in this Subchapter shall have the following meaning unless context clearly indicates otherwise:

"Department" means the Oklahoma Tourism and Recreation Department.

"Facility" means any operating unit so designated within the Oklahoma Tourism and Recreation Department.

"Guest/Patron" means any person (including employees) who purchase goods and/or services from a state facility.

"Overnight Guest" means any person staying overnight in a park or lodge accommodation and is duly registered and paying for the services provided at the approved rate.

725:15-3-3. Acceptance of checks

(a) Personal checks may not be accepted as payment for goods and services except for subscriptions to Oklahoma Today Magazine.

(b) ~~Business~~ All other business type checks may be accepted as payment for goods and services in the amount of purchase. Acceptance of these checks must be approved by the facility manager or designee.

725:15-3-5. Information necessary

Before accepting any check, the following information must be printed on the front side of the check: ~~residence~~ or business address, city, state, and telephone number.

SUBCHAPTER 21. OKLAHOMA RECREATIONAL TRAILS PROGRAM AND THE BOATING INFRASTRUCTURE GRANTS PROGRAM

725:15-21-3. Reimbursement procedures

(a) The program is a reimbursement-type grant program. Project sponsors will apply to the ~~Oklahoma Tourism and Recreation~~ Department (OTRD) for funding of specific trail/boating projects. The ~~Department~~OTRD will select projects to receive funding and obtain approval from the Federal Highway Administration (FHWA) or the US Fish and Wildlife Service (USFWS) as applicable.

(b) After a project agreement is executed between the sponsor and ~~OTRD~~ the Department, the sponsor may initiate the project's proposed work elements, spending from their own funds and submitting ~~billings~~ reimbursement requests to the

~~Department~~OTRD. Reimbursement from the federal funds will be paid to the sponsor by OTRD.

(c) ~~OTRD~~The Department will reimburse the sponsors of projects selected for funding for the allowable percent of the project's total cost provided:

(1) The costs are for allowable expenditures as outlined in the sponsor's application and approved in the Project Agreement signed by ~~OTRD~~the Department and the sponsor, and

(2) Sponsor supplies adequate documentation that fully accounts for both out-of-pocket expenditures and any donated labor, land, or materials and that certifies that the expenditures have been incurred on the project.

(d) Sponsors may ~~bill~~submit reimbursement to ~~OTRD~~the Department on an interim basis by submitting receipts and other documentation of expenditures and work undertaken provided the sum of the ~~interim billing reimbursement~~ totals at least \$5,000. If the entire project cost is below \$5,000, only one ~~billing reimbursement~~ will be accepted. After processing the ~~billing reimbursement~~, OTRD will make a payment to the sponsor for the allowable percent of the amount submitted.

(e) Interim reimbursements may be made up to 80 percent of the federal grant amount for RTP and up to 75 percent for the BIG. The remaining 20 or 25 percent of the grant amount respectively will be released after the ~~Department~~OTRD has performed an inspection of the project, which shows all elements of the project to be in substantial compliance.

725:15-21-4. Limitations on grant awards

(a) Size of awards.

(1) The ~~OTRD~~Department will limit the maximum amount granted to any single sponsor per project in one application period based on the amount of funds received during any such period.

(2) Each State Park shall be considered a separate sponsor.

(b) Number of projects per sponsor.

(1) Applicants may submit more than one project. However, the total amount granted for each individual project may not exceed the ceiling.

(2) As mentioned under 725:15-21-2, the sponsor is the applicant, not the partner who may be the land manger. When one sponsor wishes to submit more than one project, separate applications should be submitted when projects are not located at the same site. An exception to this rule would involve the allowance of a single application for RTP trail work of a similar nature on a system of trails in one jurisdiction. For example, a city may submit one application proposing drainage improvements to all trails in its area, even though the trails are not connected and are located at various sites around town.

(c) 30%-30%-40% reserved funds for RTP.

(1) The federal act outlines a formula for state grant spending (after funds for administration and education are set aside). Not less than 30 percent of the funds shall be reserved for uses related to motorized trail recreation, and not less than 30 percent shall be reserved for uses related to non-motorized trail recreation. The remaining

## Permanent Final Adoptions

---

40 percent is discretionary for "diversified" trail use that gives preference to project proposals which:

- (A) Provide for the greatest number of compatible recreational trail purposes, or
  - (B) Provide for innovative recreational trail corridor sharing to accommodate motorized and non-motorized recreational trail use.
- (2) ~~OTRD~~ The Department will interpret the discretionary category for RTP as meeting either the greatest number of uses or innovative motorized/non-motorized sharing.
- (d) Allowable project costs.
- (1) Approved projects. The grant recipient may only initiate activities to undertake the approved scope of work after receipt of a fully executed Project Agreement. This includes not taking title to lands or easements that are included in the project costs. The sponsor will not be reimbursed for project costs incurred prior to the date of the signed Agreement. The RTP does not allow application preparation, site design, and other pre-application costs to be recovered retroactively.
- (2) Allowable costs. Donations from the private sector (land for the RTP, materials, or labor for RTP and BIG) may only be attributed to the sponsor's match. Sponsors may not make a profit by being reimbursed beyond their out-of-pocket costs. Private donations which exceed the federal share simply serve to reduce the overall cost of a project.
- (3) Allowable project costs. Project sponsors may be reimbursed for, but not limited to, the following items.
- (A) Acquisition of fee title land or easement (RTP only)
  - (B) Service contracts
  - (C) Direct labor costs (hired workers, current staff, force account)
  - (D) Materials (purchased)
  - (E) Equipment rental
  - (F) Purchase of trail hand tools and equipment (total not to exceed \$1500 for RTP only)
  - (G) Design, engineering and architectural services (not to exceed 20% of total project costs)
  - (H) Natural and cultural resource surveys/clearances (if required)
  - (I) Appraised value of donated land or easement (RTP)
  - (J) Value of donated service contracts (including volunteer labor)
  - (K) Value of donated materials or contribution of materials on hand
  - (L) Rental value if donated equipment
  - (M) Any of the reimbursable costs which are paid for by cash donations or sponsor's appropriations (to account for the required match)

### 725:15-21-5. Procedures for submission and review of project applications

- (a) Submission. Project applicants shall submit the Project application digitally to the ~~OTRD~~ Department with the applicable support documentation. The project applications will be reviewed for completeness prior to being scored and ranked.
- (b) Selection. A Project Priority Scoring System will be used to score and rank projects for the RTP and the BIG programs. The projects which accumulate the highest scores will receive grant assistance up to the available amount. The ~~OTRD~~ Department will maintain the Oklahoma Trails Advisory Board (OTAB) in accordance with the federal RTP legislation. The OTAB reviews and scores projects and makes recommendations for funding.
- (c) Approval process. Recommendations of projects to be funded will be presented to OTRD for approval. Project applicants will receive approval or disapproval in writing. Projects receiving approval will be included in ~~OTRD's~~ Department's application to the FHWA or the USFWS. Upon receipt of FHWA or USFWS approval, applicants will receive a Project Agreement to execute.
- (d) Resubmission. Sponsors whose projects are not selected and approved for funding may resubmit their proposals for consideration in the next cycle by notifying ~~OTRD~~ Department prior to the deadline which has been set for that cycle. Sponsors may wish to modify their proposals to give them a better chance of achieving a higher score. If proposals are modified, sponsors must supply updated materials along with their request to be reconsidered. Sponsors may resubmit an unmodified project no more than twice. If any previously funded projects have not been completed at the time of any new project submittal, the sponsor or the managing entity (if several sponsors fall under the same managing entity) will be penalized through the Project Priority Scoring System.

### 725:15-21-6. Acquisition policies and procedures-RTP only

- (a) Means of acquisition. Acquisition of land or interests therein (easements, leases, or other legal interests) may be accomplished through purchase, transfer, donation, or a combination of these methods. When the acquisition is proposed by donation, the nature of any restriction on the use of the area or condition of donation will be examined to ensure that it is compatible with the purpose of the project. Only the value of land donations from private landowners may qualify as match for all or a portion of the local matching share.
- (b) Property subject to continuing use provision, section 6(f)(3). The RTP allows states to decide if they wish to apply Section 6(f)(3) of the Land and Water Conservation Fund Act. Oklahoma has chosen to apply this provision only to acquisition of fee simple property. This provision assures that once an area is protected by 6(f)(3), it will be continually maintained in public recreation use unless property of reasonably equivalent usefulness of at least equal fair market value is substituted and the substitution is approved, in advance, by ~~OTRD~~ the Department.
- (c) Acquisition of less than fee simple property-- RTP only.

(1) The RTP requires that easements be pursued as a priority; acquisition of fee simple title may occur only when an easement is not feasible. Sponsors requesting funds for trails on private property are required to have an acceptable formal written agreement giving the public access to the trail for a minimum of twenty (20) years. Property with less than fee simple interest (usually an easement, lease or license) will only be eligible for fund support if it meets all of the following requirements:

- (A) Sponsor has (or will have) legal control of the surface rights that are relevant to trail use, and any rights retained by the owner are not incompatible with trail use; and
- (B) The term of the easement, lease or license may not be less than twenty years; and
- (C) The easement, lease or license cannot be revocable at will by the grantor.

## 725:30-18-3. McGee Creek Natural Scenic Recreation Area - McGee Creek State Park

(a) The Natural Scenic Recreation Area is a unique 8,900 acre natural recreational resource authorized by Congress as a feature of the McGee Creek Project. The Natural Scenic Recreation Area was formulated, through a public involvement process, based on four concepts:

- (1) a quiet water zone,
- (2) a wilderness-type recreational experience,
- (3) non-motorized activities, and
- (4) preservation of natural and cultural resources.

(b) In compliance with environmental resource use regulations as defined by the United States Department of Interior, Bureau of Reclamation, the following interim rules shall apply to the McGee Creek Natural Scenic Recreation Area of McGee Creek State Park:

(1) **Access to the Natural Scenic Recreation Area.** Access to the Natural Scenic Recreation Area is authorized by ~~Permit~~ permit only and available at the entrance station and park office. The purpose of the ~~Permit~~ per~~mit~~ system is to minimize environmental impacts in the Natural Scenic Recreation Area. Permit issuance is based upon the number of persons individually or in a group until the maximum daily limit is reached. The maximum daily limit may be adjusted based upon the changes in the number of miles of designated trails, updated user group ratio data, and/or adjustments in response to the results of the ongoing monitoring program, including user surveys. Maintenance of trails by the different user types is considered in setting the maximum daily limit. Permits are issued for each user type and are not transferable or interchangeable.

(A) The following table defines maximum daily limits (users/mile/day):

	Multi-use trails	Biker/Hiker only	Hiker only
Biker	1.0	4.1	0
Equestrian	2.0	0	0
Hiker - land access	3.6	14.6	21.2
Hiker - water access	0.9	3.7	5.3
Total user/mile	7.5	22.4	26.5
Camper	(1.5)	(4.5)	(5.3)
Impact units	26.5	26.5	26.5
Half-day user	40 vehicles maximum (4 hour limit)		
Boater/fishermen	No limit (shoreline area access only)		

(B) ~~The Oklahoma Tourism and Recreation Department, Division of State Parks~~ Department has the discretion to temporarily restrict use within the Natural Scenic Recreation Area under certain circumstances such as severe weather conditions, high fire

danger, trail maintenance, special events and other approved uses.

(2) **Day use permits.** Half ( $\frac{1}{2}$ ) of the full day permits may be reserved up to 90 days in advance. Half-day permits are issued on a first-come, first served basis only. Any reserved ~~Permit~~ permit not picked up by 10:00 a.m. of the date of issue will be released for use by others unless previous arrangements have been made.

(3) **Overnight camping.** Camping in the Natural Scenic Recreation Area will be by ~~Permit~~ permit only and be restricted to specified areas. When the ~~Permit~~ per~~mit~~ is issued, users will be provided with a map of the Natural Scenic Recreation Area indicating the location of their reserved/assigned camp area for each night of their stay. Users shall park their vehicles in a secured parking area at the Natural Scenic Recreation Area entrance and enter the Natural Scenic Recreation Area from the trail-head access only. The camper maximum daily limit will indicate the maximum number of campers allowed throughout the Natural Scenic Recreation Area at any given time. Half (50%) of the daily camping permits may be reserved up to 90 days in advance. The remaining camping permits shall be issued on a first-come, first-served basis up to the maximum daily limit. Individual party size shall be limited to a maximum of 12 persons per campsite for sanitary reasons. Camping permits not picked up by the opening of business of the second day of the ~~Permit~~ per~~mit~~ may be released for others to use. Persons arriving after the close of business hours shall camp in the McGee Creek State Park camping areas, and obtain the ~~Permit~~ per~~mit~~ the next day. The maximum length of stay for each ~~Permit~~ per~~mit~~ is four days, beginning with sunup of the day the ~~Permit~~ per~~mit~~ is issued and ending at sunset of the last day. Camping permits may be renewed depending on availability, and only if the camper maximum daily limit has not been reached.

(4) **Water access permits.** Permits for water access for hiking and camping shall be permitted in accordance with (2) and (3) of this subsection. Some campsites may be designated for water access users only. Vessels may be anchored, tied to shore, or carried to the campsite for storage. Construction of racks or bars for dry storing of vessels is prohibited. Use of internal combustion engines within the quiet zone is prohibited. Electric motors, paddles, poles, or sails are ~~permitted~~ allowed.

(5) **Equestrian ~~Permit~~ per~~mit~~.** Permits for equestrian access shall be permitted in accordance with (2) and (3) of this subsection. Some campsites may be designated for equestrian users only. Horses tethered to trees or structures are prohibited. Hobbles or ground tying is prohibited. Use of feed bags and picket lines are required adjacent to the designated camping area. Horses shall be kept in the campsite only as long as it takes to unpack or pack them. Users shall not be allowed to turn their horses loose to graze. Horses shall not be left unattended for more than a few hours. Stallions are prohibited. Since all trails open to equestrian use will be multi-use, horse droppings shall be dispersed off the trails. Horse droppings at the camp sites shall be buried. Tying up horses

overnight within 100 yards of any body of water or creek is prohibited.

(6) **Multi-use trails.**

(A) With the limited number of miles of trails available, all groups shall be required to use the main trails. Equestrians shall be limited to logging roads or trails designated for equestrian use only. Bicyclists may be allowed on designated trails that are appropriate for their use. The remainder of the trails shall be restricted to hikers only. Any additional proposed trails shall be mapped and their use approved by the Bureau of Reclamation before they are opened. National accepted trail etiquette will apply to the Natural Scenic Recreation Area and any other guidelines posted at the trail head.

(B) Trail signage shall consist of painted blazes on trees and routed wood signs. The blazes shall be color coded by U.S. Forest Service Standards to indicate which user type can access that trail. The blaze shall be located at eye level to a hiker and, if possible, spaced so as to be in sight of the next marker. Routed wood signs shall be kept to the absolute minimum needed to identify junctions and campsites. These and other types of signs and their locations shall be submitted for approval by the Bureau of Reclamation.

(7) **Fire.** The use of wood fires shall be restricted to fire pans or fire blankets. Fire rings or pits are prohibited. Natural deadfall will be the only source material. Cutting of standing trees or large logs is prohibited. No axes or other large cutting implements shall be ~~permitted~~ allowed into the area except for maintenance by ~~Oklahoma Tourism and Recreation Department, Division of State Parks Department~~ staff and assignees. Campers entering the area shall be required to show that they have in their possession a fire pan, fire blanket, or backpackers stove before they are allowed to proceed. Ash and other residue from the fire will be disposed of as follows: large chunks of unburned wood will be buried; debris will be removed from the ash and packed out; ash will be dispersed outside the camp area over as much ground as possible. Disposal of ash within 100 yards of any body of water or creek is prohibited.

(8) **Disposal of human waste.** Disposal of human waste shall be accomplished by the use of cat holes. Every camper entering the area shall be required to have (or share) a small hand shovel for this purpose. Digging cat holes within 50 feet of any campsite or 100 yards from a body of water, creek or spring is prohibited. Large group latrines or pits are prohibited.

(9) **Llamas.** Until an in-depth study of llama activity can be conducted, llamas will be treated as pack animals. Restrictions set forth in (5) of this subsection shall apply to llamas.

(10) **Quiet water zone.** An internal combustion engine in the zone is prohibited. Electric motors shall be allowed and there will be no limit to the number of vessels accessing the zone. Any boater wanting to access the land portion of the Natural Scenic Recreation Area, other

than the immediate shoreline area, shall be required to get a ~~Permit permit~~ before entering the quiet water zone. Signage stating the rules shall be posted at the junction of the ~~Permit permit~~ station road, the Grassy Hollow access road, the Grassy Hollow boat ramp, and the start of the quiet water zone which is defined by floating signs.

(11) **Special events.** Permitting of a limited number of periodic special large group events (except on holiday weekends) will be considered on a case by case basis. ~~Factors to be considered before deciding whether to issue a permit shall include:~~

~~(A) Compatibility with the four environmentally quality concepts which govern the use of the Natural Scenic Recreation Area.~~

~~(B) User impacts observed to date from the monitoring program.~~

~~(C) Any other rules set forth in subchapter (4) of this chapter.~~

(13) **West Buffer Zone.** The 1,200 acre portion of the Natural Scenic Recreation Area west of the McGee Creek is jointly managed by the ~~Oklahoma Tourism and Recreation~~ Department and the Oklahoma Department of Wildlife Conservation in accordance with a Memorandum of Understanding dated September 14, 1987. All use and development within the 1,200 acres is subject to the same Natural Scenic Recreation Area environmental quality concepts previously discussed. No trails will be developed within the 1,200 acre area for the interim operating plan. Accordingly, only wilderness type hunting will be allowed initially with access by ~~Permit permit~~ only from the Wildlife Management Area. Appropriate signs will be posted to identify the area and notify users of applicable rules and regulations. Although no Maximum Daily Limit limits are included in the initial interim operating plan (the maximum daily use to date has been 6 hunters), the use levels and associated impacts will be informally monitored. If necessary, a hunter Maximum Daily Limit may be established prior to implementation of the final Resource Management Plan.

(14) **Natural Scenic Recreation Area rules.** All rules defined in this ~~chapter~~ Chapter shall apply to the Natural

PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(7) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2022:

**SUBCHAPTER 23. COUNTY IMPROVEMENTS FOR ROADS AND BRIDGES PROGRAM**

**730:10-23-4. Use of Funds**

- (7) The expense and related costs of employing or contracting with qualified individuals to assist a county or counties in carrying out the environmental clearance, design, contract administration and the inspection of construction, including the reimbursement of project related expenses incurred by the county's engineer or Circuit Engineering District.

**730:10-23-5. Project eligibility and approval**

Projects shall be considered and approved for inclusion in the five year construction work plan annually by the Department of Transportation on the basis of specific project evaluation criteria. These criteria shall generally consider deficiencies in bridge conditions, recognize safety concerns, capacity concerns based on higher traffic volumes and mobility corridors that improve inter-community or inter-county connectivity, economic development and home to school

routes. Prioritization criteria should also consider the difficulty to address these projects utilizing conventional funding. ~~Factors~~ Factors including the ability of the county to effect the improvements through the utilization of other resources and funding mechanisms, the priority of the projects ~~established by the Circuit Engineering District~~, project feasibility and cost including the ability of the county to participate, existing phase of project development, anticipated safety and mobility benefits realized by the traveling public and commerce, and the extent the project will improve the overall level of service and longevity of the county transportation system in the area are also priority considerations.

**730:10-23-6. Request for funds**

Funds made available through the County Improvements for Roads and Bridges Program shall be allocated to requesting counties on the basis of the formal submission of a request for projects to the coordinating Circuit Engineering District, or the Department, for further consideration. Each project request shall be prepared in a uniform format cooperatively developed by the Circuit Engineering Districts and the Department of Transportation and shall be submitted in accordance with the notifications and deadlines established to meet the Department's annual programming schedule requirements.

**730:10-23-7. Project selection**

Upon determination of the conformance of a proposed project with the intent of the program and the project evaluation criteria, the county or coordinating Circuit Engineering District will compile a prioritized list of recommended projects occurring within the District to be transmitted for further consideration by the Department of Transportation. In the absence of an acceptable project recommendation from any CED or county, the Department reserves the authority to select and recommend projects to the Transportation Commission as determined appropriate.

**730:10-23-8. Programming of projects**

Acceptance by the Department of each county ~~or the coordinating~~ Circuit Engineering District's prioritized list of recommended projects does not constitute a commitment of funds for the requested projects. The Department shall have the responsibility for considering the recommended projects from each Circuit Engineering District or county, formulating a project recommendation to the Transportation Commission and for the subsequent development and maintenance of the County Improvement for Roads and Bridges Program 5 Year Construction Work Plan. Upon the annual Transportation Commission approval of the Construction Work Plan, the Department shall notify the county and Circuit Engineering District of the acceptance of projects. Projects which are excluded on the basis of non-availability of funds may be resubmitted ~~by the Circuit Engineering District~~ for future consideration.

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN,  
THE FOLLOWING RULES ARE CONSIDERED  
FINALLY ADOPTED AS SET FORTH IN 75 O.S.,  
SECTIONS 250.3(7) AND 308(E), WITH AN EFFECTIVE  
DATE OF SEPTEMBER 11, 2022:**

**SUBCHAPTER 3. CONTRACTOR  
PREQUALIFICATION AND PROPOSALS**

**730:25-3-1. Prequalification**

(a) The purpose of contractor qualification is to make an initial determination if a contractor has adequate financial resources, integrity, experience, and proven performance to maintain progress on Oklahoma Department of Transportation projects and to make timely payments to sub-contractors and material suppliers. Prequalification is the method of qualification which has been adopted by the Oklahoma Transportation Commission and the Department pursuant to the Public Competitive Bidding Act at Title 61 OS § 118. Prequalification provides a method by which the Department may review a contractor's financial resources and technical expertise before a contractor is allowed to bid on projects which have not been exempted from the prequalification requirement. Prequalification is not a license, but is rather a procedure used by the Department to evaluate prospective bidders' ability to perform. Prospective bidders must ensure that their prequalification application is accurate and complete in all aspects, and fully discloses all information requested in the application form. Prospective bidders will be allowed to submit one application in a twelve month period. The Department may request additional information for clarification of a prospective bidder's application. The owners and officers who comprise a company will be the determinative factor as to the existence of prior prequalification applications not an alteration or change of an organization name. The prequalification application and all financial information submitted to the Department by a contractor for the purpose of prequalification shall be held in confidence by the Department and shall not be an open record pursuant to the Oklahoma Open Records Act at Title 51 OS §24A.3(1)(d).

(b) Except as provided in this subchapter, only prequalified contractors will be permitted to bid on construction and maintenance contracts to be awarded by the Commission on the recommendation of the Department. When projects do not encompass highway construction maintenance, the Department may waive prequalification when it is in the best interest of the State and to increase competition on individual projects of a special nature including, but not limited to:

- (1) Right-of-Way Clearance
- (2) Landscaping
- (3) Wetland creation
- (4) Repair or maintenance of railroad facilities
- (5) Environmental cleanup or mitigation
- (6) Transportation enhancement projects

(c) A prospective bidder may obtain a "sample" copy of the bidding documents for use in preparing bid computations after official advertisement of a project, but must submit an application for prequalification not less than twenty-one days prior to the announced bid opening date to the Office Engineer Division and obtain a Certificate of Qualification in order to submit a bid proposal to the Department. The submitted application for prequalification will be considered by a prequalification committee composed of the Office Engineer, along with representatives from the Comptroller Division, the Construction

Division, Director of Operations, and the General Counsel's Office. Contractors prequalified by the committee may be approved for the classes of work specified by the applicant on the prequalification application, dependent on personnel, equipment, capital and experience in highway construction.

(d) A prospective bidder must submit as part of their Prequalification Application, an Audited Financial Statement in which a Certified Public Accountant has expressed an opinion. The prospective bidder's fiscal year end Audited Financial Statement shall not be dated more than 180 days prior to the date of receipt by the Department of the Prequalification Application. Based upon these statements and other materials submitted or subsequently requested by the Department, the Department may, at its discretion, grant the prospective bidder a conditional prequalification. The Department shall impose such additional requirements on a conditionally prequalified contractor as the Department deems necessary and in the best interests of the public. If a conditional prequalification is granted, it is valid only for the remainder of the prospective bidder's fiscal year in which the conditional prequalification is granted, plus an additional period not to exceed 180 days.

(e) No prospective bidder will be qualified unless the prospective bidder's Prequalification Application and the Department's review of that Application determines that the prospective bidder possesses working capital, equipment, experience and personnel sufficient in the judgment of the Department, to indicate that the prospective bidder can satisfactorily perform its contract and meet all obligations incurred therein. The Audited Financial Statement must show all liabilities (current, deferred and contingent). The prospective bidder will not be qualified for more than two and one-half times its current working capital as computed by the Department, based on an evaluation of the contractor's Audited Financial Statement. When a conditionally prequalified contractor receives a notice of project completion on a project, that notice may be submitted to the Department for removal of that project from its bidding limit.

(f) If the prospective bidder submits cash value of life insurance as an asset, the applicant will support the submission with a letter from the insurance company, showing that the prospective bidder absolutely controls the cash value and that there are no legal encumbrances, preexisting loans or any other impediment which would prevent or interfere with the access of the prospective bidder to that cash value.

(g) When a partnership is being considered, an Audited Financial Statement of the partnership, which will include all the assets and liabilities of each member, will be required.

(h) Prospective bidders will furnish an itemized list of all Secondary Cash Resource items such as marketable securities, stocks and bonds.

(i) Prospective bidders will sign, under oath, all forms submitted to the Department.

(j) The Department will make such investigation of the information submitted as it deems necessary.

(k) The Department will qualify, or refuse to qualify, any prospective bidder for paving, grade and drain, bridge or other Department construction work in accordance with such prospective bidder's experience and financial condition.

## Permanent Final Adoptions

---

(l) Prospective bidders who are conditionally prequalified will not be permitted to bid on individual projects that, in aggregate, exceed maximum bidding limits. Proposals may be "taken out" without limitation as to aggregate total. Should a conditionally prequalified contractor be low bidder on contracts totaling, in aggregate, more than the amount for which the contractor is conditionally prequalified, the Commission reserves the right to:

(1) Reject any or all of the contractor's bids and re-advertise for new bids as required in the best interests of the state; or,

(2) Award contract(s) on which the conditionally prequalified contractor would otherwise be the low bidder to the second lowest bidder; or

(3) Waive the maximum bidding limit and award all or any of such contracts to the conditionally prequalified contractor if the Department, in the exercise of sound discretion, shall determine that the contractor has the apparent ability to successfully perform the contract(s) and it is in the best interest of the Department for the award to be made.

(m) Any prospective bidder not satisfied with a rejection of its application for prequalification may appeal to the Department's Executive Director or the Executive Director's designated representative by giving notice of the applicant's objection by certified mail addressed to the Executive Director. The applicant's objection must be mailed within fourteen (14) calendar days after the date such prospective bidder received written notice of the Department's action. The Executive Director shall review the prequalification file and make an independent determination concerning the applicant's prequalification.

(n) Upon being conditionally prequalified a minimum of one (1) year from the date of the initial prequalification, and satisfactory final completion of either:

(1) A minimum of three (3) projects and not less than Five Million Dollars (\$5,000,000) of Department projects requiring prequalification as a prime contractor, OR,

(2) A single project in excess of Ten Million Dollars (\$10,000,000.00) as a prime contractor, the contractor will be considered by the prequalification committee. If found fully qualified, the Contractor's Certificate of Qualification will be reissued to allow the contractor to bid on and be awarded projects to the extent of their bonding capacity as a fully prequalified contractor. A conditionally prequalified contractor that completes a project as a joint venture with a fully prequalified contractor shall receive credit for its proportional share of the project and contract amount, limited to its bidding capacity.

(o) Prequalification shall expire after a two year term at the completion of the contractor's fiscal years following issue of the contractor's Certificate of Qualification. After the expiration date of the contractor's Certificate of Qualification, the contractor shall have a period of 180 days to submit audited financial statements, or a financial review of the contractor's business operations. During this 180 day period the contractor

shall remain prequalified under its current Certificate of Qualification. If the contractor does not submit audited financial statements or a financial review of its operations within the 180 day period following the expiration date of the contractor's Certificate of Qualification, the contractor's prequalification status will cease and the contractor will not be eligible to submit bid proposals to the Department at that date. The contractor's audited financial statement or financial review of its operations must demonstrate that the contractor has a positive amount of working capital that is sufficient to satisfactorily perform its contract in the judgment of the Department. The Department will renew the contractor's Certificate of Qualification if the contractor's working capital is sufficient in the opinion of the Department. If the Department's review determines that the contractor has insufficient working capital, the contractor's Certificate of Qualification will not be renewed and will expire at that time.

(p) When a previously fully prequalified contractor re-applies for prequalification within two years of the expiration of their prequalification, upon approval the Department may, at its sole discretion, reinstate the contractor to fully prequalified status, provided that:

(1) the contractor was in good standing with the Department at the time that the contractor's prequalification expired,

(2) the contractor submits current audited financial statements that indicate financial resources equal to or greater than its last financial statements submitted to the Department, and

(3) it is demonstrated that such reinstatement of the contractor to fully prequalified status is in the best interests of the Department.

(q) The Department will consider a contractor to be in good standing if:

(1) The contractor was demonstrating satisfactory performance on contracts which the contractor was awarded by the Department;

(2) The contractor had settled all debts and obligations owed to the Department;

(3) The contractor had made all necessary payments to subcontractors in accordance with its subcontract agreements;

(4) The contractor had made all necessary payments to suppliers for materials to be used on Department contracts;

(5) The contractor had settled all claims against the contractor;

(6) The contractor was not in the process of being suspended or debarred by the Department, or any other government entity, and the action and/or decision was later upheld;

(7) The contractor was not party to any criminal suit against the contractor in which the contractor was later convicted.

## SUBCHAPTER 1. MAINTENANCE

### 730:35-1-4. Maintenance responsibilities

(a) The Department shall pay the cost or perform the act of constructing, improving, or maintaining roads, including frontage roads, public roads, local roads, and interchange ramps or any sections thereof, which have been designated by the Transportation Commission as part of the state highway system.

(b) The Department ~~shall~~ may pay the cost of maintaining all official traffic signs and pavement markings except for parking space markings, ~~crosswalks, and stop lines~~, from right-of-way line to right-of-way line.

(c) Within a municipality, the Department shall maintain the roadway pavement and pavement structure only. The ~~department~~ Department may pay the cost of construction or reconstruction of drainage systems, curbs, sidewalks, and driveways when necessary to construct or reconstruct an existing highway within a municipality. The Department shall not perform maintenance on or pay the cost of accident or spill clean up, sweeping, mowing the right-of-way, drainage systems, and facilities including inlets, curbs, sidewalks, and driveways, electronic traffic control devices or highway system lights. The Department may also perform maintenance on electronic traffic control devices or highway system lights when the Department determines it is in the best interest for the safety and mobility of the highway.

(d) The Department may participate in the cost of construction or replacement of highway lighting systems and electronic traffic control devices on highways within municipal limits.

(e) At places where city streets or county roads intersect with the state highway system, the city or county shall be responsible for maintaining all advance warning signs and for roadside maintenance activities outside the highway right-of-way line including sight distance clearance on the city street or county road leading to the stop intersection.

## SUBCHAPTER 5. HIGHWAY ADVERTISING CONTROL

### 730:35-5-3. Definitions

The following words or terms, when used in this subchapter, shall have the following meaning, unless the context clearly indicates otherwise:

**"Abandoned sign"** means a registered sign in need of substantial repair, or which is overgrown by trees or other vegetation not on the highway right-of-way or is otherwise no longer being utilized as an outdoor advertising device, for a period of one (1) year, shall be considered "abandoned" and any nonconforming or grandfather status granted by the Highway Advertising Control Act shall be terminated. Leasing information shall not be considered advertising content for purposes of this definition.

**"Adjacent area"** or **"control area"** within urban areas means the area which is adjacent to and within six hundred sixty (660) feet of the nearest edge of the right-of-way on any Interstate or the National Highway System. The six hundred sixty foot (660) distance shall be measured horizontally along a line perpendicular to, or ninety degrees (90°) to the centerline of the highway. Outside of urban areas, adjacent area or control area means the area which is visible from the main traveled way on any interstate or the National Highway System and has the purpose of being read. All spacing considerations are determined by whether or not they exist within the adjacent or control area. Signs located outside the "control area" will not be registered.

**"Adjacent Property Owners"** means any person, firm or corporation owning property which is located adjacent to a "Clearance Area," as defined in this subsection. Applicant shall submit written consent from any such property owner when making application for a clearance permit.

**"Advertisement"** means any writing, printing, picture, painting, display, emblem, drawing, sign or similar device which is posted or displayed outdoors on real property and is intended to invite or to draw the attention or to solicit the patronage or support of the public to any goods, merchandise, real or personal property, business, services, entertainment or amusement manufactured, produced, bought, sold, conducted, furnished, or dealt in by any person; the term shall also include any part of an advertisement recognizable as such, whether a permanent or portable installation, but shall not include surface markers showing the location or route of underground utility facilities or pipelines or public telephone coin stations installed for emergency use; nor shall same include temporary

election candidate campaign signs or voters' referendum signs, if erected not more than forty-five (45) days prior to an election and removed within seven (7) days following the election or within seven (7) days following the final election if more than one is required to settle the advertised candidate election or non-election, or referendum issue.

**"Agreement"** means the agreement between the Director of the Oklahoma Department of Transportation and the Secretary of the Transportation of the United States, regarding the enforcement of the Highway Beautification Act of 1965.

**"Business area"** means any part of an adjacent (control) area which is zoned for business, commercial or industrial activities under the authority of any law of this state, or not zoned, but which constitutes an unzoned commercial or industrial area as herein defined.

**"Centerline of the highway"** means a line equidistant from the edges of the median separating the main-traveled ways of a divided highway, or the centerline of the main-traveled way of a non-divided highway.

**"Commercial or industrial area"** means any part of a control area which is within six hundred sixty (660) feet of the nearest edge of the right of way and is:

(A) Zoned for industrial or commercial activities under the authority of any state zoning law, or city or county zoning ordinance of this State. Any commercial or industrial area created or established by any zoning authority must actually be capable of supporting commercial or industrial activities. A zoning action which is not a part of a comprehensive zoning plan and is created primarily to allow outdoor advertising structures does not constitute valid zoning for outdoor advertising control purposes.

(B) Not zoned, but which constitutes an unzoned commercial or industrial area as herein defined.

**"Clearance Area"** means the area of state right-of-way adjacent to property upon which a legal outdoor advertising sign is located, of which said sign owner wishes to remove vegetation. This area shall not exceed 800 feet in length, from any face of the sign, along the highway. This distance shall be determined by measuring horizontally along the highway from a line perpendicular from the support pole, nearest the highway, of the sign to the centerline of the highway.

**"Commercial and industrial activities"** means those activities, clearly visible and recognized as a commercial or industrial activity from the main traveled way, generally recognized as commercial or industrial by zoning authorities in the state.

**"Comprehensive zoning"** means a complete approach to land use within the jurisdiction of a zoning authority. For example, the mere placing of the label "zoned commercial or industrial" on land does not constitute comprehensive zoning, but rather, the establishment of a complete set of regulations to govern the land use within the entire jurisdiction of the zoning authority.

**"Control Area Measurement Methodology"** means the standard method which is used by the Department for measuring all distances between signs and disqualifiers. In measuring

proper spacing between registered signs and disqualifying factors, a line perpendicular from the sign site to the centerline of the highway is first determined. The distance is then measured from that line in each direction along the highway. Lines from those measured points are then run perpendicular to the centerline of the highway extending outward six hundred and sixty (660) feet from the nearest edge of the right-of-way; on both sides of the roadway when undivided, or same side only, if the roadway is divided. The area located inside this delineated space constitutes the control area of the proposed sign location.

**"Control of access"** means the Department shall not issue a permit for any sign which cannot be erected or maintained from private property without violating control of access boundaries.

**"Customary maintenance"** means maintenance that shall only include, change of message, replacing electrical wiring and bulbs, painting of the face and structure, clearing vegetation (not on right-of-way), reinforcing the structure with banding or nails, and repairing the apron or catwalks. Additional maintenance activities may be approved upon written request to the Department. An increase in dimension, any change in location, increase in height, change in location in lighting, or the addition of lighting does not constitute customary maintenance. An increase, change, addition or any maintenance which is not listed above, shall terminate any non-conforming or grandfather status granted by the Act and the sign shall be considered illegal, thus a public nuisance subject to summary abatement and removal without compensation.

**"Damage"** means injury or harm as a result of wear and tear, storms, or other natural causes including, but not limited to, insect damage. If such damage occurs, the owner of the damaged sign shall notify the Department by letter within thirty (30) days of the occurrence, giving the sign's registration number, date damage occurred, whether or not the sign will be repaired, an itemized list of repairs, and a picture of the damaged structure. Failure to comply with any part of the above requirements before repairing a damaged sign shall result in forfeiture of any nonconforming or grandfather status granted by the 1972 Highway Advertising Control Act. After receiving authorization and repairs have been completed, the owner shall send a picture of the repaired structure to the Department.

**"Department"** means the Oklahoma Department of Transportation.

**"Destroyed"** means that a sign shall be considered destroyed when damaged, from any cause except a criminal or tortious act, exceeds fifty percent (50%) of the sign structure.

**"Directional signs"** means signs giving directional information about goods and services of interest to the traveling public. Such signs shall be limited to those pertaining to rest stops, camping grounds, food services, fuel and automotive services, and lodging.

**"Director"** means the Director of the Department of Transportation or his designee.

**"Discontinued"** or **"blank sign"** means a registered sign not displaying products or service advertising contents for a period of one (1) year shall be considered discontinued and removed at the expense of the sign owner. Leasing information

## Permanent Final Adoptions

---

shall be considered advertising content for purposes of this definition.

**"Divided highway"** means that part of a primary highway which has been constructed as divided, dual lane fully controlled access to the throughways except for the established interchanges.

**"Federal-aid primary highway"** means any highway at any time officially designated as part of the Federal-aid Primary System by the Department and approved by the appropriate authority of the federal government.

**"Grandfathered sign"** means a sign which was lawfully erected but does not comply with all the provisions of the State law or State regulations passed at a later date or later fails to comply with State law or State regulations due to changed conditions. Illegally erected or maintained signs are not non-conforming signs. (Same as Non-conforming (grandfathered) sign.)

**"Illegal sign"** means signs that are situated in control areas adjacent to Interstate and Federal-aid Primary Systems which are outside zoned and unzoned commercial or industrial areas, are not listed on the 1972 inventory and do not qualify either as on-premise, directional or official signs and notices required or authorized by law. Signs erected within zoned and unzoned commercial and industrial areas without the benefit of a permit or which are erected or maintained not in accordance with permit requirements are also illegal.

**"Informational signs"** mean signs containing directions or information about public persons or public places which are owned or operated by federal, state, or local governments or their agencies. It also refers to public or privately owned natural phenomenon, historic, cultural, educational, or religious sites, and areas of natural scenic beauty or naturally suited for outdoor recreation, when deemed to be of interest to the traveling public. Informational signs do not include political campaign signs or posters.

**"Interstate highway"** means any highway at any time officially designated a part of the National System of Interstate and Defense Highways by the Department and approved by the United States Department of Transportation.

**"Lease"** means an agreement, in writing, by which possession or use of land or interests therein is given by the owner to another person for a specified period of time.

**"License"** means the privilege granted by the Department to do business as an outdoor advertising company in the State of Oklahoma.

**"Main traveled way"** means the traveled portion of a highway on which through traffic is carried. In the case of a divided highway, the traveled way of each of the separated roadways for traffic in opposite directions is a main traveled way. It does not include such facilities as frontage roads, turning roadways, or parking areas.

**"Maintain"** means to hold or keep in a state of continuing existence.

**"Non-conforming (grandfathered) sign"** means a sign which was lawfully erected but does not comply with all the provisions of the State law or State regulations passed at a later date or later fails to comply with State law or State regulations

due to changed conditions. Illegally erected or maintained signs are not non-conforming signs.

**"Non-conforming (grandfathered) sign maintenance"** means the sign must remain substantially the same as it existed on the effective date of State law. (Also see "Customary Maintenance" and "Destroyed" above.)

**"Official signs and notices"** mean signs and notices erected and maintained by public officers or public agencies within their territorial or zoning jurisdiction and pursuant to and in accordance with direction or authorization contained in federal or state law for the purpose of carrying out an official duty or responsibility. These signs must not exceed thirty-two (32) total square feet in area.

**"On-premise sign"** mean signs consisting solely of the name of the establishment, or which identify the establishment's principal or accessory products, or the services which are offered on the business premises. Signs advertising the sale or lease of the property on which they are located, are considered on-premise signs. Signs located on narrow strips of land contiguous to the advertised activity when the purpose clearly is to circumvent the Oklahoma Highway Advertising Control Act shall not qualify as on-premise signs. (See 730:35-5-14)

**"Outdoor advertising business"** means any person, firm or corporation which builds, leases, sells, or rents advertising space upon an outdoor advertising sign, display or device to others for profit.

**"Permittee"** means a person, firm or corporation who has applied for and received a permit from the Department for the express purpose of removing brush and/or trees from the state highway rights-of-way.

**"Primary highway"** means any highway at any time officially designated a part of the Federal-aid Primary System by the Department and approved by the United States Department of Transportation.

**"Public utility signs"** mean warning signs, informational signs, notices or markers which are customarily erected and maintained by publicly or privately owned utilities, as essential to their operations.

**"Rest area"** means an area or site established and maintained within or adjacent to the highway right-of-way by or under public supervision or control for the convenience of the traveling public.

**"Scenic turnout"** means an area or site established and maintained within or adjacent to the highway right-of-way by or under public supervision or control which provides a shelter off the main-traveled way for stopped vehicles for the purpose of viewing an area of scenic significance.

**"Service club and religious notices"** mean signs and notices relating to the existence or meetings of non-profit service clubs, including but not limited to, garden clubs, charitable associations or religious services. Service club or religious notice signs shall not exceed eight (8) square feet in area.

**748:20-10-4. NEC<sup>®</sup>20172020 Provisions Adopted and Modified**

All chapters and provisions within chapters, including exceptions, of the NEC<sup>®</sup>20172020 not specifically addressed within these rules as being modified, deleted, moved or removed are hereby adopted without modification as the statewide minimum code for commercial electrical construction within the State of Oklahoma pursuant to 59 O.S. § 1000.23. Chapters and provisions within chapters, including exceptions adopted with modifications are specifically addressed in these rules.

**748:20-10-6. NEC<sup>®</sup>20172020 Article 90 Introduction**

Article 90 of the Oklahoma adopted NEC<sup>®</sup>20172020, includes the following Preamble at the very beginning of the chapter:

(1) Pursuant to 59 O.S. § 1000.23, the OUBCC has adopted the NEC<sup>®</sup>20172020 as amended and revised by the OUBCC, as the minimum code to be used by all entities for commercial electrical construction in jurisdictions throughout the State of Oklahoma. However, the OUBCC's adoption of Article 90 "Introduction" of the NEC<sup>®</sup>20172020 is for continuity purposes and the OUBCC's adoption of Article 90 recognizes the methods of best practice in fully implementing the statewide minimum code for commercial electrical construction.

(2) All provisions of the adopted NEC<sup>®</sup>20172020, including Article 90, as amended and revised by the OUBCC, are hereby established and adopted as the statewide minimum code for commercial electrical construction in Oklahoma pursuant to 59 O.S. § 1000.23, which may only be amended or altered pursuant to Oklahoma law and the administrative rules of the OUBCC as set forth in Title 748, Chapter 15 of the Oklahoma Administrative Code. However, the provisions of Article 90 adopted herein are only intended to be in force and effect to the extent that the respective provisions do not conflict with State law or the lawful exercise of code administration and enforcement jurisdiction by entities empowered to do so pursuant to applicable law.

(3) The OUBCC's adoption of Article 90 in this manner is made with the recognition that the legal authority granting state and local code administration and enforcement

# Permanent Final Adoptions

jurisdictions the power and discretion to administer and enforce codes arises from Oklahoma laws governing those jurisdictions. Furthermore, the OUBCC also recognizes that many state and local code administration and enforcement jurisdictions have already created, or have the lawful authority to create, departments, offices and administrative policies pursuant to various applicable laws and other adopted model codes with "Introduction" provisions similar to Article 90 of the adopted NEC<sup>®20172020</sup>.

(4) This limited adoption of Article 90 is made in recognition of the authority and discretion possessed by jurisdictions to administer and enforce building codes. Exercising such authority and jurisdiction in a manner inconsistent with Article 90 must be supported by Oklahoma law. Code administration and enforcement jurisdictions shall not use the OUBCC's limited adoption of Article 90 to circumvent the remainder of the requirements established by the Oklahoma adopted NEC<sup>®20172020</sup> and the OUBCC will strongly oppose any such practice.

(a) This chapter sets forth the rules for compliance with those sections of the Oklahoma Pharmacy Act (Pharmacy Act), ~~59 O.S. Suppl. 2005-§353.1, et seq.~~, which relate to veterinary prescription labeled drugs. A wholesaler or distributor means a person engaged in the business of distributing prescription drugs, including controlled dangerous substances, at wholesale or retail to pharmacies, hospitals, practitioners, government agencies or other lawful drug outlets licensed or permitted under the Pharmacy Act to sell, distribute, deliver or use drugs or medicines.

(b) In accordance with ~~§ 353.13 G~~ of the Pharmacy Act, "veterinary prescription labeled drugs", defined as "veterinary

prescription drugs" in the Oklahoma Veterinary Practice Act (Act), may be supplied by a "wholesaler or distributor", as those terms are defined in the Pharmacy Act, and shipped directly to a client located in the State of Oklahoma pursuant to a written order of an Oklahoma licensed veterinarian, but only after a valid veterinarian-client-patient relationship (VCPR), as defined in the Act, has been established and referenced in such written order.

(c) No wholesaler or distributor shall sell, dispense or supply a veterinary prescription drug to an owner or their authorized agent in the State of Oklahoma without first obtaining a written order for such drug from an Oklahoma licensed veterinarian with a valid VCPR in place. Certification by a pharmacist prior to dispensing veterinary prescription drugs by a wholesaler or distributor under these rules or under the Pharmacy Act shall not be required. No person shall acquire or use any veterinary prescription drug other than in accordance with the label affixed to the drug container and/or outside of a valid VCPR.

(d) Any wholesaler or distributor selling, supplying or dispensing veterinary prescription drugs for use in the State of Oklahoma shall comply with the dispensing and labeling requirements set forth in Chapter 25 of the Oklahoma Veterinary Administrative Rules found in Title 775 of the Oklahoma Administrative Code.

(e) Any wholesaler or distributor selling, supplying or dispensing veterinary prescription drugs for use in the State of Oklahoma shall maintain accurate written records containing information relating to the sale and/or distribution of such drugs, with sufficient detail to specifically identify the drug, the veterinarian ordering the drug, the date of distribution, the quantity of the drug, and the client receiving the drug. Such records shall be maintained by the wholesaler or distributor for a period of five years from the date of distribution of the drug and shall include, but not be limited to, the written order received from the veterinarian, a copy of the drug invoice and the bill of lading or other evidence of shipment. The records of a wholesaler or distributor selling, supplying or dispensing veterinary prescription drugs for use in the State of Oklahoma shall be available for inspection upon request by the Oklahoma State Board of Veterinary Medical Examiners or their designated representatives, during reasonable business hours.

(f) A violation of the provisions of the Pharmacy Act pertaining to veterinary prescription labeled drugs, by a person or entity, including an owner, a veterinarian and/or a wholesaler or distributor, shall constitute a violation of the Act.

(g) Every wholesaler or distributor selling, supplying or dispensing veterinary prescription drugs for use in the State of Oklahoma shall annually notify the Board of the name, address and business telephone number of each sales representative and/or veterinarian doing business in Oklahoma that is employed by or under contract with the wholesaler or distributor, by filing a written notice with the Board no later than January 1 of each year on printed forms provided by the Board for such purpose.

  - (D) A description of the records requested with sufficient detail necessary to enable the records custodian to reasonably identify whether records responsive to the request exist; and
  - (E) ~~Whether the Requester seeks copies of any or all of the records requested and if so, whether the Requester seeks certified copies of any or all of the records requested; and~~
  - (F) ~~If the Requester claims the public interest exemption from search fees in accordance with the provisions of (d) of this Section, all information necessary for the records custodian to determine the applicability of the exemption.~~
- (2) ~~An Open Records Act request form is provided on the website of the Board or the OSDE and the form may be submitted by email, fax, or regular mail via the addresses stated on the form. The form may also be obtained by writing to the Statewide Virtual Charter School Board, at its principal office.~~

- (4) Within a prompt and reasonable time of the date of receipt of the request, the records custodian shall review the request, seek any additional information from the Requester necessary to clarify the request, and shall ascertain whether any records responsive to the request exist.

- (D) ~~If the Requester asks to be provided copies of the requested records in lieu of or in addition to inspection, an estimate of the costs of copying the records requested as necessary to deliver the responsive records to the Requester;~~
- (E) ~~That processing of the request will not begin until any applicable records search fees and costs of copying have been received by the agency; and~~
- (F) ~~In the event the actual costs of copying and/or certification of records exceed the estimate provided and the amount of payment actually received from the Requester, that payment of any balance due from the Requester may be required prior to delivery of the requested records.~~

- (6) ~~All records requests will be deemed to have been received and processing of the request will begin when one of the following conditions is met:~~

- (c) **Processing and response times.** The agency will provide prompt, reasonable access to records in accordance with

**PURSUANT TO THE ACTIONS DESCRIBED HEREIN, THE FOLLOWING RULES ARE CONSIDERED FINALLY ADOPTED AS SET FORTH IN 75 O.S., SECTIONS 250.3(7) AND 308(E), WITH AN EFFECTIVE DATE OF SEPTEMBER 11, 2022:**

**777:15-1-1. Purpose**

The Statewide Virtual Charter School Board (SVCSB) makes publicly available a list of supplemental online courses which it has reviewed and/or certified to ensure that the courses are high quality options and are aligned with the subject matter standards approved by the State of Oklahoma. In conjunction with the Office of Management and Enterprise Services (OMES), the SVCSB negotiates with online course providers to offer a state rate price to school districts for supplemental online courses. These rules have been adopted for the purpose of implementing policy and procedures pursuant to Oklahoma Statute Title 70, Section 3-145.3.

**777:15-1-3. Application for course certification**

(a) To have a course(s) listed in the Oklahoma Online Course Catalog, Course Providers must first be approved as vendors through the Oklahoma Management and Enterprise System (OMES) and enter into a contract with the state. ~~Potential vendors must respond to the Request for Proposals (RFP) released by the SVCSB through OMES and provide all required documentation according to the deadline listed in the RFP solicitation.~~

(b) ~~Once the solicitation period has closed, online provider is registered as a state vendor, OMES and the SVCSB will negotiate and enter into a contract with the approved vendor to provide online courses at a state rate all submitted materials will be reviewed for compliance by the SVCSB and OMES. Entities meeting the minimum criteria established in the RFP will be approved as vendors for the State of Oklahoma.~~

**777:15-1-5. Course review requirements**

(a) Online Course Providers must supply the following at the time of course review:

- (1) The name of the institution or organization providing the online content;
- (2) Course title and subject code (using appropriate course title and subject code as established by the Oklahoma State Department of Education's approved Subject Codes for the appropriate academic year);
- (3) Number of students who may be admitted to the course per instructor;

## Permanent Final Adoptions

- (4) Explanation of the alignment between Oklahoma content standards and course content and assignments;
- (5) Protocols established to monitor student engagement and course progression, including guidelines to address non-responsive students;
- (6) Description of procedures for reporting students' course progression, grade and other student information to the local school district;
- (7) Instructor credentials and qualifications; and
- (8) Course NCAA eligibility status. Recognition of course by external entity (e.g., NCAA, College Board Authorized, AdvanceED certification); and
- (9) Course syllabus that includes:

- (A) course title;
- (B) course description;
- (C) course credits;
- (D) objectives that clearly state, in measureable terms, what the students will know or be able to do at the end of the course;
- (E) assignments/assessments;
- (F) instructional strategies and student expectations, including any synchronous attendance requirements;
- (G) time requirements;
- (H) grading policy;
- (I) contact policies for communication between teacher and students and teacher and parents;
- (J) resources and materials required;
- (K) technology requirements, including the Learning Management System (LMS) utilized;
- (L) accommodation and accessibility statement; and
- (M) course outline (i.e. list of units/modules in sequential order).

(b) At the time of the course review, guest access to the course will be required for the reviewers. If substantive changes are made to a course since its last certification, it must be submitted for review regardless of its current status in the review cycle. Substantive changes would include altering the intended course outcomes, significantly changing instructional strategies or assessment protocols used in the course as a whole, or any revision that impacts standards alignment. Only courses certified (or pending review) by the Statewide Virtual Charter School Board will be accepted into the Oklahoma Online Course Catalog.

(c) Course Providers whose courses have undergone review and approval by a recognized third-party entity must provide the results of those reviews. Depending on the results of the external review, a course may be recommended for state certification with no additional review or with a modified review process (e.g. review only for alignment to state standards).

(ed) Course Providers of Advanced Placement (AP) courses must provide the results of their College Board AP Course Audit and Authorization. No other course evaluation will be conducted for AP Courses. If a course is authorized by the College Board as an AP course, it is automatically listed as "state-certified" in the Oklahoma Online Course Catalog.

Online Providers must provide evidence annually of AP Authorization Renewal.

### **777:15-1-6. Course review and certification process**

(a) All approved vendors will have the online courses they submitted ~~as part of the RFP published on the OSOCP website in the Oklahoma Online Course Catalog~~ and reviewed according to the schedule adopted by the SVCSB.

(b) Course reviews will be conducted by content experts and pedagogical experts selected by the SVCSB. Courses will be evaluated using rubrics to determine alignment with the current academic standards approved by the State of Oklahoma (or nationally/ internationally accepted content standards set for courses whose content is not included in state standards) and national standards for quality in online course design, the International Association for K-12 Online Learning (iNACOL) National Standards for Quality Online Courses. The rubric published in the most current National Standards for Quality Online Courses will be used as part of the Course Review, along with a rubric to measure the presence of each of the academic standards for the content area. Course Providers whose courses have undergone review and approval by a recognized third-party entity must provide the results of those reviews. Depending on the results of the external review, a course may be recommended for state certification with no additional review or with a modified review process (e.g. review only for alignment to state standards). Online Course Providers of Advanced Placement (AP) courses must provide the results of the AP Course Audit and Authorization. No other course evaluation will be conducted for AP Courses. Online Providers must provide evidence annually of AP Authorization Renewal.

(c) If results of the initial review suggest that a course will not be recommended for certification, the Course Provider will be contacted with the review results and will have fifteen (15) calendar days to revise material or provide additional information pertinent to the review. These revisions will be examined by the course reviewers and, if appropriate, the rubric scores will be modified. Once the course review is complete, results of the evaluation will be presented to the Statewide Virtual Charter School Board (SVCSB). The SVCSB will consider the evidence and vote whether to certify or not certify the course. The decision will be made on a simple majority vote. If the SVCSB votes to not certify a course, the course will be removed from the Oklahoma Online Course Catalog and the Course Provider will be notified of the reasons the course was not certified. The Course Provider may revise the course and resubmit for additional Course Review and certification consideration. Resubmitted courses will be reviewed after all submitted courses have undergone an initial review. Courses approved will be certified for a five-year period. After which, Course Providers must apply for renewal. Certified courses will be identified as such and have their course review ratings published in the Oklahoma Online Course Catalog available on the OSOCP website. Courses pending review will be identified as such ~~and have the date of their scheduled review published in the Oklahoma Online Course Catalog.~~

**777:15-1-7. Certified courses remaining in good standing**

(a) To remain in good standing and have a course(s) continuously listed in the Oklahoma Online Course Catalog through the entirety of the approval period, Course Providers agree to:

- (1) Maintain their vendor status.
- (2) Notify the SVCSB of any additions, deletions or changes to certified courses by completing the online form located on the OSOCP website.

Additionally, the Course Provider shall supply certification or applicable credentialing documentation to the SVCSB as part of the course review process and within ten (10) working days upon the hire of any new instructors for any certified course. Course Providers shall take all steps necessary to verify the qualifications of non-employee instructors.

- ~~(109)~~ Refrain from significantly modifying or changing courses without prior notice and approval from the SVCSB. Course Providers shall provide written notice of any planned modification in sufficient detail for SVCSB Course Reviewers to determine whether the course continues to satisfy all requirements. Failure to obtain written approval may result in removal of the course from the approved catalog.
- ~~(110)~~ Ensure that each certified course is maintained throughout the duration that the course is offered and continues to meet the current academic standards approved

by the State of Oklahoma; national standards for quality in online course design ~~the International Association for K-12 Online Learning (iNACOL) National Standards for Quality Online Courses~~; and Oklahoma's Information Technology Accessibility Standards.

~~(111)~~ Employ the appropriate course title and subject code as established by the Oklahoma State Department of Education's approved Subject Codes for the appropriate academic year for the purpose of data collection.

~~(112)~~ Report aggregate student success data to the SVCSB in the requested format and by the timeline set. The SVCSB does not collect individual student information. By August 1 of each year, the Course Provider will report the following aggregate student success data to the SVCSB:

- (A) Total number of unique Oklahoma students;
- (B) Total number of courses taken by Oklahoma students;
- (C) Number of students in each course (both overall number and Oklahoma students); and
- (D) Successful completion rate (number and percent) of each course (i.e. X#/60% of students enrolled in X successfully completed the course). Include both overall rates and Oklahoma-specific rates.

(b) Course providers will be notified if a course(s) is found to be noncompliant and will have fifteen (15) business days after notification to bring the course(s) into compliance. If the course(s) is still noncompliant at the end of this period, the course certification will be revoked and the course will be removed from the Oklahoma Online Course Catalog.

**777:15-1-9. SVCSB responsibilities**

The SVCSB shall:

- (1) Ensure that all courses listed in the Oklahoma Online Course Catalog are reviewed according to the stated requirements.
- (2) Notify the Course Providers of changes in current academic standards approved by the State of Oklahoma; national standards for quality in online course design ~~the International Association for K-12 Online Learning (iNACOL) National Standards for Quality Online Courses~~; and Oklahoma's Information Technology Accessibility Standards, or other standards that prompt the need for course revisions. Such notification is a courtesy and does not negate the responsibility of the Course Providers to maintain currency with regard to these standards.
- (3) Maintain accurate information in the Oklahoma Online Course Catalog.

Authorizations are not required for groundwater wells completed for domestic

(b) Drilling authorizations will not be issued for construction of a well that requires another separate approval from the Board, such as a water right authorization, transfer, amendment or injection well authorization, until the other separate permitting requirements have been satisfied. A drilling authorization does not constitute a water right, injection well authorization, or other authorization that may be required.

(c) Any person who has failed or in the future fails to obtain an authorization as required by this section shall make application for a late authorization on forms provided by the Board. The late authorization application shall contain the same information as required by subsection (d). The application for a late authorization shall be accompanied by an additional fee payable to the Board. - (7) the groundwater well identification number of the water well being replaced if applicable,
- (8) the water right application number if applicable, and
- (9) such other information as the Board requires.

(e) Applications for an authorization to drill a groundwater well will be given a timestamp upon their arrival at the Board offices and will be reviewed according to the time they were received. Applications meeting all the criteria set forth in this section shall be approved by Board staff and those failing to meet the criteria shall be denied or approved with conditions within five (5) business days of receipt by the Board. Expedited, same-day applications that meet the above criteria may be approved for an additional filing fee.

(f) If the application is incomplete or needs corrections, Board staff shall return the application to the applicant for any necessary corrections. Corrections must be made within sixty (60) days or the application will be cancelled. No refund of any application fees shall be made regardless of whether the application is approved, cancelled, or denied.

(g) An application for an authorization or late authorization for a groundwater well shall be denied only if Board staff finds:

- (1) Applications failing to meet the criteria set forth in Chapter 35,
- (2) That the location or operation of the proposed groundwater well would conflict with any regulations

adopted by the Board or of other applicable laws of the State of Oklahoma.

(3) The applicant refuses to agree to the conditions set forth in the approval.

(4) That the application includes any intentionally misleading or falsified data.

(h) When an application for authorization to drill a groundwater well is approved the applicant shall commence construction of the water well as soon as possible after the date of approval. A drilling authorization may not be assigned from one owner to another or from one driller to another. The proposed rule changes include a modification of the statewide size limit for largemouth and smallmouth basses by removing the fourteen (14) inch

length limit and replacing it with a one over maximum length limit (16 inches). This rule also includes a black bass tournament exemption until weigh-in, after which the fish must be released. The statewide bag limit for largemouth and smallmouth basses will be restored for Lake Murray and waters in the Wichita Mountains Wildlife Refuge. The lower Mountain Fork River trout area trout bag limit will be modified to include only one brown trout which must be thirty (30) inches or greater and the downstream section of the trout area will be re-established as a trophy area. The daily bag limit of forked-tail catfish will be modified to six (6) below Carlton Lake in the Fourche Maline River to the Robbers Cave State Park boundary. **"Electronic Data Interchange"** means the transmission of claim information through electronic means, in a format established by the Commission.

**"Electronic equivalent"** means a Commission-approved means of filing an electronic form through the Commission's case system. In all cases where a party is required to mail a Commission form to the opposing party, a copy may be sent by electronic mail when an electronic mail address is known. In all cases where a paper form is required to be filed to effect a certain purpose, an electronic equivalent, if available, may also be filed to effect that purpose.

~~**"EDI"** means electronic data interchange.~~

**"Electronic Signature"** means an electronic symbol, or process attached to or logically associated with a record and executed or adopted by a person with the intent to sign the record.

**"Employee"** means any person who meets the definition provided in 85A O.S. § 2(18). For purposes of the agriculture, ranching, or horticulture exempt status defined at 85A O.S. § 2(18)(b)(2), the exemption applies to employees engaged in agriculture, ranching, or horticulture activities as defined.

(A) "Agriculture" includes farming in all its branches and among other things includes the cultivation and tillage of the soil, dairying, the production, cultivation, growing, and harvesting of any agricultural or horticultural commodities (including commodities defined as agricultural commodities in section 15(g) of the Federal Agricultural Marketing Act, as amended), the raising of livestock, bees, fur-bearing animals, or poultry.

(B) In general, "agricultural or horticultural commodities" refers to commodities resulting from the application of agricultural or horticultural techniques. Insofar as the term refers to products of the soil, it means commodities that are planted and cultivated by man. Among such commodities are the following: Grains, forage crops, fruits, vegetables, nuts, sugar crops, fiber crops, tobacco, and nursery products. Thus, employees engaged in growing wheat, corn, hay, onions, carrots, sugar cane, seed, or any other agricultural or horticultural commodity are engaged in "agriculture." In addition to such products of the soil, however, the term includes domesticated animals and some of their products such as milk, wool, eggs, and honey. The term does not include commodities produced by industrial techniques, by exploitation of mineral wealth or other natural resources, or by uncultivated natural growth. For example, peat humus or peat moss is not an agricultural commodity.

(C) "Livestock" is confined to the ordinary use of the word and includes only domestic animals ordinarily raised or used on farms. The term includes the following animals, among others: Cattle (both dairy and beef cattle), sheep, swine, horses, mules, donkeys, and goats. It does not include such animals as albino and other rats, mice, guinea pigs, and hamsters, which are ordinarily used by laboratories for research

purposes. Fish are not "livestock", but employees employed in propagating or farming of fish may qualify for exemption.

(D) "Crops" are defined in accordance with 7 C.F.R. § 1437.13.

(E) "Agricultural commodity", as used in this subchapter, means wheat, cotton, flax, corn, dry beans, oats, barley, rye, tobacco, rice, peanuts, soybeans, sugar beets, sugar cane, tomatoes, grain sorghum, sunflowers, raisins, oranges, sweet corn, dry peas, freezing and canning peas, forage, apples, grapes, potatoes, timber and forests, nursery crops, citrus, and other fruits and vegetables, nuts, tame hay, native grass, hemp, aquacultural species (including, but not limited to, any species of finfish, mollusk, crustacean, or other aquatic invertebrate, amphibian, reptile, or aquatic plant propagated or reared in a controlled or selected environment), or any other agricultural commodity, excluding stored grain, determined by the Board, or any one or more of such commodities, as the context may indicate.

(F) The crop, commodity, or livestock grown or raised by the employer must be federally funded and recognized by the United States Department of Agriculture to be eligible to claim this exemption under the AWCA.

**"Executive Director"** means the Executive Director of the Commission.

**"FROI"** means first report of injury.

**"Good cause"** means, in the context of a request for continuance or failure of a party to comply with the Rules of this Chapter, circumstances beyond the party's control or that the party could not reasonably foresee. In the context of a claim, defense, or order, it means a reasonable legal basis.

**"Insurance carrier"** means any stock company, mutual company, or reciprocal or interinsurance exchange authorized to write or carry on the business of workers' compensation insurance in this state, and includes an individual own risk employer or group self-insurance association duly authorized by the Commission to self fund its workers' compensation obligations.

**"Insurer"** means the entity responsible for making electronic filings as prescribed by law and these rules. This term includes self-insurers.

**"Joint Petition Settlement"** means a settlement between the employer/insurance carrier and the employee, of all or some issues and matters in a claim for compensation.

**"Legal holiday"** means only those days declared legal holidays pursuant to 25 O.S. § 82.1 or by proclamation of the Governor of Oklahoma.

**"Mandatory EDI implementation date"** means September 1, 2018.

**"Mediation"** means the process of resolving disputes with the assistance of a mediator, outside of a formal administrative hearing.

**"Out-of-state attorney"** means a person who is not admitted to practice law in the State of Oklahoma, but who is

admitted in another state or territory of the United States, the District of Columbia, or a foreign country.

"Pro se" means without an attorney.

"Proceeding" means any action, case, hearing, or other matter pending before the Commission.

"Representative" means a person designated in writing by an injured employee, person claiming a death benefit, employer, insurance carrier or health or rehabilitation provider, to assist or represent them before the Commission in a matter arising under the AWCA.

"Sanction" means a penalty or other punitive action or remedy imposed by the Commission on an insurance carrier, representative, employee, employer, or health care provider for an act or omission in violation of the AWCA or a rule, judgment, order, or decision of the Commission.

"Self-insurer" means any duly qualified individual employer or group self-insurance association authorized by the Commission to self fund its workers' compensation obligations.

"SROI" means subsequent report of injury.

(a) **Application.**

(1) The deferred deposit lender license application shall be completed by the person seeking a deferred deposit lender license and shall include all fees, forms and exhibits requested.

(2) The Administrator may require any applicant to provide additional information. An application is not considered final until all requested information has been submitted. An application that is not reviewed for any failure on the part of the applicant shall be deemed to be a withdrawal of the application and not a denial.

(3) The Administrator shall grant or deny a license application within ninety (90) days from the day of filing unless the period is extended by written agreement between the applicant and the Administrator.

(b) **License.** The license, executed under the hand of the Administrator and delivered, is evidence of a deferred deposit lender's authority to engage in deferred deposit loans within Oklahoma. No other license issued by the Administrator authorizes a person to engage in deferred deposit loans within Oklahoma [59:3103].

(c) **Annual report.** Annual reports shall be filed by all deferred deposit lenders and postmarked on or before the first day of May of each year, reporting the business and operations as of December 31st of the preceding year. The annual reports shall be confidential, but the Administrator may compile a statistical report using the information therein. (d) **Renewal application.** The deferred deposit lender license renewal application shall be completed by persons previously issued a license and shall be submitted with all fees and postmarked on or before the first day of December of each

It shall be within the discretion of the Administrator to determine the fitness of an applicant, provided that such discretion is not arbitrary or capricious and is, or will be, applied uniformly to all similarly situated applicants.~~

The Administrator shall notify the licensed owner and the proposed new owner when the new owner's license application has been granted. After the licensed owner surrenders its license and transfers the ownership interest, a license shall be issued to the new owner.~~

~~(b) If the change of ownership changes the payee on loan obligations, then the licensed owner shall notify the debtors of the change of ownership within thirty (30) days following the change of ownership. The notice shall include the business telephone number and mailing and business addresses of the new owner.
